This Man Has Choice Fishing Right In His Own Back Yard

CLOSE-TO-HOME FISHING . . . Jack Murdock admires a nice smallmouth caught near his home in Little Darby Creek.

Ted Saunders, of West Jefferson, is one fisherman who doesn't get excited about going north to catch fish. This is late in the vacation season, and many anglers are still hitting the trail for Michigan, Wisconsin, Ontario, Quebec, and points north. But not Ted, he doesn't even get in his car to go fishing. Saunders operates Ted's Garage, and he fishes in the gravel pit right back of his house and garage. Ted catches his fish from water that most of us pass up on our way to the "good fishing."

Ted says that when he first located by the gravel pit several years ago, few people fished that portion of Little Darby. He started to catch catfish, including a few 13 pounders, and the word got around fast. Two summers ago he took 64 catfish, and it got so that other fishermen followed him and fished beside him wherever he fished. Ted doesn't mind this too much, for he enjoys showing beginners where and how to fish.

Not many of us, of course, have a choice fishing spot right back of our houses. But people in this section of Ohio are fortunate in having good fishing waters nearby — there is Deer Creek, the two Darbys, Madison Lake, Delaware Lake, Hoover Reservoir, Whetstone Creek, and many farm ponds. You do not need to travel great distances to find good fishing. Streams especially are neglected by anglers, simply because they are close to home. Once you are out of sight of a bridge, you seldom encounter any fishermen. There are stretches of Big Darby that I'll bet aren't fished for smallmouth bass a dozen times a year.

Sure, part of going fishing is taking a trip, seeing new sights, and getting away from it all. This is fine for your vacation, or for two or three weekends a year. But for that free afternoon or evening, close-to-home fishing will fill the bill.

Right now is a good time to fish for catfish, and Ted Saunders has a couple of lunkers located that he's concentrating on. He usually fishes at night, especially for catfish, and he uses smelt for bait. The types of bait that can be used are many and varied, ranging from soft craws to laundry soap. Shrimp, nightcrawlers, minnows, and soft craws are some of the best producers of channels and shovelheads. Ted subscribes to the theory, "To catch large fish use a large bait."

Toss your gear in the car one of these evenings and head for the nearest lake or stream. Throw in your line, and as dusk settles, light a lantern or build a small fire. The katydids will serenade you this time of year, and maybe you'll get a glimpse of a secretive wood duck family. And the chances are mighty good that you will catch some fish.

'Front Porch' Beauty Salon Opened Here 30 Years Ago

The Harriett Huff Beauty Salon at 2154 Sullivant-av has been in operation for the past 30 years. Mrs. Huff opened the shop in her own home in 1927. It is the oldest beauty salon operated at any one location on the Hilltop.

The owner, Mrs. Harriett Huff, got her start in the beauty business at a downtown beauty shop at the age of 11. She married Oscar Huff at 18. When she was 16, Mrs. Huff started her own beauty school at 414 Midland-av. When the Huffs bought their home on Sullivant-av they had the front porch closed in and Mrs. Huff started her own shop.

Mrs. Huff was president of the National Hairdressers Association for nine years. She has given demonstrations and entered competitive contests in 45 states, Mexico and Canada. Each year she tries to attend a beauty school for a few weeks to learn the new styles and techniques. She has attended Antoine's in New York and Titus in Cleveland.

Mrs. Huff employs two beauticians in her salon. Tesselene Ohlinger, who has been with her for over 18 years, and Elizabeth Sarvis, who has worked for her for four years.

Mr. Huff has been with the Telephone Company for almost 40 years. His hobbies are fishing and boating. In her spare time, Mrs. Huff enjoys swimming, tennis and horseback riding. She loves the out-of-doors and after traveling around this country believes that "Colorado is God's country."

Mr. and Mrs. Huff are members of Glenwood Methodist Church. Mrs. Huff is a member of HBA and the National Hairdressers and Cosmetologists Association.

Two Million Children To Ride Back To Schools On Bicycles

More than 2,000,000 kids will be pedaling back to school as a daily practice this fall, including thousands of beginners, it is estimated by the Bicycle Institute of America.

BACK TO SCHOOL BIKE riders must heed boulevard stop signs with the same caution as does the motorist, in the name of safety.

Ever increasing popularity of bicycles as the highly personalized mode of transportation for youngsters, has been accompanied by a lowering of the number of serious accidents suffered by the young cyclists, the Institute reports.

Child counselors are pretty much agreed that the earlier a youngster learns to ride a bike, the earlier he develops a sense of responsibility.

In some areas, through co-operation of parents, police and educational authorities licensing children to use their bikes has been arranged to heighten this sense of responsibility.

And this works well, it is reported. Licenses are denied young riders who fail to keep their bikes in good safe condition or who are unable to pass appropriate riding tests.

Given an opportunity to try again for a license, they work to regain the right to ride and in the process learn more about traffic safety.

Bike riders, however, are by no means exclusively grade schoolers. Bicycles are so popular among high school and college students special parking provisions and rules for regulating bike traffic are necessary on school grounds and campuses.

Introduction of new type "middle weight" bikes has vastly increased popularity of this type of personalized transportation among collegians.

'Bell-Ringer'

JUNIOR HIGH bell-ringer is this trim, pretty rayon dress. Pique insert, stand-up collar add a fresh touch.

Sensible Girl Puts Faith In Her Footwork

Any sensible girl knows that in the things that really matter at school, good feet will take her as far as a good head. And the time to think about feet is now when the paternal charge account is geared for the back-to-school pinch.

The average school girl of '57-'58 according to a recent survey, will own 14 pairs of leather shoes. Eight of which she's bought this year. Tell that to papa so that you can then plan with a relaxed conscience. For school life these days is a well-rounded affair and special dates require special shoes as well as dresses.

She'll begin with flats, of course, and she will want several styles in these for the flat has taken on various aspects: casual, tailored and dressy.

Loafers Like Man's

With ivy-league shorts, pants and skirts she'll want loafers styled exactly like the well-dressed college man's with leather soles, monk straps and brass buckles. Real cool numbers will be hand stitched around the moc toe and the toe will turn slightly up.

Bulky woolens will take to the two-way brushed suede leather with its mottled two-tone look in new rich autumnal shades as sienna, persimmon and chestnut as well as beige, camel and loden green. Add a pair in grey suede to match your grey flannels.

Suede shoes will often show the tyrolean influence in raw, turned-out seams, fringed tongues, stitching in a contrasting color and other handicraft details.

Soft smooth leather jodhpur and lip-to-the-ankle boots, also leather-soled, will display these same features.

Dressy flats will display every trim applied to daytime shoes and some heretofore used only on late-day and evening shoes. We'll see a lot of two-color, two-leather-texture combinations, including smooth leather ones with a spat-like collar in a lighter, suede leather.

Others will have straps, buttons and buckles, vari-colored underlays and overlays — even drapes and tucks. The girl who owns a pair of red patent-leather flats will get "A" for her footnotes.

With Dresses, Suits

Tailored pumps with medium heels of stacked leather will go to school with daytime dresses and suits. The line will be longer and the toe more tapered. There will be much interest in the toe, including insets of contrasting leather, and tiny straps across the vamp or instep, as well as all the other dressmaker details of the season.

Fashion-Wise College Girls Get Ready For Busy Months Ahead

NEW LOOK FOR COLLEGE is achieved by "shorter-than-long" coat and matching two-piece dress of wool jersey.

DORMITORY DARLINGS are colorful casuals such as these checked pedal pushers topped by a jersey blouse.

CO-ED'S CHOICE for classroom smartness is this slim sheath and subtly striped jacket in heather tones.

COLLEGE DAYS call for such functional young fashions as this newly-lightweight mouton convoy coat with smart leather toggle-fasteners.

TOPS FOR COLLEGE LIFE ARE SMART casual blouses like these. The co-ed at the left wears an easy-care Dacron-and-pima beauty with versatile roll-up sleeves and large pearl disc buttons. Her roommate chooses a striped dacron crepe with mitered convertible collar.

Shopping For Junior's Togs Has Become A Pleasure For Mother

Many mothers look forward happily to going back-to-school shopping with their sub-teen and teenage daughter, while facing the prospect of touring boys' shops and departments with considerably less enthusiasm.

One possible reason for this state of mind is that for years, boys' clothes were drab and showed very little variety, color or style. Today, however, the picture is quite different, and mother can get just as much enjoyment out of shopping for a back-to-school wardrobe with junior as she always has with daughter.

Male apparel generally has become a much more interesting field for women in recent years, according to the American Institute of Men's and Boys' Wear, as more color and better styling have been introduced in the clothes that men and boys of all ages are wearing.

Therefore, going shopping with the men and the boys in her life is much more fun for Mother today.

She can help her young son choose outfits that are "right on the beam" of the new, trim, neat look that gets top rating with the young crowd, these days. She'll want to make sure that when the "opening bell" of the school term rings, son will have a well-chosen wardrobe of the right clothes for every occasion in his activity-crowded life.

Going from counter to counter and from rack to rack, Mom will probably have more fun than junior — at least until he gets a chance to wear his new duds.

FOR FOOT HEALTH

Youngsters should be taught to thoroughly dry their feet after a bath, to discourage fungus growth.

Perfect Fit

CAREFUL SHOE FITTING and good construction are the key to keeping youngsters' feet comfortable and healthy. One of the basic tests is to check whether the ball of the foot is exactly at the widest part of the shoe.

Sweater Fashion For School Lads

The back-to-school picture in sweaters will show greater use of man-made fibers, alone or in combination with natural fibers. Shetland, crew-neck and shawl collars are among the more important styling touches. The bulky, rugged look of shaker knits and Scandinavian-type sweaters will find favor among students.

Stripes and other patterned effects will be seen, as will neck, sleeve and waist trims in contrasting colors. Once again the important color would appear to be red.

Everything from Trunks to TV Can Help Brighten Dorm Rooms with Homey Look

It won't be long till moving day. College students will soon be packing up for the trek back to campus, moving into their college rooms and getting set for an exciting year.

In the move, all the comforts of home needn't be left behind. With a little thought and a few attractive additions, the college room can become a home away from home — a comfortable place to live as well as a convenient place to study.

For the college co-ed, fixing up her room can be a real challenge in decorating, and even her male counterpart isn't as oblivious to the cheering influence of colorful curtains and bedspreads as he may pretend.

No matter how complete the furnishings of the dormitory room, personal extras are bound to make it seem more homelike. And they needn't be expensive. Scatter rugs, a desk set, bookends, cushions and the ever-popular pennants are just a few of the many possibilities.

For studying, a good lamp should be a primary consideration. Both decorative and useful, too, would be a peg board or bulletin board for posting memos or favorite pictures.

One easy way to provide extra seating space in the dorm room is to let a flat packing trunk (recommended college luggage) do double duty. Covered with an attractive spread, the trunk can serve as both window seat and storage space.

In the line of more elaborate equipment, both Eds and Co-Eds will appreciate a portable television set for its educational as well as entertainment value. The set might be a "going away to college" gift from Mom and Dad.

Students in doubt about what extra equipment is needed or permitted in the dorm should refer to the college catalogue and talk to friends attending the chosen school. And, of course, the prospective roommate's tastes should be consulted whenever possible.

HER COLLEGE HOME away from home includes her own portable television. Other home-like touches might be colorful bedspreads, curtains, scatter-rugs, her favorite photos. She fits nicely into the picture in her easy-going classic cardigan and slim skirt.

Children Need Health Checks

School days are busy days, days that call for growing youngsters to be in tip-top health in order to meet their new responsibilities. One of the best ways to insure this is by an annual pre-school physical check-up; including a careful eye test, and a thorough dental examination.

Statistics concerning the health problems of school children point up the importance of these check-ups. They show that one school child in five is retarded because of visual difficulties.

Child Can't Tell

These children may have trouble reading; they may be clumsy in play and so tend to withdraw from active competition with others; they may develop a dislike for school leading to nervousness, tension and anti-social feelings.

Having no basis for comparison, a youngster can't know if he sees well or poorly. Only a complete eye examination will reveal his visual deficiences so that they may be corrected in time to avoid serious problems at school.

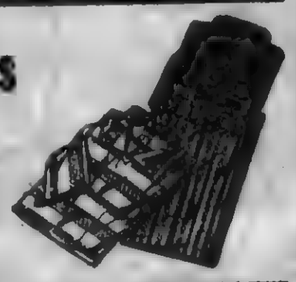
That "ounce of prevention" also pays off big dividends in good health where dental check-ups are concerned. Studies have shown that school children may have up to three or more decayed primary teeth, and by the age of 16 the average youth has seven decayed, missing or filled teeth. Altogether, children in the United States need more than 300 million fillings a year to restore their teeth to a healthy condition.

One-Fifth Affected

Malocclusion, or teeth in improper alignment, afflicts one-fifth or our children. It may cause facial deformities and speech defects and often leads to extensive dental decay or gum diseases later in life.

Dentists point out that nothing but gross neglect causes children to lose teeth because of decay. Early detection and treatment will prevent damage to the oral structures which could lead to more trouble.

CAMPUS NIGHT LIFE



The college man's pajamas will be sporty this term, picking up such current sportswear ideas as the back-of-the-collar button and casual but high-style coat collars.

'Front Porch' Beauty Salon Opened Here 30 Years Ago

The Harriett Huff Beauty Salon at 2154 Sullivant-av has been in operation for the past 30 years. Mrs. Huff opened the shop in her own home in 1927. It is the oldest beauty salon operated at any one location on the Hilltop.

The owner, Mrs. Harriett Huff, got her start in the beauty business at a downtown beauty shop at the age of 11. She married Oscar Huff at 15. When she was 16, Mrs. Huff started her own beauty school at 414 Midland-av. When the Huffs bought their home on Sullivant-av they had the front porch closed in and Mrs. Huff started her own shop.

Mrs. Huff was president of the National Hairdressers Association for nine years. She has given demonstrations and entered competitive contests in 45 states, Mexico and Canada. Each year she tries to attend a beauty school for a few weeks to learn the new styles and techniques. She has attended Antoine's in New York and Titus in Cleveland.

Mrs. Huff employs two beauticians in her salon. Tesselene Ohlinger, who has been with her for over 15 years, and Elizabeth Sarvis, who has worked for her for four years.

Mr. Huff has been with the Telephone Company for almost 40 years. His hobbies are fishing and boating. In her spare time, Mrs. Huff enjoys swimming, tennis and horseback riding. She loves the out-of-doors and after traveling around this country believes that "Colorado is God's country."

Mr. and Mrs. Huff are members of Glenwood Methodist Church. Mrs. Huff is a member of HBA and the National Hairdressers and Cosmetologists Association.

Program Slanted Toward Teaching 'Safest-Route-To-School,' Is Spreading

Pointing out that "an empty desk, caused by a traffic accident, is totally unwelcome, even in the most overcrowded schools," Harry I. Kirk, president of the American Automobile Association, calls attention to a new and significant project that is spreading across the land.

It is the "Safest-Route-to-School" project and it calls for cooperation between teachers and pupils, since teaching safety in traffic to youngsters is a joint responsibility.

Even though most children get some guidance from home, says Mr. Kirk, modern elementary school teachers are prepared to round out and integrate safety lessons so that the youngsters may know them as well as they know their ABC's.

Millions of children all across the nation this fall will start their formal education in safety under this project which was developed by the AAA and spread by affiliated clubs.

It usually starts with teacher and children working together on a large map of the neighborhood served by the school. The children are shown relationship of the school to streets, traffic lights, positions of police officers, crossing guards, school safety patrols and other aids, and also danger points are noted and discussed.

Often preparation of the map is accomplished by a field trip for the children under the direction of [illegible].

After the class map has been made, each child is given a smaller outline map on which to locate his own home and all safety aids. This is taken home.

Parents are asked to draw on the map the route they would prefer their children to follow. They also are requested to walk over the preferred route with the child to be sure the child knows the "safest route to school," and understands why it should be used.

MAPPING SAFEST ROUTE TO SCHOOL is one of the most constructive projects now awaiting grade schoolers on their return to classes. Maps worked over under the guidance of teachers, as shown above, on the basis of a program [illegible] by the American Automobile Association, are for showing to parents who then lend a hand in charting the safest course for their children.

Better Safety Record is Aim For This Year

Announcement of the opening date of the new school term is accompanied this year by a special warning to all drivers of motor vehicles that they must assume a major share of the responsibility for the safety of children in traffic.

They will be reminded of this frequently by signs, soon to appear in profusion — proclaiming that "School's Open — Drive Carefully."

The special warning is predicated on a recapitulation of progress toward assuring the youngsters' safety of life and limb as they go to and from school.

This progress has been substantial, to date. Over the years, death rate among school age children as the result of traffic accidents has been cut one-half, in comparison with a doubling of the rate among other ages.

Cooperative Efforts Work

Cooperation between school authorities, police and such civic minded organizations as automobile clubs, in providing children with education in traffic safety, and in setting up precautions against the hazards of traffic, are credited with the gains, now jealously guarded.

School Safety Patrols, manned by white Sam Browne belted boys and girls; crossing guards enlisted from among the ranks of mothers, special police patrols, all have contributed to the safety record.

The one hazard against which no combination of officialdom can insure the youngsters — and this is especially true of those in the lower grades — is their own play exuberance which leads them to unpredictable accidents such as darting suddenly into the street after a loose ball, or occasionally trying to beat a car to a crossing out of sheer devilry.

"Motorists must take into consideration these unpredictable actions of children at all times," says Harry I. Kirk, president of the American Automobile Association. "The boys and girls in the white Sam Browne belts are on duty to help keep you from accidentally striking a child. Give them all the cooperation you can."

Alertness Essential

Alertness on the part of the motorist is especially necessary in areas beyond the reach of School Patrols. Similarly, those who participate in car pools organized to take children to and from distant schools, are urged to use extra caution.

All motor vehicle drivers should make sure now, before school opens that their cars are in good mechanical condition so that they may cope with the need for quick and safe stops.

Car pool drivers have an added responsibility of so conducting themselves while driving the youngsters to school, as to set a good example to the younger generation.

Parents Alerted To New School Term

With the opening of a new school term scheduled for just a few weeks hence, there is an exceptional burden of responsibility confronting parents of all of the children of all ages this year.

The situation derives from the complexity of life in this fast moving modern era with its unique tensions, its glowing opportunities, and also, its many distractions.

On the one hand, the demand from all areas of human activity for more and better educated youth, has mounted and will continue to mount during the coming years, to the point where those with the right kind of training are virtually assured of successful careers.

This is as true for today's beginners as it is for yesterday's college graduates, what with knowledge paying bigger dividends, even on television (witness the quiz programs) than does brawn, in any field.

On the other hand, existing facilities for furnishing education to the hordes of young who will be knocking at the doors of grade schools, high schools and colleges this fall, are severely strained because of shortages of both teachers and classrooms.

There is hardly a community in the land in which these problems will not be made more acute this fall by the greater number of children to be enrolled in schools.

Home Counts More

Until such time as educational facilities at all levels of learning catch up with the requirements of the growing number of school age children, parents will have to shoulder a greater share of the burden of preparing their children for the opportunities and needs that lie ahead.

The home itself becomes an important case in point. A Purdue University study, dealt with elsewhere in this section, reveals that teen age students complain their homes lack adequate provision for them to do their home work in peace and privacy.

Is the problem duplicated for youngsters going to school for the first time this fall? No one knows for certain, but here indeed is a problem for parents.

While school authorities are currently preparing to receive the greater number of children who will be clamoring for places in classrooms this fall, parents must turn their attention to getting the youngsters ready, mentally, physically and materially for the return to learning.

What They Need

In addition to making sure that essential study facilities are provided in the home, this requires concern for their health, their clothes, their school equipment.

Pre-school health examinations can thwart the onset of illnesses that would interfere with the continuity of their schooling. Need for such simple standard- items such as brief bags in which to carry books, pen and pencil sets, even perhaps a typewriter in the home, can be anticipated now.

Planning and selecting the child's back to school wardrobe—permitting even the youngest to participate in the selection—will work wonders toward sending them back to class with assurance, pride, and self confidence.

Good Grooming

And happily, the trend toward neatness in classroom attire gains momentum this year. This is a trend recognized by educators and parents alike as conducive to the kind of good behaviour which stimulates a better attitude toward learning.

Suedes Are In Back-To School Picture For Girls This Season

There will be more suedes going to school this year, both alone and in combination with patent, reptile and smooth leathers. Matte calf will be seen on a patent leather heel.

Add to the traditional black suede for evening wear at least one golden leather slipper and one slipper of bright-colored, highly lustered leather in jewel tones.

And some of the newest smaller editions of the spectator pump in taupe, beige or black with white trim and white leather linings.

Then — for really gala occasions —a little girl demands a shoe to make her feet sparkle. It may be a slipper of gold or silver leather, or a luster leather suede pump in jewel tones.

Again it may be a combination of colors of the sugar-and-spice variety such as a pink leather pump with bands of leather shading from shell pink to mauve across the vamp. Or it may be sophisticated as a gold-speckled black patent leather pump with gold leather trim — or a bronze-scaled reptile pump with bright blue suede trim.

Sometimes bright applique in vari-colored leathers may twinkle on a little girl's pump. And sometimes a pump may wear demure velvet bows. Swivel straps that turn a shoe from a Mary Jane into a pump are a feature that pleases both little girls and their mothers.

Heels on these "very-dressed-up" shoes for little girls are curvy, just like mother's. Sometimes they may be encrusted with glittering rhinestones and pearls. Or these jewels may appear in a sparkling design on the shoe's toe.

RED IS "HOT"

The red-hot color on the campus this fall will be red! Chiefly coupled with black it will be especially favored in outerwear and sportwear.

School Bells To Call Public, Parochial Students To Classroom Routine, Sept. 4

New Schools Ready For Hilltop Pupils

School bells ringing at 8:45 a. m. on Sept. 4 will mark the end of summer vacation for public and parochial school students throughout the city.

Nine new buildings, including two on the Hilltop, the most ever opened at one time in the history of the Columbus school system will be ready for full or partial occupancy.

Footwear For Children Keeps Pace With School Time Needs

Sleek, New Shoes, Tops In Fashion

It's getting harder than ever to keep up with children — and one of the reasons for the pace at which they travel lies in the sleek sports-car design of the leather shoes they wear.

The new long, low and sleek look is due first to new light-weight and more supple leather uppers on trim flexible leather soles, and secondly, to improved construction — which includes such things as softer and more flexible toe boxes and counters and leather linings and welts.

For Boys Only

Styles, too, have changed. From nursery school on, boys' shoes are definitely "for men only," and little girls' shoes show the sugar-and-spice influence.

The lad in the second grade may wear an oxford that's as conservative as the board chairman's or an exact copy of his college brother's. In other words it may be five-or-six eyelet with rounded sharkskin toe or it may be a low-cut one-or two-eyelet with a tapered toe in the continental manner. But the most frequently seen oxford for your man will strike a compromise with three eyelets and a moderately tapered toe.

And whether it's two eyelets or six, the boy's oxford will often feature combinations of leather textures with grained leather appearing as trim on the vamp, the toe, or around the top of smooth leather shoes. Again the shoe may be entirely of textured leather in a lightly etched, pebbly grain. Some Beau Brummels will boast such up-to-the-minute numbers as black smooth leather with grey suede trim—or moc toe styles in the new two-way brushed leather.

Slip-Ons Popular

Next in popularity with the growing pencil-pusher will be slip-ons. Boy's slip-ons like oxfords, are round-toed or moderately tapered. They also have all the traditional details of their fathers' shoes including all kinds of straps — the wide sabot strap, the bridle strap fastened at either side by brass or leather rings, monk straps, and crossed straps. Military buckles also abound . . . as do the fringed ties and tassels from the Tyrol.

Little girls' loafers may be exact copies of their brothers' or they may be more feminine with drapes and tucks on the toe, inserts of vari-colored leather and high, peaked tongues.

Both girls' and boys' loafers come in soft leathers such as suede, buffed or punched pig, or glove-tanned smooth leather. And—like other shoes—they have trim leather soles.

Little girls now demand a shoe to wear with shirtwaist dresses and to parties. This is a pump, much like mother's fashionable "little-heel" pumps. It frequently has the long, tapered toe of 1957, but is built on a last particularly suited to young feet.

It also features the sleekened look of mother's pump with high throat lines and trim on the toe or vamp. This may be tiny wastits or horizontal tucks.

For Foot Health

Youngsters should be taught to thoroughly dry their feet after a bath, to discourage fungus growth.

Boys' Back-to-School Togs Reflect Collegiate Trend

Moving over further away from the cut-moded "sloppy look," Junior's back-to-school duds are now really scaled downed versions of what his older college brother will be wearing this fall, according to the American Institute of Men's and Boys' Wear.

For students from the first grade on up through high school, the chief influence in clothing today is the so-called "Ivy" styling ideas which got their start on the campuses of colleges in the Northeastern states, from which they have spread to all sections of the country and all items of the male wardrobe.

For example, the three-button single-breasted style is now the established leader in boys' sports jackets, particularly in striped blazers and other patterned models, in medium to darker shades. Some of these will feature metal buttons. Another feature is leather trimming on pockets and elbows, as well as on trouser pockets.

"Ivy" Influence

Boys' slacks generally show the Ivy influence, with pleatless fronts and [illegible] effects and tapered leg look. Polished cottons are popular, with flannel-lined twills important for younger boys. Black looms as an important color, although the standard grays and blues in various shades will continue strong. Corduroy trousers, in striped effects, are coming into their own.

In boys' suits, the three-button Ivy-type in trim lines will hold first place. There will be striped and patterned suits in darker tones, and Navy blue will continue its come-back although gray is still the most important suit color for boys.

Dress shirts will have a casual look; many will be decorated with small checks, stripes and tartans. "Ivy" influence will be evident in button-down and button-back collars. White will be, as always, the leading color, with blue gaining ground.

In sports shirts, the chief color will be red and the major style influence will again be "Ivy." Polished cottons and glazed [illegible] (chiefly in silk-and-cotton blends) will be seen in increasing numbers, along with the standard cotton printed flannel.

In outerwear, red will also be prominent, as a solid or in combination with other colors — chiefly black. Gray will also be widely seen. Style-wise, toggle button coats and suburban coats will run neck-and-neck in the popularity race.

Parkas Popular

Parkas, with synthetic and quilted linings, will gain a good following among the school crowd, as will Loden clothcoats. Reversibles have come alive again. Linings, colorful and patterned, will be a highlight in outerwear, along with hoods — attached or detachable.

Letters Home

Correspondence hard to coax from collegiate off-spring? Good plan for parents is to equip the college-bound with a supply of stamped, addressed envelopes.

Include some postcards, too, for use on extra-busy occasions such as exam time.

Working out a family code for quick reporting of the latest news from college, on the back of a postcard, can be fun for all.

'Front Porch' Beauty Salon Opened Here 30 Years Ago

The Harriett Huff Beauty Salon at 2154 Sullivant-av has been in operation for the past 30 years. Mrs. Huff opened the shop in her own home in 1927. It is the oldest beauty salon operated at any one location on the Hilltop.

The owner, Mrs. Harriett Huff, got her start in the beauty business at a downtown beauty shop at the age of 11. She married Oscar Huff at 15. When she was 16, Mrs. Huff started her own beauty school at 414 Midland-av. When the Huffs bought their home on Sullivant-av they had the front porch closed in and Mrs. Huff started her own shop.

Mrs. Huff was president of the National Hairdressers Association for nine years. She has given demonstrations and entered competitive contests in 45 states, Mexico and Canada. Each year she tries to attend a beauty school for a few weeks to learn the new styles and techniques. She has attended Antoine's in New York and Titus in Cleveland.

Mrs. Huff employs two beauticians in her salon. Tesselene Oblinger, who has been with her for over 15 years, and Elizabeth Sarvis, who has worked for her for four years.

Mr. Huff has been with the Telephone Company for almost 40 years. His hobbies are fishing and boating. In her spare time, Mrs. Huff enjoys swimming, tennis and horseback riding. She loves the out-of-doors and after traveling around this country believes that "Colorado is God's country."

Mrs. Harriett Huff

Mr. and Mrs. Huff are members of Glenwood Methodist Church. Mrs. Huff is a member of HBA and the National Hairdressers and Cosmetologists Association.

More Adults Than Youth Going Back To School This Fall

50 Million Grown Ups In Classes

It may sound incredible, but it's true: this fall, more adults will be going "back to school" than all the children in the nation's kindergartens, elementary schools and high schools together!

Authorities estimate that about one in every three adults, or up to 50 million Americans, are currently taking part in this great, growing movement.

They meet and study in every conceivable setting — in public schools, universities and libraries; in business establishments, factories and union halls; in religious centers, clubrooms and community houses and volunteer agency headquarters.

Millions Involved

Many learn right at home, taking courses from one of nearly 400 private correspondence schools.

At latest count, there are 5,000,000 part-time instructors and leaders in the movement, plus 100,000 full-time administrators. More than 150 national groups and thousands of local ones are sponsoring some kind of educational activity.

Programs include tens of thousands of organized classes, public forums, lecture series, monthly club meetings, discussion groups, study circles, conferences, institutes and educational television stations.

The scope and variety of what's available covers everything from Aristotle to finishing an expansion attic. You can take courses in the liberal arts, sciences, professions and all the crafts. You can study a thousand aspects of agriculture, almost as many phases of family life and any hobby you can name.

Courses teaching new vocational skills are among the most popular, due to today's rapid pace of technological changes. Increasing leisure time leads to the demand for such avocational subjects as gardening, music appreciation and wood-working.

Seeks Self Improvement

In most cases, the desire for self-improvement is the motive that sends adults back to school. People want to learn new skills so that they can start new businesses, get faster promotions or step into newer, better jobs. Or they want to improve their personalities for a wide variety of social and business reasons.

New teaching methods are constantly being developed. There is now much less reliance on lectures and much more use of group discussion, motion pictures, demonstrations, field trips, recordings and other audio-visual aids.

Two of the most popular methods are human relations laboratories or work-shops focusing on human insight and skills, and book-based discussions.

Unfortunately, the picture isn't a rosy one. A recent survey by the National Education Association revealed that about 50 per cent of the institutions polled had money troubles, even though there has been large scale support by private foundations as well as from federal and state government sources.

But, in spite of this, adult education will continue to grow in importance. Malcolm S. Knowles, executive director of the Adult Education Association, has estimated that by 1958 approximately half the adult population of this country will engage in some form of organized learning activity.

"I predict," he says, "that the education of adults will become accepted as a public responsibility, just as the education of children is now."

Stories On Youth Take The Spotlight

There is much interest in the news of some Bexley youths as a result of charges filed this past week by an irate resident of that community.

It will be interesting to note the outcome of an investigation of the matter and what action the courts take in the [illegible]

School Bells To Call Public, Parochial Students To Classroom Routine, Sept. 4

New Schools Ready For Hilltop Pupils

School bells ringing at 8:45 a. m. on Sept. 4 will mark the end of summer vacation for public and parochial school students throughout the city.

Nine new buildings, including two on the Hilltop, the most ever opened at one time in the history of the Columbus school system, will be ready for full or partial occupancy.

Fashionable Footwear For Teacher Makes Way For Classroom Comfort

While comfortable, carefully fitted footwear is as much a matter of importance to the health of the teacher as it is to the growing youngsters in her classrooms, so is the trim and fashionable look.

And happily for the school marms of this modern era, who spend so much time on their feet in educational play especially with their younger pupils, fashionable footwear for this fall, especially for daytime wear, is placing emphasis on the lower heels.

Actually, teachers may find that foot comfort depends less on heel height than on finding shoes made to last that is best fitted to the individual foot. Thus, with care in fitting high heeled pumps that are perfectly comfortable, can be selected for classroom wear.

Best of all assurances of foot comfort is a wardrobe of shoes including casuals for the classroom as well as the more dressy types, in sufficient numbers of pairs to permit daily changes.

Most smart teachers keep an extra pair of shoes in their school lockers for a wholesome and restful change during the day.

Co-Eds Plan Clothes to Fit All Their Campus Activities

Classes, campus doings, dating, homework or "just yacking" with other gals in the dorm — there's a busy world ahead for the college-going girl. Her horizons are broadening to include new friends and new activities as well as new learning, and she looks forward eagerly to getting the most out of both the academic and social sides of college life.

In the exciting days before going back to college, the smart coed can, by good planning, [illegible] a lot toward making her school year more rewarding. She can review her projected schedule, consider what extracurricular activities she wants to go out for, and talk over her plans with parents and friends.

Whether she's a freshman or upperclassman, an important part of her planning will be to get her back-to-college wardrobe in good order.

Because her class and campus life will include so much variety she'll want to be sure she has appropriate clothing for all occasions from lounging in the dorm to dancing at proms, as well as the day-by-day demands of the classroom.

Her wardrobe planning can be simplified if she makes her shopping list in terms of these occasions and activities. Under such headings as, "Classroom," "Sports," "Formal Dances" and "Informal Events," she can sum up the clothing she's likely to need for her busy life. Then, checking her present wardrobe against the list, she can quickly decide what additions and replacements should be made.

Be Versatile

Now skirts and tops should be chosen with a view to versatility. For instance, the same sweater or blouse might go to either classes or football games, while a daytime skirt could take a dressy blouse for an informal date.

Of course, she'll want her new clothes to reflect this fall's fashion news, and here she will find that the current trends are a real compliment to her good taste. Favored is the casual look, and casuals have long been the mainstay of collegiate wardrobes.

Skirts, jackets, blouses and sweaters are musts, with sweaters particularly important this season. The new textured yarns that wash without blocking and the Shetland-types vie with cashmere and the fur blends for popularity. Jacquard sweaters are news, too.

Blouses Please

Box-pleated skirts with straight-cut jackets reflect the Chanel influence, and pretty blouses add pleasing femininity to the casual look.

Simple dresses such as shirtwaists or modified sheaths play a major role, and thanks again to the fashion-right casual look, they're appropriate for dressy occasions as well as the classroom. Coat choice most seen on the campus is the car coat, in wool, Loden with cloth or well-lined poplin. With "shorter-than-long" coats getting fashion attention this season, dress coats, too, take to the car-coat length. For all-around wear, the classic camel-hair boycoat remains important.

Leisure hours find Bermuda shorts plus knee socks and sweaters still the leader, although on some campuses pedal pushers and tapered slacks are gaining in favor.

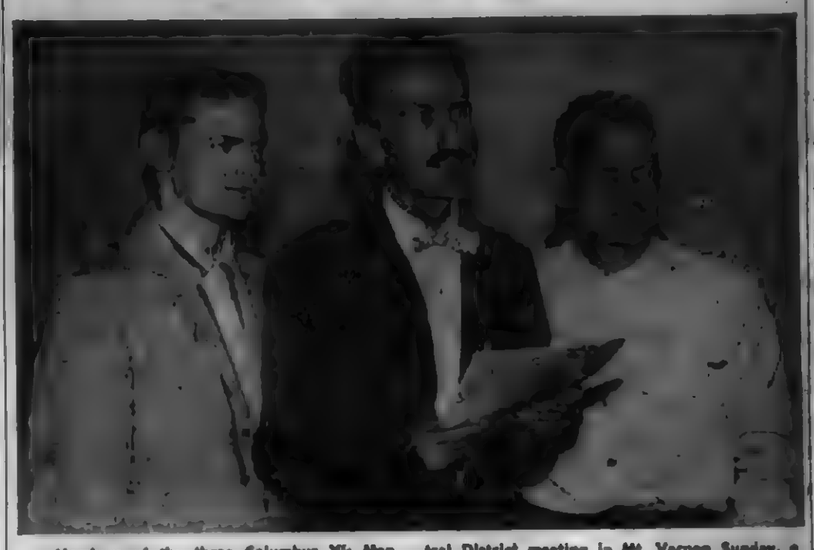
Stories On Youth Take The Spotlight

There is much interest in the news of some Bexley youths as a result of charges filed this past week by an irate resident of that community.

It will be interesting to note the outcome of an investigation of the matter and what course the courts take in the matter.

This is particularly true at this time in view of the more commonly expressed beliefs by many people that just being a juvenile does not entitle such persons to protection when they break laws.

Some of these matters remind us of the couple trying to raise a boy along the lines of some modern thinking . . . that he must be allowed to give vent to his feelings . . . he must be allowed to express himself through his actions. The net result was that the boy soon tore up all the furniture in his parents' house.



Possibly some of these matters need to be treated more realistically and along the lines of not sparing the rod. Sometimes the application of a razor strap in the right places will do far more good than a lot of modern child training.

But in any event, let's not brand all young people as a result of these and other such incidents.

Our experience with a very wide cross section of the youth of this community through YMCA and church and school groups leads me to believe they are for the most part a pretty substantial lot and certainly we can be proud of them.

Briefly Told: Harry Richter has been named chairman of the integrity advertising committee of the Advertising Club . . . Robert Baker is a Hilltop Kiwanian again . . . Former Hilltopper Bob Nash was a visitor here this past week . . . The Henry Geshwilms of S. Eureka av., spent a recent vacation with ex-Hilltoppers Mildred and Charley Maus at their 'ranch' in Connecticut . . . Hilltop's gal Susie Johnson was a local visitor last week with her folks. . . . Jerry Adams has been named sales manager for the Combined Insurance Co. of America, in the southwestern section of Ohio . . . Peg Warren claims she can sell anything and to prove it she sold a pair of false teeth recently . . . And then there was the preacher who admonished his flock that 'there will be no buying or selling in heaven" whereupon one gent was heard to mumble, "That's not where business has gone anyway".

'Y's Man' From Jerusalem Visits

Members of the three Columbus Y's Men Clubs heard Lucien Meysels, above center, a Y's Men member from Jerusalem, discuss his native country at a dinner meeting held last night at the Central YMCA. A week-long guest of the Hilltop Y's Men, Meysel is touring Pennsylvania and Ohio addressing local clubs. His busy schedule has included a visit to the Central District meeting in Mt. Vernon Sunday, a trip to the fair Monday and the joint club meeting last night. Tomorrow morning he will meet the governor, then tour the state house and Ohio State University. He has been the house-guest this week of Hilltoppers Jim Grahams, above left, and Dewey Parris, right.

Local members of the Y's Men are extending the hospitality of the Hilltop this week to a fellow member of their international organization from far-away Jerusalem.

The Hilltop Club, an affiliate of the YMCA is playing host to Lucien Meysels, past international director of the Eastern Mediterranean Y's Men area including Greece, Israel and Egypt, and delegate to the group's international convention held in Toronto, Can., last month.

Meysels is touring Ohio and Pennsylvania addressing Y's Men Clubs as part of the club's World [illegible] program. Members in 35 countries finance the program by saving and selling postage [illegible]. In the past year, the fund contained $19,000 and was used to support 24 delegates from Europe, Latin America and Australia on a tour of American clubs.

Meysels, a journalist in his native Jerusalem, will enroll in Wisconsin University this fall for a year's study of history. Attending Wisconsin on a fellowship grant, his position there will be as research assistant.

While on the Hilltop, Meysels has been a guest in the home of Dewey Parris, 302 S. Roys-av, past president of the Hilltop Club and lieutenant governor of the Central district. From Thursday until Saturday he will be house guest of the Jim Grahams, 110 N. Terrace-av.

A little awed by the mobility of the American way of life, Meysels expressed amazement at our accelerated pace of living. Among other events, he visited the Ohio State Fair on Monday. He described his surprise as, "I have attended many, many industrial fairs, and some agricultural fairs, but never have I seen the two combined as in your state fair. I believe it to be typically an American event; something not to be found in Europe."

Boy Resting At Home Following Car Accident

Ray Barnes, 12, son of Mr. and Mrs. Roscoe Barnes of 2865 Sullivant-av, is resting at home following an accident Aug. 20 when he was struck by a car on Mound-st, east of Central-av.

He was released from Mt. Carmel Hospital Thursday. The victim, who had just left Jet Stadium with two other boys, suffered several fractured ribs and a slight concussion, according to Mrs. [illegible].

More Than 200 Youngsters, Parents Witness 'Y' Awards

The Hilltop YMCA Summer Fun Club Awards Night, held at City National Bank party room, 2100 W. Broad-st, was attended by 210 boys and girls and their parents. They witnessed the presentation of awards to the top boy and girl in the Summer Fun Club program, the All Stars and Champions teams of Little "s" baseball, and the various "y" [illegible].

Debbie Schmidt received a gold indentification bracelet as the top girl in the Fun Club program. Brian Mofford received a football as top boy in the program.

Awards to the championship Indians and Tigers were presented by Jack Imler, member of the "Y" Board of Management. Al Hollowell, executive secretary of the Hilltop YMCA; presented "YMCA Leaders" T-Shirts to the Summer Fun Club leaders. Dick Rice and John Graham and, to the Little "S" coaches, Garry Weigand, Jim Smiley, Garry Mider, Jan Lawrence, Bob Thorton, Mike Heil, Bob Dent, Jim Baus, Bob Higgins, Jim Blackburn, Jon Kelly, Paul Thompson, Dick Weaver, Larry Menz, Jim Ricketts, Nick Miller, Dave Roberts.

Sam Alford, member of the "Y" Board of Management, doled out the All Star awards to both of the teams. Dick Rice, "Y" leader, presented the awards to each of the boys taking part in the Little "S" program this summer.

Howard Prout, member of the "Y" Advisory Council, presented awards to the boy and girl having the highest number of points in the Summer Fun Club program. Harry Grashel, member of the "Y" Board of Management, made the presentation of the rotating trophy upon which the name of each championship team is engraved each year.

The evening was climaxed by a color film of African Animals, and an ice cream treat for all, courtesy of the "Y" Mothers' Council. Tomorrow will be the last session of the summer boys' craft at 2 p.m. "Y" Movies for summer have ended, and the fall showing at the regular locations are scheduled to begin shortly after school begins. Hilltop YMCA membership enrollment begins Sept. 16.

School Bells To Call Public, Parochial Students To Classroom Routine, Sept. 4

New Schools Ready For Hilltop Pupils

School bells ringing at 8:45 a. m. on Sept. 4 will mark the end of summer vacation for public and parochial school students throughout the city.

Nine new buildings, including two on the Hilltop, the most ever opened at one time in the history of the Columbus school system will be ready for full or partial occupancy.

Work will continue on unfinished portions of Binns and Valleyview Schools while classes are in session. No serious disruption in classroom routine is expected from work crews. It is estimated that the elementaries will be finished within a month after school starts.

Funds for the school expansion system were provided last September when voters approved a bond issue at a special election. First contracts were let on Mar. 4.

All 24 classrooms of the Binns Elementary School, 1080 Binns-blvd are expected to be completed. Built at a cost of $435,389, the school will serve the recently annexed area of Franklin Township and relieve overcrowding of nearby Hilltop schools.

Streets and sidewalks leading to the new building have been [illegible].

Valleyview Elementary School, 2820 Valleyview-dr, will have all eight classrooms ready for occupancy. Cost of the building is [illegible].

City, county and village have cooperated in building walkways on Valleyview-dr. Paths lead from Hague-av and Joan Heights.

Any student who has moved into the Hilltop community during the summer and who plans to enter West Junior-Senior High School must register this week at the school between 8:30 a.m. and 3 p.m. and before 3 p.m. on Friday, Aug 30, if he has not already done so.

It is necessary for these students to register so that schedules may be prepared and issued when they report next Wednesday morning.

Seventh grade pupils entering from West Broad, Westgate, John Burroughs and Highland avenue elementary schools are already registered. Any seventh grade pupil from any other elementary school must register this week.

Questions will be answered by calling the school office at BR. 4-1197.

FIVE-YEAR-OLDS are getting 'First Day' Fever . . . with new clothes, stubborn sheestrings, and five-year-old determination. Spencer Davy McDowell will begin a new and probably overwhelming life next week in the kindergarten room of the new Binns Elementary School. Just a little less excited than their wide-eyed offspring are the kindergarten moms, as Mrs. Carol McDowell, 822 Miriam-dr, W., who will hide their near-tears with a smile and their uneasiness with encouragement on this most important day.

Chief Charles Garrett Dies 12 Days After His Retirement

Retired Battalion Fire Chief Charles F. Garrett, 69, of 238 S. Richardson-av, died Tuesday at his home, 12 days after resigning from the department due to illness.

In 1918 he was commended for rescuing three men during the American Chain Co. fire, and also served with distinction during the 1913 flood.

He organized Local 67, International Association of Firefighters in 1918 and later helped organize the Columbus Safety Division of the Federal Credit Union, originally known as the Firemen's Credit Union. He was president of the organization for many years.

Chief Garrett was also a member of the Ohio Fire Chief's Association, Humboldt Lodge, F & A M; Scottish Rite, Aladding Temple of Shrine and the Hilltop Shrine Club.

Surviving are his wife, Florence; a son, Richard, his mother, Mrs. Mollie Garrett; three sisters, Mrs. Elizabeth Johnson, Mrs. Maude Koons, Mrs. Mabel Stowell; a granddaughter, Barbara Kay Garrett, all of Columbus; four brothers, Orville of Columbus, Tom of McConnellsville, William of Brinnell, Ia., and Harry of Ft Worth, Tex.; many nieces and nephews.

Funeral services will be held Friday, 2 p.m. in the Schoedinger Funeral Home, 239 E. State-st, where Masonic services will be held at 8 p.m. Thursday. He will be buried in the Masonic section of Sunset Cemetery.

Active pallbearers will be O. T. Nicklewort, Ralph Ward, Charles Highland, James Cassell, Ralph Mason and Charles M. Pugh.

Honorary pallbearers include all the chief officers in the Columbus Fire Department, headed by Chief Strickfaden and Senior Assistant Fire Chief Samuel H. Zuayer.

Services Set Thursday For Local Pioneer

Requiem High Mass will be held at 9 a.m. Thursday at St. Aloysius Church for Mrs. Cora Hewitt Whitmer, 91, who died Monday at her home, 167 Eldon-pv, after a short illness.

A member of a pioneer Perry County family, Mrs. Whitmer lived in Columbus for the past 60 years. Her husband, Frank P., died five weeks ago.

Surviving are several nieces and nephews. Friends may call at the residence after 1 p.m. today. Burial will be in St. Joseph Cemetery by Kelly Funeral Home.

Happy Disappointment

We must admit that people are often disappointed after advertising in this newspaper disappointed that they don't have more to sell! As Mrs. H. M. Hoadd, 240 Binns-blvd, felt after selling her two dozen canning jars — "why, I could have sold 50 dozen," she said. For this "happy" kind of disappointment, call BR. 9-9444.

86-Year-Old Tenor's Career Not Over Yet; To Sing Sunday

Thomas Masters, of 361 S. Hague-av, will celebrate his 86th birthday Sunday with a [illegible].

The song — "All Hail"; the place — Burgess Avenue Evangelical United Brethern Church; and the reason — "Well, they've been asking me to sing at one of the services so I finally agreed to do it on my birthday. I don't know how I'll sound though as I haven't done any singing for several years."

Although he hasn't done much singing in the past few years, he's certainly done a great deal of singing in the past 70 years. Ever since he was 16 years old, Masters has been devoting most of his leisure hours to music . . . either singing, organizing or directing choirs.

Probably his longest choir tenure was with the Columbus Republican Glee Club, which he joined in 1896 and in which he remained active for 30 years. An all-male chorus, it was largely devoted to political rallies and [illegible].

Sang For Presidents

Masters' greatest thrills with this group were three appearances at presidential inaugurations. The 97-membered chorus sang at the inaugurations of William McKinley in 1901, Teddy Roosevelt in 1904, and Howard Taft in 1909.

The veteran tenor also sang with the Hilltop Men's Chorus for ten years and participated in seven of their minstrel shows. Other groups with which he has sung are the Columbus Oratorio Society, the Cambrian Club and the Franklin County Knights of Pythias Glee Club, which he organized and directed for several [illegible].

Although he has sung almost every type of music, he prefers church music, particularly the "Messiah," which he has sung [illegible].

He organized a choir at the Methodist Church in Galena, O., and both a junior and senior choir at the Methodist Church in Pennsville, O. His "directing" days began when he was 25 years old. He was the first choir director of the Eighth Avenue Reform Church and a director of the Burgess Avenue EUB Church choir.

He also sang frequently at funeral services, although today funeral vocals have been largely replaced by organ music.

A resident of the Hilltop for 35 years, Masters was employed by the city engineers department for 33 years. He is a past chancellor commander of the Knights of Pythias; past commander of the Sons of the Civil War veterans group, and past vice-president of the State Fair's 50-Year Club.

REHEARSING for his first singing role in many years is veteran tenor Thomas Masters who will mark his 86th birthday by singing 'All Hail" at Burgess Avenue EUB Church.

A Plea To Parents

Editor's Note: The following letter was given to the Rural Urban News for publication by Mrs. Harold Distelhorst, president of the Franklin Heights PTA. It is a plea to the parents of children attending the high school.

Dear Parents:

I have been reading for the past few years, a great many articles on juvenile delinquency — perhaps you have too. I wonder, since so many of these so-called "delinquents" are of High School age, if perhaps we, as parents and friends of these students, aren't to blame?

This question is asked because, from experience, I know we seem to think when our children leave grade school they are grown up — that is — until they do something they shouldn't and we realize that perhaps we haven't shown the interest in their studies, teacher, recreational activities, etc., we should have.

I haven't addressed this letter to our children's teachers simply because I feel they already are doing more, and showing more interest in, our children than we as parents, are.

Did you know that last year, out of approximately 700 students at Franklin Heights, only 127 parents were members of the P.T.A., and of that number only 20 or 25 attended the meetings? Some of the home rooms had not even one member, and that out of 30 to 35 students, some of the home rooms couldn't even get one room Mother. To me those figures show definite disinterest in our children — except — when they bring home a poor grade card.

Please, come to our P.T.A. meetings, at least the first ones, and hear our plans for the year. We hope you will then be interested enough to want to continue with us. Meeting night is the first Wednesday of each month at 8 p.m. in Franklin Heights High School Auditorium, 1001 Demorest-rd. The first meeting will be Sept. 4 with high school girls to baby-sit with the younger children.

Mrs. Harold Distelhorst,
Pres. Franklin Heights
Parent Teacher Association

My Neighbors

"The trouble with the union was those darned honest people we let in!"

I, even I, am He that blotteth out thy transgressions for mine own sake, and will not remember thy sins.—(Isaiah 43, 25.)

It is the still, small voice of conscience which abides within us all the days—and especially the nights—of our lives that 'remembers' our sins. But God, our merciful Father, will forgive the humbly, truly repentant, and give us new life in His loving-kindness.

Ohio Waterfowl Hunt Season Extends Oct. 18 Thru Dec. 26

Ohio waterfowl hunters will be pleased to know that wood ducks will again be legal game during the forthcoming duck season which opens Oct. 18 and runs through Dec. 26.

Last year, 1956, the U. S. Fish and Wildlife Service closed the season on wood ducks in the Mississippi Flyway, which included Ohio.

In announcing the Ohio waterfowl hunting dates, it was made known that the Ohio Wildlife Council had an option to permit hunting from ½ hour before sunrise to sunset and not taking wood ducks or accepting the ½ hour before sunrise to ½ hour before sunset with one wood duck permitted.

After considering all aspects of the problem, council decided more hunters over Ohio would benefit by being permitted to take wood ducks with all waterfowl hunting stopping at ½ hour before sunset.

The 1957 waterfowl dates will coincide exactly with those of the 1956 season (two years ago) which was considered by many veteran duck hunters to have been the best in many years.

The complete summary of the 1957 waterfowl, coot and snipe season looks like this: Daily shooting hours (including opening day, Oct. 18) ½ hour before sunrise to ½ hour before sunset.

The daily limit of ducks is four and the possession limit is eight after the first day. One wood duck may be included in the daily bag and possession limit and one Hooded Merganser may also be included in the daily bag and possession limit.

Hunters may take five American and Red-breasted Mergansers singly or in the aggregate of both kinds with ten in possession after the first day. (These in addition to the regular daily limit of four other ducks.)

There will be a daily limit of five geese (these limits on geese may not include, in the alternative, more than two Canada geese or its subspecies, two White-fronted geese, or one Canada goose or its subspecies and one White-fronted goose.)

The season on coots conforms to the waterfowl season with a daily limit of ten and possession limit of ten after the first day. The season on Wilson's or Jacksnipe will open on Oct. 18 and run for 30 days through Nov. 16. The daily limit for snipe is eight and the possession limit after the first day is eight.

County Births Outnumber Deaths More Than 3 To 1

A statistical report published by the Ohio Health Department indicates that of the record 234,517 births in Ohio last year, 17,308 births occurred in Franklin County.

The Franklin County rate was 28 live births per 1000 population. The birth rate for the state as a whole was 25.9 per thousand.

During the same period Franklin County had 5441 deaths at a rate of 8.8 per 1000 population. Of that figure 2036 were taken with heart disease, the largest single killer. The state's death toll was 87,669 at a rate of 9.7 per thousand. Accidental deaths claimed 269 persons in the county.

The report shows 4325 marriages in the county last year, compared with 2444 divorces and annulments. State totals were 62,947 marriages and 21,344 divorces and annulments.

State Puts New Speed Limits On Certain Sections

The speed limit for five sections of highways in Franklin County have been re-established by the Ohio Department of Highways.

The re-establishments were made on the basis of traffic and engineering surveys conducted by the department as a part of Governor O'Neill's program for maximum highway safety.

The 35 mph speed limit has been re-established for state route 161, through Linworth and for State Route 3 for one-half mile north from Columbus.

The 45 mph speed limit has been re-established for: U. S. 40 between Columbus and New Rome; for State Route 3 for one-half mile north from the 35 mph zone ending one mile north of Columbus; for U. S. 40 at the intersection of Alton-rd; and for U. S. 33 for eight-tenths of one mile east from Urlin-av.

Franklin County Debt Of $70,000 Sought By City

Service Director Floyd C. Redick has asked the city attorney's office to help collect $70,000 in water and sewer bills from Franklin County commissioners.

According to Redick, the county owes Columbus for services in an area west of Georgesville-rd, covering mostly Prairie Township, in addition to a $19,276 water bill and a $50,884 sewer charge.

Westinghouse Plant Unwraps All-New Line Of Appliances

A high speed automatic cold injector that chills food quickly and offsets cold loss from deep openings heads the list of features on the 1958 Westinghouse refrigerators. Other features are the "Child safe" magnetic doors, the slide out adjustable shelves and a cube server which holds eight pounds of ice. Eleven textured and wood grain vinyl panels are available to the homemaker who wishes to change her kitchen decor periodically.

Westinghouse today took the wraps off a completely restyled line of major appliances for 1958—a line of refrigerators, electric ranges, laundry equipment and automatic dishwashers more than two years in the making.

In introducing the new appliances, John J. Anderson, manager of the local major appliance division, said, "This new line is the most completely new group of major appliances Westinghouse ever has offered. It contains no warmed-over models.

One of the most revolutionary features is a new refrigeration system. Making use of an automatic high-speed cold injector the company claims this system chills food and drink faster than any other refrigerator and recovers cold loss from door openings four times faster than conventional systems.

A combination of push-buttons and dials gives 1958 Westinghouse Laundromat automatic washers and electric clothes dryers new versatility and simplicity said Anderson.

The new electric ranges feature Miracle Seal ovens, plug-out surface and oven heating units, infinite heat control and divided surface work areas with recessed tops on every model.

A new portable dishwasher holds a complete dinner service for eight people and is more compact than the unit it supercedes. Built-in dishwashers now are available in 15 different front panel choices, including seven new wood panels and steel fronts in eight finishes.

"The Shape of Tomorrow," which characterizes all 1958 Westinghouse major appliances, is described as a blend of modern and conservative lines designed to make the appliances "fit in to look built-in."

A Plea To Parents

Editor's Note: The following letter was given to the Rural Urban News for publication by Mrs. Harold Distelhorst, president of the Franklin Heights PTA. It is a plea to the parents of children attending the high school.

Dear Parents:

I have been reading for the past few years, a great many articles on juvenile delinquency — perhaps you have too. I wonder, since so many of these so-called "delinquents" are of High School age, if perhaps we, as parents and friends of these students, aren't to blame?

This question is asked because, from experience, I know we seem to think when our children leave grade school they are grown up — that is — until they do something they shouldn't and we realize that perhaps we haven't shown the interest in their studies, teacher, recreational activities, etc., we should have.

I haven't addressed this letter to our children's teachers simply because I feel they already are doing more, and showing more interest in, our children than we as parents, are.

Did you know that last year, out of approximately 700 students at Franklin Heights, only 127 parents were members of the P.T.A., and of that number only 30 or 25 attended the meetings? Some of the home rooms had not even one member, and that out of 30 to 35 students, some of the home rooms couldn't even get one room Mother. To me those figures show definite disinterest in our children — except — when they bring home a poor grade card.

Please, come to our P.T.A. meetings, at least the first ones, and hear our plans for the year. We hope you will then be interested enough to want to continue with us. Meeting night is the first Wednesday of each month at 8 p.m. in Franklin Heights High School Auditorium, 1001 Demorest-rd. The first meeting will be Sept. 4 with high school girls to baby-sit with the younger children.

I, even I, am He that blotteth out thy transgressions for mine own sake, and will not remember thy sins.—(Isaiah 43, 25.)

Ohio Waterfowl Hunt Season Extends Oct. 18 Thru Dec. 26

Ohio waterfowl hunters will be pleased to know that wood ducks will again be legal game during the forthcoming duck season which opens Oct. 18 and runs through Dec. 26.

Last year, 1956, the U. S. Fish and Wildlife Service closed the season on wood ducks in the Mississippi Flyway, which included Ohio.

In announcing the Ohio waterfowl hunting dates, it was made known that the Ohio Wildlife Council had an option to permit hunting from ½ hour before sunrise to sunset and not taking wood ducks or accepting the ½ hour before sunrise to ½ hour before sunset with one wood duck permitted.

After considering all aspects of the problem, council decided more hunters over Ohio would benefit by being permitted to take wood ducks with all waterfowl hunting stopping at ½ hour before sunset.

The 1957 waterfowl dates will coincide exactly with those of the 1955 season (two years ago) which was considered by many veteran duck hunters to have been the best in many years.

The complete summary of the 1957 waterfowl, coot and snipe season looks like this: Daily shooting hours (including opening day, Oct. 18) ½ hour before sunrise to ¼ hour before sunset.

The daily limit of ducks is four and the possession limit is eight after the first day. One wood duck may be included in the daily bag and possession limit and one Hooded Merganser may also be included in the daily bag and possession limit.

Hunters may take five American and Red-breasted Mergansers singly or in the aggregate of both kinds with ten in possession after the first day. (These in addition to the regular daily limit of four other ducks.)

There will be a daily limit of five geese (these limits on geese may not include, in the alternative, more than two Canada geese or its subspecies, two White-fronted geese, or one Canada goose or its subspecies and one White-fronted goose.)

The season on coots conforms to the waterfowl season with a daily limit of ten and possession limit of ten after the first day. The season on Wilson's or Jacksnipe will open on Oct. 18 and run for 30 days through Nov. 16. The daily limit for snipe is eight and the possession limit after the first day is eight.

A combination of push-buttons and dials gives 1958 Westinghouse Laundromat automatic washers and electric clothes dryers new versatility and simplicity said Anderson.

The new electric ranges feature Miracle Seal ovens, plug-out surface and oven heating units, infinite heat control and divided surface work areas with recessed tops on every model.

A new portable dishwasher holds a complete dinner service for eight people and is more compact than the unit it supercedes. Built-in dishwashers now are available in 15 different front panel choices, including seven new wood panels and steel fronts in eight finishes.

"The Shape of Tomorrow," which characterizes all 1958 Westinghouse major appliances, is described as a blend of modern and conservative lines designed to make the appliances "fit in to look built-in."

Tax Exemption Law May Save Money For You

Read this if you want to save yourself or your working child some money come income tax time next March.

A special exemption rule was passed by Congress in 1954, according to Nathaniel Looker, district director of the Internal Revenue Service, which applies to children who will still be under 19 years of age at the end of the year and to children who are full-time students, regardless of their age.

Exemption may be claimed by the parents if they contribute more than half the child's support, regardless of the amount earned by the child.

Children 19 and over must be engaged in full-time study at a recognized educational institution for at least five months of the year or must be pursuing a full-time accredited on-farm training program.

Attend The Church Of Your Choice

Dear Son

By Joseph Martell

Chittlin' Switch
Monday noon.

Dear Son:

Well, it's been about three or four weeks since I wrote you but I've been very busy. During that time there's been a lot going on here at Chittlin' Switch so here goes.

I was down to the village the other day and I happened to see your old buddy, Vernon Stench, walking with his new girl. I'm not one to talk about anyone but I'd say she missed being Miss America by two feet. Twelve inches on each hip. A drunk saw her on the beach one day and took the pledge. Pink elephants and purple monkeys were bad enough but this was the first time he ever saw a baby elephant eating frozen custard sitting on a stool.

Your Uncle Lummoxe is fine and sends his regards. He had been bothered with insomnia for the past month or so and the doctor told Lush that a good hooker of moonshine before he went to bed would help. Trouble is he went to bed about twenty-two times a night.

Your paw got fired from that job he had at the florist shop. A fireman in the next county died and the florist told Paw to send a wreath out to the fireman's house and to put some appropriate wording on the ribbon. The fireman's widow did not appreciate the words; "GONE TO HIS LAST FIRE."

I don't know what to do about your poor sister, Morphine. She has an unhappy married life. Your brother-in-law, Zeke, never pays her a compliment. The other day when Zeke came home from work she was in tears and said; "I'm heartbroken. This afternoon I baked you a lovely cake but the dog ate it." Zeke thought for a second and said; "Don't cry, honey. He was an old dog anyway!"

Write soon. Your loving,
Mom

Pick Chairman To Organize Area Drive For Retarded

Kenneth W. Mabee, 2016 Welsford-rd, has been named division chairman to organize the west section of Columbus and Franklin County for the Retarded Children's "Light A Life" campaign in November.

He will organize volunteers on the West Side and on the Hilltop, as well as in New Rome and Grove City to solicit funds during the second annual drive being sponsored by the Council For Retarded Children, Inc. His appointment was announced this week by the campaign general chairman, Mrs. Howard D. Sirak.

The November door-to-door drive will support the School For Retarded Children which provides expert training for Franklin County retarded children of school age denied by law a public education.

Children having an I.Q. of less than 50 are excluded from the public education program.

"But they have fears, frustrations, and ambitions just like all children do," affirms Mabee.

"And they want to be loved just like normal children are."

"They're just as precious, and we want to give them the opportunities for social adjustment and provide them training in occupational readiness as well as training in self care to make them useful citizens."

Unless this care is given, many of the children will eventually require care in a special residential institution, according to Mabee.

Mabee is currently recruiting area chairmen in each of the communities within his responsibility. More than 10,000 volunteers will be needed to carry out the solicitation of Columbus and Franklin County, he said.

Mabee is also president of the Columbus State School's Parents Volunteer Association, which is endorsing the campaign.

Westinghouse Employes Get Cost-Of-Living Increase

Some 120,000 Westinghouse Electric Corporation employes will soon receive their fifth cost-of-living increase as a result of the higher cost-of-living index announced today by the Bureau of Labor Statistics.

This is the seventh pay raise received by Westinghouse employes since Oct., 1955.

The latest cost-of-living increase, provided for under terms of current labor contracts, will become effective between Aug. 23 and Sept. 1.

The cost-of-living provision of contracts offered to the unions in 1955, provides for quarterly adjustments of one cent an hour for each one-half point change in the cost-of-living index.

On the basis of this newly announced increase of 1⅞ points over the April index, Westinghouse employes represented by unions with contracts calling for payment of the increase on a cents-per-hour basis will receive a three-cent increase.

Some individual union contracts provide for the adjustment to be in the form of a percentage instead of cents-per-hour. For employes in this group the raise will amount to 1⅛ per cent.

The hourly pay or salary of employes not represented by a union will also be boosted 1⅛ per cent.

For employes paid weekly the new raise will be effective with their next pay period. For those employes paid on a monthly basis, the raise will become effective Sept. 1.

Including the latest increase, pay rates for Westinghouse employes will be 11⅛ per cent higher than under terms of the former contracts. Since Oct., 1956, these seven increases total about 34 cents per hour on the average.

St. Helena Island, in the middle of the South Atlantic, is where Napoleon spent the last six years of his life, in exile, and he died there. It is now a port of call for two regular steamship lines. THIS GUNSMITH LIKES TO HUNT!

Pete Thacker's workshop is full of guns. His hobby of custom gunsmithing keeps him busy evenings and week-ends.

INSIDE ON THE Outdoors By ROD COCHRAN

With the squirrel season opening on Labor Day in southern and eastern Ohio this year, I got the old .22 rifle out the other day to check it over. The oiling I gave it last January had given it ample protection, the bolt worked smoothly, and everything seemed to be in tip-top condition. The first rule of gun safety is to use firearms that are in perfect working order.

As I rubbed the smooth walnut stock, I thought again about having a scope mounted on the rifle. I have considered this for several years, but I hated to give up the peep sight that was so deadly on bushytails when my shooting eye was 20-20. Time brings all things however, and perhaps this was the year for a scope.

I gave Pete Thacker, of Galloway, Rt. 1, a call, and made arrangements to leave my rifle with him the next day. Pete is a tool and die maker for the Clark Grave Vault Company, and his hobby of custom gunsmithing keeps him busy evenings and week-ends.

It's always a treat to walk into Pete's workshop and examine the fine guns. The fancy custom engraving always fascinates me, and I like to work the smooth actions in rifles. Pete enjoys working on small-bore varmit guns, and big game rifles like 30.06's and 270's. He always has some shotguns in for repair, and usually there is a muzzle loader or two around.

There are plenty of reliable gun dealers and sporting goods stores, but good custom gunsmiths are not easy to find. The emphasis on mass production has almost done away with hand craftsmen of all kinds, and gunsmiths are no exception. Pete, for instance, learned gunsmithing from his father, who had served his apprenticeship under his own father. There are many things that are passed on from father to son that just cannot be learned from books. For example, Pete blues his guns according to an old European method that may not be written down anywhere.

There are two kinds of "gun cranks." Those who just like to collect guns, and those who enjoy hunting with fine firearms. Pete belongs to the latter group, and he hunts deer and bear near Ridgeway, Pa., in the Allegheny National Forest. Two friends, R. V. Alter, of Lincoln Village, and M. R. Doty, of West Jefferson, are going with him this year.

Well, Pete and I decided that I needed a 2½ power telescopic sight, with crosshairs, mounted on my squirrel gun. Pete checked the rifle over and told me what I already knew, that the gun was in fine condition. With proper care, it is virtually impossible to "wear out" a gun from hunting. I've come to the conclusion that the rifle will probably outlast me.

The squirrel season, by the way, comes in Sept. 2 in Fairfield, Ross, Licking, and Knox counties, and the counties to the east and south of them. The season opens in Franklin, Madison, Delaware, and Pickaway counties Sept. 16. The squirrel season closes throughout the state October 31. All dates are inclusive.

X-way Businesses, Residents Face Big Problems

"Where do we go from here?" Businessmen in the Mound-Sandusky-st Expressway area are asking themselves this week.

All around their shops and stores, homes are being prepared for demolition. When will they be expected to move out? Most of them don't really know this as yet although they feel it will be around the first of the year. Some of the business property owners are not yet satisfied with the offers they have gotten from the appraisers and therefore are not yet able to notify their business tenants as to when they must be prepared to move.

The owners are finding it hard to look for other property to invest in since they aren't sure how much money they will receive from their present property. Many owners feel that the estimates that they have been quoted on their property are not high enough to cover the cost of relocation. Business people operating in rented buildings or storerooms will receive no money towards the cost of moving their stock or equipment.

Bill Herrup of Cragner's Pharmacy at 671 W. Broad-st, feels that it is a tough break for the small businessman in this expressway path.

Bill said, "In the 25 years that this drug store has been in operation we have managed to build up a lot of goodwill in this area. I'm afraid that it would come as quite a blow to many of our older customers if we have to leave this district altogether. I'm trying to find a place within four to five blocks of where we're located now. I'm going to stay in this neighborhood or bust!"

Jim Shott of Venus Cleaners located at 127 E. Sandusky-st said, "I don't know where I'm going to move or when I have to leave but I figure it will cost me in the neighborhood of $500 to have all my equipment moved."

There is still some debate as to how much frontage will be taken away from Memorial Baptist Church at 26 S. Sandusky-st. The final appraisal has not yet been finished but there is a strong possibility that the expressway will be built practically on the doorstep of the church. Rev. C. C. Clawson says he has not been notified yet of any changes that the Expressway will have upon his church.

Don Brunelle, manager of the Albers Super Market at 104 S. Sandusky-st says that he has heard nothing definite about the relocation of his store.

Paul Boyer, owner of Paul's Pure Oil Service at 770 W. Mound-st, said, "Of course I do not like the idea of having to move but you can't fight progress. My new filling station will be located on the corner of Georgesville-rd and Sullivant-av. I hope my customers will still come to me for service when I move to my new location.

Mrs. McQuiniff of Mac's Hardware at 735 W. Mound-st said, "My husband and I bought this property and started our hardware about four and a half years ago and we're just getting it built up to make a fine living for ourselves and our family. Now we have to move, we don't know where we'll start a new hardware and we don't know when we have to vacate our present location. It's hard to look for property to buy because we don't know how much we'll get for our present store."

Miss Mirolo of the Ardit Mosaic-Tile & Marble Co. at 667 W. Mound-st said, "Although negotiations are still in progress on our present building, our new building will soon be completed at 1110 Chambers-rd. We've been in business at this location for about 25 years and would have liked to stay another 25 years. But with the traffic congestion out here we feel that this expressway was really needed. In fact I think that Columbus should have built it many years ago. We don't know just yet when we will have to move. We are fortunate that we have a place to go, so many of the smaller businesses haven't been able to find new locations."

BUILDS HOME

A permit has been given Mr. and Mrs. Vernon R. Chute, 142 N Chase-av, to build a five rooms and one and one-half baths frame dwelling and two car attached garage at 1635 N. Hague-av in Franklin Township. Roy C. Haddox and Son, Inc., 1166 Chamber-rd, is the contractor.

PERMIT ISSUED

A permit to build a one-story stucco and frame dwelling at 456 Binns-blvd has been issued to Walter Cochran. T. D. Stethem, 606 S. Westgate-av, is the contractor.

And The Walls Come Tumbling DOWN!

FIRST TARGET of the wrecker's tools was this home in the Sandusky-st Expressway. It is . . . or was number 399, S. Sandusky-st. Here workmen of Angelo's Wreckers remove last traces of the second story.

Removal of houses isolated in the path of the Sandusky Street Expressway has started. There are 220 structures to be removed or demolished in the whole area. First action on this important part of expressway construction is being done by Angelo's Starling Street Building Wreckers, who bought nine houses for salvage purposes, of 24 offered by the State Highway Department. Demolition of the other 15 buildings on this first phase will start soon by wreckers contracting with the State Highway.

Lawrence Irwin, director of Slum Clearance and Rehabilitation, whose office Mayor Seasenbrenner and City Council has made responsible for relocating families displaced by such expressway projects, stressed the need for more homes for these families. Irvin stated, "There were 320 families in this area when the Sandusky Street Family Relocation Office was opened in May. The Relocation Office reports 23 families have moved. However, not all 23 families were in this first demolition area, which means there are some families living in houses scheduled to be torn down within the next couple of weeks."

Other Contracts Due Soon

According to State Highway Department reports, a contract for demolition of the second group of structures will be let Sept. 2. This group will include 21 buildings housing 36 families. Thus, a total of 55 buildings housing 69 families are involved in the first two demolition contracts. A third contract is expected within the next two weeks. The firms who are awarded the contracts have 30 days to remove the buildings. In order to keep up with the wreckers, more houses for rent must be made available at once. Director Irvin asks that anyone having a house or an apartment for rent please call the Sandusky Street Family Relocation Office at CA. [illegible]

Houses involved in any one contract are not in a row or one small area. For example, on the first contract, houses are located on Thomas-av, Campbell-av, Mound-st, Sandusky-st close to Mound-st and further north on Sandusky-st, close to Broad-st.

The path of the Sandusky-st expressway will connect with the almost completed Spring-st interchange on the north and goes south towards Mound-st. There will be a large interchange at Mound-st. The Mound Street interchange will necessitate the removal of buildings from the Mound-st bridge to Davis-av on the south side of the street and from the bridge to Souder-av on the north side of the street. At Mound-st the expressway follows Riverside-dr, crosses Greenlawn-av, goes through part of the Greenlawn Metropolitan Housing Project and ties in with Harmon-av close to Stimmel-rd.

The construction contract will be awarded Oct. 15, 1957. The financing of the project is on a 90-5-5 basis. The federal government pays 90 per cent and the state and city each pay 5 per cent.

Smooth Procedure

In some factories, the paint used for finishing various products is circulated in pipes. The hose lines of spray guns are attached to the pipes containing the desired colors and the finishing process is completed swiftly and easily.

Ice cream production in the United States during 1956 was approximately 660,965,000 gallons according to U.S. Department of Agriculture estimates. This was more than double that of 1940.

World attention has been focused in past months on the United Nations and the various trouble spots in the world. Your Columbus Public Library has numerous books on the United Nations and its accomplishments.

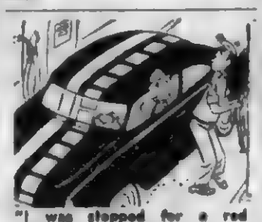
Nephew Becomes Disc Star

Doug Harden

Mrs. Lena Deible, 580 S. Ogden-av, is a mighty proud aunt. Her nephew, Doug Harden, has contracted a Phoenix, Ariz. record firm for four disks. He has already recorded and released a Reverb platter "Foolin' Me" with "The Storm" on the flip side.

Mrs. Deible, an employee of Kroger's, Hague and Sullivant-avs, says her nephew has many Hilltop friends. He played professional baseball, and in addition to his singing ability is known as an accomplished guitarist. He lives in Mesa, Ariz. His mother, Mrs. Cleo A. Harden, resides at 540 E. Markinson-av.



Build Garage

Welsford Homes, 2713 Welsford-rd, have a permit to build a one-story concrete block garage from 58-64 S. Powell-av.

Builds Carport

A permit has been issued Arthur C Sheppard, 358 Nashoba-av, to build a one-car frame carport. Courtesy Builders is building the carport.

Hilltop Family Spends Vacation Digging For Family Jewelry

RUBY MINERS — Twenty rubies richer after a day of digging in the Cowee Ruby Mines of North Carolina are the Howard Wilsons, with their three children, George, 8, Edward, 11, and Margery Anne, 5. Interest for the expedition began more than a year ago through an article in a women's magazine. The trip finally materialized in latter June as the focal point of the family's summer vacation.

Women like nothing better than to accept a dress compliment with "Why, thank-you, I made it myself." The day may not be afar when they accept a jewelry compliment with the same smug and self sufficient words, such as, "Why, how sweet of you. I mined it myself."

Hilltop pioneers of the "do-it-yourself" mining craze are the Howard Wilsons of 89 Powhatan-av, who took their first mining trip the last week of June.

Destination was the Cowee Mines of North Carolina, the search was for rubies and the "catch" was 20 of the brilliant red jewels. However, between the destination, search and catch were many hours filled with plans, advice and hard work.

Inspiration for the expedition came a year ago when Mrs. Wilson ran across an article entitled "Rubies For The Digging" in the March, 1956 issue of Woman's Day. Her husband was equally inspired with the idea of mining some family jewels so the Wilson's began making serious plans to hunt rubies in "them thar vallies."

They mapped their vacation trip this summer through Tennessee, Kentucky and the Smokies, with their focal point, the Cowee Ruby Mines of North Carolina.

With their three children, Edward, 11, George, 8 and Margery 5, the Wilsons spent a day digging, washing and studying stones, in hopes of finding some real gems in their buckets.

The step-by-step procedure consisted of first digging in the mine with a pick and shovel and filling buckets with the rock and gravel. Next the buckets were carried to a stream and the contents were washed in a screen, which sieved out the sand and dirt.

"We first carried five gallon paint cans which weighed approximately 50 pounds when full," Wilson recalled. "However, we quickly changed to smaller buckets."

Although guides were available to provide positive identification of the rocks, the Wilsons were able to come fairly close themselves. "The deep red color and the sharp edges were the chief characteristics of the stones," Wilson remarked. "And, our biggest thrill was when we found our first ruby in the first bucket of mud that we washed," he continued. "That was really something."

Find a 3 Carat Gem

The largest ruby found on the day the Wilson's were digging was about three carats. Probably one of the largest ever discovered there was a 22 carat stone found in 1956.

Rubies are found in gravel beds, which vary in thickness from two to ten feet. According to Edward, the best ones are found in a blue kind of clay.

However, it's pretty much of a toss-up where to mine as the largest stones are reputed to be near the road (which is a long walk from the stream) and the smaller, but more plentiful, gems lie conveniently near the streams.

While the Wilsons confined their mining efforts to rubies, emerald, garnet and sapphire-lovers may also dig for their gem desires in near-by mines.

Polishing Is Biggest Item

Although the digging, carrying and washing procedure is no easy task, the real problem seems to come after the stone is discovered. "I understand it costs 75 percent of the stone's value to have it cut, ground and polished," Mrs. Wilson said. "So you can see you don't save much money by mining your own jewelry."

"You never know, though," she added. "Maybe Howard will take a course in grinding and polishing one of these days. With our stone collection, it would prove quite practical!"

For Your Thoughts

Question: Should newspapers publish the names of juveniles who break the law?

Stanley Carlman, 822 Wedgewood-dr: "I believe that the publication of the names of juveniles would help prevent the spread of juvenile delinquency. I see no reason why their names should be withheld."

Mrs. Howard E. Davies, 45 N. Hague-av: "I think that many parents sincerely try to teach their children right from wrong — yet the children still do wrong behind their parents' backs. In all fairness to the parents and perhaps to a good job that the father might hold, I feel that the names should be withheld. However, circumstances vary, but I think most parents would appreciate it if the authorities came directly to them."

Mrs. John Greiner, 38 N. Powell-av: "No, in a way, I think it puts a mark on them and discourages them from improving themselves. Especially first offenders who are under 18 should be given another chance without publishing their names."

Mrs. Louis W. Rice, 576 Salisbury-rd: "I wouldn't think it would be necessary. I think it would reflect too much on the parents, whom I don't think are always to blame. Very often, I think, children are led into doing wrong by the crowd that they get into, and the parents may be quite innocent."

Miss Florence F. Stroyne, 251 S. Harris-av: "I think it's a 50-50 proposition but I do think that if their names were published, it might prevent them from doing that sort of thing again. I think there's a psychological effect from having your name in the paper."

CAR CLIMBS TREE

Boy Driver Killed

In a last desperate effort to avoid an approaching car, a 15 year-old high-school boy, driving at midnight with three fellow-students as passengers, sideswiped his own car against the wall of a viaduct, and skidded into a nearby tree. The impact was so violent that the car wheels were embedded in the tree trunk more than four feet from the ground. The youthful driver suffered a broken neck and skull fracture, dying instantly.

MOTHER RECEIVES $4,000

The boy's mother, a believer in the value of life coverages in time of need, had taken out a $1,000 Sun Life of Canada policy on her son's life. Mayor Urges Assistance To Relocators

I want to urge every Columbus citizen who might have a house or apartment that they could rent to a fellow citizen displaced by the expressway program to call the Family Relocation Office at CA. 1-3832.

The relocation office, which is under the Department of Slum Clearance and Rehabilitation, has had good cooperation from the Management Division of the Board of Realtors and from many individual citizens in its efforts to solve this tremendous problem of relocating Columbus families in order to carry out this important expressway program. But the office needs every citizen's cooperation to solve this problem completely, especially during the next four months.

With your cooperation we can build together our new Columbus, Ohio. — M. E. Sensenbrenner, Mayor.

Parents 'Really Rate' With West Band

Members of the West High Band Parents Club do not wait until school starts to plan work and activities for the new school year.

The uniform chairman and her committee have been hard at work this summer repairing and mending the uniforms after they were cleaned. This year, the uniforms will be issued to the band members on Wednesday afternoon and evening, Sept. 4. There is a preview game on Friday, Sept. 6, at West, at which time the band will participate.

With the exception of the instructors who are hired by the board of education, the Band Parents' Club of West High School is responsible for the entire support of the West High Band and orchestra, including the purchase and maintenance of the uniforms, as well as the purchase of instruments and their repair and maintenance.

Two of the projects to raise money for the band and orchestra are collecting sales tax stamps for redemption, and the sale of Christmas cards. The samples of the new Christmas cards are already in the hands of the officers and callers. Anyone interested in helping the Band Parents in this project may contact any of the officers or callers.

Dances, after the football games, for the students are also being planned. Sept. 13 will be the first meeting of the club, for this new school year. Band Parents are asked to please circle this date on your calendar and come.

The new officers for the West High Band Parents Club are: Mrs. John Ricker, president; Charles Apel, vice-president; Mrs. Reed Eagle, secretary; and Mrs. Wilbur Morrison, treasurer.

Committees are as follows: uniforms, Mrs. Edward McCleaf, chairman, Mrs. J. C. Calton, assistant; Christmas cards, Mrs. Curtiss Steele; insurance, Starling Williamson; sunshine, Mrs. Don Kessler; scrapbook, Mrs. Starling Williamson; sales tax stamps, Mrs. Paul Wichterman; publicity, Mrs. Mildred A. Callers are as follows: Mrs. T. Crawshaw, Mrs. L. G. Shaver, Mrs. Paul Hicks, Mrs. Donald E. Stemm, Mrs. H. W. Postlewait, Mrs. Carl Kruse, Mrs. Paul Langdon, Mrs. Earl C. Porter, Mrs. Eugene Federer, Mrs. Paul H. Frey, Mrs. Samuel Pennell, Mrs. Robert Selg, Mrs. Warren C. Huff, Mrs. James Hardy, Mrs. E. H. McClintock, Mrs. F. E. Bauermeister, Mrs. Howard F. Waidelich Mrs. Robert F. Lauer Mrs. Roy Miller, Mrs. C. W. Armstrong.

EIGHTY BAND UNIFORMS are maintained in tip-top shape by enthusiastic members of West's Band Parents Club. Seen here (l. to r.) are Mrs. Ruth Kraus, Mrs. Phyllis Barnard and Mrs. Mary McLeaf. Mrs. Barnard's husband, Clair, directs the West band. Jack Dale's junior and senior orchestras also are helped by the club.

Lots Of Ponies Expected At Beulah Show

Thoroughbred racing returns to central Ohio on Sept. 7 as Beulah Park opens a 25-day fall meeting, which concludes on Oct. 5. Officials expect a banner session, particularly in respect to the number of horses available for the programs. While there was a shortage during the spring meeting because of opposition from several other ovals in Ohio, Beulah Park reportedly will have practically a clear field for its autumn session.

Topping the list of features to be offered during the 25-day span is the $10,000 added Ohio championship at a mile and a sixteenth. It is scheduled for closing day, Oct. 5, and nominations will close Sept. 28.

Ken McIntosh, who will serve as racing secretary for this meeting, reports applications for stall space are numerous and it is his opinion that 800 to 1,000 horses will be in the area.

In addition to the Ohio championship, McIntosh has listed the Youngster and the Buckeye Juvenile for two-year-olds, the Upper Arlington and the Whitehall limited to sophomores while the more seasoned campaigners will get action in the inaugural, Bexley, Grove City and Franklintown, the last named a $4,000 event.

No eyes can see us weep,
But many a silent tear is shed
While others are asleep.

Request Turned Down For Eakin Rd. Rezoning

County commissioners have rejected a request to rezone a 24-acre tract near Eakin-rd to permit light manufacturing.

A petition containing 217 opposing signatures, presented by Attorney Thomas Applegate, was instrumental in the commissioners' rejection of the application. No industrial plans had been announced for the tract, which lies just north of Eakin-rd, east of the Baltimore and Ohio Railroad.

There is a large Amish population in Ohio, most of it extending through southeast Wayne County, eastern Holmes County, and western Tuscarawas County. There are other good-sized communities in Hartville and Uniontown above Canton; around Middlefield and Burton in Geauga County; and northwest of Columbus around Plain City.

Truth forever on the scaffold, wrong forever on the throne.

"Me . . . a murderer?"
People just like yourself become killers every day . . . and so could you! Want to know why?
Ask any police official. He'll tell you that the people who are involved in fatal traffic accidents aren't habitual criminals at all!
Mostly they're normal, respectable citizens who never had a real accident before!
But—just that once—they ignored a stop sign . . . exceeded a speed limit . . . failed to stop for a school bus . . . or passed on a hill! And they wound up taking another person's life!
Last year, 40,000 men, women and children died tragically on our highways—a terrible record!
Can anything be done about it? The answer is YES . . . if you help!

Here's how you can help stop traffic tragedies:
1. Drive safely and courteously yourself. Observe speed limits and warning signs. Where traffic laws are obeyed, deaths go DOWN!
2. Insist on strict enforcement of all traffic laws. Traffic regulations work for you, not against you. Where traffic laws are strictly enforced, deaths go DOWN!

Mr. Retail Shoe Man Are You Stymied In Your Present Position?

If so, it will be to your advantage to investigate an unusual opportunity which exists with Penneys at Great Southern Shopping Center.

We need an outstanding dept. manager to operate our shoe division — A challenging position which gives you an opportunity to really manage an important division of our fine store, for a fine company.

It is not a centrally merchandised division which is operated from headquarters — you buy, sell and operate on your own judgment. Applicants must have successful current shoe experience.

Freak 'Twister' Reloacates Boat Of Weatherman

A Hilltop weather observer found that a rarity in Columbus weather struck in his own backyard last week.

A localized storm, known as a "dust devil" hit on S. Powell-av, carried Bob Burwell's 90-pound boat over a three-foot fence and deposited it 80 feet away. Burwell, 406 S. Powell-av, is an observer at the Columbus Weather Bureau.

According to Burwell, the "devil" is caused by an excessive heating of the air near the ground.

Letters To The Editor

Aug. 28, 1957

Sir:

Thank you for the introduction of the Swap Column. Hope it lasts a long time. Since moving we found items we wish were something else in our new home. Also the children keep growing and needing different size clothing. Mother delights in trading any way because people are so interesting.

I vote that the Swapper's mart continue. Why not set a small fee per ad to give it longer life? Possibly less than to advertise for sale but enough to offset printing costs. Thanks again,

Mrs. H. M. Leupold.

Squirrel Hunting With Caution Is Safe Sport

According to Harold Green, supervisor of Firearms and Water Safety in the Division of Wildlife, during the 30 day squirrel season in 1956, 18 persons were injured and 6 were killed. During all other game seasons combined there were 49 injured and 5 killed. It is therefore apparent that the danger of being involved in a hunting accident is greater while squirrel hunting than while hunting any other game in Ohio.

Most of these accidents are the result of a person being mistaken for game or the victim being in the line of fire and out of sight of the shooter. The generally heavy cover in which squirrels are found is one of the reasons for the large number of accidents.

With the 1957 squirrel season running almost two months (Sept. 2 to Oct. 31 in the southern zone and from Sept. 16 through Oct. 31 in the northern zone) it is apparent that hunters will have to use extreme caution if accidents are to be kept to a minimum.

Green also says, "To avoid being involved in a hunting accident, be absolutely sure of your target before you shoot and if you aren't sure where your shot is going, don't shoot. Be sure to wear bright colored clothing and above all 'Think,' your gun can't."

More About The Responsibilities of Youth

A newcomer to the Hilltop advises that in a period of the past several weeks her home has been entered and vandalized, a daughter's bicycle has been stolen and now a three year old's tricycle is stolen from their front porch.

Some five young men were apprehended at the time of the vandalizing the house and were merely given a "talking to".

Such events are beyond the stage of mere "talking to" They deserve stricter treatment.

• • •

We are happy to reprint a letter received this week following our observations on the subject of youth in this column last week. We say "thanks" Dear Mr Hartley

On behalf of the members and officers of the West Junior Hi Y Club, we would like to thank you for your "Spectator" editorial in the Hilltop Record of Aug. 28

We should like you to know that we appreciate your rational approach to this problem

We too, believe that the youth of this community are for the most part a pretty substantial lot of which to be proud

Also, we believe that the adults of the Hilltop are commendable. Through articles such as you have written, perhaps everyone will come to subscribe to your "Let's not brand all young people as a result of these and other incidents" philosophy. This is our desire

Cordially indeed,
Michael Kagay, Retiring Pres.

City Charter Changes Are Long Overdue

We have long advocated a revamping of the outmoded Columbus city charter

Considerable newspaper space is being used in current reports of what others think the charter should contain. It was interesting to note that Citizens Research advocates something between a city manager and the mayor form of government.

Most prominent of reports that have and will continue to appear will be those of the city council appointed group to study the charter

The fact that the subject is getting a good bit of discussion is good. We can't quite agree that the matter of revision of the charter should rest with city council. It appears that we are likely to have only those things injected as changes that are for the good of the politicos who may seek ways and means of strengthening their political positions

We would much prefer to see the matter have a proper airing by some outside public spirited group who could come up with the revisions that will do the most good for the city outside party lines. Any such change and accompanying higher salaries will be far easier to sell to the public

The Development Committee for Greater Columbus is doing a good job in working toward a better Columbus. In view of the fact that Citizens Research says it is not in a position to pursue the problem of charter revisions it appears that a logical step at this time would be for the Development Committee to take on this task. Their independent findings would certainly be welcomed by a citizenry that will agree that a lot of our municipal shortcomings are the result of an outmoded charter

Now Is The Time To Reserve Space

We had the pleasure this past week of viewing the Hilltop and surrounding area from a helicopter with our take off and landing at Sullivant Avenue Airport.

And such a view can result in but one obvious bit of advice to the city fathers . . . **now is the time to reserve space for the future.**

Columbus is growing by leaps and bounds. What was a corn field a few years ago is now occupied by a housing development or a huge business or industrial area. This growth is by no means at an end.

And all the time air travel is growing. When you view this community from the lofty vantage point of a seat in a helicopter you can't help but believe that these "whirly birds" or other such planes will soon be a common sight

Already Cincinnati has a regular helicopter route about the City with something like 20 stops

Now is the time for all city departments to anticipate their needs. We should be making reservations of park lands, of school sites of sites for airfields

We have a very fine field in Sullivant Avenue Airport. Our Airport Commission needs to seriously consider the value of this field to the future of aviation in Central Ohio. One large municipal port will not solve our future needs. Nor should we wait so long for the establishment of more urban airports that we are forced to accept something many more miles from the city.

Now is the time to look about and reserve space for the future.

Community Center Plan Aids Home, School, Church

A planned community center . . . one of the first and one of the finest in the United States . . . is in prospect if architects and representatives of the various groups to build in the new Hilltop Community Center are able to work out such plans. Pictured here is an architect's plan of the proposed over-all layout showing the Glenwood Methodist Church just west of the intersection of Valleyview-dr, and N. Hague-av, with the Hilltop YMCA next, then the Luther B. Turner Masonic Lodge, the present Valleyview Elementary School, then the proposed new junior high school with the new city park to the extreme west.

The proposal has the endorsement of the various architects as well as city parks superintendent Ray Dietz and representatives of the board of education. If carried out, there would be no fences in the area and a mall would run almost the length of the entire section. Parking facilities would be on a cooperative basis and the almost 50 acres would be planned for the greatest utilization of the plot so as not to duplicate service areas. The various boards are now studying the proposal. It is hoped that the desired cooperation will be forthcoming before any further construction is started.

Business Groups Spark 'Y' Enrollment Campaign

Business and industrial firms of this community this week are to be contacted by local business men who are sparkplugging the annual Hilltop YMCA enrollment. Workers of the business and industrial committee met at noon today for a kick-off meeting

Rev. A. J. Wold, general enrollment chairman, pointed out, "We have a bigger job than ever to do this year in attaining a membership of 3300 for the Hilltop "Y" In addition it is important that we receive substantial gifts for the "Y" building fund.

Better 'Viewpoint' Promised To Football Fans This Year

The new football season to be previewed at West High School Friday evening promises to be one of the most successful ever, with an encouraging prospect of a winning team coupled with the assurance of an improved spectators' "viewpoint."

West High School officials are strongly supported by student body leaders in inaugurating a policy of enforced spectator behavior to eliminate nuisances which have detracted from enjoyment of games in years past

Practices of students blocking spectators' view by strolling through the stands during the game, and bombardments with empty popcorn packages top the list of offenses.

Robert Darrow, principal, assisted by leaders of student organizations will discuss the problem with students Friday over the school's public address system.

Participating in the discussion will be Annette Bates, president of Y-Teens; Pete Trott, president of Senior High Student Council; Linda Fuller, president of Junior High Student Council; Cliff Shoemaker, president of the Hi-Y Club and Dave Hallam, co-captain of the football team

Faculty members and student officers believe that students will, when considering the problem as one affecting the prestige of their school, cooperate in the program.

Any student or spectator unwilling to adopt the prescribed code of audience behavior during a game will be asked to leave the stands

What Is A Good Fishing Motor?

This fisherman considers his outboard as important as his rod and reel. There are no outboard horsepower limitations at Delaware Reservoir or Buckeye Lake. Six horsepower or less motors are allowed at Hoover Reservoir. No motors are allowed at Madison Lake.

INSIDE ON THE **Outdoors** By ROD COCHRAN

The question, "what is a fishing motor", has been asked thousands of times, and the usual answer was something in the five horsepower class. But not anymore. A fishing motor today can be anything from a 3 to the largest outboard made.

Motors in the small horsepower category, however, still get the popularity nod. Fishing boats are usually lighter than the average pleasure craft, and it takes less horsepower to run them. Light weight is important too. Many anglers now have their own boats and trailers, but some carry their motor in the trunk of their car and rent a boat wherever they go. And, 50 pounds is about all a man wants to carry down a hill, especially when he's loaded down with a gas tank, tackle box, life preservers, lunch basket, and other paraphernalia.

Most fishermen appreciate the conveniences that pleasure boaters demand. He does not need a motor powerful enough to pull water skiers or one fancied up with chrome trim, but he wants a remote fuel tank, and especially a gear shift. Neutral and reverse might be considered more important for the fisherman than for anyone else, since this maneuverability often makes the difference between catching fish and not. Being able to stop and reverse will also save a lot of trolling rigs that get snagged.

Bigger Ones Useful, Too

In addition to motors in the 5½ to 10 horsepower class, a slightly larger motor such as an 18 is becoming highly popular for fisherman boat owners. This size of motor is ideal for fishing Lake Erie, it has the power to push a big boat fast, and yet it idles almost as well as the smaller engineers. It is also fine for the pleasure boater who fishes occasionally.

For a man who fishes Ohio waters exclusive of Lake Erie, a wise choice would be a motor of 6 horsepower or less. They are plenty powerful enough for our waters, and are excellent for trolling. They are also allowed at many city reservoirs and lakes where larger motors are not permitted. Hoover Reservoir, and the Muskingum Conservancy District Lakes in eastern Ohio, are examples of waters that have a 6 horsepower or less limit.

Outboards are fast becoming a "necessity" for fishermen. When you buy yours be sure you get the one you need — not too much power or too little. Buying an outboard takes the same careful consideration that you would give a new flyrod before acquiring it.

Columbus Jets To End Season With Four Specials

The Columbus Jets, who have already surpassed their entire 1956 attendance, have four more games with Richmond to draw about 11,000 fans and reach the financial break-even point of 180,000.

Jets General Manager Harold M. Cooper was of the opinion that this could easily be done. Despite their poor position in the standings practically all season, Cooper said Columbus still could outdraw 11 of the other 22 triple-A clubs.

The attendance this year, explained Cooper, certainly proves that Columbus is one of the better baseball cities in the country and with a contending club there is no telling what the attendance might be.

The Jets are about 40,000 ahead of Wichita, Kans., a club that has been leading the American Association practically all season.

Columbus could also finish ahead of Charleston, Louisville, Indianapolis and St. Paul in the Association.

The Jets are certain to outdraw Havana in their own league and could possibly beat out Montreal and Miami with a total of 180,000.

Should the Jets reach their break-even point, they would probably also outdraw three Pacific Coast League clubs.

The players and Manager Frank Oceak have been in agreement that the fans have been more than fair with them and have asked the management to thank the fans for their acceptance of the club.

Cooper reiterated that he hoped to see a large turnout for Fans Appreciation Night on Friday, Sept. 6. Admission will be only 50c for any seat in the grandstand and there will be a gigantic fireworks display following the game.

Jets' Final Home Stand

Thursday, Sept. 5, Richmond, 8:15 p.m., Player of Month award.
Friday, Sept. 6, Richmond, 8:15 p.m., Fans Appreciation night.
Saturday, Sept. 7, Richmond, 8:15 p.m., Father and Son night. Player of Year award.
Sunday, Sept. 8, Richmond, 2 p. m., final game of the year.

Player of Month Award

For the third straight year, Shaw Jewelers have sponsored the award. The 1957 winners so far have been Cholly Naranjo (April), Ron Blackburn (May), Eddie O'Brien (June) and John Powers (July). Members of the press, radio and TV should telephone their vote for August at CA. 4-1178.

Fans Appreciation Night

In appreciation of the fine support given the Jets during the 1957 season, admission will be only 50c for the entire grandstand. There will also be a gigantic fireworks display after the game.

Father and Son Night

All children will be admitted free when accompanied by their father or an adult admission. All children will be eligible to win one of the 66 prizes, which include 40 Stan Musial model gloves, four bicycles and 24 baseballs.

Player of Year Award

For the third straight year Shaw Jewelers will present an appropriate award to the player of the year. Past winners were Spook Jacobs (1955) and John Lipon (1956).

25-Day Session Begins At Beulah This Week End

With horses arriving hourly for the Beulah Park meeting which opens Sept. 7 and runs through Oct. 5 at Grove City, Racing Secretary Ken W. McIntosh is busy lining up material for the numerous features to be offered during the 25-day meeting.

Starting with the inaugural handicap on opening day, there will be nine special events during the meeting, with the climax coming on the final day of the session when the $10,000 Ohio championship at a mile and a sixteenth will be run.

Two specials are listed for two-year-olds, the Youngster on Sept. 14 and the Buckeye Juvenile on Sept. 28. The Upper Arlington on Sept. 21 at six furlongs and the Whitehall at a mile on Sept. 28 are the two races limited to three-year-olds.

Post time for the meet will be 2:30 p.m. daily. Eight races will be carded daily except Wednesdays and Saturdays when nine events will make up the program.

Rabbit Breeders Schedule Wiener Roast On Friday

Families belonging to the Columbus Rabbit Breeder's Association will hold a wiener roast at 7 p.m. Sept. 6 at the home of Mr. and Mrs. Gleasner Burke, 6400 Scioto-Darby Creek-rd.

Final plans for the fall show of the club scheduled for Sept. 20, 21 and 22 at the Ohio State Fairgrounds will be made during the regular business meeting.

LET'S EXPLORE OHIO!

LAKES

Lake Hope State Park, located within the 18,033-acre Zaleski State Forest on State Route 278, between the east and west State Route 56 and US Route 50, was Ohio's first venture into top-flight recreational and vacation facilities.

Lake Hope lies in a narrow, steep valley and is almost completely bordered by dense woods and high hills. It is a popular fishing lake but is perhaps best known for beautifully appointed vacation cabins, finished in the hardwood lumbers grown in this state. There are seven housekeeping cabins with large living rooms, wood-burning fireplaces, comfortable furniture and completely modern kitchens and bathrooms, each accommodating six persons.

Lake Hope has fourteen type B cabins, each sleeping six to eight people and a group of 22 separate sleeping cabins which, along with the main dining lodge, provide perfect accommodations for vacationing families and fishermen. Additional information can be obtained by writing to the Lake Hope State Park at Zaleski, Ohio.

This photograph shows the beach and swimming facilities and some of the boats on Lake Hope.

Lighting Exhibit Is Scheduled

Actual kitchen scene in the Luxtrol "Dream House on Wheels."

The latest in home lighting—for beauty, convenience, and safety—is the theme of an exhibit sponsored in the Columbus area by the Columbus and Southern Ohio Electric Company. Open free to the public, the Luxtrol "mansion on wheels," featuring a special light-control device, will be located in the Central Point Shopping Center, Sept. 6 and 7 and at Great Western Shoppers' Mart from Sept. 10 through 14.

The "mansion" is one of three traveling displays now touring the United States. The coach shows portions of six rooms designed to show illumination effects in conjunction with the latest in interior decoration for ease and comfort in modern living. Rooms, furnishings, and accessories are scaled to three-quarters life size, the illusion of normalcy being created through mirror effects.

Visitors to the coach may experiment with a Luxtrol light control, producing a variety of more than 30 lighting effects.

Volunteer Social Workers Needed For Service Bureau

More men and women volunteers are needed for social service agencies than ever before, according to a report from the agency contact committee of the Volunteer Service Bureau.

The bureau, a division of the Council of Social Agencies, has compiled a report showing that 379 volunteers are needed to aid 66 social service agencies during the year in Columbus and Franklin County.

Miss Helen Bowers, head of the Volunteer Bureau, said the requests from agencies for volunteer workers is increasing because needs are increasing. Expanding needs are attributed to the growth of the community. There has been a general increase in population over the past few years. An increase in the number of aged and children is a major factor in the need for more helpers in agencies serving those groups.

The biggest increase in requests for volunteers came from settlement houses. Fifty volunteers are needed there. The reason for this, according to the committee, is because settlement houses need strong leadership to offset juvenile delinquency.

A total of 95 volunteers are needed to serve as group leaders and entertainers to help people have fun at settlement houses, children's institutions, mental hospitals and golden age centers.

Ninety-three volunteers have been requested to serve as play and recreation leaders at nurseries, community centers, hospitals and children's homes.

Forty volunteer drivers are needed to transport children and adults to clinics and hospitals for treatment; 83 office workers will be required to work as receptionists, typists and filing clerks and 48 friendly visitors are needed at rooming houses, nursing homes, hospitals and the county home to read to the shut-ins, write letters and entertain. Fifty specially skilled volunteers are requested to teach crafts, music, art and [illegible].

Miss Bowers said interested men and women can call the Volunteer Service Bureau, CA. 8-5696, or visit the office at 137 E. State-st. She said the average time required of a volunteer worker is three hours each week.

Although the Volunteer Service Bureau is supported by United Appeal-Community Chest funds, it serves private and public agencies outside the United Appeal as well as those supported by its fall campaign.

'Cookbook Carnival' Offers Month Of Keen Competition

"Cookbook Carnival", a cooperative effort by over 200 electrical appliance dealers in central and southern Ohio and Columbus and Southern Ohio Electric Company, will afford women an opportunity to win scores of prizes simply by demonstrating culinary superiority.

This fun-filled competition, designed to tell added numbers of women the numerous advantages of cooking electrically starts on Sept. 9 and runs through Oct. 12.

Automatic electric ranges and automatic electric fry pans will be the prizes in each of five categories of recipes. Free cookbooks will be given to all women who attend a product demonstration in a dealer's store.

The first week of the Cookbook Carnival contest will be devoted to recipes for quick breads, with pies, one-dish meals, cakes and cookies following in successive weeks.

Each week two top recipes will be awarded electric ranges. The next 10 best recipes will win electric fry pans. Recipes in Cookbook Carnival will be judged on originality, simplicity, composition and exactness of measurements.

First Helicopter Ride Gives Exciting View Of Future

HILLTOP U. S. A. as seen from the plastic nose of a helicopter is an attractive panorama. This view was taken looking east from the roar of West High School. A close look reveals a football practice in progress at Magly Field. The Leveque-Lincoln tower is seen on the horizon just left of center.

By Marcus Orr

Would we like to go up in a helicopter? That was the eager offer Gomer Jones, manager of Sullivant Avenue Airport as he caught the arm of publisher C. C. Hartley last Thursday in the post office.

Too good to pass up, he thought, so it "was a deal." There was room for an extra passenger, so editor Marc Orr volunteered, (G.I.style) to go along and take some pictures.

We arrived at Sullivant Airport at 11. Learned that the "whirlybird" had been roosting at the airport between daily excursion stints at the State Fair. Ohio Valley Airways owns the craft and sold rides at $5 per [redacted].

Pilot Robert Rue finished wiping off the pastic cockpit of the 'copter and invited us aboard.

He adjusted our safety belts, not any too tightly we thought, and then asked "Would you like to have the door removed . . . for better pictures? "No-siree!" my better judgement boomed back . . . but only my face mirrored the answer. It was at this point that the cameraman revealed that he had never been any higher off the ground than the hay loft window! 'Copters look flimsy but are quite safe, we were assured . . . they can land even if the engine conks out.

We began to ask some questions . . . needed some statistics for our notes. The craft cost nearly $50,000. The engine was a "200-horsepower six-cylinder opposed, vertical" (not opposed to vertical flight, we prayed).

After a slight delay the engine barked to life. Had to wait for the gas sumps to refill; Pilot Rue explained quietly.

After a good warmup and careful check of instruments we rose about 20 feet, tipped forward a little, and like a charging buffalo left the field in a swirl of dust and straws. We were airborne! The Leveque-Lincoln tower had nothing on us!

Houses soon resembled the miniatures at Great Western's Walk-o-Wonders. From our plastic bubble the whole Hilltop was a panorama . . . the newer homes and additions were arrayed neatly like a battalion on a parade field. The older homes seemed secure nestled among the trees. You notice the trees more from the air. On the ground you take them for granted. We took some pictures.

The 'copter was quieter than we expected. Pilot Bob Rue attributed this to the fact that the engine was behind our seat, and sound padding was good. The ride was really soft . . . something like being in the seat of a Cadillac, suspended in space by skyhooks! Or, maybe this is the way a spider feels hanging in mid-air by his thread.

The sun shone in from all sides. The visibility was perfect . . . no hood or propeller to block the view. Just a sheet of plastic between us and space.

We hovered over Miriam, Rosary, Franklin Heights, Ternstedt and sprawling Westinghouse. Then out over Wilson-rd. The Hartley youngsters waved up from their back yard. How they must have envied their old [redacted].

Swinging back over Broad-st we were aware of the advantages of air flight. We missed that tangled lunch-hour traffic below. We began, too, to see a very practical application of the helicopter in business and family life. In 10 years, give or take a couple, we'll wager that Columbus will have helicopter taxis. They have such a service now in Cincinnati our pilot told us.

With craft such as these, using the fine facilities at Sullivant Avenue airport, businessmen could hop across town, out to farms or over to the municipal airport with a minimum of fuss, we thought.

We used up all our film, and it was time for lunch. No pretty hostesses with a tray of food in these jobs. The return to "terra firma" was feather-light and uneventful. The approach to Sullivant airport was unobstructed and certainly "ducksoup" for the pilot.

Our conclusion: helicopters are here to stay!

Hilltop YMCA Enrollment Gathers Speed

THIS GIANT SCOREBOARD, posted with Hilltop "Y" Enrollment goals in scoreless now—but by Sept. 25 these workers hope to see it well filled with impressive totals. Posing with Rev. A. J. Weld, general chairman, are residential workers (left to right): Mrs. Shirley E. Weldren, 2178 Suncrest-dr, Mrs. Charles Link, 2182 W. Mound-st; and Mrs. Harry Crawford, 186 N. Roys.

Membership Goal To Total 3,300

Opening gun of the residential section of the annual Hilltop YMCA membership enrollment will sound next Tuesday.

Set for 8 p.m. at Hoge Memorial Presbyterian Church, the second phase of the membership drive will be launched under the direction of Rev. A. J. Wold. The first phase, a canvass of businesses and industries began a week ago. John Nippert is assistant general chairman.

At next Tuesday's meeting residential chairmen, Mrs. Ray Anderson and Mrs. William Jones will assemble with their team captains to issue instructions. Some 300 workers will begin the door-to-door enrollment the following day.

Goals this year are for 2200 youths and 1100 adult members. This is an increase of 90 and 70 respectively over last year's grand totals. Cash gifts in 1956 amounted to $4170 and $2179 for the building fund. An increase is sought this year.

Residential workers Tuesday will receive kits and instructions from H. G. Deems of the "Y" board. Guests present will include O. A. Donnenwirth, of the Market Exchange Bank who is city-wide YMCA membership chairman, and C. J. Dyer, metropolitan general secretary.

Color slides showing "Y" program activities will be shown by Al Hollowell, Hilltop branch secretary.

Victory Meeting Sept. 25

Final tally of the enrollment will be made at a victory meeting at Hoge Memorial Church, Sept. 25. Following is a list of residential section chairmen: Mrs. Ray Anderson, Mrs. Harry Crawford, Mrs. Paul Leighning-

ON MOUND STREET

School Lights Go Up At Wheatland Avenue

WRAPS COME OFF the new traffic light on W. Mound-st at Wheatland-av. Installed to meet the needs of children crossing busy W. Mound-st to reach St. Agnes School seen in the background on north side of the street and Hilltonia Junior High on the south side, the installation is the push-button type. Pedestrians needing to cross may press a button on the conveniently located control box, changing the traffic signal to green. The walk signal remains for 20 seconds, followed by a seven-second clearance period when neither traffic nor pedestrians move. Autos are always assured 30 seconds of travel time before the signal can be changed again to "walk." Traffic regulation department crewmen shown atop the platform are Ray Davies and Joe McGreevy.

It takes a seemingly complicated system of controls to change the traffic signal to one permitting cars to move out of Wheatland-av onto W. Mound-st. Paul Wheeler, crew foreman, makes a final adjustment. Autos approaching W. Mound-st on Wheatland-av touch off an automatic detector and a trip control which, in turn, changes the traffic light signal.

. . . But What About Hague? Parent Groups Seek Action

Mound-st from its west limits to downtown has posed a big problem to city traffic engineers, motorists and parents of school children alike.

With ever-growing commuter traffic and new schools along the way the problem has become more and more acute. With a budget to battle, city traffic engineers report that sites for new traffic lights must be picked with extreme care.

On the other hand worried parents are crying aloud for action now in controlling fast-moving cars on Mound-st. Earlier this week parents in the West Side were drawing up a petition for a light where 50 youngsters cross McDowell-st on their way to Bellows School.

On the Hilltop another petition was under way seeking a light for Mound and Hague. Writing to the Hilltop Record a S. Harris-av resident, Mrs. Donald Fiscus, expresses her concern in the following "Letter To The Editor":

Sept. 6, 1957

Dear Sir:

"I have a petition, signed by the required ten home owners, for a traffic light at Mound and Hague. How many requests have been made for a traffic light here? From the many people I have talked to, it really is a big joke. But who is having the best laugh? — Not the people living in this area. Do you want a traffic light? Get a petition signed and send it to the Traffic Engineers for filing in the proverbial circular file under "Misc." or almost that.

"I have been told by Mr. Musick, Traffic Engineer, that I can send this petition in, but it would not be taken care of for many months, if at all. What's the hold up? Well, hold your hat—this is a dilly. Eakin-rd has not been cut through from Harris-av to Hague-av. Isn't that something? One block of one street prevents a traffic light at what I feel is a perilous intersection.

"During the peak hours of traffic you can stand on the corner of Mound and Hague and if you are an adult and alone you might get across in three to five minutes but add five to ten minutes more for each child you

Maybe This Is An Answer

This past week we had the pleasure of talking with a local area school man who told how he maintains discipline in his [redacted].

Seems that in two years he has paddled but three children. But his paddling has been well advertised. The most recent boy to receive such treatment remarked to all the boys gathered in a group, "He spaces the paddle strokes just far enough apart that the sting has just left when the paddle hits again."

Incidentally, discipline is at a high point in this school!

$100,000 Swim Pool Is Projected

A brand new swimming pool may be ready to use in this area next summer.

The Board of Zoning Adjustment last Friday approved plans for $100,000 swimming pool facility. The pool will be located at the northwest corner of Briggs-rd and Harris-av. Architectural drawings have been completed and actual construction is expected to begin soon.

Frederick D. Schaaf, 280 S. Southampton-av, the builder who will also operate it, said that for the past two and a half years he has been in the process of finding a suitable location for the pool. The proposed site is a five-acre tract of land.

Schaaf said that the pool will be run on a membership basis. The pool will be 140 feet by 160 feet and will have a long, one-story California style bath house. Parking for 150 cars will be provided on the five-acre tract. The beach area will be about the same size as the pool. A concession stand will be in operation to serve the bathers.

The name of the pool has not yet been chosen, but Schaaf says that he has several in mind. He is considering running a contest to find a suitable name.

Schaaf said that the pool should be built by the end of this fall and will be given a chance to season this winter. It is expected to be in full operation next summer.

Study Mayor's Safety Request

New York Central Railroad officials of the Ohio Division in Springfield are studying Mayor M. E. Sensenbrenner's request for better safety equipment at dangerous crossings on N. Sylvan and N. Hague-avs.

The mayor on Sept. 4 wrote to J. W. Crowley, local NYC superintendent, asking for a survey of bad conditions at the crossings. Flasher lights were asked for the N. Sylvan crossing and traffic gates were suggested for the N. Hague spot. The mayor's letter was referred to higher officials in Springfield. No reply has been made.

Need for improvements at the crossings was emphasized in a picture editorial in the Hilltop Record several weeks ago.

Rev. McClure To Leave Church Pulpit

Rev. O. G. McClure

After more than eight years as pastor of Hilltop Church of God, Rev. O. G. McClure, has accepted the position as pastor of a congregation in Indianapolis, Ind.

Rev. McClure came to Columbus from Lafayette, Ind., in 1949 when the congregation was located at 116 S. Wayne-av. During the eight years the church moved to 635 Whitethorne-av, where they built a parsonage, sanctuary and educational unit.

Rev. McClure will present his farewell sermon Sunday, Sept. 15.

Edward Lyons Hurt When Hit By Exploding Shell

Edward Lyons, 6, was injured Sunday afternoon when a fragment of an exploding shell struck him in the left thigh, police reported. He is the son of Mr. and Mrs. Richard Lyons of 405 N. [illegible].

The shell exploded when a playmate struck it with a hammer, said police. Edward was treated at Mt. Carmel Hospital and released.

Quick action on the part of Valleyview parents and the village council has brought a much-needed school walk-way to reality.

A few weeks ago, the mothers and fathers of children attending Valleyview Elementary School complained that there was no safe place for their children to walk to school on Valleyview-dr. They were forced to walk either on the road, which has a narrow berm, or in ditches that are often filled with water.

Council proposed to build a gravel walk-way to the school from Hague-av, the cost of which was to be shared by the city, the county, and Valleyview. Valleyview has constructed a guardrail about 60 feet long at Valleyview-dr and Hague-av, where the gravel path comes closest to the road.

Charles Ringer, mayor of Valleyview, said that he hadn't received a bill for the guardrail yet, but at any cost it had to be done to protect the children.

Parents say that now that the walk-way is completed they don't feel so apprehensive about their children on the way to and from school.

Quilting 'Fever' Seems To Be A Tonic For Mrs. O'Harra, 80

When friends of Mrs. Matilda O'Harra, 80, of 83 S. Powell-av, come to call, they never ask what she's doing. They know she's always quilting!

In fact Mrs. O'Harra has hardly put her needle down since she was 30 years old. It was then that her husband died and the young widow began making a living for her daughter and herself as a [illegible].

However, for the past 15 years, Mrs. O'Harra has turned her sewing talents exclusively to quilt-making—partly because of her failing eyesight and partly because she finds it so completely relaxing.

"I've worked all my life and I can't stop now," Mrs. O'Harra said. "I relax when I work but when I'm idle, I worry. I'll probably be quilting for the rest of my days."

And from the number of "quilting customers" Mrs. O'Harra has accumulated, she might very well be. After advertising one week in this newspaper, she received 15 calls.

"I didn't expect so many," she remarked. "So I just took their names and told them I'd make their quilt if I lived long enough."

Averages 4-5 a Summer

For the past seven years, Mrs. O'Harra has been averaging four or five quilts every summer. "I suppose I've made more than 25 in that time," she said. "I've always been sorry that I didn't keep a record of them."

She gives up her quilting during the winter months when she travels to New York to visit her daughter, granddaughter and two great-grandchildren.

Her quilting career, which began at the side of her mother, was resumed about 15 years ago at the Zion Lutheran Church.

"A group of us, 14 or 15, would spend a day every week at the church working on a quilt. The proceeds, of course, would go to the church."

Unfortunately, attendance dropped until only three "quilters" were left five years ago. "Then we broke up," recalled Mrs. O'Harra. "Seems the younger people just don't have much interest in it, and the older ones are getting too old."

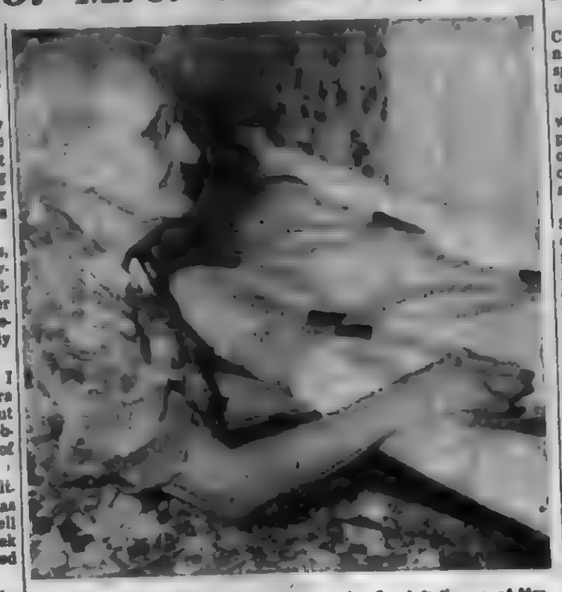
Mrs. O'Harra's quilting begins with the marking, which she considers, by far, the "most tiresome" part of the job. "My customers piece their own covers," she explained, "and then I must mark the patterns on it, the places I will quilt. This usually takes two full days."

From there, Mrs. O'Harra spends half or three-quarters of a day putting everything together. "I spread out the lining, next the cotton, and finally the cover. Then I must pin down the corners, stretch it and smooth it out. This part takes a lot of walking and a lot of stretching."

The next step is rolling it up and putting it on the frame, ready for quilting. "I have to have help in this part," she said, "usually my neighbor helps me with the rolling. And then I spend the next five weeks quilting. That is what I really enjoy."

Although Mrs. O'Harra's quilts take approximately five weeks for completion, a complicated design and pattern may take much longer.

To Last a Lifetime



She also emphasized the importance of choosing good material for quilting. "After all, when you consider the hours spent making a quilt, you certainly want it to last a lifetime. I still have a quilt of my mother's that is 80 years old."

Another suggestion from the veteran "quilter" is that you must stick your fingers. "If you don't, you aren't going through all the fabric layers and your stitching has to be ripped out," she explained. "Your fingers must be your feelers on the underside of the quilt. And you've just got to stick them!"

It seems that needlework is certainly going to stay in Mrs. O'Harra's household. "What do I do when I'm not quilting?" She looked up from her four-poster "easel." "Well, I crochet quite a bit. I do enjoy crocheting, you know." Which could easily start another story!

GUILD TO MEET

Senior Wesleyan Service Guild of Glenwood Methodist Church will meet at the church Sept. 16, dinner at 6:30 p.m.

MILES OF QUILTS have passed under the deft fingers of Mrs. Matilda O'Harra. Here she works on her latest project.

Hospital Gets 'Go Ahead' On Contract

Way was cleared Monday for the Franklin County Hospital Commission to go ahead with contracts for construction of a four-story addition to Mt. Carmel Hospital's school of nursing.

Common Pleas Judge Dana F. Reynolds refused to grant a temporary injunction asked by the C. C. Vogel Co., 715 S. Wayne-av. The Vogel Co., which bid $886,665 on the project, challenged the commission for accepting a higher bid of $913,444 from the Altman-Coady Co.

The commission "does have a discretion in awarding of a contract . . . and is not bound to make the award to the lowest bidder," the judge stated.

The judge pointed out that of the recent $15 million hospital bond issue, the commission allotted $653,000 to Mt. Carmel, "which is $233,000 less than the lowest bid . . . the difference to be borne by the hospital itself."

Wolfe Opened Electric Shop After Retiring From Railroad

Gene Wolfe, manager of Wolfe Electric Sales and Service, 2427 W. Broad-st, opened his first electrical store in 1946 on Wayne-av.

Gene Wolfe

In 1947 he moved around the corner to his present location on Broad-st.

Born in Junction City, O., Mr. Wolfe went into the army after finishing school.

Following his term in the service, Wolfe went to work for the Pennsylvania Railroad. He retired from the railroad after 28 years of service to open his electric shop.

He has employed Warren Minnick in his store for the past four years.

Mr. Wolfe and his wife, Dorothy, reside at 76 N. Ogden-av. They have one daughter, Sylvia, who is known by everyone as "Skip." "Skip" also works in her father's store.

"My favorite vacation spot is Tucson, Arizona," says Mr. Wolfe. "I try to make it out there every year if I can. I've missed the last two years because of illness in the family, but I intend to make it this year. I love the mountains and the dry climate, I always feel like a new man when I get back."

Mr. Wolfe enjoys his club memberships. He is a past commander of the Veterans of Foreign Wars and a past president of the Columbus Chapter of the 37th Division. He is also an active member of Hilltop Kiwanis, the Maennerchor, Germania Club, and HBA.

Local Ministers Invited To Lazarus Retreat

The second annual Retreat for Protestant ministers and lay members of their churches will be held at Boy Scout Camp Lazarus, five miles south of Delaware, on Saturday afternoon, Sept. 14. All ministers of the Protestant faith of the Southwest Area have been invited to attend and to bring lay representatives of their churches.

The program will begin at 1:30 p.m. The Rev. Raymond W. Hibbard, pastor of the North Broadway Methodist Church, will be in charge of the program. He has served for years as chairman of the Central Ohio Council Protestant Committee on Scouting.

Emphasis this year will be upon youth and the part they can play in the church program, the God and Country Church Awards Program, and Scouting's current four-year Theme — "Onward For God and My Country." A Vesper Service and conducted tour of the old camp grounds will be conducted. Dinner, served without cost to ministers who have reservations, will be at 6 p.m. in the camp dining hall.

Reservations should be made not later than Thursday of this week by calling Boy Scout Headquarters, CL. 2-5513.

For Your Thoughts

Question: How do you feel about the proposed increase in haircut prices?

Mr. Arnold Cauna, 39 N. Harris-av: "I don't like it at all! I have two boys and it will cost almost five dollars for them and my husband to get a hair cut. My husband said that he was going to start cutting their hair at home. It seems like everything goes up but our salary!"

Mrs. Frank Howison, 226 N. Warren-av: "Well, I think it's going up too much in proportion to the time it takes. How many other jobs pay $1.75 for a half hour's work? It isn't hard labor and I don't think it takes very much training. I just don't think it's fair! I feel sorry for families with two or three boys."

Mrs. John W. Henkle, 789 S. Hureka-av: "I don't think it's right to charge that much for a man's haircut, they have so little hair on their heads! I guess barbers have to live, too, but I think they would have more business if they lowered their prices and we'd have fewer people cutting hair at home. I wish I got almost two dollars for every half hour that I work at home!

Mrs. Carl Devault, 173 Lechner-av: "I don't think it's worth it, it doesn't take that much time to cut hair. Next year our little boy will be old enough to have a haircut but I think that my husband will probably cut it for him. My husband has been considering entering barber training school. The way they charge, I think it would be a good idea!"

Mrs. Clinton Benedict, 228 N. Warren-av: "So far my husband is the only one in the family who has to buy a hair cut. But in another year or so our little boy will be ready for his first haircut but we've decided that we're going to cut his hair. I think that the barbers are asking too much for the job they do and the training it requires. It looks to me as if they're trying to put themselves in the same class with doctors and dentists without half as much training involved."

Don't Try To Stop O. O. Tope; He Doesn't Know How To Quit

MEET O. O. TOOP—A retired, accomplished postoffice executive, O. O. is a mean man with a rolling pin as pie eating customers of Biddie's Drive In will readily testify. O. O. spends his "leisure" retired days turning out 36 dozen doughnuts, 15 pies and from six to seven different salads each day. That is the way O. O. decided to retire . . . gracefully.

What to do with one's self after retirement has presented quite a problem to many of the growing army of those whose many years of active employment have earned for them a future of their choosing during the "golden years."

There is, of course, the proverbial rocking chair, a small garden for the growing of a few vegetables for the table, radio or television, an occasional visit with friends and relatives, as well as other activities which help to absorb the time during the "after 65" era.

And then there are those who just can't seem to get the idea that after 65 is reached, one should begin to take things easy.

Such a person is Ora O. Tope, who retired from the Post Office last April.

After a few restless days he visited one of his friends, Clark Biddle, of Biddie's Restaurant and Drive-In, 3751 W. Broad-st, and volunteered to look after the place when Biddie said he felt like he needed a few days off.

Clark returned after a week of leisure, but was unable to "shake" O. O., as he is called by his friends. He continued to show up on the job at 5:30 a.m., and permitted no one to halt his activities along the line of baking doughnuts and pies and preparing four or five kinds of salads.

Worked in Store

Tope was born 60 years ago in Kingston where, as he puts it, he was casually exposed to an education at Kingston high school. He worked in the country store at Kingston during his youth. As a sideline he made and sold around 40 gallons of ice cream a day.

After his graduation from high school, Tope entered the army. "I felt that the army needed a good cook!"

He came to Columbus in 1918 to become a carpenter and again ended up as a cook for the crew. Upon leaving that job he became a streetcar motorman.

Tope married his wife, Peggy, in 1922 and is the father of three children, two boys and one girl. He lives at 285 Lenox-av, New Rome. His son, Willard, carries mail on the Hilltop, Paul lives in Orrville, O., and his daughter, Dorcas, lives in Conover, N.C.

Entered Post Office

In 1923, Mr. Tope entered the post office as a window clerk. In 1941 he transferred to the motor vehicle division of the post office where he was an accountant. He was made superintendent of the motor vehicle truck fleet in 1944.

Under his supervision the fleet grew from 50 to 144 vehicles which more than doubled his responsibilities for trucks and drivers.

He retired in April after 34 years service with the post office and is content to spend a good part of each day cooking at Biddie's and writing poetry in his spare time.

A few years ago he kept bees in his back yard and was a scout leader. He has always enjoyed cooking and writing poetry. Active in Kiwanis, he is also chairman of the official board at Columbia Heights Methodist Church where he and his wife are members.

Tope has written more than 600 poems, many of which have been published in newspapers and magazines around the country and read on some of the nation's big radio networks.

Tope said, "I can't see that my life would be interesting for anyone to read about, but it has been fun. I never made 'Who's Who' but I'm sure I'll make 'Who's, He?' in poetry!"

New Courses Added At Central Evening School

Registration for Evening High School classes will be held at Central School from 7 to 9 p. m. on Monday, Sept. 16, G. B. Newton, principal of the school, announced today.

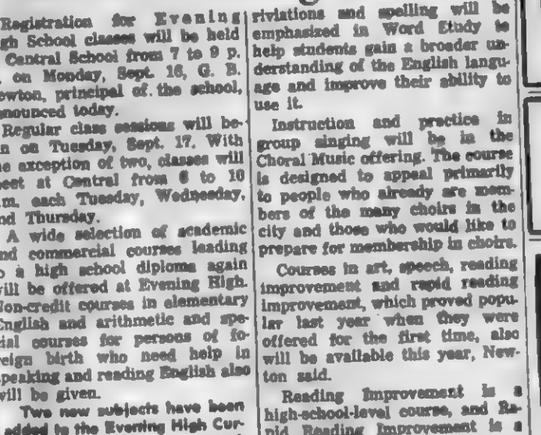
Regular class sessions will begin on Tuesday, Sept. 17. With the exception of two, classes will meet at Central from 6 to 10 p.m. each Tuesday, Wednesday, and Thursday.

A wide selection of academic and commercial courses leading to a high school diploma again will be offered at Evening High. Non-credit courses in elementary English and arithmetic and special courses for persons of foreign birth who need help in speaking and reading English also will be given.

Two new subjects have been added to the Evening High Curriculum, Newton reported. They are Word Study and Choral Music, both of which will meet on Monday evenings from 6:30 to 8:30 p.m.

Vocabulary building, word derivations and spelling will be emphasized in Word Study to help students gain a broader understanding of the English language and improve their ability to use it.

Instruction and practice in group singing will be in the Choral Music offering. The course is designed to appeal primarily to people who already are members of the many choirs in the city and those who would like to prepare for membership in choirs.



Courses in art, speech, reading improvement and rapid reading improvement, which proved popular last year when they were offered for the first time, also will be available this year, Newton said.

Reading Improvement is a high-school-level course, and Rapid Reading Improvement is a college-level offering.

Registration Fees Listed

Fees for Columbus residents are $6 for one subject, $10 for two subjects, $13 for three subjects, and $15 for four subjects. Fees for non-residents are double those for residents. All fees must be paid at the time a person registers.

Anyone desiring futher information on Evening High registration should call Newton at the Board of Education, CA 8-3821, during the day, and at Central High School, CA 4-3184, evenings.

But What About Hague?

(Continued from page 1)

have with you and you have a long, long wait. I am sure many mothers have found this to be true.

Drive south on Hague-av to Mound-st and boy!—it's a real ball. You have to get, at least, one-fourth of the way out in the street to look east, one-half of the way out to look west, unless the transit bus is parked down the street, and then you get to edge out three-fourths of the way to see if a car is coming east. Slam on your brakes or gun your motor to get out of the way of an approaching car, and when you have three children in the car you can really get nervous. Trying to make a left turn is even a bigger headache.

"There have been many accidents at this intersection as far as fender benders, shin scrapers, arm breakers and even one fatality — but we don't need a traffic light because Eakin-rd still has to be cut through one block. Is this ridiculous or is it just another excuse? Supposedly the majority of the people living in Brookshire Park would use Eakin-rd if it were cut through. How true. Who wouldn't? What are these people using now? They are not flying over that one block but going to Vanderburg which is one block south. How can this one thing be responsible?

"Mound-st has become a raceway from Central-av on out, and although the speed limit is 35 m.p.h. you could pin medals on all those going just 35, and not have put too much money in the deal. The people who travel Mound-st all the time know that they can go almost all the way from Central to Binns and from Binns to Central without making more than one stop and that is at Richardson. The two tripper lights (one just installed recently) are green 99% of the time that they pass them.

"We are no longer in the sticks of the city. The area to the West has developed greatly and the vehicular traffic on Mound-st has increased and will probably increase more, but no provisions, that I can see, have been made for greater safety here. I feel that this is a wonderful community on the Hilltop and I want it to stay that way. Maybe there are greater hazards in other parts of the city, but they are not my primary concern. The term "over-all picture" has been tossed around so much, that I will readily admit I don't know much about it. All I know is what I see and put up with daily.

"The traffic engineers do not feel that there is enough vehicular or pedestrian traffic to warrant a light. Mr. Musick explained their method of counting to me but I am a woman and I don't really understand what he means. But I can understand that Mound-st is the wide open spaces from Richardson to Binns-blvd and from Binns-blvd to Richardson. Mr. Musick said that the Traffic Engineers are concerned with maintaining the flow of traffic and not stopping it. Well, that's swell if you are already on Mound-st, but what about the flow feeding into Mound? Aren't these vehicles part of the flow of traffic, too? Those on Mound-st flow — those on the side streets stagnate. Don't you think this should be part of the often mentioned "over-all picture"?

"I have been told that the initial cost of a traffic light is $6,000 to $10,000 with an additional maintenance cost. I think this is an awful lot of money and it shouldn't be tossed about lightly. Doesn't some of the City Income Tax money go to the Traffic Engineers to purchase traffic lights, caution lights, etc.? It isn't all going for city beautification. Who can enjoy beauty when you have to be constantly on the alert for the low flying driver that thinks Mound-st is the Indianapolis Speedway?

"When the child was killed on S. Harris, Mayor Sensenbrenner promised that the Traffic Engineers would investigate. I think I saw the investigation. At least, I saw the Traffic Engineers' green panel truck turn east off Hague-av onto Rosedale and then turn north on Harris and proceed at a rate of 20 to 25 miles an hour to Mound and then turned east on Mound. Was this the promised investigation? If that was an investigation then let me say that there is something about it with a peculiar odor. Personally, I think it stinks. I often have wondered what their conclusions were and what recommendations they made. The public didn't hear any more about it — at least, this public didn't.

"A traffic light was placed at Richardson and Mound for the school children that must come south across Mound from John Burroughs School. There are many children who live south of Mound-st that go to St. Mary Magdalene's School and to West High School but they are north of Sullivant instead of on Sullivant so get across Mound the best you can.

"When request after request for a light has been refused then surely something is wrong with our local laws, rules, regulations, or government. I always thought that the majority ruled. It has been shown that our Congressmen and Senators in Washington can be swayed by a great number of the people writing letters or sending telegrams. I have seen in movies, waste baskets full of letters being brought onto the floor during debate or assembly to show how the everyday folks feel. Well, if it takes waste baskets full of letters let's hear from some of you Hilltoppers that feel as strongly as I do. It only takes one drop of water to start a river — and I hope that I am that drop. Let's get some kind of safe crossing out here where it surely seems to be needed."

Sincerely,
Mrs. Donald Fiscus

Blistered Feet and Aching Backs Suffered By Scouts For Kentucky Lincoln Trail Medal

A LOT OF FOOTWORK' goes into earning the Kentucky Lincoln Trail Medal. The distinctive Boy Scout citizenship medal was presented last week to six scout members of Troop 23. They include, left to right, Jim Morris, Kenny Wolfe, Rick Finke, John Roman, David Heines and Charles Balent, who was not present for the picture. To achieve this the scouts were required to read a biography of Abraham Lincoln, submit a book report on it, and walk a trail of 32.1 miles from Elizabethtown, Ky., to Abraham Lincoln National Historical Park. They each carried a pack weighing about 30 pounds. After arriving at the park they recited the "Gettysburg Address" at the monument.

McDonald Wins Sweepstakes

Dennis McDonald, 1783 St. Patrick-rd, the State individual Sweepstakes winner in drafting at the Ohio State Fair, holds one of his winning drawings. A bright future is indicated for the 18-year-old who has already attained a position in the engineering department at Westinghouse through his prowess with the drafting pen. West High School students won the Senior and Junior Sweepstakes in drafting at the Ohio State Fair. This is the 12th consecutive year that West High students have won the State Sweepstakes.

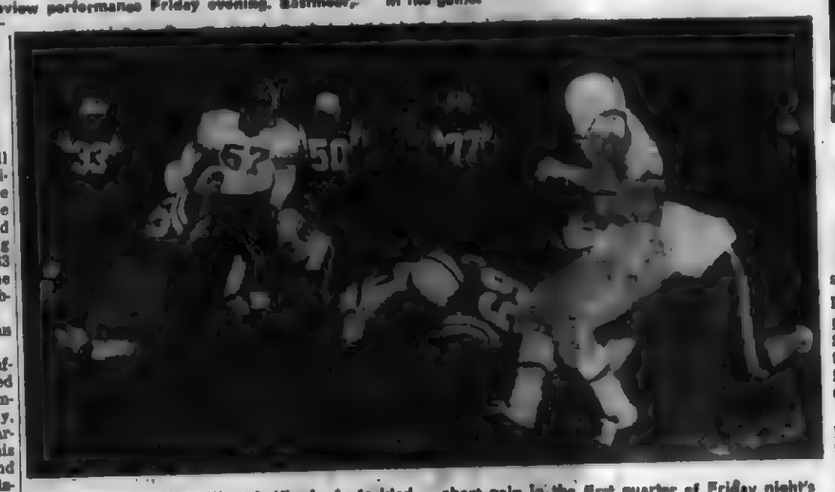
City High School Football Season Prevued Friday Night At West High

Under the interested eye of spectators, coaches and cheer leaders, West High's Cowboys prepare for a new season of football with warm-up calisthenics before their preview performance Friday evening. Eastmoor, Linden-McKinley and South High Schools participated in the game.

"Best behaved crowd in recent years" was Principal Robert Derrew's pleased comment on audience behavior at West High Friday evening. The school has adopted a new policy of enforced spectator conduct during football games to assure order in the stands and a resulting improvement in audience enjoyment of the game.



By Cliff Shoemaker

South was the only team to score of the four schools participating in the season's preview played at West High Friday night. South's Bob Bolen scored the only touchdown of the four-game series, defeating Linden-McKinley, 6-0.

West played both Eastmoor and Linden to scoreless deadlocks. In both games, West was outgained in yardage but the locals made four first downs to Eastmoor's three.

Linden gained 59 yards rushing and passing to the Cowboys' 48, and Eastmoor piled up 87 yards to West's 60.

Bright spots of the game for West was a pass interception and a beautiful run to the two-yard line by Bob Pate. The play was called back because of a penalty.

Larry Price (57), West halfback, is tackled by Eastmoor's right end, Bob Goulker, after a short gain in the first quarter of Friday night's preview games held at West High's Magly Field.

8-bridges are an Ohio oddity. In order to conserve material, engineers built the bridges at right angles to the streams regardless of how the road approached the streams. One of the few remaining 8-bridges is located on an abandoned section of Route 40, between Cambridge and Zanesville, Ohio.

Scott Turns In Impressive Record With Brooklyn Club

"Sonny" Scott

Siebert "Sonny" Scott, 231 Columbian-av, has returned home from a successful season with the Thomasville (Ga.) Dodgers, a farm team of the Brooklyn Dodgers.

Sonny was signed this year as a bonus player and was sent to the Georgia-Florida league.

The season apparently was a success both for the Brooklyn farm club and for Sonny. He received an award for being the top rookie pitcher of the league, winning 20 games and losing only nine. For a pitcher he compiled an impressive batting average of .295. With this record it seems likely that he will step up in the leagues next season. He pitched the Thomasville Dodgers to its first winning team in several seasons.

Sonny is a product of the Westside, and participated in various sports at Sunshine Recreation Center.

"Someday Bill Will Thank You . . ."
So said the Sun Life Agent when he delivered my son Bill's Junior Adjustable policy — but he didn't have to tell me that. I know what a help it would have been to me if, when I was twenty-one, I had been given a life assurance policy that could be continued as Whole Life, Life Paid-up at 65, or Endowment at the same age, for as much as four times the original amount without increasing the premium. Especially when that premium was based on rates for a child. I didn't have this great advantage, but I'm making sure my son has it. How about you?

Your Hilltop YMCA Membership Makes This Program Possible

The Hilltop YMCA Membership Enrollment is now under way. Business firms and industries are being contacted now and the residential collections will begin September 16.

During the past year the Hilltop YMCA rendered over 85,000 individual services to boys, girls and adults of this community. This program is financed by assistance from the Community Chest and your individual memberships.

When you are contacted by a solicitor give him or her your hearty cooperation with memberships for very member of your family . . . and better yet add something for the building fund and speed the day when a fine new facility including an indoor swimming pool will be erected on the site on Valleyview Dr., now owned by the Hilltop Y.

INSIDE ON THE Outdoors By ROD COCHRAN

Carl Cox, Madison County farmer, is heartily in favor of a wildlife restoration program that the Ohio Division of Wildlife has termed 56-D.

Carl explains it this way, "We all know that the changes that have occurred in farming in recent years have not helped wildlife's living quarters. Osage orange hedges and other brushy travel lanes have disappeared for the most part. Woodlot grazing has increased and there is little acreage on the modern farm that is not subject at some time of the year to drastic disturbance, always at the expense of wildlife."

This program that Carl is sold on is an attempt to establish some brushy fencerows, some wildlife food patches, and to protect woodlots and swamps from grazing. Multiflora roses are used for living fences, annual plants are established on odd areas of other places not used for farming as food patches, and grass and legume cover is improved by liming, fertilizing, and reseeding.

Plan Offers Complete Service

The plan was originated for farmers who cooperate with the Soil Conservation Service, and have a complete conservation plan on their farms. It is not necessary, however, for farmers to be Soil Conservation Service cooperators to participate in the wildlife habitat program. The Division of Wildlife will supply the planting stock, equipment, and labor necessary to do the job, or will only supply seedlings and leave the responsibility of planting to the farmer.

Carl has had a multiflora rose fence on his farm near Big Plain for 15 years. He is very well satisfied with it, and has found only one instance where it reseeded in a cropfield. It's a favorite hangout for pheasants, and the fence protects them from predators and also from hunters. Carl's Brittany spaniels can't route the birds if they want to sit tight in the thorny fence. When Carl was plowing the field next to the fence last spring, he saw 13 hen pheasants and 1 cock hiding in it.

Al Ward, Madison County game protector, told me that there are eight new 56-D cooperators in Madison County this year. Planting stock put out last spring included multiflora rose, American pine, white pine, Norway spruce, and black walnut. Plantings ranged from 1,000 to 4,000 seedlings per farm.

If you are interested in the 56-D program you should contact your county game protector. In Madison County it's Alan Ward, Rt. 3, London, phone UL. 2-9761. In Franklin County contact Robert Strohm, 3296 Westerville-rd, Columbus, phone AM. 8-3965.

Kiwanis Gift Spurs 'Y' Drive

REGISTERING $500 SMILES are these three who figured in the presentation of a check in that amount from Hilltop Kiwanis to the YMCA this week. Rev. A. J. Weld (center) admires the gift in the presence of Roy Von Ins (left), chairman of the Kiwanis boys and girls committee and Al Hollowell, Hilltop Y branch executive. The money (a similar amount has been given in past years) will be applied to building fund for a new YMCA in the proposed Hilltop Community Center on Valleyview-dr.

• • •

Spurred on by a $500 gift from the Hilltop Kiwanis Club, more than 500 adult volunteers were in the midst of a gigantic YMCA enrollment here this week.

Monday night signalled the start of residential contacts for membership. Residential chairmen Mrs. Ray Anderson and William Jones assembled their team captains at Hoge Memorial Presbyterian Church for instructions.

Rev. A. J. Weld opened the kick-off with an encouraging "pep-talk." "Don't carry on this canvass with the thought that you are begging," he said, "just offer everybody a chance to share in a proud and grand community experience."

Workers kits and instructions were passed out by H. G. Deems. Color slides of "Y" activities were shown by Al Hollowell. Representatives from the Metropolitan Y present included C. A. Donnenwirth, C. J. Dyer, Frank Shelton and Robert Schmidt.

Workers face a goal 160 higher than last year. A total of 3200 youth and adult members is sought. Final tally will be taken on "Victory Night," Wed-

Mother's Letter Stirs Quest For New Light

Many Hilltop parents, grandparents and just plain residents this week joined Mrs. Donald Fiscus, 995 S. Harris-av, in a crusade to obtain a traffic light for the Mound-Hague intersection.

The effort began a week ago when a detailed letter from Mrs. Fiscus was published in the Hilltop Record. Mrs. Fiscus cited perilous conditions facing motorists and pedestrians, particularly school children, who must use the crossing.

A petition, bearing the necessary number of signatures, was prepared and mailed Tuesday to the city traffic engineer. Mrs. Fiscus said all previous efforts to get a traffic light at the intersection had failed . . . but that she was going to try again.

The topic was to be discussed at St. Mary Magdalene PTA Tuesday night. Several days ago the question was aired on radio's "Party Line."

As of deadline time, the Hilltop Record had received 16 letters, all supporting Mrs. Fiscus. Texts of these follow:

• • •

Dear Editor:

I noticed the letter written by Mrs. Donald Fiscus in the Sept. 11th issue of the Hilltop Record and I want to say that I wholeheartedly agree with what she says.

We need a traffic light at Mound and Hague. I am glad to take the time to write a letter if there is the possible chance that it would help us have a traffic light installed and possibly save the life of a child.

Sincerely,
Peggy Davis
1012 S. Harris

To the Editor:

Concerning the letter from Mrs. Donald Fiscus which appeared in this week's edition of the Record — the entire neighborhood is in complete accord with everything she stated.

Rainbow Annex Decision Is Due On Sept. 27

County commissioners have set Sept. 27 as the date for decisions on annexation of Rainbow Addition.

Assistant County Prosecutor Earl Allison said they would probably be free to begin proceedings as soon as the recent court decision preventing incorporation of Franklin Heights has been filed.

The decision by Common Pleas Judge Myron B. Gessaman has prevented action on any such Franklin Township annexation

Attorney Thomas Applegate said he plans to appeal the judge's opinion. Allison told commissioners the Court of Appeals might not decide the case "for two years or more" and added that they have the right to proceed with other township annexation moves.

Retired Teacher Succumbs At 80

Mrs. Margaret S. Flynn, 80, of 22 Aldrich-rd, for 30 years a mathematics teacher at West High School, died of a heart attack Sunday en route to White Cross Hospital.

She had been in retirement for 15 years and bedridden since May.

A 50-year member of Pi Beta Phi, she is survived by a daughter, Mrs. Allen O. Harlor of Columbus, five grandchildren and ten great-grandchildren.

Funeral services were to be held Wednesday at 2 p.m. at Trinity Episcopal Church, followed by cremation at the Schoedinger State Street Funeral Home.

Hilltonia, Clime-rd Sites Eyed For City Parks Expansion

Dotted lines enclose an 11-acre area at rear of Hilltonia Junior High School, which is under consideration as a city park area. St. Agnes Parochial School is in the foreground. At the far right is the new Eureka Park development.

• • •

Land just south of Hilltonia Junior High school may be the next in a series of parkland purchases designed to keep abreast of vigorous population growth in this area.

Reports are that negotiations with the owner may be intensified within a week or two. Mrs. Florence Hardesty Oates of Chicago is expected to confer here soon with city attorneys concerning the transfer.

The land, slightly more than 11 acres, is bounded on the north by Hilltonia school property, on the south by Eakin-rd, and on the west by an alley just east of Wayne-av. The proposed park would be easily accessible and could serve school, park and recreation needs all in one area, City Division of Parks and Forestry spokesmen said.

Campbell On Study Group

"People in this area need to become more parks conscious, before the land is gone," Charles H. Gampbell, executive secretary of the Hilltop Business Association, said this week. Campbell is one of a 13-member sub-committee formed this week to advise the Development Committee for Greater Columbus on the city's recreation and park needs. The fourth such technical group is similar in operation to a group studying water-sewer needs in this area.

The committee will begin study next Thursday. Development staffers, alarmed at the lack of adequate public facilities, have asked that a master plan for parks and recreation be set up. Purchase of new sites well in advance of the spread of urban development was urged. A positive method for setting aside funds for such purposes, and improving present facilities, was also called for.

A three-tenths mill levy has been placed on city and county ballots this November by the Columbus Metropolitan Park Board. The levy would be for 10 years and would provide $430,000 each year. A majority vote is required for passage.

Cites Clime-rd Advantage

City Parks Superintendent Ray Dietz said he believes much of the progress toward expanding needed parks will depend on successful passage of a capital improvements bond issue.

He said Clime-rd is being eyed as an "excellent location" for a major park. "The need for a 100-acre tract similar to Southview Park is great in the area. But we must find a way to get the money," he said. The Clime-rd possibility was evolved in the Bartholomew report, a city planning study made in 1954. Rolling, partly wooded acreage there would be ideal, the report said.

Parks division spokesmen said they hope to continue to acquire land next to future new school sites as in the recent purchase of 15 acres adjacent to the new Valleyview School. Cooperation of school and city divisions, as in the Valleyview planning, will provide for sound community activity, they continued.

Long range thinking for West Side parks also includes the new Marble Cliff area along the Scioto which is now the site of limestone quarrying. When quarried out, the site would lend itself to a very suitable naturalistic park which would be unsuitable for other purposes, the division said.

The largest existing parks on the West Side are Westgate, Glenwood and Holton.

McIntoshes To Speak, Show Film At Hoge

Mr. and Mrs. S. N. McIntosh, back home on the Hilltop after a four-year stay in Pakistan, will show colored slides and discuss his experiences as chief agriculturist for east and west Pakistan at Hoge Memorial Presbyterian Church tomorrow night at 8.

Anyone interested is invited.

They will be guests of Mrs. McIntosh's mother, Mrs. Martha Merriman, 68 N. Westmoor-av, until next week when they report to Washington, D. C. for indoctrination for new assignment to Bogota, Colombia, South America. Mr. McIntosh is the brother of Mrs. Lena Carroll, 73 S. Terrace-av.

Under the direction of the United States government, Mr. McIntosh has worked with natives of Pakistan, advising and directing them on modern agricultural advancements.

They also toured European countries including England, Sweden and Scotland, before sailing aboard the USS American for home.

Preparations for their new assignment include the purchase of all household furnishings as well as suitable clothing. After a six-weeks indoctrination period in Washington, they will leave for Bogota around Nov. 1.

HBA DESCRIBES NEW LAW

Merchants Allowed To Hold Shoplifters

A new weapon to combat juvenile delinquency was enacted by the Ohio Legislature, and became effective last week, according to C. H. Campbell, executive secretary of the Hilltop Business Association.

He said that the new law gives merchants and their employes, for the first time, authority to detain juvenile shoplifters in order to recover stolen merchandise.

Shoplifting by juveniles — teenagers who steal from stores for a "thrill" — is expected to be effectively reduced under the new Ohio shoplifting law.

The new statute will also assist in combatting other types of shoplifters, the local spokesman stated, by (1.) giving police officers power to arrest shoplifters without first obtaining a warrant, and (2.) by giving merchants and their employes authority to detain suspected shoplifters while police officers are being summoned.

Campbell warned merchants that their authority under the new law is limited, and suggested that they obtain additional information from his office immediately.

Requiem Is Sung For F. Morbitzer

Frank J. Morbitzer, 43, of 771 Butler-av, died at his home Thursday morning of a heart attack.

He was well known in Central Ohio sports circles in the 1930s and '40s, when brothers from the Morbitzer and Zang families formed two-family teams for amateur and semi-pro football, baseball and basketball.

He is survived by his wife, Viola; one son, Thomas D., at home; three daughters, Mrs. Joseph Hunter of Columbus and Mary Frances and Anna Maria at home; seven brothers, William, John, Carl, Leo, Ray, Joseph and Richard, and one sister, Sister Mary David, O.S.F., Chicago.

Requiem high mass was sung at St. Agnes Church Saturday at 9:30 a.m., with burial in St. Joseph Cemetery by Egan-Ryan Funeral Home.

It's Official — Next Saturday Is Kids Day!

HONORING THE KIDS is a pleasure for "hizzoner" Mayor M. E. Sensenbrenner who displays his proclamation setting Sept. 21 as Kiwanis Kids Day. With him are Col. James F. Britton, Lockbourne base commander, and Ralph Smith, chairman of the Kiwanis Kids Day committee.

• • •

Mayor M. E. Sensenbrenner has signed a proclamation designating Sept. 21, as Kiwanis Kids Day. In the meeting held in the mayor's office, plans for the forthcoming visitation of thousands of kids to Lockbourne Air Force Base were discussed by Col. John F. Britton, base commander, Ralph Smith, chairman of Kids Day for all local area Kiwanis Clubs, and the mayor.

Many entries for a "name-the-plane" contest have been received, but the kids still have until midnight Sept. 18, to submit their entries. As before, the winners will be made "commander for a day" and be driven around the base in a staff car.

Other plans for the event are taking shape at the air base. There will be ample parking space for anyone bringing children. Although the event is Kids Day, parents and adults also are invited to attend.

Kiwanis will sponsor sandwich and soft drink stands for all those desiring a snack. Kiwanis Clubs will furnish buses from institutions and parks for those unable to acquire transportation. Parents are urged to bring their own children and as many from around their neighborhood as possible. No special passes will be required as the gates to the base will be open to all.

Buses leave Westgate Park and Glenwood Park at 9:30 a.m., Sept. 21, Kiwanian Roy Von Ins said. Parents who find that they have room for more children in their car are urged to stop by the parks in case the buses are overloaded.

As an added attraction to the program the "Hi-Five," a local dance quintet will furnish music. Attempts are being made to have an F-100 and a B-52 appear.

The Kiwanis has acquired an impressive array of prizes which will be given to lucky kids whose names are drawn.

Dear Son

By Joseph Martell

Chittlin' Switch
Monday afternoon.

Dear Jason:

To begin with, your sister Morphine, broke her engagement. The other night she had a date with her boy friend and she asked him if he noticed anything different about her. She gave him three guesses. He guessed new hat, new coat or new shoes. That's when she gave him back the ring. She was wearing a gas [illegible].

I suppose you know Adrenoline Pooser's husband died very suddenly. Addie took it pretty hard and took to drink. She was feeling particularly happy the other day when the Preacher called on her to cheer her up. He caught her with a bottle in her hand and he asked her if that one bottle was the only comfort she could find in the loss of her husband. She answered: "Heck, no, I've got another case in the pantry!"

I read in the Chittlin' Switch Daily News the other day that Hodge Sludge, the teller in the 13th National Bank, stole $5,000 and ran off with the bank president's wife. Everybody's wondering who's going to teach Hodge's Sunday School class.

Since you wrote in your letter that you were on your way to China I happened to mention it to the snooty librarian, Elvira Tench. She told me that when you got there to be sure and see the Pagodas. I told her that if you didn't get a chance to see them you'd at least call them on the phone.

Speaking of the librarian, the other day we had an outing at Pasture Flats and old Jim Sims that owns the Bon Ton Saloon was feeling quite playful and thought he'd pull the Sir Walter Raleigh treatment on Elvira. He filled her shoe up with corn likker and in about 20 minutes after he drank it he passed out. Her shoe held two quarts. She's got the biggest hoofs I ever saw on a woman.

Your little nephew Cheddar is still a problem. In school the other day the teacher told the third grade the importance of being honest. She talked about the qualities of Honest Abe and pointed out that thieves always landed in jail. After lunch she thought she would quiz them on what they learned in the morning so she asked Cheddar what he would do if he found a million dollars on the sidewalk. Cheddar told her that if it belonged to a poor person he'd give it back.

I was happy the other day when your brother Zilch was reading the Daily Bugle and took off like lightning struck him. He yelled as he went out of the house that there was an ad in the paper for a job—something suited to his talents. I looked in the wanted section and found the job he went for. "WANTED: Young man to wash dishes and two young waitresses. Apply to the Ptomaine Inn." Shows you what he's got his mind on.

Well, Jason, guess that's all for now. I nearly forgot. That woman who came from New York City down here to live finally wormed her way into our Chittlin' Switch Cultural Society for Well-Bred Women. We had our monthly meeting not long ago and before we could lift our Secretary fat Mrs. Grunch up on the platform, the widow started putting on airs. She told us that when she was up north on the stage her agent insured her face for fifty thousand dollars. You know me, Jason. I stood right up and asked her what she did with the money. Write soon.

Your loving Mom

Letters To The Editor

Dog Owners Beware

To the Editor:

It may seem unusual in this country to have to warn people about one of our laws, but—on September 13th, the new Ohio law goes into effect which makes it dangerous for your pets to be found off your premises.

According to the law, the research and teaching organizations who will be using the unclaimed dogs are supposed to keep records of dogs so used. Even if they comply with the provision, it will be extremely difficult to identify a pet from a written report of their magnitude. Therefore, may be suggest the following precautions:

1. Have license or identification tags on your dogs or cats at all times.

2. If they become lost, check your local shelter several times within three days, and every day thereafter. Often an animal is not turned in to a shelter until it has become emaciated.

3. If you have an animal which you believe should be humanely destroyed, ask your veterinarian to perform this service for you.

Every dog will have its week . . . starting this Sunday when the nation will commemorate 30th National Dog [illegible].

The Columbus Humane Society will honor "man's best friend" with a week-long Open House celebration at the Animal Shelter, 2770 Groveport-pk.

Thomas C. Justice, general manager of the society and local chairman for National Dog Week, said the public is urged to visit the shelter during the week-long open house.

If your dog is not licensed, this week would be a good time to give him one as a gift," Justice said. "Remember a licensed dog is a lawful dog."

Hollywood's Basil Rathbone has been named national chairman for the event.

Burglar Misses $1000 In Safe And Takes Food

The TAT Pizza Carryout, 2856 Sullivant-av, found that its week-end burglars were more interested in food than money. They cleaned out $200 worth of food in the deep freeze and took a cash register containing $50, leaving $1000 behind in a safe which they missed.

The intruders walked out the front door of the well-lighted carryout early Sunday morning with the cash register and most of the meat on hand in the establishment, said sheriff's deputies. The value of the new cash register is estimated by James Corrova at $1000.

This is the third time the carryout has been robbed in less than a year. In both former raids, burglars seemed interested in food rather than [illegible].

Farmer investment in agencies composing the Farm Credit system increased about 11 per cent during the past year.

Dangerous Hilltop Crossings To Be Surveyed By Railroad

Action has been promised Mayor M. E. Sensenbrenner following his plea to the New York Central Railroad for better safety at two Hilltop railroad crossings.

W. A. Sprunk, district superintendent of the N.Y.C. System, wrote the mayor, "I received your letter requesting that a survey be made in connection with placing flasher protection on North Sylvan-av, and automatic gates at the North Hague-av crossing."

Sprunk continued, "I'm taking steps now to investigate the matter of these two crossings and your request. When this is completed I will advise you so that we may have a meeting to discuss the subject."

The need for attention at the crossings was brought out in a picture editorial in the Hilltop Record some weeks ago.

Valleyview Asked For Another Walk By Wary Mothers

Three Valleyview councilmen were named Monday night to a committee to provide a gravel path and guardrails where necessary for children walking along Valleyview-dr east of Hague-av toward the new elementary school.

Valleyview and county officials cooperated recently in providing a walk from Hague-av west to Valleyview School. About 40 mothers protested to village council that a potential danger also exists on Valleyview-dr east of Hague-av.

Janitrol To Build $2 Million Factory Near New Rome

Plans to start work immediately on a new $2 million plant at 4200 Surface-rd have been announced by Surface Combustion Co.

The decision to construct the West Side aircraft division plant came shortly after company officials had stated the firm might build in another city as a result of a 10-week strike this summer at the Dublin-av plant.

Robin Bell, company vice president and general manager of the Janitrol divisions in Columbus, said an important factor in the decision was the excellent attitude of the employes as they returned to work Aug. 16.

Satisfactory meetings have been held with union leaders of the International Association of Machinists, Bell said. He stated that both sides reached an agreement to end further work stop[illegible]

Approximately 400 to 500 men will be employed at the new installation, Bell stated. They will be employed in manufacturing, engineering, research and testing, Bell said.

The firm intends to keep its Dublin-av plant and will move the aircraft division, now located at Mt. Vernon-av, to the new installation when completed. The ecmpany manufactures heating and air conditioning units at the Dublin-rd plant.

For Your Thoughts

Question: Do you feel that there is a need for more traffic lights on West Columbus thoroughfares such as Mound, Sullivant and Broad-sts?

Mrs. John F. Metzger, 164 S. Eureka-av: "Yes, I do think that we need more traffic lights on heavily traveled streets. The intersection of Mound-st and Wayne-av comes to my mind immediately as being in need of a traffic light and there are many more. I do drive a car, and from the standpoint of the motorist I don't feel that stop lights slow a driver down and in most cases they make it easier and faster to turn on to a main thoroughfare from a side street. Another thing, is the fact that most of our schools are located on main streets rather than on side streets like they are in other parts of the city."

Mrs. Eugene Spangler, 172 Lechner-av: "As a motorist and as a mother, I definitely think that we need more traffic lights on streets like Broad and Mound. I have a terrible time getting out on to Broad-st from Lechner. I do feel however, that some of the traffic lights on Broad aren't timed too well and slow traffic down more than need be."

Mrs. Donald Vance, 372 S. Hague-av: "I'm a mother of school aged children and I really think that there is a need for more traffic lights. I don't think that any driver is in that big a hurry that he can't stop for another light that is helping to protect our pedestrians. I drive to and from work every day and I can't help feeling for the mothers who sit home and worry about whether their children will make it to school and back safely."

Mrs. Fred M. Umbenhaur, W. Broad-st: "Well I'm not too familiar with the traffic light situation on Hilltop since we haven't had a car for some years. From a pedestrians viewpoint I feel pretty lucky in our section of West Broad street we have an adequate number of stop lights which make it easy to cross the street. I have heard from friends of mine who have young children that they wish there were more traffic lights to protect them."

Mrs. Ivan Bonner, 63 N. Wheatland-ave: "I think the traffic lights on Broad street especially, are too far apart. Particularly down around the hill. It's almost impossible to get across the street in that vicinity. Most of the time you get stuck out in the middle with cars speeding by on both sides. It's really very dangerous and a traffic light would be a great help."

Last Chance For Bluegills . . . .

INSIDE ON THE Outdoors By ROD COCHRAN

Vic Derris, probably the champion bluegill fisherman in these parts, holds up a fine specimen.

I received a call the other day with a strange request. A man was trying to locate a sporting goods store where he could buy a fishing license. They all had plenty of hunting licenses, but he had been to four stores without finding a fishing license.

This call started me to thinking about the false notion that many people have that Labor Day signals the end of the fishing season. If you put your tackle away on this prearranged date and wait for next May, you're missing some of the best fishing of the year.

This is particularly true with bluegill fishing. Old timers will tell you that early June is the time to fish for bluegills. It's true that spectacular bluegill fishing usually occurs in central Ohio at that time. Blues feed on the surface then, and starting about an hour before dark they belt rubber spiders with a vengeance. This is the time when trout and bass fishermen are converted—when they learn how a real fightin' fish reacts to the end of a line.

Once you get the bluegill bug, however, three or four weeks of fishing a year isn't enough. Some fans have been taking blues all summer long by fishing at night. Others mark time until the middle of September when the water cools, and bluegills go on a feeding spree again.

Use Weighted Leaders Now

You won't catch very many on the surface right now, you should fish (either flies or worms) several feet down. Sponge rubber spiders will still take a lot of blues, but you must weight them slightly with a tiny piece of lead foil or wire wrapped around the leader just ahead of the spider. It's more difficult to detect hits in this deep water fly fishing, and a very slight twitch of the leader is the only signal that another fish is on.

It is not necessary to fish "a long line" when fishing for bluegills. In fact, most beginners try to get too much line out and in doing so hit the water too hard and scare the fish. A long cane pole and very light line baited with red worms will take almost as many bluegills as a fancy fly outfit. This time of year red worms should be fished deep, and moved slowly in short jerks. A strike, only a slight movement of your line, will be hard to see.

Bluegills will hit right up to freeze up, although few fishermen are out when ice clogs the rod guides. From now until late October, however, fishing conditions are ideal. The bright, spicy days of Indian Summer and scrappy bluegills make a good combination.

What's Good Gift For Retired Railroaders? Why, An Electric Train Outfit, Of Course!

TOP: Gregory Wolfe working the controls with his neighborhood pals. of his Dad's train layout, says he shares the fun

BOTTOM: Placing an engine on his hand-made trestle, is Bill Wolfe who has devoted his life to railroading, as a profession and as a hobby.

There's a thrill in watching a big red Diesel pulling sleek passenger coaches over high trestles, around sharp curves and through dark winding tunnels. This excitement still lives for Bill Wolfe even though he has left the railroad.

Wolfe, 731 S. Eureka-av resident, enjoys these and many other thrills in the basement of his home where he has constructed an elaborate model train layout.

Bill worked on the Pennsylvania Railroad for 28 years and is fascinated by railroading of any kind. When he retired from the railroad his daughter bought him a gift. An electric train was a "natural," she decided. He added other trains to it and built a unique layout. He started five years ago and spent three years in construction of the model alone.

There are approximately 200 pieces of track and ten sets of switches in the layout. It takes three transformers to operate the trains. Bill built most of the scenery and buildings himself including a handmade trestle that took almost three weeks to complete. There is about $500 worth of trains and equipment in his miniature railroad world.

Neighborhood Attractions

Bill has been married for more than 30 years and has three sons and a daughter. Not only his own children, but all the children in the neighborhood, have enjoyed and played with the model trains.

Wolfe spends his time during the day making all types of small home repairs for people in the Hilltop area, but at night he tries to make repairs and improve the running condition of his trains. Bill said he is interested in selling his layout because he would like to switch to smaller gauge trains and build an even bigger miniature train community.

Basic Training Completed By Hilltop's Robert Howe

Pvt. Robert D. Howe, son of Mr. and Mrs. Harold W. Howe, 592 Columbian-av, completed eight weeks of basic combat training at Fort Knox, Ky., Aug. 31 under the Reserve Forces Act program.

Howe is a 1957 graduate of West High School and was employed by Albers Super Market.

PERMISSION GIVEN

Permission to remodel a frame dwelling has been given to William J. Brown, 456 S. Powell-av. C Doughty is the contractor.

The climate of Ohio is considered humid. June is generally most generous with moisture, averaging well up toward four inches of rainfall. October, with only about two and one-half inches of rainfall, is generally the driest month.

The Ohio-Indiana line passes through the center of State-st in Harrison, O., named for William Henry Harrison.

hours. We are particularly concerned because our son is attending the first grade this year and he uses the intersection daily.

If anyone on the traffic commission had any VALID OR SUBSTANTIAL REASON why we can't procure a traffic light for the intersection of Mound and Hague, will they please state that reason. Most of the excuses we have heard around here are FLIMSY and INANE in our estimation.

As Mrs. Fiscus stated, there have been petitions before, but they are always mislaid, detoured, or filed under "misc." This definitely isn't aiding this traffic problem whatsoever.

Can something be done NOW, or do we wait for a fatality to prove our point?

Thank you,
Mrs. H. F. Murray

• • •

Dear Sir:

I sincerely agree with Mrs. Fiscus, we need a traffic light at Hague and Mound.

This has been a perilous intersection for several years and is getting worse, with all the new sections being built on the Hilltop.

Traffic is heavy at Hague-av and Mound-st all the time—not only at intervals.

Mrs. T. L. S.
S. Hague Ave.

• • •

Dear Sirs:

I read your large story regarding a traffic light at W. Mound-st and Hague-av. It was very interesting and I agree with the lady who wrote the letter. I do not have children to cross at the corner but I know one can hardly get off a bus at the corner and get across Mound-st with safety. I too believe the cars should slow down and a traffic light would help.

Anything you can do to bring this to the public light will be greatly appreciated by the residents south of Mound-st.

Mrs. K. C. Beavers
709 S. Hague Ave.

• • •

Dear Editor:

I agree with the lady, that said in your paper that we need a traffic light at Mound and Hague.

Thank you.

Sincerely
Lena Musick

• • •

To The Editor:

We think that we definitely need a traffic light at Mound and Hague.

We have had some very bad accidents there, and it's very bad for children to get across when going to school—also very hard to cross Mound-st.

Thanks.
Mrs. Harry E. Hamilton
940 S. Hague Ave.

• • •

Dear Sir:

I am deeply interested in having a traffic light erected at Hague-av and Mound-st. Anything you could do about this serious condition would surely be appreciated.

It is really dangerous to try to cross Mound-st during the change of work shifts at General Motors. Especially hazardous for school children.

Thank you.

Mrs. Lee G. King

• • •

Dear Editor:

I read your article in the Hilltop Record about the need of a traffic light at Mound and Hague and agree with Jo Ann that there should be one there.

Mary Fiscus
616 S. Terrace

• • •

Dear Sir:

This is to go on record favoring immediate installation of a traffic regulation signal at S. Hague-av and W. Mound-st.

Though there is a new a blinker light installed at the above corner about all of us and especially those having young children going to school, feel it is inadequate to furnish real protection.

Your support in a great move for the above light installation is greatly appreciated.

Though my family is raised and I am now a permanently disabled grandpop, I still am for anything that will help protect all children on crossing our heavy laden traffic streets.

Thank you for your kind consideration of above, I am,

Respectfully,
E. W. Peters
905 S. Hague Ave.

• • •

Dear Sir:

I wish to state publicly that I agree one hundred per cent with the letter written by Mrs. Fiscus of S. Harris-av that we need a traffic light at Mound and Hague.

Hague has become a thru street to the Scioto River-rd and some parts of the northern limits of the city. This traffic warrants a traffic light to protect pedestrians and especially children crossing the street going to and from school.

You would have to live near this intersection to appreciate this request.

In closing let me ask this question. I wonder what the attitude of the city engineering office would be if they had children of their own using this intersection?

Sincerely,
Mrs. Oswald James
984 S. Hague Ave.
Columbus 4, Ohio

• • •

Dear Sir:

A traffic light would really be great at Mound and Hague. I've thought so for a long while.

I guess Mrs. Fiscus is right, it takes someone to start the ball rolling.

Good for her and anyone who can help to get a light at that corner.

Mrs. Clarence Paulius
1020 S. Harris Ave.

• • •

Dear Editor:

I read with much interest the letter written to you by Mrs. Donald Fiscus in this week's Record. I, too, have long been interested in getting a light at Mound-st and Hague-av. Our son had to cross at that intersection for two years. We are very happy that a new school has been built so he does not have to cross at this intersection any longer.

Many evenings when our son was not home from school in a reasonable times, I would go looking for him. I could always find him at Mound and Hague waiting for a chance to get across Mound-st. Many times when snow was on the ground and it was bitter cold, he has stood as long as 30 minutes to get across Mound-st.

Even though he doesn't have to cross Mound-st to get to school any longer, it seems that everything there is to do is either on Broad-st or Sullivant-av and crossing Mound-st in a car is no different than walking.

Two weeks ago when I was taking our son for his piano lesson, I waited approximately 10 minutes to get across Mound-st. I couldn't even find a chance to make a right hand turn to get on to Mound-st in order to go up one of the other streets to Broad-st.

Between 3:30 and 3:45 when the children are getting down to Mound-st from their schools, the General Motors and Westinghouse traffic is pouring thru Mound-st.

Now there are plans for another large industry across from Westinghouse which will add another heavy amount of traffic to Mound-st.

Please; let's have some action before it is said "someone had to be killed at this intersection before we could get a light."

Thank you,
A Hilltop Mother of Two

• • •

Dear Sir:

I, too, am a mother and I have four children who will be crossing Mound Street to go to and from school.

I'm thankful Mrs. Fiscus had the initiative to start the "river flowing." We certainly do need a traffic light at Mound-st and Hague-av, and it seems to me we should all try to DO something about this situation—and fast—before another child from our neighborhood is injured or killed.

Sincerely,
Mrs. Everett J. Schaefer
996 South Harris Ave.

• • •

Dear Sir:

In last week's Record we read the letter written by Mrs. Fiscus in regard to a traffic light at Hague and Mound.

We have been facing this problem for a number of years with three children who have to cross Mound to get to school. We have watched them stand and wait as long as from 11 to 13 minutes to cross, in cold and wet weather.

Also, have many times seen traffic lined up from Whitehead to Mound waiting to get across, car by car.

In regard to the cost of a traffic light—what value is placed on ONE child's life!

How much longer do we have to wait?

Sincerely,
Mr. and Mrs. A. McGill
759 S. Hague Ave.

Teaching Background Starts New Field For Mrs. Gibson

"Sugar and spice and everyone's happy" is the kind of atmosphere that Mrs. Orpha Gibson tries to create for the children in her all-day nursery.

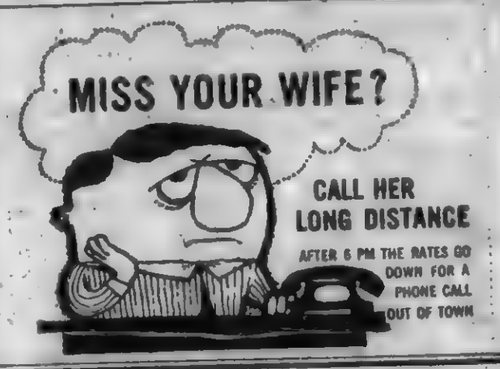
Mrs. Gibson owns and operates the Sugar and Spice Kindergarten at 175 S. Hague-av. A resident of the Hilltop for 27 years, Mrs. Gibson started the nursery eight years ago in her own home. She finally turned the whole house over to the operation of her kindergarten and moved to 171 S. Hague-av.

She opened the school when her own daughter, Vicki, was two years old. Mrs. Gibson says that she loves children and after 14 years as a school teacher felt that she would be qualified to take care of small youngsters whose parents work.

She is licensed to have 35 all-day pupils and sever part-time. The children range in ages from three to 10. The older children go to regular elementary school but come to the nursery for a hot lunch.

Mrs. Gibson employs two full-time workers, Mrs. Pauline Berg and Mrs. Minnie Thomas, and four part-time helpers.

In the winter Mrs. Gibson takes extension courses in nursery education at Evening School at Ohio State University.



Mrs. Orpha Gibson

"My hobby," says Mrs. Gibson, "is doing everything I can with my daughter, Vicki. We go swimming a lot and do some camping with Campfire Girls."

After leaving the nursery each day, Mrs. Gibson still finds time to be an assistant Campfire director and treasurer of the City and State Nursery Association. She is a member of HBA, the Columbus Pre-school Association and Glenwood Methodist Church.

Week-end Camping In Trailers, Tents, Is Family Fad With Many Hilltoppers

DISTAFF SIDE of the Robert Schmidt family, 889 Chestershire-av, prepares their trailer. Mrs. Schmidt and Pam in front. Behind are Deborah (left and Wendy.

THE BILL JONSES of 243 N. Warren-av make frequent use of their trim station wagon-trailer combo. Seen left to right are Mrs. Jones, Billy, Susan and Bill.

ACTIVE CAMPERS for five years are the Elden Koehlers of 1899 Floral-av. In front are sons Jeff (left) and Dave.

By Shirlee Monty

In an era of electronic wonders, power comfort, and pushbutton convenience, more and more families are turning to a tent, charcoal broiler and sleeping bags for their week-end fun.

Grandmother would probably have gasped in horror at the thought of exchanging such comforts for such inconveniences; grandfather would most likely have considered any reversion into the past as a step in the right direction, while the present generation is simply delighted at the prospect of getting good and noisy, dirty and offschedule for a whole week-end, week or two weeks, depending on the parents' endurance.

Why the growing enthusiasm for vacationing in the wilds and living out of a knapsack? "Well, for one thing, it's cheaper," says Mrs. Betty Koehler, 1899 Floral-av, a five-year veteran of camping. "Cottages are too expensive and so are two growing boys when you have to eat all your meals out. We love our camping vacations and they're never expensive."

The Robert Schmidts pointed out the associations in camping. "You meet such interesting people," Vivian Schmidt said. "We have been so impressed with the class of people, their easy informality and sociality. It's good for both us and the children."

Dorothy Imler, 100 N. Westgate-av, heartily seconded the Schmidt observation. "Families who camp learn to make friends very easily," she remarked. "And it's really so relaxing because everyone's so informal. For once, no one cares about impressing anyone else. They just have fun!"

Joneses Experienced Campers

Chief instigators of the Hilltop camping "craze" are Bill and Evelyn Jones, 243 N. Warren-av, who have been camping with their two children for the past six years.

Entering their camping career with a humble pup tent, they soon graduated to a nine by nine foot wall tent and finally into the ultimate in outdoor comfort — a 15-foot camping trailer, soon to be christened "Jones' Roost".

Another luxury of the camping Joneses is a 14-foot fishing boat with a five horsepower motor. And, like their friends, they carry the familiar gas stove, sleeping bags, air mattresses, food and first aid supplies.

Although the "camping" gives discuss their outdoor life with the same exuberence as they would a new spring hat, they were not always so enthusiastic.

"I didn't like the idea of camping at all," Vivian Schmidt recalls," and every year that Bob suggested it, the kids would be too young or I was expecting one. Finally when he said 'Let's try camping,' I realized I was out of excuses. I guess I was an easy convert because we've been going ever since."

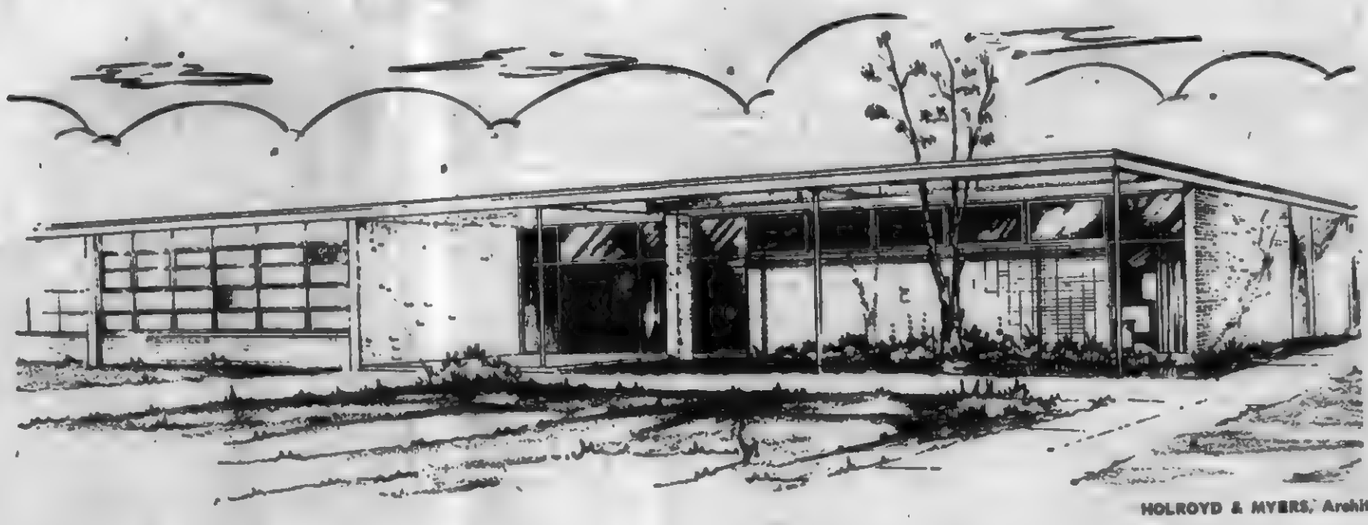
Betty Koehler is another convinced camper who was not always that way. "I didn't think I'd like it at all," she said. "All I could think of was bugs and snakes, but our first trip proved to me that there's a lot more to camping. And already we've covered about 12 states in only five years."

Although the Koehler's hope to join the "trailer" crowd eventually, they have thus far confined their camping to "tenting." Consequently, they must pack a multitude of items with which the trailers are already equipped.

Like Trailer Camping

Convenience is certainly an advantage of "trailer" travel, according to Dorothy Imler. "If we suddenly decide to go to a lake some weekend, we can be on the road in 20 or 25 minutes," she said "We keep the trailer stocked with everything except clothing."

their camping careers only a few their camping careers only six weeks ago, they have already pulled their trailer 1800 miles on two week trip to Canada and to Pike Lake for several weekends. "The Schmidts got us interested," Dorothy explained, "it seemed that they were always going somewhere and without spending much money, so we decided we could do the same."



Although the camping parents lack no enthusiasm concerning the pleasures of camp craft, their children can probably talk circles around them. Among the enthusiastic offspring are Philip, 3, and Dennis Imler, 9; Susan, 10, and Bill Jones, 16; Wendy, 7, Debbie, 5, and Pamela Schmidt, 11; and Jeffrey, 10, and David Koehler, 11.

Stan and Jean Ruoff, 191 S. Westgate-av, are another "camping" couple who just couldn't be located for an interview. However, a brief investigation uncovered their whereabouts. Camping? Naturally! Where else?

Linda Friend Is August Bride

St. Paul's Lutheran Church in Bucyrus was the scene of the wedding of Miss Linda Friend and Mr. William Juilliard Blicke Aug. 31. Rev. M. P. Pastunick read the double-ring ceremony at 7:30 p.m. before an altar decorated with pink candles tied with huckelberry and satin ribbons, tall baskets of pink gladioli and asters and woodwardia fern.

The bride is the daughter of Mr. and Mrs. Robert Friend, 1100 Rogers-st, Bucyrus and her husband's parents are Mr. and Mrs. Juilliard Blicke, 416 E. [illegible].

Given in marriage by her father, the bride wore a gown of Chantilly lace and nylon tulle over satin with basque bodice, crystal pleated tulle sabrina neckline and long, tapering sleeves. The bouffant skirt of lace dipped to a low vee in front and back and featured a wide tulle flounce that formed a chapel train.

A half hat of lace and crystal pleated tulle with tiny seed pearls and iridescents held her fingertip veil of illusion and she carried a cascade of white glamellias, white roses and stephanotis centered with a white orchid. Her only jewelry was a pearl heart necklace and matching bracelet, gift of the bridegroom.

Christine and Roberta Jolly, nices of the bridegroom, served as flower girls. They wore blush pink chantilly lace and nylon organdy with coronet headpieces of pink sweetheart roses. Both carried baskets of rose petals.

Blush pink was also worn by the maid of honor, Miss Nancy Roby. The three bridesmaids, Miss Rebecca Frey, Miss Joan Kiess and Miss Wilma Fritz and the junior bridesmaid, Patricia LaNier wore aqua.

MRS. WILLIAM JUILLIARD BLICKE

Their ballerina gowns of chantilly lace and nylon organdy were styled with elongated bodices, sabrina necklines and bouffant circular skirts accented in back with butterfly bows. They wore maline-entwined halo crowns and carried lace fans with arrangements of roses and [illegible].

Mr. Paul Howard served as best man for his brother-in-law and guests were seated by Mr. David Jolly, Mr. Perry Quay, Mr. J. Bernard Uhl and Mr. Harold Weithman.

The mother of the bride chose a sheath dress of brown chantilly lace over taffeta with matching accessories and a corsage of tan and rust cymbidium orchids. Mrs. Blicke wore periwingle blue, pleated silk chiffon with matching accessories and white orchids.

The parish house was the scene of the reception that followed the ceremony.

The new Mrs. Blicke was graduated from Bucyrus High School and is a secretary at the Friendly Novelty Co. Her husband was also graduated from Bucyrus High School, attended Ohio State University and Tiffin University and is associated with the Bucyrus City Bank.

Following a wedding trip the couple will be at home at 110½ E. Mary-st Bucyrus.

Former Blind Man To Talk To Kiwanis

The Hilltop Kiwanis Club will hear George Campbell speak on "Life in Two Worlds," Thursday, Sept. 19, at noon.

Campbell, who was born blind, got his first glimpse of the world about him when he was 18, after four operations and the use of powerful glasses. He will tell of the adjustments he had to make in learning how to live all over again in a world no longer bounded by his fingertips.

Campbell attended public schools and achieved high grades through the help of his mother and fellow students who read to him. He attained self-respect by making the school debate and dramatics clubs.

Having told his fascinating story to more than five million people in 46 states, Campbell urges his listeners to practice safety in everything they do and appreciate their God-given senses.

YOU can measure heating quality with Janitrol's new Dura-tube

The "Armored Heart" of a famous, gas-fired WINTER AIR CONDITIONER by Janitrol

Dura-tube is practically INDESTRUCTIBLE!

★ won't burn out
★ won't rust out
★ won't wear out

What is Dura-tube?

Dura-tube is a combination of Janitrol's exclusive heat exchanger design plus a process developed by National Bureau of Standards to combat extreme temperatures in military aircraft.

Better than cast-iron or steel.

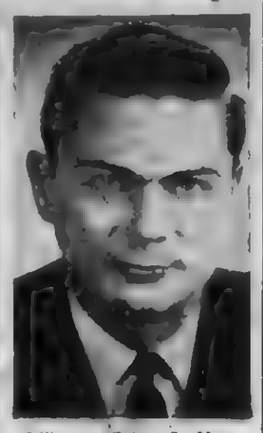
This process has been approved by American Gas Association for heat exchanger temperatures far beyond that allowed for either cast-iron or steel

PROOF! One of the most important ways of measuring heating quality is its Durability. Dura-tube's actual record of zero replacement in 9 years and in nearly ¼ million cases, speaks volumes.

Other ways to measure Dura-tube quality:

1 It's quiet! Extra corrugating takes out sounds of contraction and expansion.

2 It's safe! One piece, gas-tight seal. No leakage of combustion gases possible.



3 It's practically service-free. Elimination of scaling reduces cost and inconvenience of cleaning.

4 It's comfort plus! You get quicker heat to all levels of all rooms when adjusted for CAC.

The finest heating equipment, however, must be well installed. Let our experts advise you.

Poor Kilroy Is Scapegoat For Football Theft

It looks like Kilroy has come out of hiding and is on the prowl again. The imaginary character left his familiar autograph in the equipment room at West High School last weekend.

Burglars, after forcing open a south door at the school, tripped the lock on the football equipment room and took four pairs of football shoes valued at $48; five footballs, $75; and a hel[illegible]

The intruders, with a queer sense of humor, then used black shoe polish to inscribe "Kilroy Was Here" on seats, lockers, door, and the floor.

West High's football coach, William Schmitter, of 2367 El Paso-dr, reported the incident.

Robert F. Darrow, principal, said that the helmet was returned to the school Tuesday. It had been found in a field. The other equipment has not been located.

Loeffler said he would like to start a Junior Sheriffs Organization in Columbus similar to one in Cincinnati. It depends, however, on the response of the children at the meeting Saturday.

Others on the community youth committee are James Horn, post commander, George Bradley, Jack Maddox, Lawrence Cush and Charles Geddes.

AT MOUND AND HAGUE

Petitioners Get That Light

RESIDENTS AND MOTORISTS BLINKED TWICE as this brand new traffic light blinked back at them for the first time yesterday at the Mound and Hague intersection. The project apparently set new records as far as speed of installation is concerned. Foreman Paul Wheeler said two crews were assigned to the task soon after 10 a.m. By 3:30 p.m. two large poles were set and the much sought-after signal was swinging in the breeze. Two weeks ago neighborhood residents led by Mrs. Donald Fiscus, 995 S. Hague-av, petitioned officials and sent letters to the Hilltop Record appealing for the light. Peril to school children at the crossing was stressed. "We're mighty grateful," Mrs. Fiscus said today. Workmen seen here are Dick Briggs (left) and Floyd DeWeese Jr.

Boy! That's A Frog -- (er) Toad Strangler!

"S'POSE IT'S POISONT", "I wonder if toads really sit on 'em?" "Looks like a baby flying saucer to me!" These comments were inspired by a Paul Bunyan-sized toadstool, one of two which appeared on a hot, muggy day last week in the front yard of Mrs. Charles L. Cooke, 186 S. Brinker-av. This one measured nearly nine inches across. Fascinated by the saucer-shaped fungus are Buddy Wellmon, left, Bob, Dick and Mark Mann.

Letters To The Editor

The Hilltop Record is a welcome visitor to our Presbyterian Home as it is like a letter from our former Columbus city home.

Articles of interest to us appear in the Record and two of the Columbus dailies to which we have access. Through these papers we can keep in touch with the trend of things along all lines of activities.

We have an interest in the welfare of people everywhere, so what we say here does not necessarily apply to Columbus only, but if it fits Columbus, we have no apologies to make.

All people, no matter in what community they may live, have a right to the protection of the inalienable rights of life, liberty, and the pursuit of happiness.

We have read of appeals for the protection of their children on the way to and from school for the installation of traffic lights at dangerous street cross[illegible].

We have also read of one parent starting a one-man crusade against juvenile delinquency by hiring a private detective at his own expense to trace the hoodlums who had beaten up his boy.

These culprits did not come from the slums, but from the self-classified cream of society. It is my humble opinion that there is no place in America for a three-way classification of society, even if some think that there is.

Conditions which cause mothers to appeal for protection for the children to and from school — to install traffic lights at dangerous street crossings, or to cause a man to hire a private detective to find the culprits who beat up his boy, should not be allowed to exist.

From reading of these conditions, and others that could be mentioned, can it be possible that the minds of those in charge of providing adequate protection for people have become so absorbed in building a BIG CITY that the safety of children, and adults as well, is neglected?

From these conditions that seem to exist, are people forced to conclude that the thinking and planning of some people belong in the same category as the ungodly people of Shinar who said to each other, "Let us build us a city, and make us a name?"

Planning for a big city, is commendable only when such plans do not go to the extreme of thinking that these plans are of greater importance than the safety of the lives of children.

The life of a child is worth more than the entire value of one city, no matter how big it may be, or how big it may become.

A few years ago, in a city we are acquainted with, the campaigning of one of its citizens who aspired to an office became so corrupt that the citizens became so aroused that they changed a strong Republican majority which was common to that city, to a strong Democratic majority.

The same thing can happen again. Wrongs can be righted, if the voice of the people is heard. If conditions are as they seem to be according to the articles, is it not time for the people to speak?

'Strange Creature' Surprises Bradleys At Birthday Party

WHO'S THAT? . . . Asa and Emma Bradley, 7530 W. Broad-st, are issuing a friendly warning to be sure to lock your doors when leaving home even for only a quick trip to the grocery store. Returning from the store recently, the Bradleys found more than 20 people in their home and this strange "creature" in their bed. The event was Asa's birthday and the "uninvited guests had brought a picnic dinner and cake with them.

Food Markets This Week

by Mrs. Estelle B. Franks

THIS WEEK SHOP FOR:

Fruits — apples, Tokay grapes, [illegible]

Vegetables — cauliflower, cabbage, Pascal celery, yellow [illegible]

Protein Foods — chuck roast, whole ham, turkey, perch fillets.

Shopping Lists —

Many of us head for the market with our money and a vague idea of what we need, trusting to our memories to buy supplies we noticed earlier in the week were about gone.

Actually, advanced planning saves both time and money. And, this is a big point, a carefully planned list is a real help in securing a balanced diet for the family. Here are some suggestions to help you plan your shopping list.

(1) Plan a weekly menu. This can be your guide for good nutrition for your family. It can be flexible. However, when you shop you will get enough food for a week's meals without buying extras that are not needed.

(2) Check supplies on hand. A second step in planned shopping is to make a careful check of supplies on hand. Sometimes, when certain food items that may be included in the menu frequently are on sale, or are available at seasonally low prices, it is possible to buy in quantity and store such foods for future use.

(3) Sources of information. A third important practice is that of checking all available sources of information about food supplies and values. This includes reading newspaper reports on foods, shopping columns and studying the advertisements regularly. Radio and television programs often provide timely information, too.

(4) Make your shopping list. Finally, making a shopping list, with items grouped by kinds to save wandering back and forth from one part of the store to another, makes the job of shopping much simpler and more satisfying. A list not only helps you as you shop, but you'll bring home just what you need — no more and no less. You'll save money, extra trips to the store, and provide your family with a well-balanced diet.

UA Chairmen Are Named In Two Areas

Howard Bennington, Brand-rd, and Peter Biscus, 5314 W. Broad-st, have been named chairmen for the United Appeals' campaign in Dublin and New Rome respectively by Jacob A. Shawan, chairman of the county section.

George Noxon, 5143 Rome-Hilliards-rd, had been earlier named chairman of the drive in Hilliards.

Shawan said he expects good support for the drive since it is the biggest single campaign for the support of health, welfare and recreation agencies in the community.

He pointed out that the goal of $3,280,700 will furnish operating funds for 60 agencies which last year served one out of every three persons in Franklin County.

Lincoln Society Announces Plans For Boys Camp

Emile Reiss, director of the Lincoln Historical Society, announced further plans for a proposed 150th Lincoln Anniversary Celebration next spring. The society also hopes to open a summer camp for boys to be called Camp Lincoln, said Reiss.

Reiss explained that the society will have to raise $1 million for the camp building fund, which he hopes will be gained by popular subscription. The money, he said, would go toward the construction and equipping of an up-to-date camp.

The camp will supply training in woodcraft, safety, and other useful crafts and will strive to teach the boys to be resourceful and self-reliant, said Reiss.

Several tracts of land have been donated, according to Reiss, one in Guernsey County, the other in Richland County, but as yet the site of the camp has not been chosen.

Cub Scout Pack To Be Inspected

A pot luck picnic was held at Blendon Woods for Cubs and their families, Sept. 21.

The consumption of meat in 1957 will be about eight pounds below the 167 pounds per person consumed in 1956.

LeRoy Husband-Wife Team Share Work, Hobby Interests

Extensive training and experience lies behind Charles F. LeRoy's Television Sales and Service, 2524 Sullivant-av.

A West graduate of 1938 LeRoy attended business school for a year following high school. He served in the army in the signal corps.

Charles LeRoy

With a year at Taylor University behind him, LeRoy acquired a job with a large television manufacturer in Fort Wayne, Ind., for two years. Following this he entered the antenna research laboratory at Ohio State University where he worked for three years.

LeRoy opened his own television service in his home located at 911 S. Hague-av in 1950. In 1955, he moved his shop to the present store room on Sullivant-av. Right now he is employing only one helper—his wife!

LeRoy and his wife, Grace, were married in 1942 and have four children—three daughters, Marilyn 13, Janice 10, and Kitty 3; and one son, Edwin 8.

The LeRoy's chief hobby is skin-diving. They are members of The Underwater Explorers Club, a new organization founded for lovers of skin-diving. They are now in the process of training their youngsters in the underwater exploration sport. While spending three weeks at their cottage at Little Pine, on Lake Huron in Canada, LeRoy got a chance to put his hobby to practical use by joining a skin-diving party on a search for a drowned man.

"Grace and I both love skin-diving and it's a good thing because it is a dangerous sport and you never know what might happen while you're down there. You should always have a buddy along in case of trouble, and Grace is my buddy," said LeRoy.

LeRoy is amember of HBA Association of Radio and Television Dealers, and Highland Avenue Friends Church.

Penny For Your Thoughts

Question: Do you think that there is any scientific basis for the conclusions drawn by daily horoscopes appearing in newspapers?

Mrs. Donald K. Bailey, 452 Wrexham-av: "No I don't think there is anything stronger than someone's imagination behind them. My mother follows them regularly but most of them are so general that they could easily happen to anyone. I sometimes read them just for kicks."

Mrs. John K. Baldwin, 156 N. Eureka-av: "No I don't believe in fortune tellers and that's about all the daily horoscopes amount to. Once in awhile I'll read them just for the laughs. I've never heard of any of their predictions coming true."

Mrs. Hershel Vernon Curtis, 908 S. Harris-av: "Well, frankly, I never gave much thought to the things because I think they're silly. I have never heard of one of them coming true yet. I don't have time to read them — there are too many other things to read in the paper."

Mrs. Dolle S. Leathers, 1939 Fairmont-av: "Yes, I do think that there is something scientific behind the horoscopes. I follow one everyday to see if it's going to be a good day, and very often it comes true. When it says that I'm going to hear from someone, I usually get a letter from someone that I haven't heard from in a long time. Several times it has said "cash on the way" and I've received money. I do think, however, that you have to believe in them if you expect results."

Mrs. William P. Larson, 44 N. Terrace-av: "Personally, I don't think that there is anything to them. It's alright for those who believe in horoscopes and stars and fortune tellers and such. I think you do have to have faith in it and follow it regularly if you expect any of it to come true."

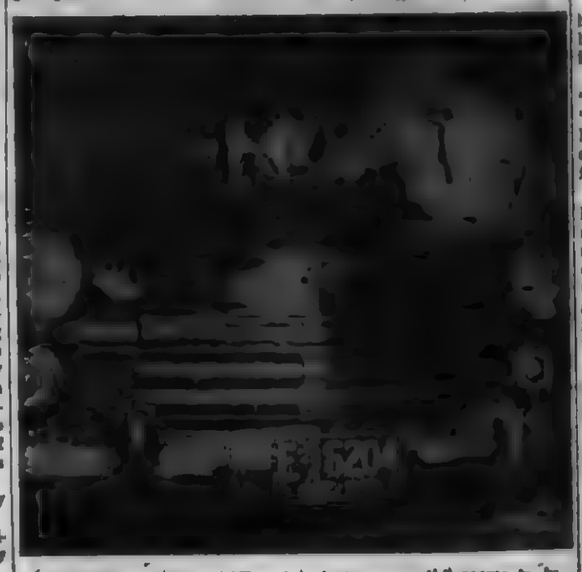
Kiwanians Have 1949 Studebaker For Club's Annual Auction Sale

Another major item has been secured for the auction sale by the West Franklin Kiwanis Club—a 1949 Studebaker Commander sedan! The car was obtained from Rodenfels Chevrolet by O. O. Tope, a member of the club, at what he termed a "terrific bargain price."

Despite its apparent good condition when turned over to him, Tope decided to have a really glamorous creation available for bidders at the auction, which will be held Saturday, Oct. 5, at the Prairie Twp. School, beginning at 7 p.m.

First, he secured a new paint job from the Riesor Auto Body and Paint Shop, 20 N. Sylvan-av.; then he persuaded Charles Dietrick of the Great Western Customs & Fearn store to provide a set of seat covers. Mechanical details, such as motor tune-up and brake adjustment, were handled by Charles Good.

All of this, according to Tope, has served to put the 1949 Studebaker—LATE 1949, he insists—in good condition.



"Some folks might label it a 'fisherman's special,' " he said, "but, frankly, I'll bet it's the best-looking 1949 Studebaker in the country and would make some family an excellent car."

The automobile is only one of hundreds of items which will be sold at auction by the Kiwanians, according to Clarence Latham, chairman of the club's Auction Committee. Major articles include a new 10 cubic foot Westinghouse refrigerator and a Frigidaire electric clothes dryer.

"Because of the nature of the affair, which benefits underprivileged children in the club's area, an increasing number of persons are participating each year—either as contributors or bidders," Latham said.

In addition to Latham, four gather professional auctioneers will handle the bidding. They are Cy Ferguson, Chet and Larry Guffey and Bill Kunz. All will contribute their services.

A roast beef dinner served between 5 and 7 p.m. at the school cafeteria will precede the auction.

—"PURRS LIKE A CAT and is just as smooth" seems to indicate what G. O. Tope thinks of this 1949 Studebaker, which he secured for the West Franklin Kiwanis Club Third Annual Auction Sale, to be held Saturday, Oct. 5, at the Prairie Twp. School, beginning at 7 p.m.

War Dancers Entertain At Cub Pack Meet

DOUBLED up with excitement, Cub Scouts of Pack 56 are captivated by the entertainment at their first fall pack gathering.

Photos by W. R. Law

Cub Scouts of Hoge Memorial Church were reported fascinated by the spectacular dancing of the Yakima Dancers at the first fall pack meeting Sept. 20, at Hoge Memorial Church. Jack Kamer, chairman, headed this group of Boy Scouts from the "Order of the Arrow." They did a colorful and realistic demonstration of a *"Competition Dance", "Fighting Braves", "Devil's Dance", "Feats of a Brave",* and *"Prayer to the Spirits."* These Scouts performed in authentic Indian costumes.

Close-up of a ritual performed by a pair from the Yakima War Dancers as they entertained Cubs and parents at Hoge Memorial Presbyterian Church, Friday night.

Induct 20 Cubs

Bobcat induction by Robert Hickinbotham welcomed into the pack 20 new cubs: Robert Spears, Fred Schmidt, Don Vollmuth, Anthony Frey, Jim Jesty, George Moss, Ricky Rostofer, Richard Rehl, Dick Reardon, Doug Mount, Harry Zulauf, Dick Burdett, John Prout, Ricky Schleppi, Bill Dennis, Bill Hunt, Steve Basil, Mike Murphy, Kenny Schleppi, and Joe Castorino.

Achieving the highest goal in Cubbing, the Webelos badge, 11 boys were graduated from Cubs into their choice of Boy Scout troops. Parents were witnesses.

Bob Bowsher and Tom Laughlin were welcomed by Scoutmaster Spencer into Troop 173 while Mr. Avery represented Troop 33 to Christy Roth, John Barbee, Gene Squeo, Rod Chrisman, Ted Vollmuth, Dan Downing, John Georgiton, David Miller and David Schroeder.

It was the largest graduating class Pack 56 has ever seen.

Cleveland's Metropolitan Park completely circles the city. It is filled with children's camps, natural museums, baseball diamonds, ski runs, boat houses and picnic grounds.

Commuters Influence Mid-Town Safety

SCOUTS Allen Harvey (left) 718 Harmon-av, and Paul Fresure 755 Buchanan-dr, with their leader, Gene Stinson, 806 Pierce-dr, spot check one of the West Side's most accident prone spots, Mound-st and Central-av.

* * *

Are you contributing to the poor safety record of a section of town where you are not a resident? In your haste to cross town, are you endangering the lives of people who live in the concentrated areas near the center of town?

Answer these questions truthfully and maybe we'll have the explanation of the bad safety record of the West Side for this past summer. The area involved is roughly east of Central-av to the Scioto River.

Gene Stinson, 806 Pierce-dr, thought up until a few weeks ago that he lived in one of the safer districts in town, the West Side. To satisfy his curiosity he decided to check with the police. Gene is the scout leader for Scout Troop 86, and thought it would be a worthy project for the scouts to check the safety of their neighborhood.

Scouts Make Survey

Six scouts volunteered to help Gene and formed a committee. They went to the Bureau of Traffic Engineers, 87 N. Front-st, and with the help of Dick Westinghouse, traffic investigator, were able to compile the reports of traffic mishaps on the West Side.

They took June, July, and August for their spot check on safety. The committee was shocked to find out that the West Side had one of the worst traffic records in the city for the summer months of this year.

Their findings showed that the West Side had more accidents on Broad-st alone than the entire Hilltop area had, in the month of August.

In the three-month period, only eight days were accident free. Accidents for these summer months totaled 393 in the West Side. Of this number, 53 of the mishaps involved injuries.

The committee feels, however, that these were not caused entirely by West Siders, but that a large majority of them were caused by commuters going to and from work and living in other parts of town. "The records showed," said Stinson, "that all of the districts near the center of town had high accident rates. I feel that it is because of a larger concentration of traffic heading downtown, and then too, in the summer there are a lot of tourists passing through the city."

List Most Dangerous

Almost every intersection in the West Side area had traffic mishaps of some sort this summer, but there were five that stood out as the most dangerous.

Broad-st and Sandusky-st tied with Mound-st and Central-av as the most dangerous. Each had a total of 20 accidents, almost a quarter of which involved injuries.

Central and Sullivant-ave was runner up with 18 traffic mishaps reported.

Dishonorable mentions go to Broad-st and Central-av with 10 accidents and Sandusky and Scott with 11 to its credit.

Gene and his civic-minded Boy Scouts would like to urge those who drive through the West Side frequently to slow down unless they wish to become one of these statistics. The West Side would like to cut these figures in half by next summer and you can help, they insist.

Health Dept. Asks Residents To Declare War On Rats

Fire Prevention Week is the oldest Presidentially proclaimed "week" in the U.S. This year marks its 35th anniversary. The dates are October 6-12.

I speak truth, not so much as I would, but as much as I dare: and I dare a little thus more as I grow older
—Montaigne.

One has to touch poison ivy, or touch something that has touched it, to get poisoned; it is not carried in the air as a gas or fumes.

Read, buy from ads Classified!

Inspector Hardgrove points out to a Belvidere-av resident, Mrs. John Nolan, how trash piles invite rats to build their nests close to homes. He says rats in rare cases have been known to attack small children. Hardgrove said that, besides removing trash and cleaning out garages, people should start ratproofing their homes before fall weather sets in.

George Hardgrove, sanitation inspector from the City Health Department, urges Mrs. Walter Morris 764 W. State-st, not to burn garbage with trash. The city health inspectors are discouraging trash burning because if garbage and rubbish are mixed they will not burn and will attract rats.

"Now is the time to ratproof your property," announced Russ Needham, city health educator. An intensified campaign against rats has been started in Columbus by the city health department. Every year when the weather begins to turn cool, rats begin looking for a nice warm shelter for the winter, preferably one where they will be fed well.

The health department feels that because rats are creatures of filth, and carry several types of disease on their fur and paws, that they may be one of the means of spreading the virus of Far Eastern influenza, a nation-wide invasion of which is expected during the coming fall and winter.

Rats will not stay around your home or neighborhood if you don't feed and shelter them. Here are a few effective ways of ratproofing your property suggested by the health department:

(1) Remove all trash piles from your basement, back yards, and alleys. Stack lumber, cans, boxes on racks 18 inches from the ground.

(2) Keep garbage and refuse in tightly covered metal cans.

(3) Close holes around pipes and wires with concrete or metal.

Fasten hardware cloth over ground-level windows and vents. Cover gnawed edges of doors with sheet metal. Cover floor drains tightly. Rats may enter your house through any opening over one half-inch in diameter.

Rats, equal twice the number of people on farms, equal the number of people in towns, and equal one-fifth the population in cities, said the health department.

For more complete information on ratproofing and extermination write or stop in to the City Health Department.

Health and Sanitation Inspector Hardgrove points out the perfect rat harborage provided by trash piled in this garage on Bellows-av, which is soon to be razed. Besides providing shelter for rats, it is a bad fire hazard.

Persons Over 65 Required To Ask For Fishing Tag

Some confusion still exists concerning which persons 65 years or over may fish without a license.

Following a conference between officials of the Ohio Division, Aid For the Aged and Ohio Division of Wildlife, cards were prepared for those persons who receive financial assistance from the Ohio Division of Aid for the Aged.

Eligible persons who make it known to officials that they would like to fish will be issued an identification card permitting them to fish without a fishing license.

The card must be carried while fishing. Application for the card should be made to Ohio Division of Aid for the Aged.

Senior Citizens On Fall Schedule

The fall program at the Senior Citizens Recreation Center is now in high gear.

The week of Sept. 23 was marked by the opening of classes in painting, ceramics, contract bridge and canasta and the following Monday, lip reading. On Tuesday, a new all-day program offered a combination of service projects, friendly interests, singing and new ideas.

Other special features are the Wednesday evening quiz program, "Name that Tune" and the usual monthly birthday party on Friday evening. An orchestral group from Courage, Inc., will play. Pilot Club members serve as party hostesses.

Men and women are invited to visit the Center on East Broad-st in the ground floor of Old Memorial Hall. It is open to all who are over 60.

The Senior Center is operated by the Columbus Recreation Department and the Franklin County Commissioners.

INSIDE ON THE Outdoors By ROD COCHRAN

Whether you realize it or not the fall hunting season is well underway. Hunters have been bagging squirrels, rails and gallinules for some time now, and the duck season is just around the corner. Pheasant and rabbit seasons open a few weeks after the waterfowl season.

The opening day is too late to do any practice shooting. If your shooting is a bit rusty, you may well come home empty-handed. Worse yet, you may injure game in the field that is not recovered.

Shooting a few clay targets before the bird season comes in is an excellent way of sharpening up. Several of the people who participated in the trap shoot held by the Hilltop Conservation Club last Sunday, were there to practice shooting as much as anything else. Sunday was very cloudy, and a drizzling rain continued most of the afternoon, but it failed to dampen the enthusiasm of the shooters. You don't always have ideal weather to hunt in, and these marksmen did their best without offering any excuses.

Trap Card Events Held

The Hilltop Conservation Club holds a shoot every third Sunday of the month from September through April. In the trap shoots five shooters compete against each other. Each shoots at two clay birds from each position. If the winner of one shoot participates in a later shoot he is handicapped, and must shoot at greater distances.

At the same time, card shoots are held at another location on the club's grounds. Luck plays an important part in these shoots, for a single shotgun shell is fired at a cardboard target at a distance of 96 feet. There is an X in the center of the target, and the person who shoots a pellet nearest the cross in his card, wins.

The club charges $1 to enter a trap shoot, and 50 cents to enter a card shoot. The profit from these monthly shoots is used for different club activities and conservation projects. Charles Smith, club president, told me Sunday that materials for a shelter have been purchased, and the shelter should be built and in operation within a couple of months. Other officers are Al Johnson, first vice president; Stan Smith, second vice president; George Miser, secretary-treasurer; and Carl Blackburn, safety director.

Skeet Fans Get Jump On Hunters

Rain failed to stop these shooters at the Hilltop Conservation Club trap shoot, Sunday. From left to right are: Mr. Miller, Mr. Greves, Mr. Howard, Mrs. Staley, sharpshooter (in checkered shirt), and Mr. Staley. Miller was the winner of this shoot.

Clubs, Mayor Entertain Foreign Plowmen

PLOWING CONTESTANTS from Germany enjoy a chat with the mayor and two others as their American souvenirs are sealed to be mailed home. The West Side Kiwanis club helped to supply postage for mailing parcels belonging to nearly 40 foreign contestants. Left to right, front row are Walter Feuerlein, chairman of the World's Ploughing Organization; Mayor Sensenbrenner; Homer Smith, official of the Columbus post office. Back row, Gert Schmidt, Max Hahn, Elbert Williams (of Northern Kiwanis Club), Rudolph Schneider and Otto Peterandorl.

The Queen of the Furrow has had her day. But this week it is the world's "kings of the furrow" who are in the spotlight.

Plowmen from 15 foreign countries found themselves in the center of hospitality here after the conclusion of the World's Conservation Exposition and Plowing Contests at Peebles, O., last Friday.

The group of 66 met Mayor M. E. Sensenbrenner Monday morning at City Hall. At noon they dined with the Downtown Kiwanis Club and representatives of all the city's civic clubs. Later this week they were scheduled for several visits and educational tours elsewhere in the state.

They were to leave by plane for New York and home this Friday.

The special task of packing and mailing of souvenirs and trophies overseas was done for the plowmen by three Columbus groups, Northern and West Kiwanis Clubs and Civitan.

Motorcycle Cop Avoids Collision By Leaving Road

Andrew J. Price, 27, of 1986 Oakwood-av, a patrolman, escaped injury Monday night when a car forced his police motorcycle off Eakin-rd at Wayne-av, then sped away.

A passing motorist found Price lying semi-conscious in a ditch some five minutes after the accident, and took him to Mt. Carmel Hospital, where he was treated for multiple cuts and bruises.

Price was riding east on Eakin-rd when the westbound auto, possibly a jeep, swerved left of the center line. Price ran his motorcycle off the road to avoid a head-on collision, said patrolman William Gramlich, traffic investigator.

The unidentified motorist who took Price to the hospital, is asked by Gramlich, to come to police headquarters as soon as possible, as he may have important information about the accident.

District Scouters' Meet Is Set For Next Sunday

The Annual Scouter's District Training and Recognition Program has grown to be an honored institution among the Scouters and their wives in Central Ohio. It will be held this year at Capital University on Sunday afternoon and evening, Sept. 29. Dr. H. L. Yochum, president of the university, will preside at the evening recognition program.

For all district scouters, district chairman, vice-chairmen, institutional representatives, the six cooperating committee chairmen and members of their committees and the Public Relations Committee, informative and carefully planned training sessions will be held in the afternoon from 1:30 to 5:15 p.m. A separate program for the wives is also planned.

Another highlight of the evening program will be the annual presentation of the Silver Beaver Awards to six volunteer men Scouters for distinguished and outstanding service to boyhood over a long period of years. Word of the Bible

. . . and him that cometh to me I will in no wise cast out.—(St. John 6, 37.)

Sometimes, for reasons that we vainly try to justify, we look upon another human being with distaste or contempt. Then we should remember the abounding compassion of the Lord Jesus Christ, and humbly pray for His forgiveness.

Jr. Bowling Leagues Begin At Local Bowling Lanes Oct. 5

The Columbus Recreation Department will again conduct Junior Bowling programs for boys and girls 12 and under at various bowling establishments throughout the city. A junior league (ages 13 to 18) will be organized at the Old Trail Bowling Lanes while a Bantam League (12 and under) will be organized at the Hillcrest Bowling Lanes starting Oct. 5 at 9:30 a.m.

Last year local bowling leagues, sponsored by the recreation department, drew 235 boys and girls. They comprised 40 teams, bowling at Hillcrest, Hilltop, and Old Trail. Members were in a once-a-week league competition. The season extends from the first of October through Easter.

The Junior Bowling program is sanctioned by the American Junior Bowling Congress with the cooperation of the local proprietors. Boys and Girls who join the leagues will be able to bowl at reduced rates and bowling shoes will be furnished without charge. A recreation leader from the city recreation department will teach youngsters how to bowl, organize the teams, and supervise the leagues.

Jerry Fedderson, of the recreation department, said, "The Junior Bowling program is designed to give children an opportunity to learn how to bowl for fun in a wholesome, supervised environment." Any boy or girl who wants to bowl in one of the leagues mentioned above should be present at the designated time and place on Oct. 5.

Golden Bears Beat Cowboys By 21-0

by Cliff Shoemaker

West's Cowboys fell victim to Arlington 21-0 on the rain-soaked Golden Bear gridiron Friday night.

George Collins and Pat Patton, combined with a stiff defense on the part of Arlington, were to much for the Westerners. Collins and Patton each gained considerable yardage.

Larry Price gave the visitor fans some excitement with some good runs and an outstanding job on defense. Dave Francis and Dave Bunner also did an excellent job on defense.

Early in the second period Arlington scored on a plunge by Collins after Patton had galloped 43 yards from the West 46-yard marker. Patton was pulled down from behind by Price on his 43 yard jaunt.

Three times Arlington was inside the West 15 yard line, other than on their touchdown drives and were held by the Cowboy forward wall.

West was outgained 307 yards to 152. In the first down department West managed to pick up four to Arlington's 12.

Pencil Salesman Declares Dog Not Abused, Has Happy Home

ED HOUGLAND, his daughter, Ruth Ann, and his guide dog, Ginger, pose for The Hilltop Record cameraman in their new home on Bellows-av.

By Ray Shaffer

What is a dog's life really like? One dog in particular has been under public scrutiny in the past few days, especially in letters to downtown newspapers. Her name is Ginger. She is seen on downtown streets working with her owner, Ed Hougland, who sells pencils in the vicinity of Town and High-sts.

"Some passers-by feel that the dog is being misused in that she has to walk at a snail's-pace to stay with the pencil salesman. Others who have noted the blindman and the dog feel that Ginger has a dejected look on her face, and believe that it is because of her master's occupation.

The Hilltop Record interviewed Hougland in his home located in the 800 block on Bellows-av. It is a modest white house, comfortably furnished on the inside.

Ed was born and raised on a small farm near Zaleski, O. He has one brother and four sisters, all of whom have good eyesight. There have been no other cases of blindness in the family. Ed says he was born partially blind and has been totally blind for the past nine years. Because his parents didn't want him to leave their home while he was young, Ed received no blind school training in his youth.

Hougland, now 34, came to Columbus when he was 18 and attended a school for the blind for two years where he learned a little about broom making and basket weaving.

Wife Is Blind Too

Ed met his wife, Mary, who is also blind at Monett House Columbus Association for the Blind. He said they both had their eyes thoroughly checked to be sure that if they had children that they would not also be born with bad eyes. They now have two daughters with perfect eyesight, Ruth Ann, 12, and Rita Jean, 10. The girls attend Holy Family school.

Five years ago Ginger was bought for Hougland through money from a sales tax stamps collection by 'Dad' and Blanche Meacham, who were on television at the time. The dog was purchased from a guide-dog training school in Lancaster.

Ed receives a welfare check each month, and his wife works at Monett House when there is work to be done. Ed said, "the welfare check helps a lot, but my wife and I have to do any type work, usually at Monett House, that we're able to get a hold of. We're buying our home, which my parents put the downpayment on, and sending our two girls to school. It costs a lot for a family of four to live, even as modestly as we do."

"I have tried hard to get a steady job but because of my lack of proper education I have been unsuccessful. I don't like selling pencils but when there is no work at Monett House it's the only thing I can do to supplement our income," he declared.

Describes Dog's Work Hours

"I don't see why people think Ginger is an unhappy dog. I love her like one of my own family," he continued. "I'm afraid that some passersby think that she and I work the streets all day long. That's not true, we work from two to three hours a day and we never go out on rainy or snowy days. When I'm not selling pencils, Ginger and I both walk at a normal pace. We ride the bus downtown when we go out to sell.

"I suppose that if it were necessary I could get along without Ginger to guide me but when I do I'm always running into signs and poles," he confided, "but it gives me some degree of dignity and assurance to be able to walk down the street without groping my way and with Ginger by my side I'm able to do this.

"Sometimes I do go out by myself for the practice it gives me," Ed added, "because I know that Ginger won't live forever and when she's gone I probably won't be able to get another guide-dog because the schools won't give them to people who work the streets. On some nights I sell pencils in bars and grills, on those nights I always leave Ginger at home."

Is Family Companion

When we asked Hougland why he can get along without his dog at sometimes and not at others, he answered, "it's not that I couldn't get along without Ginger, it's just that when she's with me it's like having another person along. She is my companion.

"At home she plays out in the back yard with our Cocker Spaniel puppy and my daughters. The girls are crazy about her. At night she sleeps under our bed and wakes us up in the morning. Except for the three hours that she and I are downtown selling, she leads a normal life like any other dog in the city."

In a phone call to Hougland's veterinarian, we found that the dog was given a physical checkup a few weeks ago and was found to be in good health.

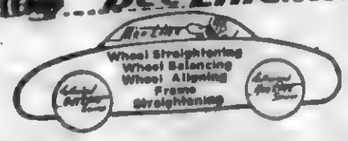
Cowboys Lose To Terriers At Glenwood

The Terriers opened the 1957 tackle football season at Glenwood Center by blasting the Cowboys 39 to 6.

Ron Stewart scored four touchdowns for the winners on runs of 41, 25, 55, and 4 yards. Bedward Wade scored the other two Terrier tallies on 45 and 6 yard runs. The lone Cowboy tally came in the fourth quarter on a 6 yard plunge by Jerry Fenton.

The Buckeyes defeated the Tigers 27 to 7. Sam Link scored the first Buckeye touchdown on a 20-yard run. Don Van Order scored from the 6, Mickey Pless from the 2, and John Welman the final Buckeye tally on a 20 yard run around end. Larry Graves played a good game for the losers, and scored their lone touchdown on a beautiful 60-yard run.

On a wet field, the Polar Bears paced by John Goodin, defeated the Bulldogs 20 to 6. Goodin scored two td's on runs of 20 and 24 yards. Ralph Criner scored the lone Bulldog tally.



The final game of the week saw the Tigers defeat the Cowboys, 25 to 18. Larry Graves' three touchdowns led the Tigers. For the Cowboys, Dave Keehler and Dick Grozinger stood out.

BUILDS ADDITION

Permission has been given Noble L. Allen, 2456 W. Broad-st, to build an addition to a frame and brick building. J. W. Walker is the contractor.

The drive to obtain funds for use in the Hilltop community for assistance to those suffering from impaired sight will reach its climax on Thursday, Oct. 17. The entire Lions Club membership on that date will canvass Hilltop streets to sell those bulbs still unsold by individual members.

Ervin Schmidt, project chairman, declared that the lightbulb sizes were chosen on the basis of proven need in the average house. Each sack of bulbs offered to householders will include one 100-watt, four 75-watt and four 60-watt bulbs.

Each member will be expected to sell a total of 25 bags of bulbs to neighbors, friends and acquaintances. The membership will be divided into four teams under the captaincy of Dave Hauelsen, Sam Taylor, Bill Burns and Gerald Brunton.

Following the Oct. 3 regular dinner meeting of the Lions Club at the Colony Restaurant, members will adjourn to the Jones Lumber Company where they will sack and receive their quotas of lightbulbs On the final day of the sale, Thursday, Oct 17, members will enjoy food and refreshments at the Jones Lumber Co. at 6 30 p m. preceding the door-to-door canvass to sell remaining bulbs.

Chairman Schmidt emphasized that every cent of profit realized in the sale will be returned to the community in the form of welfare projects

The Spectator

By C. C. Hartley

We Are Proud That Our Newspapers Serve

On the occasion of National Newspaper Week we are proud to express our appreciation for the opportunity to serve so many people in the areas where our newspapers circulate.

We are proud of our profession . . . newspapers generally are continuing to play a most important part in the maintenance of freedom all over the world.

Today with major problems facing this country it is encouraging to believe that the proper solutions of these problems will result only after the public has been properly acquainted with all sides in these matters through the press

On a grass roots level, we also serve. As metropolitan Columbus expands there has developed a greater responsibility for the community newspaper publisher. Ours is the duty to be alert to the needs of our ever expanding communities while remembering that we are still a vital part of the far wider city area.

Almost weekly the reader interest in our group of community papers grows. Today the papers we publish serve the Hilltop, West Side, South Side, West Franklin County and portions of Madison county, southeast Franklin county and portions of Fairfield and Pickaway counties. Our combined circulations are in excess of 55 000 per week

Fundamentally, most people are small towners at heart. They have a warm spot in their hearts for the old home weekly paper. And so it is on a grass roots level they continue to be interested in their weekly community newspaper

In many instances it contains far more of interest to the individual than any other printed piece that comes into the home. And why not? It is made up of items and pictures of **you** and **you** and **you** and **your neighbors**. And what is more vitally interesting to you?

Furthermore that weekly paper stays in the home in many instances until well after Sunday or even until the next issue arrives. It is an up-to-date directory of events and services of that area right about home

And so during National Newspaper week our weekly papers again extend a pledge to at all times stand for those things that are for the best interests of our own home [illegible]

V. Sanford Is Honored With Silver Beaver Scout Award

The coveted Boy Scout Silver Beaver award has been presented to Vernon D. Sanford, 164 S. Westmoor-av, for "distinguished and outstanding service to boyhood." He is one of six Scouters to receive the award, which is the highest that can be bestowed by the local council.

Vernon D. Sanford

The awards were given at a recognition banquet at Capital University last Sunday evening. The banquet followed a day of committee meetings. The principal speaker was W. B. Hubbell, regional Scout Executive, announced Robert Meade, district Scout executive. The six men totalled 133 years of scouting service, it was noted.

Sanford is commissioner of the Southwest District and a member of the district committee. He has been district chairman of the southwest area. He is also active in the Little Leaguers and the YMCA.

Jo Sanford, his wife, is also active in Scout activities. They have three scouting sons, an Explorer, a Boy Scout and a Cub Scout

Sanford is known as "Mr. Scouting of the Southwest Area" said Meade.

Date, Speaker Set For HBA Dinner

November 12 has been chosen as the date of the annual Employer-Employee dinner to be held in the Westinghouse cafeteria at 7 p.m.

The speaker will be Ralph Negri, who has served for many years as the director of the National Cash Register Company's personnel training school.

Board Heads Define Bids On New Wing

Franklin County Hospital Commission is going ahead with construction of the nurses' residence at Mt. Carmel hospital following court approval of the commission's decision to award work to a heating and ventilating firm which was not the lowest bidder.

The commission's right to do so was challenged in a suit filed by the John Kuempel Co. Common Pleas Judge Dana F. Reynolds a week ago ruled against the injunction.

The Kuempel firm had bid a total of $124.045 on new work and remodeling which was $783 less than an estimate on similar work by Piping Contractors Co., 58 N. Washington-av. The latter firm also submitted "very low bids" on the complete plumbing work.

A commission spokesman said the group favored Piping Contractor Co. because the "one subcontractor could co-operate with the general contractor to a much better advantage for quick completion date."

Total cost of the nurses' residence wing has been placed at $1,308,649.50 including architects fees. The hospital has been allocated $653,000 from last fall's bond issue. The remainder of the construction costs ($655,649.50) will be provided from other sources, a commission spokesman said.

Funeral arrangements are being completed by Schoedinger Hilltop Chapel, 3030 W Broad-st.

Valleyview Jr. High Plans Approved; Will Relieve Congestion At West High

Plans for a new Valleyview Junior High School, destined to completely change the complexion of present overcrowded conditions at West High School, got the "go sign" from the Columbus school board Tuesday evening

The school will be located just south of the new Valleyview Elementary School in the proposed Hilltop community center on Valleyview-dr. It is expected to house nearly 1000 students, board architect David Schackne Jr. explained.

Supt. Harold H. Eibling said the proposed school "will provide complete relief of the crowded conditions at West High where a junior high also is conducted." First step in relieving the congestion was the opening of Hilltonia Junior High last November, he observed.

The school will be almost identical in size and scope to the new Lannmoor Junior High now going up at 2001 Hamilton-av in Linden, it was pointed out. About 30 classrooms, a gymnasium, auditorium and cafeteria are projected.

"Future Needs Covered"

Francis J. Rudy, executive assistant to Dr. Eibling, told board members that the project should take care of junior and senior high needs in the West area "as far ahead as we can see . . unless there is an unusual amount of annexation. No further expansion at Hilltonia or at the proposed Valleyview Junior High should be needed within the next six to eight years," he related.

Joe Davis, board clerk, said March, 1958, had been mentioned as starting date for construction and that it was hoped some of the classrooms would be ready for use the following September. "We expect to shift most of our junior high pupils out of West High next fall," he said, "but it probably will be spring before residential boundaries are drawn up."

Valleyview Junior High will be the second building in a complex of five planned for the 67-acre community center.

City, School Officials Picture Forestry Lab At New Center

Development of an outdoor laboratory in forestry and conservation and the beautification of the new Hilltop Community Center on Valleyview-dr. will result from another cooperative program launched Tuesday noon at West High School.

At the invitation of Robert Darrow, principal of West High, other local public school heads, representatives of the Board of Education, and others heard plans outlined by City Parks Supt. Ray Dietz for the cooperative development of the area

Plan Massive Tree Planting

Current plans call for the planting of nearly 8000 trees at some time in the near future on the property owned by the city and other groups in the area

Dr. Carl Johnson of Ohio State University told of similar projects by schools elsewhere in the country and expressed the opinion that this would be a very worthwhile project locally.

It was suggested that plantings be made by fourth graders assisted by older students. It is proposed that some seven different areas be developed by individual local schools. Maintenance would be provided by the city parks department.

Miss Mary Baker, West High teacher, has been interested in development of this program for some time.

Annexation Of Township Section Is Delayed Again

Action on annexation of a 2572-acre section of Franklin Township to Columbus was postponed Tuesday until Oct. 14 by county commissioners for the second time in a week

The portion of land extends west of the Scioto River and north of Jackson Township line. Earlier, the 54-acre annexation of Rainbow Addition was set back to Oct. 18.

Delay was necessary because a court entry still is to be made in a law suit challenging incorporation of the township as Franklin Heights. Common Pleas Judge Myron B. Gessaman ruled against the incorporation in a recent decision.

They'll Pilot Hilltop Kiwanis In Coming Year

Hilltop Kiwanis members have elected these men to direct the club through 1958. Installation of the new officers will take place in January. Elected are: first row, left, Elmer Hegenberger, second vice-president; H. E. Schoedler, president; Noble L. Allen, first vice-president; Dick Nash, treasurer. Second row, left, directors, Jim Poole, Mack Pemberton, Don Beal, Bob Cramer, Roger Strauss; in lower insets, Roy Van Ina, left, and Henry Ruegg.

Memory Of Kathryn Cramer Is Kept Alive

In memory of a mutual friend, 175 women of the Hilltop and West Franklin County area have joined in organizing a group to aid other victims of the disease which claimed the life of Mrs. Kathryn Cramer last Dec. 4

A unique approach to organizing the service group was employed by the women. Members of six organizations of which she was a member banded together to form the Kathryn Cramer Cancer Ray

A lifetime resident of this area, Mrs. Cramer was secretary to Mayor Sensenbrenner until her illness forced retirement in June, 1956. The widow of Hilltop physician, Dr. Chester Cramer, she lived at 188 S Westmoor-av.

The idea of forming a Cancer Ray in her honor was devised by members of the Clipper Club, a social group to which Mrs. Cramer had belonged for 20 years.

Mrs. Kathryn Cramer

A comparatively small group, they found themselves unable to manage the organization of a Ray themselves, discussed the plan with friends and soon found membership had snowballed into six units with a total of 175 members.

One representative from each of the six units comprise a board which will meet regularly to negotiate business of the Ray.

Participating units of the Ray are, Unit one, Clipper Club with Mrs William C. McMinn, 4999 Hayden Run-rd, chairman; unit two, bridge club with Mrs. Lovelle Rohr, 291 S. Brinker-av, chairman.

Unit three, CIC Sunday School Class of Glenwood Methodist with Mrs. Curtis Wilcox, 2474 Brixton-rd, chairman; unit four, a group of friends with Mrs. W. C. McWilliams, 2752 Coventry-rd, chairman

Unit five, Fidelis Club of Hilliards, comprised of Mrs. Cramer's girlhood friends, with Mrs. H. P. Twitchell, chairman and unit six, Kiwanikwe with Mrs. C. Carlton Hartley, 1370 Wilson-rd, chairman.

Other friends of Mrs. Cramer, or members of organizations to which she belonged are invited to join the Ray. Anyone interested may call temporary chairman Mrs William C. McMinn, 4999 Hayden Run-rd, TU. 9-8859 for more information.

Mrs. Cramer was honored as 'Mother of the Year' by the Hilltop Kiwanis Club in 1955 and was named 'Woman of the Year' by the auxiliary of the Columbus Academy of Medicine. This year's yearbook of the auxiliary will be dedicated to her memory.

She also had the distinction of being the only woman member of the Hilltop YMCA Board of Management

A lifetime member and past president of Nu Sigma Nu Wives clubs, Mrs. Cramer was a member of Glenwood Methodist Church, Eastern Star and Delta Gamma Mothers' Club

Her daughter, Mrs. Donald Tritt is teaching nursing in St Luke Hospital, Chicago; Mrs. Cramer's mother, Mrs. Frank Fishinger is a resident of Hilliards and her brother, L. K. Fishinger lives at 273 S. Westgate-av.

THOUGHT FOR NEWSPAPER WEEK

Dear Son

By Joseph Martell

DEAR SON

Somewhere At Sea,
(In the Med)

Dear Mom:

I've been getting your letters regularly from Chittlin' Switch and the reason I haven't been writing so often is because I've been going on liberty in Europe seeing the sights.

One place the gang wanted to go so bad was a tour of Italy to see some famous building in a town called Pisa. Well, I went with my buddy and honestly, Mom, Pop wouldn't have it on the property as it's all out of shape. It leans awful to one side.

The Chief is still the same towards me. (I think he hates me) Well, anyhow, the other day I'm on the cruiser as we're pulling into port and I fell overboard. The Chief didn't know it was me and was looking all over the ship for me and when he found me I told him I fell in the water. He yelled: "What That took you an hour!"

While we were in England my buddy and I went into what they call a "pub" for a beer. (In Chittlin' Switch they call them saloons). I told the bartender that the place had a nice atmosphere and I especially liked the way they sprinkled sawdust on the floor. She told me it wasn't sawdust but last night's furniture.

I don't hang around with Vernon Stench anymore as he gets in trouble a lot. Last week he got a court-martial and when the prosecutor asked him at the trial if he challenger any of the court officers, Vernon said he thought he could beat up the little one on the end. He got three months.

While we were in France I had a chance to go to Paris to see the Follies. When I got back to the ship my eyes were all swollen and red so I went to sick bay. The doctor asked me where I had been the night before so I told him. "After this," he said, "try blinking once or twice during the show. You won't miss much.

Your loving,
Jason

Coturnix Quail Released In Area

Game Protector Alan Ward releases some Coturnix quail. Watching are Jess and Paul Hart who operate a Madison County farm where the birds were stocked.

INSIDE ON THE Outdoors
By ROD COCHRAN

Coturnix quail have been released in Ohio by the Ohio Division of Wildlife for two years now, but this is the first year of wide-scale stocking.

Approximately 100 birds, also called Japanese quail, were recently released in Franklin County and about the same number was stocked in Madison County. The Oakland Park Conservation Club released about 75 birds that they hatched and raised as a club project.

Several states are experimenting with Coturnix quail to find out if they will live in our temperate climate. Since this work was begun, several interesting facts have come to light. It has been found that Coturnix live in more "open" areas, and would not compete with our native bobwhites for living quarters. This is very fortunate, for there are areas of pasture and intensively farmed cropfields that do not support a game bird. If the Coturnix is established in Ohio there is a possibility that it would provide bird hunting where none now exists.

Reproduces Well

Game experts have found that the Coturnix has a high rate of reproduction under game farm conditions. The eggs hatch in 16 days, and young birds begin to lay at 35 days of age. Released birds have nested in Ohio in the wild, but it is not yet known how many broods they will bring off during the nesting season. There is also the possibility of birds hatched early in the spring, raising broods of their own by late summer.

Coturnix are smaller than bobwhite quail. The average weight of Coturnix is 4½ ounces, and bobwhites average 7 ounces. In appearance the Coturnix is midway between a bobwhite and a meadowlark. It looks like a small quail, heavily streaked and with a pronounced white stripe over the eye. It has a bob tail, a longer, slimmer beak than the bobwhite, and its behavior is quite similar to the meadowlark as it has the same crouching stance while feeding or walking.

Coturnix are migratory in Asia and Europe, their native lands. It is not definitely known how they will react in the United States. One quail released in Ohio last year was shot by a Georgia hunter, who thought he had shot a bobwhite. Since bobwhites are non-migratory, he was very surprised to find an Ohio band on the bird's leg. Other Coturnix were known to stay in Ohio all winter near the release site.

Have Biblical History

The quail mentioned in the Bible, are Coturnix. The Israelites feasted on this bird when wandering in the wilderness. Led by Moses they were fleeing Egypt and were without food and water, when in answer to prayer, a great flight of quails lit in their camp. It has been determined that the birds had just migrated over a large body of water and were exhausted. Thus, they were easily caught by hand.

Coturnix do not live in large coveys like bobwhites, but congregate in groups of 3 or 4.

Bird dogs will point Coturnix, and the birds hold well to dogs. When the birds are flushed, they fly low with a rapid wing beat. People who have hunted them claim that hunting Coturnix is a lot like walking up singles and doubles after a covey of bobwhites has been scattered.

The meat of Coturnix is dark, and the report I have is that it is excellent eating.

Although the prospects seem bright for Coturnix as a future game bird, don't all up the old scattergun with the hopes of shooting some soon. There is no open season on them, and it is not even known if they will thrive in Ohio. The whole project is still on an experimental basis.

Hilltop Youth Named Maine 'Junior Guide'

Bruce Harmon

Bruce Harmon, West High School student of 2650 Sullivant-av, recently received certification as a Maine Junior Guide."

The presentation was made late in August by Edmund S. Muskie, governor of the state of Maine.

Harmon successfully passed 18 of 20 tests given over a three-day period at an assigned wilderness location in the state. The program, "The Art of Living Out of Doors," is sponsored by the Maine legislature and the Maine Camp Directors Association.

The announcement was made by C. F. Bateman, West High teacher, who is in charge of the Junior Guide program at Camp Kawanhee in Weld which is owned and operated by G. R. Frank, 3197 Broadmoor-av.

He said Harmon finished requirements in only one season. "Most campers take two seasons to prepare for the tests and only about a third of them pass on their first trial," Bateman said.

Open to boys and girls, 14 to 21, the tests cover the following phases of outdoor lore: felling trees for firewood, starting a fire in bad weather, knowledge of fire laws and control, tree identification, use of compass and maps, planning and handling a canoe on a three-day trip, riflry, life saving, and knowledge of fish and game laws.

PROTEIN FOODS — Beef rib roast, rib end pork roast, turkey, frozen fish sticks.

Ohio Apple Time

Apple harvest is under way in Ohio. This brings a rush of apples to the market and it is at this peak of the season that quality is usually best and price lowest.

Growers report a big apple crop for 1957. The dry weather in some areas has reduced the size of the fruit, but you'll like the high color of many varieties this year. The cool nights of late August and early September added color.

Dessert varieties like McIntosh, Cortland and Red Delicious are reaching that stage of mellow ripeness that makes them favorites for eating out-of-hand.

Jonathan, Golden Delicious and Stayman are also being harvested but improve in dessert quality after a period of ripening in storage. These apples are popular for pies and sauces.

Rome Beauty is the leading variety in Ohio in terms of production. It is being harvested now but is generally stored until early winter and then used for baking and for pies.

Buying—Central heating in our homes has changed apple buying habits. The modern home may not have a good place to keep apples that are at the peak of dessert quality except in the refrigerator. That fact explains the popularity of the 3, 5, and 10-pound bags of dessert apples now displayed in food stores.

The quality of apples to buy will depend on the desired use and the amount of storage space available. A bushel of apples usually contains 96 to 144 apples. Buying apples in this quantity is economical if you can use them while the quality is good. The firmer textured apples like Jonathan will keep well in a cool basement or garage. But sort apples frequently removing those ready for table use to avoid loss..

Having plenty of apples around is a good way of luring the children away from too many sweets.

Hilltop Y-Teens Plan Program

Activities and meetings are underway for members of all local Junior High Y-Teen Clubs on the Hilltop, including West Junior, Starling and Hilltonia.

Mrs. John Bryan, Mrs. Harry Bobbitt and Mrs. Donald Fearn are new advisors of the three West Junior Clubs. Starling groups are under the direction of Mrs. Elaine Mackey and Mrs. Kay Short. Advisors for the two clubs at Hilltonia are Mrs. Dorcas Miller and Mrs. Pauline Sparrow.

Fall activities of the clubs include picnics, camp-outs, craft projects, service activities, Junior Jamboree and recognition service and tea.

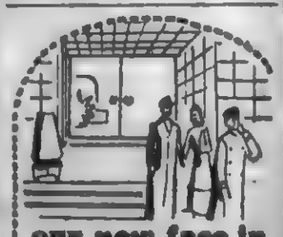
West Senior High School Y-Teen Club members sell refreshments at football games, are planning a style show and sell perfume. Autumn events also include roll call week and a recognition service.

Club advisors are Mrs. Mary Murphy, Mrs. Mary Hester and Mrs. Mozella Warren.

Still Busy With 'Y' Tally

DRIVE OVER, NOW TO COUNT THE MONEY and the memberships, say Mrs. W. W. Slater, left, Mrs. Charles Shute and Mrs. Kenneth Ash, among others who are helping in the tally. From all present indications the YMCA membership drive met and perhaps went over its goal.

With the Hilltop YMCA membership drive over, comes the task of counting the enrollees and the money!



Cards are still coming in and the final tabulation will not be completed until all the residential chairmen have turned in their tallies. The count is expected to be finished by the end of this week, said Mrs. W. K. Bishop of the Hilltop Branch of the YMCA, who is working on the tabulation along with Mrs. Roy Von Ins, Mrs. Charles Shute, Mrs. Kenneth Ash and Mrs. W. A. Fisher.

The Board of Directors and the staff voiced thorough appreciation of all the efforts of the Hilltop people both as workers and as new members. They especially thanked Rev. Wold, general chairman of the campaign, John Nippert, vice-chairman Gladys Anderson and Evelyn Jones, co-chairmen.

Those who would like to enroll, and were in some way missed, should either phone or come into the Hilltop YMCA.

How's This For A Bean?

BILLY AND HIS BEANSTALK—A modern-day version of the old fairy tale displayed by Billy Hill, holding a 33-inch-long New Guinea bean. The bean was grown at the home of his father, Don S. Hill, in Lafayette. Said to be edible, the meat is something between squash and egg plant. The seeds were brought from overseas by a service man. They were planted next to a telephone pole which it covered with vines and five mesh beans. A six-foot ladder was used to harvest the crop.

Information on proper behavior in social situations, a meaning in life, developing ideals, and applying these things to real situations is emphasized.

Another facet to homemaking is home management. Starling teenagers have been studying means of managing time, budgeting allowances and conserving energy in homemaking.

Members also pack gift boxes for children overseas containing such small articles as combs, soap, marbles and handkerchiefs.

50 Beds Readied For JDC Studies

Fifty of the 150 beds at the Juvenile Diagnostic Center, 2280 W. Broad-st, have been made available for the re-establishment of pre-dispositional residential studies of delinquent children referred by Ohio Juvenile courts.

This work has not been available since late 1955 because of shortage of funds and staff, said Dr. C. Earl Albrecht, acting mental hygiene and correction director.

Referrals under the re-established procedure will be limited to boys 10 to 17 years of age and girls, 12 to 17 who have had a clinical evaluation by an acceptable clinic or facility, and still have a need for adequate diagnosis before disposition of their cases by juvenile courts.

West Crushes Pirates With 21 To 7 Score

By Cliff Shoemaker

Early in the first period, Central scored when Jerry Cook lateraled to Henry Hairston who raced 70 yards for the score. Littlefield went over for the extra point.

West tied the score in the second period as Myers recovered a Central fumble and they marched down the field and scored with Reichart carrying over from the one-yard line. Uldricks converted and the score was 7-7.

Bill Smith, subbing for injured Dave Francis, scored the tie-breaking tally, carrying for eight yards in two attempts. Bob Pate intercepted a Central pass and galloped 58 yards to the Central 28-yard line before being banged out of bounds by the Pirate secondary.

Deep in Central territory Dave Bunner, Cowboy linebacker, grabbed a Central pass and after a series of plays Larry Price scored from the five.

West's offense showed that it could move as it gained 258 yards rushing and collected 14 first downs. The Cowboys completed three of 11 passes. Larry Price gained 70 yards in 26 tries to pace the Cowboys' offensive attack.

Miss Marilyn Williams served as maid of honor and bridesmaids were Miss Nancy Seeds and Miss Susan Weisman. They were identically gowned in rose taffeta frocks with bateau necklines, brief sleeves and waltz-length, princess style skirts. They wore matching headpieces with circular veils and carried cascades of white glamellias with pink shattered carnations.

A coronet of pearls and iridescents held her fingertip veil and she carried an arrangement of white roses.

Miss Carol Ann Bonn served as maid of honor for her sister. She was gowned in yellow with a contrasting gold taffeta cummerbund tied in back with a large bow and streamers and matching crown with hose veil.

Mr. and Mrs. M. E. LaVelle, 50 Whitethorne-av observed their golden wedding anniversary Saturday, Sept. 28. They were married 50 years ago in Sacred Heart Church, Columbus.

The couple has two living children, Leo Michael and John Francis, both of the Hilltop. They have seven grandchildren, Sally Kimball of Clintonville and Catharine, Joanne, Jack, Mike, Pat and Tim LaVelle, all of the Hilltop and four great grandchildren.

The day-long celebration began with high mass offered by Rev. William Maloney, pastor of St. Aloysius Church, followed by breakfast at the home of a grand daughter Mrs. Thomas M. Kimball.

A formal afternoon reception was held for the couple in the home of their son, Leo, at 187 Hillcrest.

One of the highlights of the occasion was a surprise golden money tree to which the family attached leaves fashioned from currency.

After the reception a buffet supper was served.

The LaVelles have long been residents of the Hilltop and Mr. LaVelle has been associated with the Columbus State Hospital as Head Storekeeper for the past 20 years.

Hilltop Kiwanis Marks Month With Church Loyalty Theme

Howard Lloyd

October has been designated as church loyalty month by the support of churches committee of the Hilltop Kiwanis Club. In observance of the month, a member of the club will submit, each week during the month, a testimonial of what church means in his home life.

First in the series is presented this week by Howard Lloyd, past president of Hilltop Kiwanis Club, member of the board of management of Hilltop YMCA and a trustee of Glenwood Methodist Church.

By Howard Lloyd

Our immediate interests are so urgent and absorbing that we must be careful they do not completely capture us.

Over against the material environment in which we live, and which is constantly making demands upon us, the church creates another environment in which there is a different measure of human worth.

I feel that the church fellowship brings us all back to the realization that there are more important things in life than monetary success.

Sunday School Rally Is Planned

Sunday School rally day is set for Sunday at United Brethren Church, 400 S. Wheatland-av. Rev. George Weaver of Huntington, Ind., editor in chief of the United Brethren church paper, will be the special guest.

He will teach the adult Sunday School class at 9:30 and preach during worship service at 10:45 a. m. Special music is also planned for the day.

Walter Dice is adult superintendent and Mrs. Harriett Webb, junior superintendent. Rev. H. E. Harwood is pastor of the church.

Rev. E. Martin will Conduct Revival At Bellows Nazarene

Bellows Avenue Church of The Nazarene, Bellows-av at Cypress-av will conduct a series of revival services Oct. 2 through Oct. 13, with Rev. Edwin C. Martin as evangelist.

Services will be held each weekday night at 7:30 and, on Sunday, at 10:30 a.m. and 7 p.m.

Rev. Martin, pastor of Warren Avenue Church of The Nazarene in 1934, is from Pasadena, Cal. As an evangelist he has preached in churches and camp meetings throughout the country.

Rev. Martin is also a baritone soloist and has completed graduate work at the Conservatory of Music in Cincinnati.

Camporee Set For Oct. 4th

Robert Meade, district Scout Executive, announces the Fall Scout Camporee to be held Oct. 4th, 5th and 6th. All scouts in the Southwest district are invited to attend the weekend outing.

It will be held at the Howard Johnson farm, on Koeble-rd.

Highlights of the Camporee will be a Saturday evening campfire to which all parents are invited. Sunday at 8:30 a.m. Rev. William George will lead worship service for the scouts.

Plans Dinner, Bazaar

WSCS Rebecca Circle of West Park Avenue Methodist Church will hold a freewill offering dinner and bazaar, Oct. 10, 5 to 7:30 p.m. at the church.

The go-getter is the one who persuades you that his estimate of himself is correct.

New Nursery To Start On Oct. 7

"Tiny Tots" nursery school for children through five years will open Oct. 7. Sessions will be held each week day, 9 to 11:30 a. m in the Westgate Methodist Church.

For further information and registration, call Mrs. Walter Justus, BR. 4-3063; Mrs. Wendall Rector, BR. 9-1294, or Mrs. [illegible] Saint? BR. 4-4828.

Daily program will include musical games, group activities, story telling and crafts.

Your Youth

By Bud Martin and Al Hollowell

West Junior Hi-Y Club held its first meeting of the school year at the Hilltop YMCA last Thursday evening. New members were given application cards and welcomed to the meeting.

The club heard reports from President Jerry Mider and Jack Heil, council representative, on the city-wide Junior Hi-Y Council meeting the previous Monday. Both were elected officers. Jerry is secretary and Jack is chaplain of the city-wide group.

Although there was serious thought given to changing the meeting night to another evening, the next meeting will be on Thursday this week at the Hilltop YMCA, 7 p.m.

Cliff Shoemaker, president of West Senior Hi-Y Club, and Vaughn Ammon, their council representative, attended the city wide Hi-Y Council meeting last Monday. Plans were made for council activities for the coming year.

The Hilltop YMCA Gra-Y Clubs have begun in West Broad, Highland, West Mound, John Burroughs, and Westgate elementary schools in the last week. A football league for these boys is planned to begin this Saturday morning at West High practice field, 9 a.m.

Indian Guide dads and sons in the Hilltop Nation are preparing for their annual camp out and induction at South Side "Y" Park this week end.

Schedule for the week is as follows:

Thursday, Oct. 3 — Gra-Y, West Mound, 3:30 p.m.; West Jr. Hi-Y meeting, Hilltop "Y", 7 p.m.; "Y" Movies, Oakley Baptist Church, 7 p.m.

Friday, Oct. 4 — Gra-Y, Westgate, 3:30 p.m.; "Y" Girls' Craft Class, Hilltop "Y", 3:30 p.m.; "Y" Indian Guides, Cheyenne-Dakota, 7:15 p.m.; "Y" Movies, Glenwood Recreation Center, 7 p.m.

Saturday, Oct. 5 — Gra-Y football clinic, West High practice field, 9 a.m.; "Y" Indian Guide Campout and Induction, South Side "Y" Park, 1 p.m.; ("Y" Movies, Juvenile Diagnostic Center, 12:30 p.m.

Monday, Oct. 7 — "Y" Movies, Hilltop Y, 3:30 p.m.; Gra-Y, West Broad, 3:30 p.m.; "Y" Indian Guides, Cayuga tribe, 7:15 p.m.; Y's Men's Bowling, 7:30 p.m.

Tuesday, Oct. 8 — "Y" Boys' Craft, Hilltop "Y", 3:30 p.m.; Gra-Y Highland, 3:30 p.m.; Hilltop "Y" Adult Leather Craft Class, Hilltop "Y" 7:30 p.m.

Wednesday, Oct. 9 — "Y" Golden Age Club, Hoge Memorial, 2 p.m.; Gra-Y, John Burroughs 3:30 p.m.; "Y" Indian Guides, Mingo, Seneca, Huron, Shawnee, 7:15 p.m.

Pharmacy Week Proclaimed

Mayor M. E. Sensenbrenner holds a proclamation "localizing" National Pharmacy Week, Oct. 6-12. Standing are William Harrup, Jr., 671 W. Broad-st (left) chairman of the executive committee of the Central Ohio Academy of Pharmacy, and C. H. Campbell secretary of the same organization.

• • •

As secretary of the executive committee of the Central Ohio Academy of Pharmacy, Hilltop's C. H. 'Doc' Campbell has some interesting observations to make in line with National Pharmacy Week, Oct. 6 to 12.

"Many fascinating changes have taken place in pharmacy over the years," Campbell noted. "One hundred years ago most drugs and remedies were sold in general stores, and the apothecary shops were owned more often by doctors than by professional pharmacists, trained to make up prescriptions."

"Now there are about 110,000 registered pharmacists in the United States," Campbell continued, "and nearly 90 per cent of them work in retail pharmacies.

Since 1932 pharmacists have been required to have four years of college work before they can practice. Many states require a year of internship before a license can be issued.

"Many new drugs require special care and handling to insure their potency, and this places an additional professional responsibility on the pharmacist," Campbell said. "One product cannot be substituted for another in a prescription even though they are similar. Many are carried at a financial loss, since a prescription for 24 might be taken from a bottle of 100 and the rest left on the shelf for months before another prescription is received," he observed.

For Your Thoughts

Question: How do you feel about the decision to send federal troops to Little Rock to aid in the integration problem?

Miss Zolma Anderson, 45 N. Wayne-av: "I think it was a good decision, it is a shame that we had to resort to force on an issue like this but our school system is far too crowded now and it's getting worse all the time. We just can't afford to have separate schools for everyone."

Harry F. Murray, 818 S. Hague-av: "I think if our constitution is going to mean anything at all we must enforce its laws, no matter what the situation. Under the circumstances I don't see where the President had any other choice in this matter. I can sympathize with the governor's predicament, however, but laws are laws no matter what an individual may think."

Charles Peugh, 420 N. Hague-av: "I definitely think it was a step in the right direction. Court decisions have to be upheld regardless of individual feelings on the matter. I do think it is a shame that the state of Arkansas wasn't able to iron out its own problems.

Mrs. Grace Lee, 47 S. Warren-av: "Well I think the state should have been able to take care of the problem by itself without federal interference. The whole incident is a blot on our country. Of course, I realize that it is hard for us here to understand their feelings. Maybe, if I lived in that state I would feel very different towards the matter."

Mrs. Mary A. Coe, 765 S. Terrace-av: "I think it is a shame that any governor in the United States would make such a spectacle of himself and his state. I think the President did the only thing that he could and one of the finest things ever done by any president."

Gives Convention Details

Florence S. Forsha, 963 Wedgewood-dr, announces that she has received information regarding the annual convention of the Ohio chapter of Natural Food Associates, which will be held at the Buckeye Building at the Ohio State Fairgrounds on Oct. 5 and 6.

The organization lists as its chief purposes; "1. Education of people to the values of natural food grown in fertile soil, 2. To advise people how and where to get this food."

Among the speakers are Jonathan Forman, M.D., president of "Friends of the Land"; Dr. Joseph B. Nichols, president of Natural Food Associates, and Dr. Coda Martin, of New York City. For information on tickets call BR. 4-7641.

Local Adventists Host Teachers' Convention Here

Teachers of the Seventh-Day Adventist grade schools in Ohio and West Virginia will meet Oct. 6 to 9 in the Eastwood Church, 26 N. 21st-st, for their annual convention.

Local children attending the denominational school at Union and Ryan-av will have a three-day vacation until Thursday.

H. W. Bass and Dale Ingersol, educational superintendents of the Ohio and West Virginia conferences, will direct the program.

Open house for visiting teachers will be held at the Columbus Seventh-Day Adventist School, Oct. 7, and at the Worthington Adventist School, Oct. 8.

West Grad Trains In East

Army Pvt. Charles R. Judson is receiving advanced training in ordnance at Aberdeen Proving Ground Md., under the Reserve Forces Act Program. He is the son of Mrs. Cleo F. Judson, 480 Columbian-av.

A 1954 graduate of West High School, Judson completed basic training at Fort Knox, Ky. He was employed by the Westinghouse Electric Corp. in civilian life.

Club Secretary

The one who keeps the minutes and wastes the hours.

ON COUNCIL

Miss Gladys Bowen, of West High School, is on the executive council of the Journalism Association of Ohio Schools that will hold its annual convention at the Ohio State University campus on October fourth and fifth.

PERMIT GRANTED

Permission was granted to Glen Uppeman, 449 S. Wayne-av, to remodel a frame dwelling. Contractor is the Hill Construction Company.

OBTAINED PERMIT

The Franks Realty Company, 4760 North High-st, has obtained a permit to remodel a frame dwelling at 294 S. Westgate-av. D. Retter is the contractor.

On the job barely four weeks, newspaper boy Alex Mezzaros has more than tripled his customers.

South Side Youth Sets Torrid Pace In News Carrier Competitions

• • •

The Hartley Newspaper Carrier contest is off to a whopping start with Alex Mezzaros, 370 Hinman-av, a South Side Leader carrier, leading over 200 carriers.

Alex, 14, the son of Mr. and Mrs. Alex Mezzaros, has been a carrier only four weeks.

In his first collection period he built his route from 50 customers to 160, for which he received a total of 290 points—the highest ever accumulated in one collection period. Alex said, "they told me to go to the houses listed on the route but that didn't seem to be enough, so I went to every house on my Moler-st route."

He is in his freshman year at Barrett Junior High School and has been an almost-all-A student. His hobbies are archery and model airplanes, his favorite sport is football and he plays on a team at Lincoln Park.

In the carrier contest, Alex says that he is trying to win a radio, which takes 300 points.

As for the future—he'd like to go to West Point.

• • •

The leading Hilltop Record carrier for the first month is Tom Hall, 130 S. Algonquin-av, with 90 points.

The top West Side News carrier for the first period was tied for by Charles Ivory, 434 Holton-av, and Tom Applegate, 92 Cypress-av, each having 70 points.

Every boy who carries for The Hilltop Record, The West Side News and The South Side Leader is eligible to take part in the prize contest based on his collections for the next few months.

Prizes include sporting goods, fishing equipment, radios, watches and numerous other items.

As a reader of one of these newspapers you can help your carrier to win prizes by paying him when he collects each month. Prompt payment by his customers and increased subscriptions will be the key to his success. Help your boy win the gift of his choice.

FUN AND FOOTBALL ARE HOMECOMING FEATURES

Prospects of a hard-fought game with such a worthy opponent as Aquinas and the suspense of a secret to be revealed during half-time have combined to send pre-homecoming game excitement to a new high at West this year.

Always the highlight of any football season, this year's festivities will include the traditional semi-formal dance on Saturday night and, during half-time ceremonies at Friday night's game, the announcement of the students' choice for queen and her court.

One among five, chosen by students in their Sept. 26 election, will receive the queen's crown, bouquet and kisses from football co-captains Larry Price and Dave Hallam. The remaining four will comprise her court.

Candidates for the honors are Patti Donaldson, Jeanne James, Pat Probst, Bonnie McEntire and Nancy Draper.

Their escorts will be Pete Trott, student council president; Tom Abrams, 12A class representative; Jim Callard, 12B Class president; Cliff Shoemaker, Hi-Y president and Jim Williamson, 12B class vice-president.

Judy Tilton, queen of last year's homecoming festivities, will introduce the queen, and Larry Bates, last year's student council president, will preside during half-time ceremonies.

The new queen will also reign over the homecoming dance Saturday night. Don Phillips' 14-piece orchestra from OSU will play for dancing from 9 p.m. to midnight in the school gym. Sponsored by the Alumni Association, the dance is semi-formal. Tickets may be purchased at the door and "no stag" is the rule.

WESTGATE OWNERS ASK:

Will It Be Nice Lawns Or Safer Children? . . .

"Will they use the sidewalks if we get them?" That is the question Westgate-av property owners are asking themselves.

The residents of Westgate-av between Palmetto and Wicklow-av have been complaining about school children using their front lawns as a sidewalk on their way to and from school. They have worn a path along the front of most of the homes in that area and killed most of the grass.

The property owners have submitted a petition to the city for repaving of the street, and construction of a curb and sidewalk. These interviewed said that it was for the safety of the children as well as for the protection of their lawns.

It will cost the owners around $500 each. One resident said that "it would be well worth it because it gets pretty nerve-wracking having 15 to 20 children cavorting on your front lawn four times a day for almost nine months out of the year."

Another resident said, "I do not feel that it is worth $500 and it seems to me that the safety of the children is more important than a little grass."

Having no sidewalks in that area, children must either walk on the lawns or in the streets on their way to school. If the owners get the sidewalks and if the children use them there apparently would be no problem, it was pointed out.

Matilda Stuart Succumbs To Heart Attack

Miss Matilda L. Stuart, 40 S. Terrace-av, principal of West Broad Street Elementary School for many years and principal of the new Valleyview School, died Sunday in Mt. Carmel Hospital. She had suffered a heart attack Saturday.

Miss Stuart

A former principal of Highland Avenue School, she had taught in the Columbus School system for more than 30 years. Miss Stuart also spent two years in China as head of the Friends Church Girls School there.

She was a member of Highland Avenue Friends Church, Pi Lambda Theta and Delta Kappa Gamma sororities and the Elementary Principals Association.

Surviving are two sisters, Miss Helene Stuart at home and Mrs. E. C. Langdon of 212 Binns-blvd; two brothers, George of Highland-st and Robert of 59 N. Burgess-av; an aunt, Miss Lorena Pugh of the residence; nieces and nephews.

Funeral services were to be held at 2:30 p.m. Wednesday in Highland Avenue Friends Church. Burial will be in Sunset Cemetery by the Jerry Spears Funeral Home.

Hilltop Group To Hear TB X-Ray Report

Hilltop Community Council will hear a discussion on the significance of tuberculosis and other chest diseases discovered in recent years on the Westside and Hilltop at its meeting Oct. 10, 8 p.m. at the Hilltop YMCA.

Harold M. Throop, director of the X-Ray program of the Columbus Tuberculosis Society will present the report. Representatives to the council and all interested citizens are invited to attend.

Final committee assignments for the community Halloween party will also be decided.

Refreshments will follow the meeting.

West High To Be Scene Of Annual Community Halloween Festivities

With "barrels of fun without destruction" as its spirited slogan, the planned 12th annual Hilltop Community Council Halloween Party this week gave promise of entertaining some 2700 Hilltoppers at West High School on the most festive scale ever.

Scheduled to begin at 7 p.m. Oct. 31 — "rain or shine" — the party will provide fun and special events for all Hilltoppers, age two to 82 years, according to general chairman John Clay.

Hilltop Business Association representative to Council.

As in past years, there will be no admission charge and a variety of warm and cold drinks and food snacks will be sold at near cost.

IS FAMILY AFFAIR

"The mammoth Hilltop Halloween Party started a dozen years ago as a device to sidetrack excessive 'hobgoblin energy', but has grown to the point that every member of the family looks forward to it with great anticipation. And," declared Clay, "its increasing popularity over the years has been accompanied by a gratifying and readily apparent decline in juvenile vandalism. This proves the soundness of our original and continuing faith in the good citizenship of Hilltop youth."

Most of the first floor of West High School, including the gymnasium, auditorium and cafeteria, will be devoted to party activities.

FUN BEGINS AT 7 P.M.

Gymnasium events will get underway with the traditional costume masquerade party at 7 p.m., followed by judging at 7:30 p.m. with 12 silver dollars offered by the Hilltop Business Association. The funniest, prettiest and most original costume wearers will win prizes in the two to six-year-old group, seven to nine, 10-12, and 13 years and over group.

Fund-Raising Drive Starts At Glenwood

Dr. Alton E. Lowe

A financial crusade with a goal of $150,000 will get underway at Glenwood Methodist Church this week, in preparation for the construction of a new church building on N. Hague-av at Valleyview-dr.

The fund-raising campaign is being conducted with the advice and assistance of Dr. Alton E. Lowe in his capacity as assistant superintendent of the Board of National Missions of the Methodist Church. H. C. Keefer is general chairman of the drive.

Appointed by the home mission board 19 years ago, Dr. Lowe has conducted similar campaign in many cities.

He will speak at Glenwood during the morning worship service at 10:30 for the next three Sundays, and meet with the 80 captains each Sunday afternoon and Wednesday evening, advising them on campaign problems and procedure. More than 300 members of Glenwood will participate in the drive.

Before his assignment with the home mission board, Dr. Lowe served pastorates in a number of large Methodist Churches including the First Methodist Church in Denver, Colo.

Austin To Try For Legion Dept. Position

Michael H. Austin, past commander of Camp Chase Post, American Legion, was endorsed by the post last Friday night to be a candidate for treasurer of the Legion's Department of Ohio.

The election is to be held next July at the department convention in this city.

Austin is serving on the Camp Chase executive and permanent home committees. He is also a past commander of the Legion county and district groups.

Council Votes Another Walk At Valleyview

Valleyview is out to take care of its junior citizens.

That seemed evident Monday night when the village fathers voted to lay a gravel walk along Valleyview-dr from Hague-av east to the corporation limits.

The walk, which will be placed on the south side of the street, will lie directly across Hague-av from another path constructed earlier by the village for children on their way to Valleyview School.

Cost of the walk will be about $500, Mayor Charles Ringer said. The previously constructed walk cost about $300.

Mayor Ringer stated that cross stripe will also be painted across Valleyview-dr at the Eldon-av intersection. Additional caution signs will also be placed near the intersection.

The action was taken by council after Norris Boothe, president, turned in a comprehensive report on the amount of school children traffic along Valleyview-dr.

Girl Unconscious From Auto Crash

Janet Lorenzo, 19, of 154 N. Ogden-av, is still unconscious in the Springfield City Hospital, said her mother today. The girl was injured Thursday in an auto accident near Springfield. She is reported in fair condition.

She suffered a cerebral concussion when the car in which she was riding ran out of gasoline four miles east of Springfield. Two male passengers were preparing to push it off the road when a semi-trailer truck struck the car.

Driver of the car, Sandra Phillips, 18, of 1732 S. Fourth-st, was listed in good condition and is expected to leave the hospital today.

The truck driver was Wilbur J. Creech, 35, of Samoset, Fla.

Hilltop Woman Named Registrar

A 15-year employe of the Health Department, Esther Dellenbach, 154 S. Huron-av, was named registrar of vital statistics by the board, Monday.

She will take over duties performed for the past 15 months by Dr. Ollie Goodloe, city health commissioner.

The department issues birth certificates and burial permits. She will receive $302 monthly.

Area Has 10% Park Needs, Sickles Says

While Columbus is perhaps the fastest growing city in Ohio, it is far behind in city park facilities, Hilltop Kiwanians were told Thursday.

The speaker was Trent Sickles, assistant to the president of F&R Lazarus Co. and enthusiastic civic worker.

Citing that metropolitan parks bond issues which have failed to get voter approval, Sickles urged all to use vision in deciding their vote on the three-tenths mill park levy this fall.

"West Columbus has only 42 acres of parklands for some 40,000 inhabitants, and that is 10 per cent of what is really needed," Sickles said. The National Recreation and Park Service recommends 10 acres per each thousand population.

The city spends $1.28 per capita for parks while the national average is $3.26, he related.

Columbus was ten years later than most other Ohio cities in establishing a metropolitan parks system and has only one-fourth the per capita of such parks, he said.

"New industries seek out cities with good parks and playgrounds—it's good business to invest in them," Sickles concluded.

Everybody Helps As Westway Post Grows

INCREASED MEMBERSHIP has called for expansion of quarters for Veterans of Foreign Wars, Westway Post 3441, located on Clarendon-av. Post members are assisting workers on the construction. Scouts of Troop 219, which the post sponsors, are shown with, left to right, James Horn, post commander; Ronald Wolford, building chairman; Sam Weller, youth chairman.

Extensive Golf Course Is Newest Project For Busy Hilltop Builder, Ed Tonti

About 285 acres of rolling farmland five miles south of New Rome are in the midst of some spectacular changes.

An enterprising Hilltop builder, Ed Tonti, is watching a four-year-long dream course destined to cover from 160 to 175 of the acres. The rest is to be used for other recreation.

Tonti, whose name has headed such projects as Rosary, Miriam, Demorest and Neff sub-divisions is particularly proud of his new project. "My partner, Harry Haney and I believe our new course will be one of the best, if not the finest in Central Ohio," Tonti said. He estimates the cost at between six and $700,000.

The site is southwest of the junction of Norton and Johnstonrds. To date 14 greens have been graded and are being top dressed. Four greens areas await the removal of crops. All grading and seeding are expected to be finished by Oct. 25.

Large Clubhouse Planned

A 400-locker clubhouse will go up next summer and a swimming pool also is being considered, Tonti said. Club headquarters, to be done in modern motif, will feature a dining room, bar, pro shop, kitchen and patio. Spring of 1959 is the target date for completion.

No name has been chosen but "Oakhurst Golf Course" is being considered. Tonti says he is now taking in memberships at a $300 initiation fee and he expects to close with two to three hundred on the golfing roster.

Site of the 18-hole, par 72 course, is described by the build-

View south of golf course under construction. A spacious clubhouse will be located at center horizon. Piles of pool stone at left were transported from nearby bus-

Ed Tonti displays the corner of a two-acre nursery at the Norton-rd site which will supply grass stock for the new course. The course may be ready for limited use next fall.

Police Trace Clues Behind Hilltop Supermarket Bandits

Undisclosed clues are being followed up and an investigation is being made by the police of the Hollywood-type holdup which was staged at the Hilltop Big Bear Store, 2836 W. Broad-st, early Sunday, involving the store manager.

Late Saturday night, bandits forced Ray Evans, manager of the store, to open two safes and stuff the money into a pillow case. The safes contained $4500. The robbers had tied Evans' wife, six-year-old son, Mrs. Evans' parents, Mr. and Mrs. Matthew Speicher, assistant manager, Kenneth R. Allerton and his wife, and left them in an upstairs bedroom at the manager's home in Upper Arlington.

One of the armed bandits, who was masked, stayed at the house to watch the hostages, while the other forced Evans to go to the store and open the safes. Later he was driven to the west end of Sullivant-av and tied up in the back seat of the car. A little later he was able to free himself and called the police.

A full description of the two men was given to the police who believed the robbery may have been planned months in advance.

Skating Party Set

A roller skating party for Hall Ridge Club members and their guests will be held Oct. 9 at Grove City Skating Rink.

At 8:30 p.m. the costume parade awards will be made, followed by an additional entertainment program in the auditorium from 9 to 10 p.m.

In the cafeteria, all concessions, including food and drink, will require tickets for purchase this eliminating the necessity of contsantly making change in the booths. The ticket booths will be operated by members of the Hilltop Kiwanikwe and the Highland Garden Club.

Concessions Are Assigned

Concessions already committeed for sponsorship include coffee and doughnuts, Girl Scouts; snowballs and candy, Campfire Girls; fish pond, PTAs of Highland, Westgate, West Broad, West Mound and John Burroughs elementary schools; pop, St. John's Lutheran Church; popcorn, St. Aloysius Church; hot dogs and milk, West High PTA; and fortune telling, Hilltop YWCA affiliates.

Sub-chairmen already named include Charles Moore of Glenwood Recreation Center staff, in charge of cafeteria [illegible] and arrangements; Wayne Brunner, council vice president, guards and police detail; Mrs. Kenneth Merrick, Hilltop YWCA, financial chairman and Mrs. Virginia Berger, information chairman.

Local Organizations Cooperate

Of the 45 organizations represented on the Hilltop Community Council, some two dozen have already agreed to assume an active role. Others have indicated their willingness to assist financially, according to Galvy Gordon, council president. He added that only the active cooperation of West High principal Robert Darrow and the board of education office makes possible this biggest of Halloween celebrations in Columbus.

As in past years, letters have been mailed to all organizations represented on the Council asking for financial contributions to defray the expenses involved in the Halloween Party.

Major contributors last year (organizations giving $50 or more toward the expenses of the Halloween Party) included Hilltop Kiwanis Club, Hilltop Youth Council, Hilltop Lions Club and Hilltop Business Association. Other gifts, from PTAs, churches and smaller civic and social clubs, ranged from $10 to $35.

Real Estate Tax Collection Is Month Earlier This Year

Real estate tax bills were mailed to property owners on Saturday for delivery Oct. 7, County Treasurer Newton A. Thatcher announced that his office will begin the tax collection at that time. Offices for the collection will be open for four weeks until Nov. 4.

Thatcher calls attention to the fact that this collection is a full 30 days earlier than a year ago. This has been the result of efforts being made to restore collections to former schedules. These schedules had been seriously interrupted in the past three years by delays caused by re-assessments and re-appraisals, he said.

Taxpayers are urged, by Treasurer Thatcher, to get their payments in early in order to avoid the long waiting line which faces those who delay until the last minute.

Bog Furnishes Peat, Water

"We have practically all the materials we need right here on the spot, Tonti said. He pointed out a sizeable peat bog which is being excavated to provide needed top dressing for greens. The peat is mixed with sand and other soil and applied in 12-inch layers. The bog is to be converted to a possibly 10 acre lake which will be part of the course and also furnish enough water for sprinkling all fairways, tees and greens. The pressure system is to be installed next spring.

Grass stock for the greens is being cultivated in a two-acre nursery bordering Nortonrd.

Working with Tonti on the project are Jack Kidwell, course designer; Earle O. Gifford, advisor and Ben Davis, excavator. The land was purchased early last summer.

Letters To The Editor

The racial question is a national issue and concerns all of the people and is not confined to any one section of our land.

Our constitution guarantees equal rights to all people irrespective of race, color, or creed. We all should recognize this principle and should peacefully obey the laws of our land and abide by them.

There are many southern citizens who are loyal to our Flag and as faithful to our country as any citizen of our land no matter where they may live. But there are zealots in the South who are so impressed with their own conceit that they attempt to override the interests of all to satisfy their own personal opinion.

But zealots are not confined to the South alone. Editorials and articles have appeared in northern daily papers which are fanning the flames of zealotry. Some people seem to think that they know better than the highest court of our land or the President in attempting to tell them what they should do and say.

Yes, Congress is the lawmaking body. Some people seem to have forgotten that the judicial department of our government has the authority to declare the constitutionality of laws passed thus making that body the supreme law of our land.

Instead of attacking our President for fulfilling his duty as the chief executive of our country whose obligation it is to protect the interests of all people, why do they not attack Washington, Jackson, Lincoln and other presidents for fulfilling their duty in enforcing the laws of our land?

Fanaticism in both North and South is adding fuel to the flame, and the fire thus kindled may spread until it becomes a conflagration that will take the blood of our citizens to put out the fire.

But in spite of the opposition to the racial question, people all over the land are responding favorably to the decision of the highest tribunal of our country.

People are ready to acknowledge that all people are descendents of the same parents and that many Negroes have whiter souls and cleaner characters than some of the white people that so bitterly oppose them.

Churches are opening their doors to the colored race. White and colored churches are consolidating their congregations. It is reported by good authority that a white church has hired a colored minister.

All of us have and will again pledge allegiance to our Flag and country. When we repeat the pledge we say, "One nation, indivisible, with liberty and justice for all."

May we all be true to that pledge, for "Whatsoever a man soweth, that shall he reap." "For they that sow to the wind, shall reap the whirlwind."

THINK ON THESE THINGS.

Drum, Bugle Corps Books 'Harvest Moon'

Besides the dancing, door prizes will be awarded.

GUIDE OF HIS FORMATIVE YEARS

Food Markets This Week

by Mrs. Estelle B. Franks

THIS WEEK SHOP FOR:

Fruits — Ohio apples, apple [illegible], grapes

Vegetables — Ohio potatoes, cauliflower, cabbage, peppers, frozen peas

Protein Foods — Chuck roast, whole ham, turkey, cheese.

OHIO POTATOES

Potatoes, principal vegetable on our dining tables, landed at Jamestown, Va., 112 years after the English colony settled on the shores of the James River 350 years ago. The humble spud, secondly only to rice as a source of food for the people of the world, is a native of South America.

Ohio growers produce about 4.5 million bushels of potatoes annually. The 1957 Ohio potato crop will be about 10 percent less than the 1956 crop. Approximately one-third of this crop will be made into potato chips. The Katahdin grown on many [illegible] farms has quality that produces excellent potato chips;

WHEN YOU BUY POTATOES —Look for the trade-mark, "Buckeye Brand." All potatoes bearing this brand name are packed under federal-state inspection and meet U.S. No. 1 standards for quality. You will find this No. 1 grade of Ohio potatoes packed in convenient sized bags of five, 10 and 15 pounds, as well as in larger units if you have suitable storage space.

When potatoes are purchased in large packages quality is maintained by storing at 40-50 degrees and keeping the tubers protected from light. Exposure to light causes greening of the skins.

SAVE AS YOU COOK—Serving potatoes in their jackets saves minerals and vitamins stored close to the skin. Recent findings prove that potatoes boiled in their skins lose less food value than do baked potatoes. Some research workers report that potatoes pared lose nine times as much mineral matter as potatoes cooked in their skins. If potatoes must be pealed, keep the peeling thin to avoid loss of those valuable food elements.

Remember, too, that potatoes themselves are not fattening, it's what we put on them that piles up the calories.

FALL ROUND-UP

The West Hill Scouting Neighborhood is planning a fall round-up for members of Brownie and Girl Scout troops at Westgate Park on Oct. 26, 2 to 4 p.m. The troops must be accompanied by a leader or adult member.

Mrs. D. T. Crawshaw, chairman of District No. 10, will arrange the program. Mrs. Harry Richter, 306 S. Brinker-av, will plan refreshments.

COLLECT BUCKEYES

All Girl Scouts and Brownies have been asked to collect buckeyes to be used by the Juvenile Service Board in a service project.

The buckeyes are to be turned over to Mrs. A. J. Gallagher, HU. 8-0237.

SALES TAX STAMPS

All sales tax stamp collections in the West Hill area should be turned in to Mrs. Robert Merrick, neighborhood chairman, 173 S. Burgess-av, Oct. 16.

Those attending the recent West Hill neighborhood meeting were Mrs. Robert Duncan, Mrs. Harry Crawford, Mrs. John Swarts, Mrs. Harry Richter, Mrs. D. T. Crawshaw, Mrs. George Hiles, Mrs. Richard Gaumer, Presiding was Mrs. Robert Merrick. New rules of procedure for West Hill neighborhood were presented and tabled until a later date.

SERVICE PROJECT

A suggested service project for scouts is the folding of Christmas seals. Any troop interested should contact Mrs. Benedict at CA. 8-[illegible].

These seals are to be picked up at 903 Oak-st. Approximately 5,000 envelopes are in each carton. It is possible for one troop of 10 girls to fold seals and stuff 5,000 envelopes in an hour's time.

These cartons are rather heavy, so it is suggested that an adult should accompany the scouts.

Duck Hunting Season Is Near

The large flights of mallards and blacks show up later in the waterfowl season. These are large birds, and are highly prized by duck hunters. Above (from left to right), mallard drake, mallard hen, and black duck.

INSIDE ON THE Outdoors
By ROD COCHRAN

The next important date for Ohio hunters is Oct. 18, when the waterfowl season opens.

Duck hunters received good news some weeks ago when it was announced that one wood duck per day would be allowed. There was no open season on wood ducks last year, contrary to the recommendations of Ohio wildlife officials.

Experienced duck hunters in central Ohio know that they will have to rely on wood ducks and blue-winged teal for early season hunting most years. The weather is usually fairly mild when the season opens in our area — not conducive to driving large flights of ducks south. The fast flying blue-winged teal, however, is an early migrator, and it starts south by mid-October. Many wood ducks are raised in central Ohio, and the wood duck population is usually at its peak when the season opens.

Use of Decoys

Wood ducks do not decoy well, and most hunters flush them from streams either by walking along banks, or floating down stream in a canoe or boat. Teal usually do not congregate in large flocks; but they come into decoys fairly well. If you hunt from a blind with decoys, or in cornfields be prepared to see a few mallards. They have a way of sneaking in, and you may be lucky enough to bag one or two.

As cold, blustery weather closes in, during late November and December, look for the duck hunting to improve. Large flights of mallards and black ducks (black mallards) show up, and provide the best duck hunting of the season. You'll get cold feet, and likely catch a cold, but you will also have some fine duck hunting.

Ducks and Pheasants

A couple of my friends don't make a special effort to hunt ducks, but they always buy a duck stamp. They often hunt pheasants along several large drainage ditches, and it's not uncommon for them to flush a few ducks off of these ditches. With a duck stamp on their hunting licenses, they are free to take a shot at them.

In addition to allowing one wood duck in the bag limit this year, there is another important regulation that is new. The U. S. Fish and Wildlife Service has banned the use of electronic devices or recordings in the taking of migratory game birds. This means that you cannot use an amplifier and loudspeaker to beam recordings of feeding ducks and geese over your favorite shooting hole. These devices were never widely used in central Ohio but they were so effective on the east coast and in the Lake Erie marshes that they were banned. The same regulation bars the use of electronic devices to amplify a recording of a man using a duck call.

After opening on Oct. 18, the season closes on Dec. 26. Shooting hours are from one-half hour before sunrise to one-half hour before sunset. The daily bag limit on ducks is four, and the possession limit after the first day is eight. The daily limit on coots is 10 and the possession limit is 10.

Late Report

Word just received from the U.S. Fish and Wildlife Service, and from Ducks Unlimited, indicates that ducks should be about as plentiful as they were last year, with an increase in the number of coots. Biologists working in Canada last summer reported that early nesting ducks brought off good sized broods, but that late nesting was harmed by drouth conditions.

Hilltop Woman's Nerve Surprises Armed Robber

Florence Edgington, 60, a clerk at the First National Cleaners, 941 W. Broad-st, proved to a bandit Saturday afternoon that she was in no mood to be robbed!

The round-faced bandit, wearing glasses, asked the clerk, a resident of 175 S. Harris-av, for a quarter's worth of change and when she opened the cash register the man suddenly reached for some bills, she told police.

The clerk grabbed the man's hand and slammed the cash drawer shut. The man then flashed a pistol in his other hand and seized a cigar box containing $15 from the counter. He ran from the store when a customer entered, said police.

Chief Urges Home Caution Against Fires

Walter Strickfaden, chief of the Columbus Fire Department, is asking that particular attention be paid to the homes of the community, where fires account for about 55% of the city's fire alarms and practically all losses of life by fire.

Local records show that 1956 fires in Columbus took the lives of 14 persons, six of them under four years of age, and the economic cost was $771,907. Call the Fire Prevention Bureau today and have them check your home for hazards you may know nothing about.

Small Animals Are Specialty With Hilltop's Dr. Hal Taylor

Dogs, cats and parakeets can be sure of one friend in this city, one who's willing to take the time

Dr. Hal Taylor

to keep them healthy and happy. Dr. Hal H. Taylor has operated the Small Animal Clinic 2286 W. Broad-st, for five and a half years.

Before opening his clinic, Dr. Taylor was a veterinarian near Xenia for two and a half years. "But," said the doctor, "I decided that I would rather concentrate my services to small animals. So I came to Columbus."

Dr. Taylor said that he tries to run his clinic like a family doctor. He does not board animals. When pet owners bring their ailing animals to him, he treats them and they are taken back home where they feel more [illegible]

Born and raised in Canton, Dr. Taylor came to Columbus in 1944 and attended Ohio State University.

He married his wife, Margaret, in Canton in 1935, and they now reside at 304 Oxley-rd, with their two sons, Hal Jr. 16, who attends University High, and Ricky, 6, who is just entering school this year. Mrs. Taylor is a school teacher at West Mound Street [illegible]

Dr. Taylor has two hobbies that he follows faithfully in his spare time. One is photography, which he has been experimenting with for 25 years.

The other is traveling by rail. He said that he does enough driving all year long — when he goes on a vacation he likes to go by railroad and let someone else worry about the driving. He and his family have toured every state in the country with the exception of Maine, New Hampshire, and Vermont. The most memorable trip he said was through the Canadian Rockies. He has also traveled in Cuba and Puerto Rico.

Dr. Taylor said that his pride and joy is his Volkswagen, which his son, Hal, is using now to go back and forth to school.

He is a member of HBA, Hilltop YMCA, American Veterinary Medicine Association, Ohio State Medical Association, Columbus Academy of Veterinary Medicine.

It has been estimated that there are more than 100,000 tons of nitrogen in the atmosphere above each acre of land.

Glenwood Grooms Future Gridiron Heroes

INSTRUCTION in football fundamentals is the big thing around Glenwood Recreation Center these days. Here, Hugh Williams practices his stance for Bob Kern, boys' athletic director at Glenwood. Roger Johnson and Dick Grossinger take note. These boys are in the six-man football league at the center.

THE BULLDOG'S quarterback, Ralph Criner, hands off to Steve Chook who finds a big opening in the Cowboys' line. Nevertheless, the Cowboys defeated the Bulldogs 27 to 19. These are two of the six teams in the football league at Glenwood Recreation Center.

West Area Dems Plan Oct. 15 Rally For Candidates

Democrats of the Ninth, Tenth and Eleventh Wards will hold a candidate rally in the auditorium of Starling Junior High School, Town-st and Central-av, at 8:30 p.m. Tuesday, Oct. 15.

The meeting will be called to order by Frank A. Schneider, Ninth Ward committeeman. All Democrats of the West area are invited, Schneider said, and door prizes will be awarded.

Prepare For Gas Station

A house and barn have been razed at Clarendon-av and Mound-st to make way for a new filling station.

Books On Clubs, Leadership Now At Hilltop Library

With most area organizations resuming regular meetings this month the Hilltop Branch Library, 2855 W. Broad-st, has numerous handbooks that offer suggestions on such matters as the duties of officers, the work of committees, program planning and parliamentary practice.

Two manuals said to be especially helpful are Harry Simmons' "How to Run a Club" and Lucy Milligan's "Club Members' Handbook." Both books cover many aspects of club operation, including programming, administration, finance, committees and membership.

Program planning aid is offered in "The Program Encyclopedia", a comprehensive manual by Clement Duran. More than 800 program ideas for clubs and organizations are outlined.

Detailed instructions for planning and conducting interesting meetings are also given in such handbooks as Harold Donahue's "How to Manage Your Meeting" and Renee Stern's "101 Ideas for Clubs."

Also available at the library are books which cover parliamentary procedure, discussion techniques, group work, leadership, public speaking and publicity, announced Mary Elizabeth Keyes, librarian.

The following books are available at the Hilltop Branch: "How to Be a Successful Emcee," by LeRoy Stahl; "Making Money For Your Church, Library, Hospital, Social or Welfare Organizations," by Helen Knowles; "Projects That Pay," by Jane Kirck; and "McCalls Complete Book of Bazaars."

Cowboys Hold Eastmoor Scoreless In Friday Night's 13-0 Victory

By CLIFF Shoemaker.

In a non-league tilt West downed Eastmoor 13-0 on the Cowboy field, Friday night.

Eastmoor kicked off to the Cowboys. After a series of plays Larry Price returned an Eastmoor kick to the 50 yard line and Terry Reichart rambled to the Eastmoor 23 yard line. Larry Price carried for seven yards and put the ball within the Eastmoor ten yard line and a first and goal situation.

Bob Brown, reserve fullback, filling in for injured Dave Francis, slammed to the three and from there Terry Reichart carried around end for the score, with three minutes and 57 seconds left in the first period. Conversion attempt was no good.

Eastmoor received the ball and was forced to kick after a series of downs. It was West's on their own 34 yard line. Price carried the ball to the Warrior 38 for a first down as the quarter ended.

A bad pitchout caused Reichart to fumble but he recovered. On that play a clipping penalty occured and the Cowboys were forced to kick.

The second quarter was a see-saw affair with neither team doing each other any harm until, with 29 seconds left, Bob Pate intercepted a Eastmoor pass and returned it to the Eastmoor 42 but "Old Father Time" didn't let the locals score.

West kicked to the Warriors but they couldn't move and West took over on the Eastmoor 31. The Cowboys began to march and after gaining two first downs Terry Reichart again scored the touchdowns, going 17 yards through the center of the Eastmoor line. Don Uldricks carried the ball over for the extra tally.

West kicked to Eastmoor and it looked for a while as though the Warriors would move but after Dick Chrysler and Jim Ritchason combined to gain for the Warriors would move. After Dick Chrysler and Jim Ritchason combined to gain for the visitors, the Cowboys began to move but a fumble halted their progress.

In the fourth period West took possession of the ball after Eastmoor had gained two first downs. Larry Price then galloped 22 yards, picking up a first down.

West moved down the field to the Eastmoor 27 yard line with 30 seconds left. Larry Price passed to Tom Armentrout to set up a first and goal situation before the clock ran out.

Prizes In Today's Ads

No claimants on last week's "Confederate" prize money, means the value of today's jackpot insignia has increased to $50. Ten additional insignia, each valued at $1, makes a total of $60 in "Confederate" currency offered to Record subscribers this week.

Distinctively colored ink and prominent placement on ads makes insignia always easy to spot.

Merchants advertising in the current issue of the newspaper will accept "Confederate" money at face value in payment for any merchandise in their stores.

Any subscriber whose name appears on our records as having paid in advance or on his carrier boy's route book as a paying customer is eligible to collect "Confederate" money.

Newspapers containing lucky insignia may be redeemed by subscribers at The Hilltop Record office before noon on Saturday.

"for keeps"!

HEATING IS BASIC
It is a major, lifetime investment for the security and comfort of the whole family. A mistake in equipment can be very costly ... so select heating quality with care. It pays.

The one part of your gas-fired furnace that takes a terrific fire-beating is its very heart ... its heat exchanger. (Note illustration on left.)

In ordinary heating equipment its life expectancy may be very low indeed ...

But your furnace's "heating heart" can last a lifetime with

Dura-tube

...the "armored heart" heat exchanger that is practically indestructible...found only in the gas-fired

deluxe Janitrol Crusader

★ PROOF OF DURABILITY: In nearly ¾ million Janitrol Dura-tubes, in over 5 years, records show there have been no replacements.

★ BETTER THAN CAST-IRON; BETTER THAN STEEL: This process has been approved by American Gas Association for heat exchanger temperatures far beyond that allowed for either cast-iron or for steel!

One of the most important ways of measuring heating quality is its Durability. Dura-tube's actual replacement record of zero in 5 years and in nearly ¾ million tubes, speaks volumes.

Concrete Flows At International Harvester's Warehouse

BUILD YOUR HOUSE ON A FIRM FOUNDATION and that's what International Harvester's contractors are doing, only in this case it is a parts warehouse. The steel frame is up and the brick are being laid at the Sullivant-av site just north of Westgate Manor. Now comes the concrete for the floor. One cement mixer follows another in a seemingly endless train—The warehouse itself is the site of a city block. Construction is on schedule, thus far, said Wayne Deeble, field representative for International Harvester. It is to be completed by June of 1958 and will employ between 350 and 400 persons. The building going up just west of the warehouse will house the sales offices now located at 120 Chestnut-st, and is to handle the company's farm equipment sales in 45 counties in this area. The warehouse will be the 12th of its kind operated by the company in the United States.

EASY WAS IT!

Easy was it — for the Paul Millers, 917 N. Hague-av, to sell their Easy Spindrier washer. It was eased from their presence in the first several calls. Also they advertised a gas range which was gone long before the last 20 calls came [redacted]

ASSIGNS CONTRACTOR

A permit allowing Gladys H. Albery, 110 S. Terrace-av, to build a six-room and bath brick dwelling and two-car attached breezeway garage, at 1128 Georgesville-rd, Franklin Township, has been issued. George H. Moor and Son, 1111 Dublin-rd is the contractor.

America's first electric street railway was placed in operation in Cleveland in 1884.

Gas Company To Lay Lines In Rome Area

Work is under way on two Ohio Fuel Gas Company pipeline construction projects totaling $36,500 to extend natural gas service in Rome Manor, west of Columbus, and improve service along Moler-rd in the southeastern section of Columbus.

Wilbur T. Collins, Columbus district manager for Ohio Fuel, said almost a mile and a half of pipeline—two, four and six inches in diameter — is being laid in Rome Manor at a cost of $18,500.

The new line extends east along Palmetto-st from an existing line at Fernhill-av to Woodlawn-av and north and south along Evergreen-terrace and Woodlawn-av between Sullivant-av and W. Broad-st.

Natural gas will be available in the area for heating and air conditioning, cooking, refrigeration, water heating, clothes drying and refrigeration, Collins said.

Almost a mile of pipeline—five and one-half inches in diameter—is being laid along Moler-rd between Lockbourne-rd and the Norfolk and Western Railroad tracks at a cost of $18,000 to replace a section of an existing line. Traffic will be maintained during construction.

Ohio Pipeline Construction Co. of Newark is building both pipelines for Ohio Fuel. Work is expected to be completed about Nov. 15.

Retarded Children To Benefit From Card Party

NOT A RHUMBA LINE, but a game of train as home economics students at Hilltonia complete a study in baby-sitting with a session of nursery care.

NURSERY AGE boys and girls listen eagerly to a story read by Hilltonia home economics girls during a baby-sitting lab during their class session.

SUSAN BIEBER, Carol Edwards and Gail Bieber enjoy a snack of milk and cookies at the baby sitting lab while two home economics students keep watch.

Eighth grade girls in two Hilltonia Junior high home economics classes have discovered that baby-sitting involves many talents.

This discovery was made during class sessions last week when groups of pre-school tots were guests of the class and their instructor, Miss Doris Schleppi. The children, ranging in age from two to five years, were royally entertained and furnished practical experience in baby-sitting for those girls who had not previously worked with children. The "field work" was a climax of several weeks' study in a baby-sitting unit.

Made Planned Study

The home economics students planned the two-hour class from start to finish with committees for each phase of the program. Name tags, children's records and books, crayons, milk and cookies were supplied by the girls. As the children sat at their small tables and colored, sipped milk and ate cookies, the students keenly observed their reactions and made notes. Other students who "played train" or "Farmer in the Dell," read stories, or washed hands, found caring for children can be fun.

Children participating included: Debbie and Linda Krumm, Robin Reed, Curt Alexander, Denice LaVerne Morris, Charla Millirans, Josephine Hill, Carol Edwards, Gail and Susan Bieber, Cici Elfine and Robbie Stokes.

Weaving Exhibit Is On Display At Hilltop Library

A display of weaving, including a full-harness loom and pieces of weaving in various patterns, will be on exhibit in the Kiwanis case at the Hilltop Branch Library throughout the month of October.

The display was arranged by Mrs. Herbert Demorest, 175 Indian Run-dr, Dublin.

For many years a resident of the old Demorest farm house, 3370 Briggs-rd, that was built in Civil War times, Mrs. Demorest moved into her new home with her daughter and son-in-law, Mr. and Mrs. William Maurer, last week.

A former weaving instructor at the School for the Blind, Mrs. Demorest also was Camp Fire leader on the Hilltop for 10 years and has served as secretary and executive in the Camp Fire office.

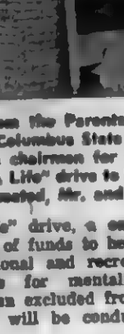
Volunteers To Assist In 'Lighting A Life'

A group from the Parents' Volunteer Association of the Columbus State School will serve as Hilltop area chairmen for the retarded children's "Light A Life" drive to be conducted Nov. 12. They are, seated, Mr. and Mrs. Kenneth W. Mabee, president of the PVA, and, standing from left, Mrs. Jane Gove, Mrs. R. J. Nuessle, Mr. and Mrs. Lawrence Addison, Louis Schaefer, Steve Emery and Mrs. George Georgeton.

"Light A Life" drive, a one-day solicitation of funds to help provide educational and recreational facilities for mentally-retarded children excluded from public schools, will be conducted Nov. 12.



The Council For Retarded Children, Inc., non-profit organization of parents and friends of retarded youngsters in Franklin County, maintains the School For Retarded Children at 1235 Mt. Vernon-av.

Qualified teachers trained to educate the slow-to-learn, help the 180 students learn social adjustment, self-care, and occupational readiness.

The Council For Retarded Children, Inc., is not a member of United Appeals.

The campaigners point out that the school is now filled to capacity, although it serves only about one-fourth of the "trainable" retarded children in the county. About 600 retardates of school age could benefit from training similar to that given at the school, they say.

Penny For Your Thoughts

Question: Do you think that the new city traffic school for reckless drivers is a good idea?

Mrs. John Damon, 939 S. Richardson-av: "I think it's a wonderful idea. There are a lot of people on the road today that could stand to take some lessons. I read that some of those people who were supposed to go to the traffic school didn't show up. I think I'd take the school in preference to the fine."

Mrs. Keith Burrell, 844 S. Hague-av: "Yes I do. I think it is a wonderful opportunity to awaken drivers to the seriousness of their offenses, however small. I think it will be especially effective in the younger set of drivers. Sometimes teen-agers don't realize what the results of speeding or running stop-signs can be."

Frank Griffin, 127 N. Warren-av: "I don't see why it wouldn't be a good idea. There are sure plenty of people who would benefit from driving school. In fact I gave up driving some time ago because I couldn't take fighting the traffic all the time."

Mrs. Harry S. [illegible], 840 S. Hague-av: "They should have started it a long time ago. I think it will be very effective in cutting down accidents. I drive a car, and I know that if they gave me a choice of paying a fine or going to school. I'd take the school. I don't think it would hurt anyone to know a little more about driving."

Mrs. James Ponce, 344 N. Burgess-av: "Well, I don't think any one really wants to go to school if they can help it and in that way I think it may serve to slow people down. I feel that if a person just pays a fine he thinks he's getting off easy but if he had to sacrifice four of his own evenings to go to school he certainly would be more careful when driving."

Kiwanians Offer Testimonials Of Church Influence At Home

In observance of October as "church loyalty month," members of the Hilltop Kiwanis Club will submit each week, a testimonial of the meaning church has in his own home life. The program is sponsored by the Kiwanis support of churches committee.

This week's contribution is presented by Jack P. Merriman, owner of Schiller's Department

Jack P. Merriman

Store. Treasurer of Hoge Memorial Presbyterian Church, he is also a past officer in the Hilltop Kiwanis Club and in Hilltop Business Association.

By Jack P. Merriman

As a member of Hoge Memorial Presbyterian Church since early childhood, I am increasingly aware of the influence the church and its teachings have had upon my life [illegible].

With advancement of years, has come the growth in understanding, development of character and spiritual growth. The church and its teachings have been an important factor during early years. Through the teachings of the church, I have learned to evaluate life in the light of Christian principles and ideals. If it's true, as I believe it is, that what we believe determines what we are, then church must receive a large part of the credit for my life and for that of my family.

The many associations with fine church people has also played an important part. I have had the opportunity to serve with such men on various church boards. These associations have grown into life long friendships, which have proven to be an invaluable help and blessing in my life. Though some of those have passed on, the lessons learned and the memories retained are a daily source of blessing to me and our home.

My advice to any young person would be to join some church and build your friendship and associations among those people, and you will have a treasure for life that cannot be estimated in terms of dollars.

SHOAF REALTORS

Realtor Shoaf Sez

We have been in business for many years, selling suburbans, farms, Grove City homes and a few Hilltop homes. We feel at this time there is room for us on the beautiful Hilltop. Our spanking new modern to the minute office at 2960 Alkire Rd., is only five minutes from you all. We have seven full time salesmen able and ready to serve you. We belong to the Columbus Board of Realtors, Multiple Listing Service, the Ohio Association of Real Estate Boards and to the National Association of Real Estate Boards.

This kind of wonderful service costs you nothing — the only cost you pay is when we sell the property for you, and that is 5% of sale price.

Another factor you should not overlook — Shoaf advertises and Shoaf's ads bring results.

If you plan on selling at this time, give us a try—remember our famous slogan coined many years ago . . .

Begin Repairs On Sylvan-av Crossing

Railroad workmen level tracks in preparation of the resurfacing of the N. Sylvan-av New York Central Railroad crossing. The spot has been a special hazard to cars and trucks for some time.

A smoother ride is promised but so far no added safety devices have been scheduled for the Sylvan-av-New York Central Railroad crossing just north of Broad-st.

The crossing has been closed since Tuesday and is supposed to re-open Friday to Sylvan-av traffic. Workmen are in the process of raising one set of tracks to the level of the other in preparation for the repaving of the crossing. Previous to this the uneven tracks made in practically impossible for low-slung autos and loaded trucks to drive over the crossing.

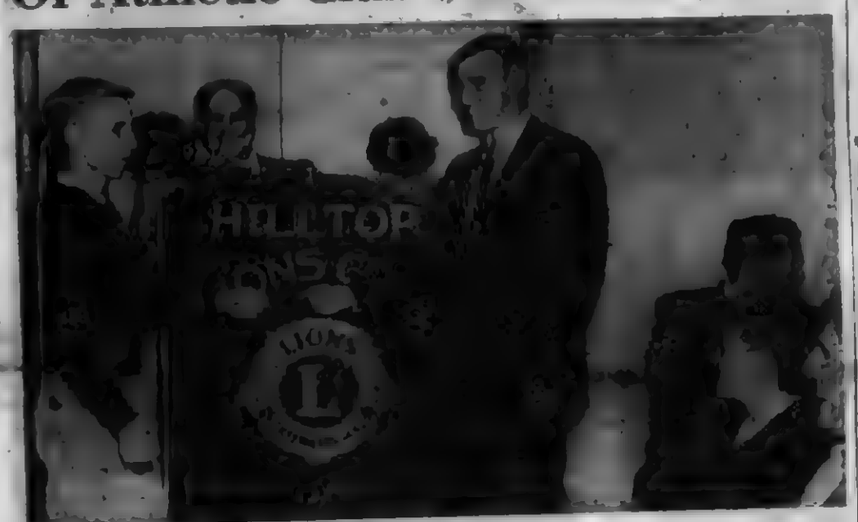
Nothing definite has been done about installing the flasher signals requested by the mayor but an investigation is said to be underway. The forman for the work now being done said that he had not been ordered to install any safety device at this time.

Early in September, Mayor M. R. Sensenbrenner wrote to the New York Central offices requesting flasher signals and gates for the N. Sylvan-av and N. Hague-av crossings respectively. The crossing leads to the new Hilltop Community Center now under development on Valleyview-dr.

BUSINESSMEN ASKING BEAN DINNER STUDY

Members of the Hilltop Business Association are casting a critical eye at the Hilltop Bean Dinner — for 20 years a tremendously popular community event. It has been sponsored by the association as an expression of good will and appreciation to the Hilltop people for their patronage and friendship."

Never considered a profit-making venture it is one which in some years netted the organization a few dollars and in others cost them money — depending on the weather. The nature of the affair has been changed in recent years due to the inability to have exhibits in city parks. H.B.A. members have been sorely put in their endeavors to find something that will take the place of the exhibits in public interest.



The public is invited to express ideas and opinions about this affair. If you have any comment, a letter addressed to the Hilltop Business Association, 3183 W. Broad-st, would be welcomed.

Queen Bonnie Reigns At West

WEST HIGH'S FAIREST—Best-kept secret of the year around West High, the name of the one among five chosen to reign during homecoming festivities, was revealed during half-time ceremonies at Friday's game. Members of her court were Joanne James, Pat Probst, Nancy Draper and Patti Donaldson. Homecoming dance was Saturday night.

Lions Take Over As Sponsors Of Athletic Club For Local Youth

CASH IN THE KITTY for the new Hilltop Lions Athletic Club. That was the story Tuesday evening as Dick Sensenbrenner (right), one-time president of the old Hilltop Athletic Club presented a bankbook containing deposits of more than $229 to Ron Whaley, president of the newly-organized teen club. Holding the Lions banner is John Garber.

Formation of a new Hilltop club for teenage boys under the sponsorship of the Hilltop Lions Club was announced today by John Garber, chairman of the Lions Community Betterment Committee.

The Hilltop Lions Athletic Club came into official existence last night at the third organizational meeting of about 45 youths in the Casa Maria Restaurant. Garber and members of his committee were present to assist in chartering rites and in distribution of membership cards.

The committee will serve as advisors to the new club, according to Garber, with prospects that sponsorship activities will soon include the Lions boys and girls committee and eventually the entire membership of the Hilltop Lions Club. The project has the approval of the Lions board of directors.

Completely self-ruling, the new club has dedicated itself to the general purpose of building minds and bodies of young Hilltoppers, Garber said.

While assisted in its formative stages by Sgt. Pat Montemaro of the Columbus police juvenile division, the club is to be solely a Lions-sponsored organization, Garber said. The earlier group gradually ceased operation a year ago as original members became

Presents Club Savings

Dick Sensenbrenner, son of the mayor and a former president of the Hilltop Athletic Club, appeared at last night's meeting and presented the new club a check for $229.30. The money had been held in trust by Sgt. Montenaro for a successor to the Hilltop Athletic Club.

For the past four Tuesday evenings, the new club has been in the process of organizing. New members were sought by word of mouth at West High School and in the neighborhood.

Officers elected at the Oct. 8 meeting include Ron Whaley, 2728 Sullivant-av, president; Larry Squeo, 435 Demorest-rd, vice-president; Pat Raver, 452 Elden-

Pick Hospital Grounds For New Youth Prison

A site on the local Columbus State Hospital grounds has been singled out for the location of a $1.75 million institution for delinquent boys.

Planned to provide facilities for 200 boys, the medium security institution was earlier considered for an area near Kirkersville, east of Columbus.

Dr. Robert A. Haines, director of the Department of Mental Hygiene and Correction told newsmen that he and the governor agreed that shifting the institution here would have two main advantages . . . treatment personnel would be available from the two neighboring institutions and considerable money would be saved by using property already belonging to the state.

The Kirkersville site had been the choice of Dr. Haines' recent predecessor, Dr. C. Earle Albrecht. The land was under option only and was never bought.

Work at the new institution is to be directed to boys between the ages of 15 and 18, arrested for the more serious offenses. Indications are that Boys Industrial School at Lancaster would become an "honor camp" for the youths.

In the planning stage now, the new center may consist of eight cottages, connected to dining and gym rooms and offices. Steel wire screens and steel doors would be used.

The institution will be administered in connection with the Juvenile Diagnostic Center, under its chief, John R. Ferguson. Youths sent in by juvenile courts would be studied first at the diagnostic center and later sent either to a mental hospital or for "intensive treatment" at the proposed new institution.

Western Optimist Club Formed At Tuesday Luncheon Meeting

FIRST OFFICERS—Chatting with Gene Durrant of the sponsoring North West Optimist Club are the first officers of the Western Optimist Club. From left to right are Durrant, Robert Wylie, president; Howard Hagen, treasurer; Bill Anderson, vice-president; and Jack Arbeny, vice-president. The club's first secretary, Tom Swisher, was not present when the picture was taken. The new group was organized this week with 35 members.

A new Optimist Club for the Hilltop and West Franklin County was born Tuesday at the Colony Restaurant.

During the luncheon meeting, the club which has been in a formative stage for several months, took the final steps towards receiving an Optimist International charter.

Officers of the club were also elected to serve during the first year. Bob Wiley, Hilltop chiropodist, was named president. Other officers are Howard Hagen, of the City National Bank and Trust Co., treasurer; Bill Anderson, of the Columbia Gas System, vice president; and Jack Arbeny, of the Arbeny-Schaefer Steel Fabrication, vice president. Tom Swisher, of the Columbia Gas System, was elected secretary.

Six directors were also named for the club. They are Fred Seidel, a manufacturers representative of a furniture concern; Joe Fratino, of the Columbia Gas System; Howard Merriman, of Seiler's Inc.; John Passias, Hilltop Osteopath; and Kenneth Timmons, of Timmons Metal Products; and Jim Cooke, architect.

The club was organized with 35 members. Besides the officers, other members are:

Harold Anderson, Harry J. Reynolds and Associates, Inc; Joe Belcher, insurance salesman; Fred Brownlee; Walla Chase, insurance salesman; Robert Forrest, Columbia Gas System.

Jack Hassell, insurance broker; James Hill, Jr., medical promotion agent; William Miller, veterinarian; William O'Hara, principal of Hilliards Junior High

Eakin-rd Extension Seen Soon

The extension of Eakin Road west to Hague Avenue is being planned for the near future, said Robert F. Warner of the City Engineering Division, Monday.

Warner said that the city has acquired most of the property called for in the program, and that construction will begin as soon as the remainder of the land can be purchased.

State of Ohio Takes a Step Backward

Announcement on Tuesday that the State of Ohio plans to build a penitentiary for juveniles on the grounds of the Columbus State Hospital is certainly not welcome news to people in this community and has the markings of a definite step in a backward direction for Ohio.

How many times has it been cited by those interested in the welfare programs of Ohio that such institutions as the Ohio State Penitentiary should be transferred from the busy heart of a big city out into the country.

Where can it be pointed out that any such move as this to bring a penal institution into the thickly populated areas is a good one?

People of this community, the city of Columbus as a whole and the entire state should call on the governor to protest this action.

Such a step is definitely a backward one for Ohio.

County Commissioners Agree To Hold Fourth Open Hearing

County Commissioners agreed Monday to hold a fourth public hearing on the controversial petition to annex 2572 acres of Franklin Township to Columbus.

Thomas Applegate, attorney for annexation foes, gained commissioners' approval for the hearing to be held next Monday while 50 persons waited in an outer room.

Repeated postponements have marked the issue which has been involved since the township's in-

The Tenth District Court of Appeals was given notice of appeal Tuesday when a request was filed asking reversal of a decision by the Common Pleas Court stopping incorporation of Franklin Township as a village. The court, however, refused to grant a temporary restraining order which would have halted all action on annexation.

corporation was placed into the courts to be decided. Judge Myron B. Gessaman, of Common Pleas Court, recently ruled incorporation invalid.

Applegate, who took a previous ruling of Judge Gessaman's to the Ohio Supreme Court before winning his point, has indicated that he will do it again if necessary.

The territory involved in the petition includes some 2572 acres extending along Frank-rd, north of the Franklin-Jackson Township line.

Commissioners have already heard the petition three times, but decided Monday that with so many people interested, another hearing will be held.

Halloween Planners Promise . . .

'Barrels Of Fun - - No Damage Done'

New developments this past week in planning for the 12th annual Hilltop Community Community Council Halloween Party, to start at 7 p.m. Oct. 31, "rain or shine" at West High School, include the following according to John Clay, general chairman of the event:

ONE: Hilltop Business Association, in charge of the costume parade and awarding of prizes, announces that City Councilman W. Wesley Llewelyn will be among the judges.

TWO: "Live entertainment" in the school auditorium will be furnished by Jacquie Hardy School of the Dance and will feature several Hilltop boys and girls in exhibition of tap and modern jazz dancing. She and her father, George Hardy, one of the original Hilltop minstrel men, will share the emcee spot.

THREE: Attendance estimates for the party—"for all Hilltoppers age two to 92"—have been upped to more than 3,000 by the planning committee.

FOUR: Members of the Hilltop Youth Council, sponsors of the teen dance which begins in the school auditorium to the music of the Blue Notes," will bill the dance as the "Pumpkin Prom."

FIVE: Mrs. Donald Dodson of John Burroughs PTA and Mrs. E. P. Phihuts of St. Aloysius PTA will coordinate scheduling of all PTAs in various concessions.

Clay reported that response for volunteer assistance has been gratifying from all Hilltop organizations and asked those planning on making contributions to turn their checks in to the council secretary as soon as possible so that "planning can be done to the limit."

At the Thursday, Oct. 10, meeting of the Hilltop Community Council, a check for $75 was presented by the Hilltop Kiwanis Club as its financial contribution to the community party. Other contributions received by that date include $10 checks from St Mary Magdalene and Highland Avenue School PTAs.

Council representatives approved the payment of $111.17 board of education rental for use of most of the first floor of West High on the evening of the party. The fee includes extra janitorial service and utilities.

Bards Will Have Their Say— On Ohio's Poetry Day

Ohio will honor its poets on Poetry Day, Oct. 18, the third Friday in October.

The event was established 30 years ago by the 92nd General Assembly. On that day the superintendent of public instruction has advised a special observance and study of poetry in the public schools of the state.

The following day, Oct. 19, two programs will be held in the Seneca Hotel. A poets' workshop will begin at 2 p.m. The staff includes Sister Maryana of St. Mary of the Springs College and Hollis Summers, of the University of Kentucky. Following the workshop will be a talk by Vincent Godfrey Burns of Annapolis, Md.

The evening program includes a banquet at 6:30 p.m. The speaker will be Dr. Harold L. Yochum, president of Capital University. Following his talk, winning poems in nine contests will be read, and awards presented to their writers.

Reservations for the banquet are $3.25 and should be sent to Tessa Sweazy Webb, 251 W. Eighth-av, by Oct. 17.

Letters To The Editor

Dear Mr. Hartley:

With your interest in the development of Columbus, I'm sure you are very conscious of those trends in local and state affairs which might help our community. So you are probably aware of the benefits of the State Amendment No. 3 on the November ballot, especially the fact that it is permissive only, allowing the people of any county—if and when they wish—to exercise the powers of home rule through a county charter.

It is particularly important to get this amendment approved in the November election. If it fails, there's a feeling it would take another 10 years to get it back on the ballot. This can be too drastic a time span when the problems caused by population growth, etc. are mounting fantastically in some parts of the state. Take the village of Hilliards here in Franklin County. Three years ago it had a population of 601; today it has an unofficial population of 7,000. As you can imagine, such growth has created serious problems. What's more, this couldn't have been predicted 10 years ago. In 1950, census figures gave no hint of this population spurt and no warning as to how to plan in the township. Many city and suburban communities, along with the adjacent county areas, are experiencing just such tremendous growth. These groups need the "money in the bank" protection of Amendment No. 3 to rescue them if and when they need such assistance. They need home rule authority to allow them to get together and solve local problems on the local level.

You'll be glad to know that both the Republican and the Democratic parties and the Ohio State and the Columbus Area Chambers of Commerce have endorsed this amendment.

An amendment like No. 3 is hard to get the average voter to understand—the fact that it is permissive, not mandatory, and the fact that it is insurance for his future. Therefore Ohio needs the help of fair and understanding voters like yourself to support State Amendment No. 3. We would appreciate your YES vote on this issue.

Thanks for your help.

Sincerely,
Estelle Landy,
President,
League of Women Voters.

Terriers Run Skein To Six At Glenwood

With Quarterback Ron Stewart leading the way, Glenwood Recreation Center's league-leading Terriers thrashed two opponents this past week in league play.

Stewart scored three times, and William Wells and Steve Maxwell twice each as the Terriers kept their unblemished record intact by routing the Tigers 44-12. The Tigers' two touchdowns were made on jaunts of 50 and 40 yards by Larry Graves.

Their second game of the week found the Terriers boosting their unbeaten skein to six straight with a 48-12 verdict over the Cowboys.

With Stewart and Wells once again sparkling offensively and Steve Tanner standing out defensively, it was just too much for the outmanned Cowboys led by Dick Grossinger. The outstanding play of the game occurred on a pitch-out from Stewart to Steve Maxwell who scooted 70 yards to the goal line.

While the Terriers rolled merrily on their way, the Buckeyes found rough going against the Polar Bears and the Tigers.

Two touchdowns by Jerry Clayton, and individual tallies by John Goodin and Carl Rusika were all the Polar Bears needed as they blanked the Bucks to the tune of 26-0. Don Van Order and Sam Link played a good game for the Buckeyes in a losing cause.

The Tigers returned from their humiliating outing with the Terriers and avenged themselves at the expense of the Hapless Bucks with a 33-19 parting.

Larry Graves led the winning eleven by scoring five times on three runs of 20, 40 and 37 yards and plunging over twice from inside the five-yard line. The Buckeyes scoring was accomplished by Don Van Order and John Coleman with the latter hitting the goal line for two six-pointers.

Aquinas Hands Cowboys First Loss Of Season

Aquinas' single-wing attack was ning trail Friday night as they defeated the Cowboys, 28-0, on Magly Field, before a large homecoming crowd.

Aquina' single-wing attack was too much for the Cowboy defenders as the Terriers almost gained at will.

Early in the second period John Fortkamp cracked over from the three to put the visitors ahead 6-0, and they were never threatened after that. Mike Connor scored two TD's for the winners and ran wild with every chance he got. Charlie Mentel intercepted a Broncho pass and ran 25 yards down the sidelines to score the other touchdown.

Larry Price, Terry Reichart and Dave Francis, Cowboy backs, were running hard but the offensive line was not opening the holes to spring them loose. Price played another outstanding game even though the Cowboys lost.

Team members were doing everything they could to win but the Terriers were just a better team. The Cowboys are not out of the running yet with only one loss. They still must play North, Linden., East and South. All of them have been beaten at least

Thermometers Are Not Able To Register True Comfort

By Janet Reeder

Do you look at the thermometer to learn how uncomfortable you are? Many people do—and get fooled. Temperature is one thing, comfort is usually something else. In addition to temperature your comfort depends on humidity and air motion—neither is shown by the thermometer.

All air contains some water vapor, and tries to absorb all it can hold. Its capacity for moisture goes up as it gets warmer; or down as its temperature drops. Relative humidity is the actual moisture in the air expressed as a per cent of its capacity at that temperature.

When dry air, eagerly seeking moisture, draws moisture from your body surfaces it also draws off heat—and you feel cooler. Or with high humidity, the already moistened air declines to take moisture from your body and you lose the cooling effect.

In hot humid weather your discomfort increases. In that situation, why do you fan yourself or look for a breeze? Because air motion helps to speed up evaporation by passing more air across your moist body. The ordinary thermometer tells you nothing about the effect of humidity or air motion on your comfort.

Humidity — How Measured

Humidity is measured by comparing two identical thermometers. One ("dry bulb") shows the air temperature. The bulb of the other has a moistened wick (called "wet bulb") which is cooled by the evaporation of moisture as it is whirled in the air (motion), and shows a lower reading. A standard table relates the dry bulb and wet bulb readings and shows the per cent of relative humidity. The two-thermometer instrument is called a psychrometer.

Your body with its moist surfaces is something like a wet bulb thermometer, which explains why the familiar dry bulb [illegible] ter cannot indicate your comfort (or discomfort) unless the air is saturated with moisture—when dry and wet bulb readings are the same.

So the modern year-around indoor comfort system removes excess moisture to aid hot weather cooling, but adds moisture during the heating season (if needed) for the opposite effect. You may be several degrees warmer or cooler than the thermometer shows, so don't take the readings too seriously and assume that you're more uncomfortable than you really are.

On dairy farms from 20 to 25 tons of materials are handled each year for each cow, say Ohio State University extension agricultural engineers.

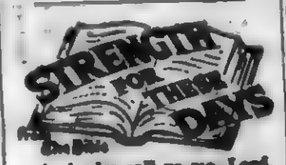
Revival Services Are Underway At Local Church

Revival services are in progress at Brown Road Community Church, 1187 Brown-rd. Evangelist is Rev. Lucian D. Smith of Memphis, Tenn.

Rev. Smith

Rev. Smith is general superintendent of the eastern district, Evangelical Methodist Church and has just returned from a tour of missionary work in Mexico. He has been a camp meeting preacher across the nation.

Services are held each night at 7:30 and at 10:30 on Sunday morning, through Oct. 27.



Dr. S. E. Nothstine is pastor of Brown Road Church.

Unsweetened frozen fruits lose quality faster than those packed in sugar or sirup. Longer storage will not make frozen foods unfit for use, but may impair quality.

If you discover a fire in your home, get everyone out of the house, then call the fire department.

"Triumph is just 'umph' added to 'try'."

And why call ye me, Lord, Lord, and do not the things which I say?—(St. Luke 6, 46.)

The Lord Jesus Christ, our blessed Savior and Redeemer, expects us to do our part—to read and seek to understand His teachings in the Bible, to have faith and trust in Him, to love and obey Him—"for there's no other way."

A TIME TO GIVE

Your gift does many jobs...

make it big enough for all!

No individual, no family, no community is immune to trouble. A child is stricken by a crippling illness, a cancer cell plays havoc with a once healthy body. A storm or a flood disrupts an entire city. Old people grow lonely, boys and girls become restless.

The new industry, new highway or housing development that means progress for a community can also mean trouble if dislocations or increased population are not accompanied by adequate health and welfare services...and dynamic Greater Columbus is certainly growing.

Making certain that those adequate health and welfare services are available in time of need is everybody's business. The tax dollar and the service fee can only reach so far. It is the voluntary United Appeal agencies, supported and operated by and for the community, that must meet the need.

When you are asked to contribute to your United Appeal campaign, remember that you are giving to 60 causes...both at home and abroad. The need is great... the responsibility is yours.

Ted Hysell, Republican nominee for clerk of municipal court, has announced the appointment of Roy King, Franklin County Clerk of Courts, as chairman of his campaign.

This was brought by a state law which became effective two years ago extending jurisdiction of the Columbus Municipal Court to county boundaries.

Hysell will appear on the non-partisan judicial ballot in the Nov. 5 election.

About The Hilltop

Leaves in San Antonio, Tex., the stork surprised Dr. and Mrs. Bob Capper with twins, a boy and a girl weighing well over six pounds. They called them Kevin and Karen. Mrs. Capper is the former Barbara Harkin, daughter of Mr. and Mrs. William Clarkin of Westgate. At present Mrs. Clarkin is with her daughter in Texas . . . Well known to many, Aquinas grad Rev. Norbert Connell, O. P., while on vacation in California, suffered a heart attack and returned recently by plane with his physician. He is now a patient at Mt. Carmel . . . On their way to Milwaukee, Frank and Miriam Neas visited the Avon plant in Chicago and stopped over in Harvey, Ill., for a stay with the Ted Stinemans. Mr. Neas is in the research foundation at OSU . . . It's a baby girl (Linda Lou) for the Bob Cochrans . . . Mrs. Virginia Harper is recuperating at home after a long stay at Mt. Carmel. She is the daughter of Mrs. A. T. (Tony) Vollman . . . Just recently, Mrs. Robert (Bob) Henry was elected treasurer of the Buckeye Lake Yacht Club Auxiliary . . . Former Hilltoppers, the Alvin Sommerfields of University View are proud parents of a baby girl. She is the former Esther Sullivant . . . Everything nice all at once is happening to the John J. Gompers family. Their daughter, Joy, freshman at Marquette University in Milwaukee, has been selected to sing in the Varsity Glee Club and will travel with the troupe when making appearances in different cities, and this week, they became proud grand-parents, of a baby girl, daughter of Mr. and Mrs. Walter (Judy) Wasnack of Chicago. Mr. Wasnack is attending Northwestern University . . . Over the weekend, Gil Meiragen, builder, was host to his friends at a sparkling dinner party following Saturday's game. Among the out-of-towners were Mikel and Al Hiltz of Thousand Islands, N.Y. . . . Recently, William Siebert, veteran trolley coach operator, was feted at a retirement dinner at the Athletic Club by associates of Columbus Transit Co. . . . Before the game Saturday, Bob and Kate Stewart were hosts at a brunch before their guests left for the stadium to see the Buckeyes.

Kiwanians Offer Testimonials Of Church Influence In Home

Various Hilltop Kiwanis Club members, in deference to "church loyalty month," are offering each week during October, personal testimonials of the meaning the church has in their own home life.

This week Paul Langdon, controller at Battelle Memorial Institute and vice-president of the Columbus Board of Education, has presented his contribution.

Chairman of the civic affairs committee, Columbus Chapter, Ohio Society of Certified Public Accountants, he is also past president of the Columbus Chapter of National Office Management Association and of the Columbus Control-Controllers Institute of America; treasurer of Ohio Children's Society; secretary of Highland Friends Church building committee; chairman of school of religion committee, Columbus Area Council of Churches and superintendent of Christian Education, and treasurer of Ohio Yearly Meeting of The Friends Church.

Paul Langdon

By Paul Langdon

Recently, while in Philadelphia, I visited Carpenters' Hall. It was here that the First Continental Congress convened in September, 1774.

Samuel Adams arose on the first day of the session and moved that there be prayer for the Congress on the morrow. This motion was seconded and passed. This action set a pattern for the future meetings of our Congress.

Just as our nation at its birth needed the guidance and help from God, so do we in our daily life and in our families need strength from One who can answer all of our problems and enable us to do those things which are not possible for us to do ourselves.

It is through our Church that we can learn more about God. We can be strengthened by regular attendance and fellowship with others as we worship God together.

Hillcrest Choir To Sing On TV

Senior Choir of Hillcrest Baptist Church will be featured next Sunday morning on the televised program, "Leading Lights," WTVN-TV 6, from 9 to 9:30 a.m. The choir of 32 voices is under the direction of Robert H. Cotner, with Mrs. Paul V. Crosier as organist.

This telecast, "Leading Lights," is part of the extensive radio and television program carried on under the auspices of the Columbus Area Council of Churches, under the direction of Dr. J. W. [illegible].

MRS. LULU RAMSEY

Funeral services for Mrs. Lulu Ramsey, 208 Clarendon-av, were to be held Wednesday, 1:30 p.m. in Bethany Baptist Church where she was a member. She died Oct. 12.

11 'Money' Prizes In Today's Ads

A few minutes time spent reading the ads in today's copy of The Hilltop Record may pay off with unexpected "cash" for 11 subscribers of the newspaper.

One insignia worth $$5 and ten more valued at $1 each in "Confederate" currency are printed on ads in today's copy of the Record. Never hidden or hard to find, they are always in plain view on an ad.

Any subscriber whose name appears on our records as having paid in advance or on his carrier boy's route book as a paying customer is eligible to collect "Confederate" money.

All newspapers containing insignia may be redeemed at the Record office for "Confederate" bills before noon on Saturday.

Advertisers appearing in the current issue of the newspaper will accept the currency at face value for any merchandise in their store.

ay, secretary; and Don Policaro, 2737 Sullivant-av, treasurer. Ages of the officers range from 15 to 17 years.

Boys become eligible for membership at the time of their 14th birthdays and are automatically removed from the membership roster on their 19th birthdays.

Additional rules adopted by the fledgling club include dues of 50 cents per month, a $1 initiation fee, five-cent penalty for tardiness to meetings, absolute ban on profanity or smoking during meetings, and dismissal following three consecutive absences from scheduled meetings.

Six-Month Memberships

New membership cards will be issued each six months to insure that only interested members remain in the club. The entire membership will vote on the admission of new members.

Weekly meetings will open with the Pledge of Allegiance, singing of one verse of America, and a short prayer.

Steps have been taken to organize two basketball teams and enter them in league competition at Glenwood Recreation Center. Gerber said his committee will secure athletic equipment for boys who wish to take part in other athletic activities.

Rev. Raymond Rauschard, pastor of St. Mary Magdalene Church and himself a member of the Hilltop Lions Club, has extended the use of the parish gymnasium to the new club for basketball practice and other organized athletic activity.

Don Woodland, teacher and coach of reserve teams at Franklin Heights High School, has volunteered to coach the basketball teams.

Members of Garber's committee who will be working directly with the youths include Bill Myers, Lloyd Brown and Wayne Bruner.

A pressing need at the moment, according to Garber, is location of a hall or room capable of seating 50 for the weekly Tuesday evening meetings of the new club. He invited anyone knowing of such a room to telephone him at his Great Western Pure Oil Service Station, BR. 4-0430, or at his home, BR. 4-0589.

Food Markets This Week

by Mrs. Estelle B. Franks

THIS WEEK SHOP FOR:

Fruits — Ohio apples, cider, canned peaches.

Vegetables — Cabbage, cauliflower, Pascal celery, canned peas, pumpkin and tomato juice.

Protein Foods — Ground beef, rib end pork roast, turkey, cheese.

OHIO CANNED FOODS

Preserving food by canning dates back to the days of Napoleon, for it was on an order from this famous general that French scientists sought out the method of keeping food from spoiling so his men could eat better on their military campaigns. Today, the world eats better because of this development.

Happily, too, our own Buckeye state has a number of canning industry plants, as well as the raw material for their use. Did you know that Ohio is one of the more important states in the nation in the canning of tomatoes and tomato products, corn, sauerkraut, pickles and pumpkin, Ohio canners also pack cherries, fruit juices, jams, jellies and a long list of special products such as Chinese foods, olives, spreads and sauces. They operate over 125 canning plants, and annually process some 300 million cases of vegetables and fruits, plus the other items listed above.

These processing plants make seasonal foods available the year 'round. This helps to stabilize prices for the consumer as well as the producer. Relatively speaking, prices of canned foods have not advanced as much as those of other forms of food. Moreover, they are convenient, offer a wide selection at the market the year around, and they save the busy homemaker valuable ti[illegible]

APPLES AND CIDER

Markets are loaded this week with apples at a peak in quality and color. There is a variety for every need. Cortlands from Ohio orchards are now at their best. You'll like this crisp apple for salads as it does not darken quickly after peeling. Cider is plentiful in both half-gallon and gallon containers.

Trout In Central Ohio

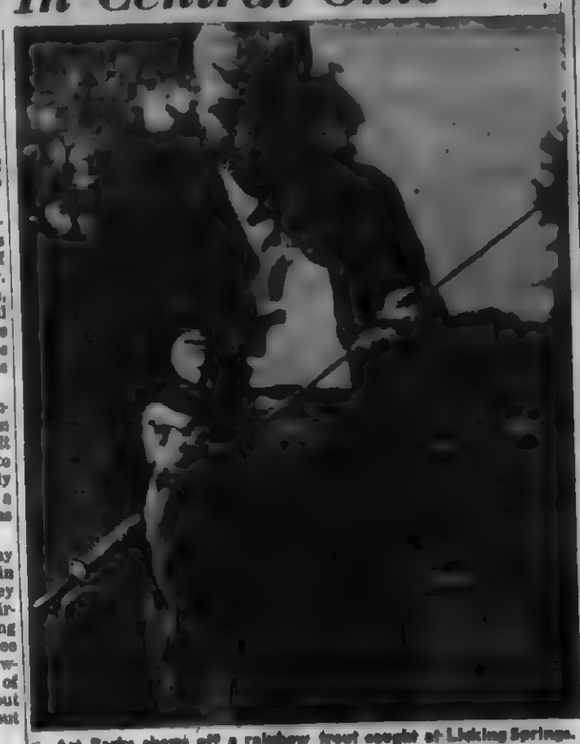
The day was warm and sunny for this time of year, and it felt good to be outdoors. I could see rainbow trout feeding in the little stream that meandered through the meadow.

Walter Lauffer had his grandson, Mike, were already catching trout, and I was racing to rig up my flyrod.

Fishing isn't meant to be hurried and when I rush I always snarl my line, spill the box of flies, or get a hook in my finger. This time was not an exception, and I think I accomplished all three. But a person shouldn't be held responsible for what he does when trout are feeding on the surface.

Shortly, I got things under control and dropped a black gnat on the sparkling spring water. It wasn't difficult to know where to drop the fly, for I could clearly see the fish. It took me only a few casts to hook one, and all was right with the world.

The trout I creeled that day weren't from a small mountain stream in Montana, nor were they from Pennsylvania or West Virginia. I was fishing at the Licking Springs Trout Club only three and a half miles north of Newark, Ohio. Here on 200 acres of land flows a man-made trout stream. It's hard to believe but it's true.



Twenty years ago, the late E. Mithoff Nicholas, financier and sportsman of Columbus, started the development of what is now the Licking Springs Club. He evidently liked trout fishing more than he did money, for he did away with a lot of the one to obtain the other. Springs were tapped that flow at the rate of 2,000 gallons per minute, and form the three-mile stream that empties into the Licking River. Seasonable drouths have no effect on the flow of the springs, and the water temperature never varies more than four degrees the year around.

The area is a self-contained fish hatchery, and has extensive hatching troughs, rearing pools, and raceways. The spring water flows through the hatchery before it empties into the stream. Facilities are available for handling 150,000 eggs at a time. Both rainbows and brown trout are reared.

For almost eight years now the area has been operated as a fishing club by genial Bill Bain. Members pay a nominal sum each year. This entitles them to trout fishing for themselves and their guests, and the facilities of the fine clubhouse.

The club has been very popular with fishermen in this area, and Bain has initiated a special membership plan this year for people living over 40 miles from the club. He figures that people from farther away wouldn't use the facilities as often as closer members, and is therefore accepting memberships at half the regular price. This special membership enables a fisherman to fish all year for less than a two-day trip to Pennsylvania's trout waters would cost him.

Well, it wasn't too long before the rainbows got wise to my flies, and refused all my tastiest (at least I hoped they looked tasty) offerings. I switched to a spinning rod, and found that a quarter ounce orange spinner fooled them all over again. I fished back and forth over a small section of the stream, and kept catching trout until long shadows began to fall over the meadow.

Art Parks shows off a rainbow trout caught at Licking Springs.

Freedom exists only where the people take care of the government.—Woodrow Wilson.

John Price Should Be Returned to Auditor's Office

It isn't very often that we endorse a candidate for public office. In every instance where we have done so, it has been because of the unusual merits of the candidate.

In the election coming up on Nov. 5 we are happy to extend an endorsement to John Price for the position of City Auditor for the four year term.

John Price is a Republican but has been most cooperative with the Democratic mayor when information from the auditor's office was called for and needed.

Entirely too many times in the past few years during the administration of a Democratic mayor and a Republican Council has there been a total lack of cooperation in city hall. It has been refreshing to have a man like John Price in the auditor's office who has been working for the people rather than for the party.

His 30 years of service in public auditing qualify him for the position he seeks.

He is to be succeeded by former West High Coach Mack Pemberton . . . Mr. and Mrs. D. C. Finneran, now of Hialeah, Fla., former Hilltoppers, were visitors here for two weeks ending last Sunday with sons, Denny, Ted and Dick . . . A Hilltop [illegible] regularly uses Record classified ads advises she received a call from Michigan this past week in reply to her Record ad . . . And it is mighty nice to welcome Esther Weakley back as a Record columnist after an absence of several weeks . . . Community Groups Step Up Final Plans For Halloween

WHILE OTHERS PLAYED on Saturday afternoon, Youth Council members were preparing decorations for the "Pumpkin Prom" at the West High event. "Barrels of Fun, No Damage Done," the party theme, will be carried out in the decorations which are being made at the Hilltop YMCA. Working on the decorations are Dianne Tippett, left, Janet Gove, Ruth Ann Ralph, Chrise Gartrey and Nancy Reichelderfer. Dancing will be from 9 to 11 p.m. in the gym.

DECORATIONS AND OTHER DETAILS are being worked on by the Hilltop Youth Council for the annual Hilltop Halloween party only a week away. Inspecting nearly 9,000 notices that were sent to local schools this week are Jeanne Murnane, left, Mary Anne Eberly, Sally Eberly and Michael Kagey.

A distinguished panel of costume judges, a guest appearance by "Doctor Bop," and a family square dance figured in new developments with only eight days to go to the 12th annual Hilltop Halloween Party. It will start at 7 p.m. "rain or shine" Thursday, Oct. 31, at West High School.

Thanks to the cooperative efforts of the 45 organizations comprising the sponsoring Hilltop Community Council, only minor details remained to be ironed out, declared John Clay, general chairman.

Judges for the 7 p.m. costume masquerade parade in the gym, conducted by the Hilltop Business Association, will be City Councilmen Ralston W. Westlake and W. Wesley Llewelyn, Mrs. Margaret Fyffe of the Hilltop Tune Shop, Mrs. Yvonne Snyder of Craft Fabrics, and Mrs. Ann Highfield of the Sullivant Avenue Lumber Co.

Twelve silver dollars will be awarded to the funniest, prettiest and most original costumes in four age groups. Twenty-five West High Neighborhood Girl Scouts and members of the Campfire Girls' Hartzler Club will serve as parade marshals.

Awards will be followed by family square dancing in the gym for approximately one hour.

"Doctor Bop," WOOL radio disc jockey who has gained national renown for the number and enthusiasm of his fans, will make a 15-minute guest appearance on the auditorium program at 9 p.m. "Doctor Bop" will bring his famed "stack of shellac and record mash-o-men" and will share billing with Jacquie Hardy, pupils of her dance school, and her father, George Hardy, one of the original Hilltop Minstrels.

Youth Council representatives heading the various committees planning the "teen-agers only" dance from 9 to 11 p.m. in the gym, include Barbara Barnhart of the Y-Teens, entertainment; Annette Bates, Y-Teens, publicity; Jerry Hummel, Glenwood Teen Club, finance; and Nancy Reichelderfer, Girl Scouts, decorations.

Their adult advisors are Bud Martin of the Hilltop YMCA, Mrs. Donald Fern of the Hilltop YWCA, Nellie Green of the Glenwood Recreation Center, Mrs. Eugene Jenny of West Junior-Senior High School PTA, Mrs. George Ralph, Girl Scout executive, and Rev. Clark, associate pastor of the Hope Memorial Presbyterian Church.

New teen groups in the Youth Council who will aid in physical arrangements for the dance include the Hilltop Lions Athletic Club and the Westgate Manor Teen Club.

This marks the fourth year that the teen-agers have assumed complete responsibility for the Halloween Party dance, including the $50 band fee.

A complete time schedule of events and listings of organizational responsibility for the 10 cafeteria concessions will appear in next week's Record. Meanwhile, more than 8500 mimeographed pupils' announcements, prepared by the Hilltop YMCA, have been distributed to local schools by the Youth Council.

Community Council Promises Plenty Of Chaperones On Tap

There will be more adult supervision and policing of halls and grounds this year than ever before at the Halloween party at West High School, according to Wayne Bruner, vice-president of the Hilltop Community Council and chairman of the party's security arrangements.

Bruner issued the statement yesterday in the face of rumors that inadequate chaperonage would be available for this year's party. "Everything about the party, including the need for additional chaperones, is bigger this year," he declared.

Service Clubs, Police Cooperate

Thirty-six men from the Hilltop Business Association, the Hilltop Lions Club and the Hilltop Kiwanis Club will be on duty in addition to uniformed patrolmen promised by the police department. Even more police than customary will be on hand thanks to the cooperative efforts of E. L. Reichelderfer, assistant superintendent of schools charged with coordination of the city-wide "fun without destruction" campaign

In addition, many of the chaperones who served at the Youth Council's summer dances will be on hand for the "Pumpkin Prom" teen dance. Hilltop YMCA and Glenwood Recreation Center adult volunteers will assist in maintaining order in the auditorium.

It's Lucky Friday For School Kids!

Superintendent of Columbus Schools Harold H. Ebling today reminded Columbus parents and children — in case they needed any reminder — that there will be no school Friday, Oct. 25 . . . teachers' meeting.

Old Problems Reappear As Commissioners Turn Down Annexation Petition

Annexation became a hot subject this week again and with several decisions made in the past several days came additional confusion and problems left unsolved.

On Monday county commissioners dismissed a petition seeking annexation of 2572 acres of Franklin Township to Columbus. The commissioners claimed the petition bore insufficient signatures. The petition showed 88 signatures of the 151 freeholders involved but opponents claimed 47 desired to withdraw their names.

Shortly after this action by the commissioners another petition was filed asking that about one-third of the area be taken into the city. This petition had been in the hands of the commissioners since February but had not been acted upon because it included area involved in the 2572 acre tract just acted on.

The new area involved 840 acres. The petition was filed by C. W. Brownfield and is signed by all seven freeholders in the area. No date for a hearing has been set.

Disapproval of the annexation of the 2572 acre trace has caused considerable concern for Grove City in view of the fact that Columbus had promised to run a large sewer line west and southwest if annexation were approved. Grove City officials had counted on the use of this sewer and now find themselves facing a problem of what to do about their sewerage.

The State Water Pollution Board has stated that Grove City must take some action soon to remedy its sewerage situation. To build a plant necessary to meet their needs will cost that community some $80,000 more than it would have cost to tap the Columbus sewer.

Nov. 1 has been set as a date for Grove City to advise the state what it intends to do. Their officials claim the village is financially unable to develop its own sewerage system.

A similar sanitary situation at Urbancrest is faced by that community, now faced with the loss of the big sewer.

A hearing on a petition to annex 249 acres of Franklin Township to Columbus was continued for a week Tuesday by county commissioners.

The continuance was approved to allow attorney Thomas Applegate, bitter annexation foe, and attorney W. Harrison Smith to reach some agreement as to the number of resident property owners in the area who favor the annexation.

The tract lies east of Georgesville-rd and south of Sullivant-av and includes the Georgian Heights Addition.

Wrong-Way Rabbit Nearly Stymies Teenage Magician

THIS IS NOT MANDRAKE the Chinese Illusionist, but young Dick Barrett the magician, hardly recognizable under heavy oriental makeup. Dick said he finds painting-up a displeasing angle of his magic work.

• • •

Vanishing live rabbits can turn a magician's hair gray in his early teens, according to Dick Barrett, of 175 Binns-blvd.

Dick, 16, started as an amateur magician at the ripe old age of 12. He said that his most embarrassing moment as a performer came when he tried to make a live rabbit disappear in a black silk hat at Milo Grogan Boys Club.

He had successfully done the trick before other audiences, but that night's show at the Boys Club was going to be special! Dick had polished his act to perfection because he was slated to be on last and in the audience were going to be many older and experienced magicians.

"Well," said Dick, "I dropped the rabbit into the hat and put a net over it. Something went wrong and the rabbit changed his mind about vanishing and jumped out and ran into the audience—I've never used a live rabbit since!"

Got Early Club Bid

At the age of twelve years Dick started buying tricks and studying the art of slight-of-hand. He was asked to join the Columbus Magic Club when he was 13. While attending the club's once-a-month meetings, he began pulling on shows for different organizations including St. Agnes School's PTA, Chicago School and the Penitentiary Guard's picnic.

Dick, oldest of the six children of Mr. and Mrs. Herbert F. Barrett, said that the Christmas season is his busiest time. He manages to get bookings through the use of calling cards and friends. Dick declares it is just a hobby and that he doesn't think he will ever make it a profession because there isn't enough money in it—too long between jobs.

A junior at Holy Family School, Dick's acts include pantomimes to music, comedy, serious, ultra-violet lighting, oriental and general magic.

At the Magic Club's convention last February, Dick won first prize with his act in the junior division.

Dick uses two live doves in his acts. He keeps them in his

Sensenbrenner Is Candidate For Governor

Anyone who may have wondered if Mayor Jack Sensenbrenner will be a candidate for Governor of Ohio had the answer Tuesday when he announced to the 88 counties of Ohio that his hat is in the ring for next May's primary.

He states that he has had requests from delegations from all over the state that he become a candidate and has taken this means to determine if they are really interested in his candidacy.

While other prominent Democrats have been talked as candidates, the mayor of Columbus maintains that he will form his own committees in every county of the state should local Democratic organizations decline to circulate his petitions.

Barber Revisits Homeland— First Vacation In 37 Years

AMONG THEIR SOUVENIRS is this Italian figurine held by Anthony Policaro and admired by his wife, Ann. They have just returned from a two-month trip to Italy.

• • •

"Many Italians still believe that the American Indian is waging war with the cowboy," said Anthony Policaro, who just returned from a trip to Italy with his wife, Ann.

This is the first vacation that the Policaros have ever taken. Tony has been wanting to go back to Italy for a long time to see his father, whom he hadn't seen for 37 years. "This is the first time I've been able to get away from the barber shop long enough to go anywhere. But now that my son Frank is a master-barber and able to take over the shop for me, I felt that it was the time to go," said Tony who owns Anthony's Barber Shop, at 2560 Sullivant-av.

Mr. and Mrs. Policaro sailed from New York on July 24 with another Hilltop couple, Mr. and Mrs. Joseph Venadi, of 2523 Sul-

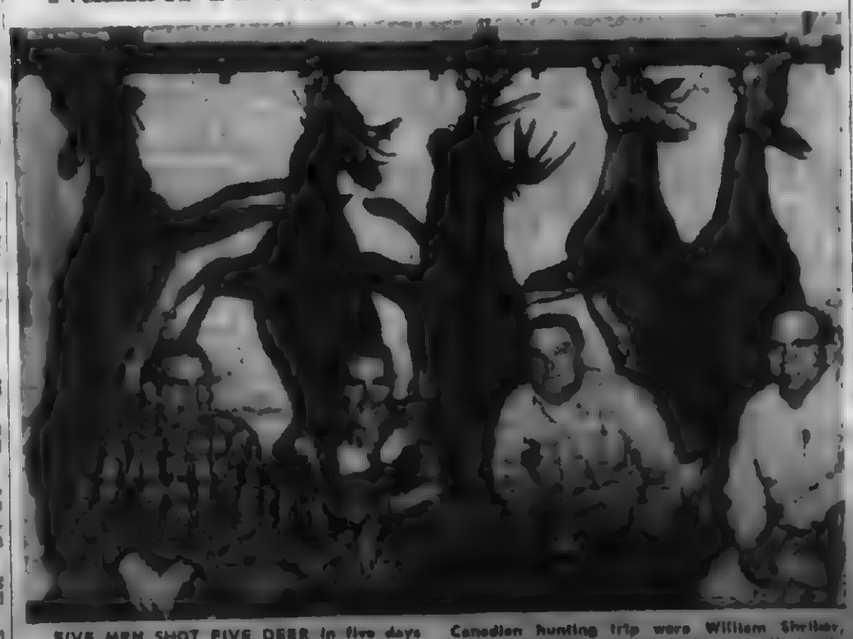
Hint Sunday 'Open House' May Be Dropped By Realtors



More than 400 local realtors have given a verbal "okay" to a plan that would prohibit Sunday sale of real estate, it was learned this week.

The realtors, members of the Columbus Real Estate Board, may ask all city and county brokers and builders to close up on the "seventh day" when current talks reach the planning stage. Preliminary polls and questionaires indicate that Sunday "open house" may soon become a thing of the past.

The subject was to be discussed further today at a meeting for mayors, brokers and newsmen hosted by the Columbus Board of Realtors.

A local spot-check of brokers proved that many had not been notified of the session. They gave their opinion, however, and many said they felt to close "shop" on Sunday would benefit the realtors and would not greatly hurt business.

Revisits Homeland

(Continued from Page 1)

Ilvant-av. They visited Rome first, where they went to the Vatican City, Ancient Roman ruins, Fountain of Trevi, Villa D'Esta, which said Ann, was the most beautiful thing she'd ever seen. "We went to Villa D'Esta at night, and they have 100 fountains lighted with spotlights — it was just breath-taking," Ann said, showing a picture taken of herself in front of one of the fountains.

Blessed by Pope

They visited the Pope's country home and were given an audience along with a group of tourists — all were given his blessing.

The two couples separated upon leaving Rome, and the Policaros proceeded to Southern Italy and Sant'Onofrio, Tony's hometown. They visited his father and two sisters for 22 days before continuing their tour of Italy..

They visited Florence, Genoa, Milano, Venice, Naples and the ruins of Pompeii, Verona and the balcony of Romeo and Juliet, the Isle of Capri and many other smaller towns.

Tony and Ann then went to Northern Italy to Lucca where Ann met two of her aunts for the first time. She was born in Columbus and had never known any of her Italian relatives. Ann said, "Although I was born in America, I speak better Italian than Tony who is a native of Italy." Tony answered, "Well, I've lived in America since 1920 and I've forgotten quite a lot of my native tongue."

The Policaros said that the Italians love Americans and have adopted many of our ways since the war. Ann said that when the guides point out a beautiful modern building, they say "we could not have had this except for the Americans."

Like Rock and Roll

"They especially like American popular music and are crazy about Rock and Roll and they love to dance to it too. Another one of their favorite American imports is the Western movie. It really was funny to go to the movie and see Burt Lancaster or Randolph Scott talking in Italian," said Mrs. Policaro. "They still believe that America is full of big, strong cowboys and that they are still fighting Indians," added Tony.

They left Italy on the liner, Christopher Columbus, on Sept. 23 and arrived in New York on Oct. 1. The couple is full of stories to tell of their fabulous trip to Italy, and they will never forget the sights. They shot 12 rolls of movie film and took a great many snapshots along the way.

Tony came to this country in 1920 with the financial help of his father. He came to live in Columbus with his uncle. He met Ann at a dance and they were married shortly after. They celebrated their 28th wedding anniversary in Italy on Aug. 6 of this year. They have one son, Frank, who was graduated from West High School and after working for General Motors for awhile decided to become a barber like his father. He has worked in his dad's shop since 1953.

When Tony first came to Columbus he worked for the City Ice and Fuel Co. then for the Pennsylvania Railroad. Finally, however, he decided he would like to be a barber. Aided by his uncle, he went to barber school and opened his first shop at 878 W. Broad-st where he was located for 20 years. He has been a barber for 33 years and a resident of the Hilltop since 1943.

Tony said, "I'm glad I got to see my father again. He is 82 years old and may not be here much longer. I loved seeing Italy again but it sure was nice to come home."

In Passing

By Esther Weakley

OCTOBER

He has never wanted money
For the other things
That most men treasure,
And his needs are few.
He has had fields and sky;
A brook that sings;
Soft rains and harvests
And a dog or two.

He has never needed much . . .
He has his hill;
He has six birch trees
Growing straight and tall;
He has had silver dawns
And a whippoorwill,
And bittersweet that runs along
His old stone wall.

In the dim October dusk
He stops to look
At first star of evening
Glowing just above his hill;
At his six birch trees
And the six more in the brook.
Then he thanks his God for
Beauty;
For a world that is still.

R. V.

Remember me? I'm Esther Weakley and I used to clutter up The Hilltop Record. Since I don't stop while I'm ahead, I'm back. "I been sick," and don't even have scars to prove it for there was no operation—so what'll I write about? And don't bother answering that please.

• • •

October . . . the month of bittersweet, football, lovely leaves, applebutter-making (do they still make it outdoors in big copper kettles?), mums, the taking-down of screens and putting-up of storm windows, the haze of leaf-burning and of fall vacations. And Halloween.

• • •

Television: Mike Wallace and his condescending air and his cigarettes . . . Edward R. Murrow and his cigarettes . . . the return of Mama, about which many of us are happy . . . the ruining of the $64,000 Question show for many, because of the Jack Benny deal . . . What's My Line in its same old rut . . . Queen Elizabeth and her Philip—he looking a little bored by all the pomp and ceremony, and she looking "every inch a queen."

• • •

Now that winter is on its way I had thought of hitching a ride to California—but a letter from a friend there mentioned a six-foot rattlesnake her husband killed about 10 feet from their home, so I'll have to disappoint everyone who thought they were rid of me. Ohio is fine, even if it does get cold.

TWO CONVENIENT CORNERS TO SERVE YOU

STRICTLY FOR THE INDIANS? NOT QUITE

Arrowhead Craft Intrigues Briggs

THESE ARE FOR REAL, says Joe Briggs, Jr., who displays four of the many trays of authentic Indian arrowheads which he has collected. In the past month, however, he has been making is own, using the Indian method of tapering the flint by chipping it with a hard rock tool.

• • •

The art of making Indian arrowheads is not dead, in fact one Hilltopper is trying to outdo Chief Pontiac and his braves by making them faster and better. Although it took the Indians about five minutes to make an arrowhead, Joe Briggs Jr. says it takes him just a little longer, but then he's just getting started.

Joe, a local insurance man, has been interested in Indian lore since he was seven years old, and at that age won first prize at the Ohio State Fair with his Indian collection.

Late this summer, Joe received a letter from Bob Ericson, who is about three-quarter Indian, saying that he'd learned to make realistic arrowheads. Joe had been spending his summers at Bob's dude ranch in Michigan and had learned and collected many valuable things from his Indian friend.

Uses Pressure Technique

He packed 70 pounds of flint and took off for Michigan about a month ago. He and his friend practiced day and night until they had conquered the art. "The method we used is called pressure-flaking and is pretty painful. I've got cut and scratched hands to prove it," said Joe.

Joe has made about a half dozen arrowheads so far. That may not sound like very many, but Joe said that sometimes he has to make 10 or 12 arrowheads before he gets one good one. "You have to know the grain of the flint and take it slow and easy or they crack and fall apart. One wrong pressure stroke and the whole thing will crumble," Joe explained.

Right now, Joe is working on small arrowheads to be used for cufflinks. He's still not satisfied with the method completely, he said, but after checking with Dr. Raymond Baby, curator for the Ohio State Museum, he found that the pressure method was one of the better ways, using the Indian tools of hard rock. "Of course," Joe pointed out, "it could be done twice as fast with white man's tools."

Hunts Real Ones Too

Joe, who is married and has one son, still spends some of his weekends digging around parts of central Ohio looking for real Indian arrowheads to add to his collection which numbers in the hundreds.

He gives talks on Indian lore to interested groups around town, and said that he especially enjoyed talking to youngsters because to them the American Indian is still a very fascinating and mysterious subject.

Joe said that he also knows how to make a stone hammer, but it took the Indians 60 hours to make one and he hasn't been able to find that much time to spare.

Hilltopper's Son In Army Medical School In Texas

Capt. Max L. Koehheiser, Jr., whose father lives at 1738 Westwood-dr, recently completed a military orientation course while on active duty at the Army Medical Service School, Fort Sam Houston, Tex.

The course is designed for newly commissioned officers and offers instruction in basic Army procedures and field medical care.

The captain, whose wife, Ethelyn, lives at 1655 N. Fourth-st, is a 1956 graduate of Ohio State University.

His mother, Mrs. Gertrude M. Rase, is a resident of Santa Ana, Calif.

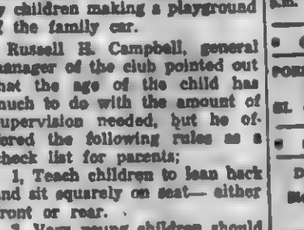
AAA Urges Child Safety In Autos

The Columbus Automobile Club suggests that parents teach their children special "car manners" both for the safety of the youngsters and for the protection of other highway users.

Recently several serious accidents have been caused directly by children making a playground of the family car.

Russell H. Campbell, general manager of the club pointed out that the age of the child has much to do with the amount of supervision needed, but he offered the following rules as a check list for parents;

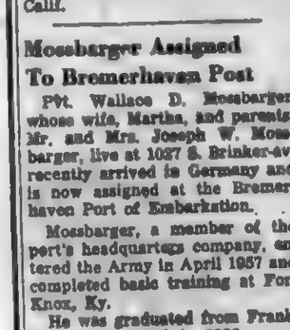
1. Teach children to lean back and sit squarely on seat— either front or rear.



2. Very young children should be held in the lap of an adult passenger, or placed in a special car seat securely fastened to a regular seat.

3. Do not allow horse-play. Older children may be given books or magazines to read. Toys to amuse younger children should be made of soft plastic or rubber, not sharp wood or metal.

4. If children must be given a drink while moving, use a paper cup — don't use glasses or bottles.



5. Teach children to play games such as spotting out-of-state licenses, quiet word-games, or other games which do not require any physical action.

6. On long trips, stop often so children do not become overrestless.

Hilltop Betterment League Asks Residents To Boost Civic Pride

DISCUSSING a planned membership drive for the Hilltop Betterment League are those members of the public relations committee (left to right), Byron E. Slaughter, Wilbert Pack and William O. Colwell.

• • •

Among the various civic organizations on the Hilltop one in particular is devoted to serving the interests of the Negro citizenry.

Known as the Hilltop Betterment League, the group is described as an offshoot of the former Ellis Club and Hilltop Civic League.

Declaring the league as "non-political and non-sectarian" spokesmen said their objective is to "create and stimulate civic pride in the community and keep it a decent place in which to live."

Active membership now lists about 30 members. They meet the first and third Saturday evening of each month at Jamison Hall, 238 S. Highland-av. Dues are 50 cents a month.

When questioned about the work of the league, publicity chairman Byron E. Slaughter, 254 Highland-av, replied: "We are determined to keep our community up — many of us have lived here a long time, and have enjoyed a fine record."

[illegible]

"As new people move in, we encourage them to keep up their homes and their respect."

"We are also concerned about the general conduct of our youth on the street," Slaughter continued, "and we urge them to try to set a good example."

Among other projects recorded by the league were a handbill campaign to promote "clean-up, fl..-up"; conferences with principals on school problems; family welfare work.

Slaughter is assisted in his work by Wilbert Pack, 370 S. Wheatland-av and William O. Colwell, 333 Clarendon-av. At present they are preparing for a membership rally, set to begin on Nov. 2.

• • •

Work of the Hilltop Betterment League is directed by the following officers:

Marshall Brown, 398 S. Wayne-av, president; Julious Tanner, 284 S. Wayne-av, vice-president; John L. Brown, 222 S. Wheatland-av, secretary - treasurer; James Taylor, 365 Belvidere-av, chaplain.

Trustees are William Biggers, 225 S. Highland-av; Joseph Sams, 318 S. Wheatland-av, and Howard Bates.

North Smothers West's Cowboys With 27-0 Score

By Cliff Shoemaker

North's city champions of last year continued on their winning trail, defeating West 27-0 on the north side gridiron last Friday.

Frank Gourley and Jim Franklin combined with a strong defense to hold the Cowboys scoreless even though a new series of plays was unveiled. It was the Polar Bear's third win against one defeat.

Early in the first period Gourley slashed over right tackle for 37 yards and pay dirt. West offense couldn't get rolling and they were held to six first downs to North's 16.

The second period was a see-saw affair with neither team threatening the goal line.

In the third period Frank Gourley again scored the touchdown as he grabbed a pass in the end zone.

Earlier in the third period period North had scored on a plunge from the one-yard line after grinding out three first downs.

The Polar Bears tallied another seven points in the final period to make their homecoming game a happy evening.

Who's On First? Relatives Pack Champs' Roster

The Instantwhip Slo-pitch baseball team won the Gowdy Slo-pitch title and the City Slo-pitch Championship with a record of 17 wins and no loses, announced a proud team coach Pop Nader. He went on to say that the team has won the Hilltop "Y" Oldtimers league championship two years in succession.

"Pop" said that a team having any relatives playing on it rarely wins any championships, but his team is packed full of brothers and brother-in-laws.

Bob, Chuck and Ken Dillie are players, Ken also acts as manager. Their brother-in-law Abe Brown is also a player.

Brothers, Bill and Chuck Kearney are on the team and so is Chuck's son, Ed. Bill's brother-in-law, Bob Riddle, and Chuck's brother-in-law, Bill Blythe, are also players. Most of the men in that family seem to be active on the team!

Player Bill Kuhn's father-in-law, R. W. Gray is one of their staunchest supporters.

Pop Nader's sons Don and Dick are players along with Bud Dorn, Terry Horn and Don Razor. Everyone on the team lives on the Hilltop or West Side.

Terriers Tie In Crown Try

Glenwood Recreation Center's Terriers downed the Polar Bears 25 to 13 to grab a share of the league championship. Wells, Maxwell and Tanner were spotlighted by their play, with quarterback Stewart scoring twice on 35 and 45 yard jaunts. Wells collected the final touchdown. John Gooden and Jerry Clayton were outstanding for the Polar Bears. Clayton scored all 13 points.

The Cowboys racked up their second victory of the season by skunking the Tigers 25 to 25 on a rain-soaked field. Dave Kroehler, Rodger Johnson and Dick Groezinger played a good game for the winners. Larry Graves did his best for the Tigers in four long runs.

The Bulldogs upset the Polar Bears 28 to 25 ending the latter's hopes for the league championship. Steve Cheek, Ralph Criner, Jim Wedener, and [redacted] Murray led the Bulldogs to victory. Jerry Clayton and Jack Logue were outstanding for the losers.

The Buckeyes edged out the Bulldogs 25 to 21, with Sam Link and Don Van Order leading the winning team. Ralph Criner scored twice, and Don Richy once, for the loosing Bulldogs.

GETS PERMIT

A permit to remodel a frame dwelling has been issued to Charles Chestnut, 692 S. Richardson-av.

There Goes Our Gas Man!

Yes, son . . . he's a "line flyer."

Natural gas must travel hundreds of miles through huge pipelines laid underground before it can be delivered to your home. These long transmission lines climb mountains, dip into valleys, and plunge under rivers. Miles and miles of pipeline right-of-way are under continual observation . . . both on land by the "line walker" and from the air by the "line flyer."

Inspection of these pipelines is made easier by the use of helicopters and other light aircraft. The man "on the fly" can cover great distances, spot conditions which might interfere with gas transmission, and quickly bring them to the attention of service crews on the ground. The result: a dependable flow of economical natural gas to your home.

The natural gas you use is the modern, efficient fuel. And it serves you best when you use it with modern, automatic gas appliances.

For Your Thoughts

Question: Do you feel that the United States lost scientific prestige when the Russians launched the first space satellite?

Mrs. John R. Dale, 181 N. Oakley-av: "Not particularly, I know it may look rather bad at first, but I'm sure that the United States will come up with something far superior both in ballistic missiles and satellites."

Mrs. Opal C. Flowers, 208 S. Eureka-av: "I really haven't formed an opinion on the subject yet, but I do think it will hurt our nation's respect in other countries. I believe that other countries have come to expect the United States to be first in most everything and they expected it in regards to satellites, too."

James Harkins, 545 Belvidere-av: "Yes, I think so, but only temporarily. The United States is tops in everything and I'm sure our scientists will soon produce a satellite that will possibly outshine that of the Russians."

Mrs. Jack E. Hodges, 901 Chestershire-rd: "Well, I don't believe that other countries will lose respect for the United States that quickly. They have looked up to us for a long time and they will continue to do so."

Mrs. Don A. Courtney, 606 Hilltonia-av: "Frankly, I'm afraid of what the effects may be and what we may have lost, both in safety and in respect. I think the Russians are more advanced than we are at this moment, and that is bad!"

Needs Workers

"Light a Life" campaign, set Tuesday Nov. 12, for the mentally retarded is being organized here.

Most of the money received by this group comes from its annual drive, it was reported, and goes for the schooling and helping of the retarded of our city.

Workers are sadly needed all over the Hilltop area but especially in the Brookshire Park addition. Those interested should call Louis Schaefer at either AM. 2-5386 or AM. 2-6068.

Catfishin's Good At Madison

INSIDE ON THE **Outdoors** *By ROD COCHRAN*

The shortening days and falling leaves signal the end of the fishing season. A few stalwart souls keep at it until freeze-up, but it's just about over for most of us.

"Pete" Peters lives at Madison Lake, and keeps his finger on the pulse of that popular fishing spot. I asked Pete the other day how fishing had been this past summer. He told me that the bass fishing was spotty, not as many crappies were caught as in previous years, and the catfishing was excellent. It seems that Pete and his fishing pal, Jody Kelso, accounted for a number of lunker channel catfish this year. The vital statistics on their four best ones are as follows:

6¾ pounds, 26½ inches, caught Sept. 1.

5 pounds, 23 inches, caught June 23.

6¾ pounds, 26¼ inches, caught July 21.

4½ pounds, 22 inches, caught July 21.

Naturally I inquired about Pete's secret in taking these fish plus some other smaller ones. He said that he didn't have a secret, but that in his opinion most people fished in a manner exactly opposite of what they should. "Most fishermen I see," he told me, "fish from the bank, and cast their bait into deep water. I anchor a boat in deep water, and fish in shallow water near shore."

They're Night Operators

Fishing in shallow water won't work all the time; you have to fish there at night when catfish are feeding. Most fishermen know that catfish wait for darkness before they start to prowl around looking for a meal. Trot-liners bait up just at dark, and then run their line early the next morning. Anglers who catch catfish consistently have learned that some sleep is lost in the process. All of the big catfish listed above were caught after 2 a.m.

When it comes to baits, Pete's favorite is soft craws. He also uses night crawlers and chicken livers. The many catfish bait concoctions have all been tried, and Pete says some of them are so smelly that he hates to bait up with them. Consequently, he relies on soft craws to bring home the fish.

Pete experimented this year with a hook that has a kink in its shaft, and thereby better holds slippery baits in place. He is fairly well satisfied with the results, but is going to experiment further next year.

Pete's house is handy to the boat dock at Madison Lake—right across the street. When the weather warms up next year, he will be spending his nights on the lake. And I'm taking bets that he'll have some big catfish to show for his efforts.

Youth Problems To Be Discussed By Town Meeting

Columbus Town Meeting will tackle one of the day's paramount problems — "Juvenile Delinquency" — on Sunday, Oct. 27, 1 p.m. over Station WBNS-TV.

The forum topic will be "Are You a Delinquent?" Speakers will be Dr. Richard Clendenen of Ohio State University, Judge Clayton W. Rose of the Franklin County Juvenile Court, and Richard Mann, a student at Denison University, Granville.

The public is invited to attend the discussion at the studios, 496 Olentangy-blvd. Telephone questions may be phoned to CA. 8-[illegible].

Commssion Urges Voters To Insure Future Parks

Nature is using her most vivid shades of orange, gold and red from her palette this year and nowhere is this more evident than in our metropolitan parks [illegible] forests.

Although parks like Blendon Woods and Blacklick Woods are used and enjoyed by millions of people in the Greater Columbus area all year long, at no other time are they so appreciated as in autumn, explained Edward S. Thomas, chairman of the Board of Park Commissioners.

Nature lovers, camera fans and those who enjoy cook-outs flock to these metropolitan parks each weekend to capture the charm of fall's colorama, Thomas added.

What about the future, however? Will there be new parks to help facilitate the recreational needs of a city with a population of more than half a million? "Lack of recreational facilities could be a deciding factor in the selection of a community for the location of new industry" stated William Papier, director of the Division of Research and Statistics.

If Columbus is to preserve some of the few remaining scenic sites around the city for parks, it must be done now. Many sites considered for parks 10 years ago are now gone forever, said Thomas.

The park board receives no funds from either the Columbus City Council or the Franklin County Commissioners and receives no part of the Columbus income tax.

The proposed 3/10 mill levy, effective for 10 years, for additional metropolitan parks, will be voted upon in the Nov. 5 election. This levy would cost the tax payer three cents on each $100 property valuation, beginning in 1958.

As placed on the ballot the park levy would provide funds for the purchase of land and improvements only. All maintenance and operation costs of the park district would be paid from present appropriations by the county budget commission.

According to National Recreation Association recommended minimum standards Columbus has only one-third of its present needs in metropolitan parks, commission secretary Walter Tucker said.

Kiwanis Members Testify To Influence Of Church In Home

G. J. O'Kane

Hilltop Kiwanians, in observance of October as "Church Loyalty Month," have submitted personal testimonials of the meaning of the church in their home life. The project is under the direction of the clubs' Support of Churches committee.

G. J. O'Kane, process engineer for Ternstedt Division of General Motors, and a member of St. Agatha Church, is the author of this week's contribution.

By G. J. O'Kane

Church provides a common background of religious belief for all members of the family. It permits no differences in dogma, therefore makes the family more solid in its religious belief.

It accents the family as our basic unit of society, consequently emphasizes the value of the family to the children.

A strong religious faith fostered by the Church and nurtured by it, helps to dictate human conduct. Concepts of sin and punishment when impressed upon a child certainly aid the child to become a better citizen.

It constantly reminds us of the natural law which exists and is identical to the divine law.

The Church reminds all of the dignity of man and his final end.

Uses Girl 'Volunteers'

It costs $500 to buy Harry Blackstone's trick of sawing women in half, so Dick copied it using a box made of cardboard. Besides 'chopping' woman in half, he also 'cuts' people's heads off with a guillotine. When asked how he obtains these human sacrifices, he said, "I usually 'volunteer' one of the girls in my homeroom at school."

Of the more than 100 tricks included in Dick's repetoire, he said that the ones involving hand manipulation were the hardest. The longest he has ever worked on an illusion was two years before presenting it to the public.

STEPS of PROGRESS

This is one of a series of messages designed to point out why this community is truly a wonderful place in which to live. Reflecting the steps of progress in our area, these advertisements are sponsored by local business and professional men who are appreciative of the loyalty, cooperation, and patronage of the loyal citizens whom they serve. Each message is a tribute to a group or organization having complete faith and confidence in the future progress of this community.

A TRIBUTE to the ELECTED OFFICIALS of this Progressive Community

AT regular intervals it is a privilege and duty to cast our vote to fill the various elective city and county offices. It's true that many times these political campaigns get slightly enthusiastic and biased, but once these selections are made by ballot, it is our further obligation, as good citizens, to support these offices as they fulfill their various duties.

Let's take a moment, then, to pay tribute to our public servants. Theirs is a hard and exacting job with innumerable people to please. There are many conflicting opinions and problems. No wonder, then, that they often find it difficult to make decisions that will be of benefit to the best interests of the people they serve.

We believe our public servants are doing a good job. They deserve our confidence and trust . . . they are serving to the best of their ability and sincerely want to be of assistance at every opportunity. Let's forget the political implications just for a moment, to pay tribute to all men and women who are serving or have served this community in public office. Honest, sincere, God-fearing people, these elected offices merit a word of thanks for their efforts to be of service. We compliment each on his or her accomplishments. Your efforts are helping to make this an attractive and most enjoyable community in which to live.

Speakman Brothers Started Own Business With Skill

Harold and Joe Speakman

Forty-five years combined experience lies behind each clean garment in those plastic bags! At least at Tommy's Quality Cleaners, 2899 Sullivant-av.

Brothers Harold, known as Buzz, and Joe Speakman, who own and operate Tommy's, stack up 45 years of dry cleaning experience between them. Buzz went to work for one of the town's large cleaning concerns right after high school in 1929. Joe worked for a glass factory for a while before entering the company that his brother worked for.

Two and a half years ago they bought out Tommy's and went into business for themselves. Buzz's wife, Viola, works at the establishment along with eight other employes. The cleaner has a two-truck delivery service and puts all garments in clear plastic bags for the convenience of its customers.

Buzz and his wife reside at 738 Hanford-st. They have a daughter and a son, who are both married. They are members of Linden Lutheran Church. Buzz also belongs to HBA.

Golf and hunting are principal spare time activities for Buzz. He also likes to travel and has seen most of this country with the exception of the extreme northwest. Most memorable vacation, he said, was along the New England coast, including Nova Scotia and the Gaspe Peninsula.

Joe and his wife, Hope, live at 960 Kenwick-rd, and have two grown children, a son and a daughter. They are members of Brookwood Presbyterian Church. Joe is a Mason, member of Southgate Lodge, and the Shrine. Before the brothers bought the cleaners, Joe was in charge of bringing television's Midwestern Hayride to Columbus in the old Memorial Hall for his lodge.

Referrals under the re-established procedure will be limited to boys 10 to 17 years of age and girls, 12 to 17 who have had a clinical evaluation by an acceptable clinic or facility, and still have a need for adequate diagnosis before disposition of their cases by juvenile courts.

you can measure heating quality with Janitrol's new *Dura-tube

The "Armored Heart" of a famous, gas-fired WINTER AIR CONDITIONER by Janitrol

Dura-tube is practically INDESTRUCTIBLE!

★ won't burn out
★ won't rust out
★ won't wear out

What is Dura-tube?

Dura-tube is a combination of Janitrol's exclusive heat exchanger design plus a process developed by National Bureau of Standards to combat extreme temperatures in military aircraft.

Better than cast-iron or steel.

This process has been approved by American Gas Association for heat exchanger temperatures far beyond that allowed for either cast-iron or steel!

PROOF: One of the most important ways of measuring heating quality is its Durability. Dura-tube's actual record of zero replacement in 9 years and in nearly ¼ million tubes, speaks volumes.

Other ways to measure Dura-tube quality:

1 It's quiet! Extra comparing takes out sounds of contraction and expansion.

2 It's safe! One piece, gas-tight seal. No leakage of combustion gases possible.

3 It's practically service-free. Elimination of scaling reduces cost and inconvenience of cleaning.

4 It's a comfort plus! You get quicker heat to all levels of all rooms when adjusted for CAC.

The finest heating equipment, however, must be well installed. Let our experts advise you.

Food Markets This Week by Mrs. Estelle B. Franks

THIS WEEK SHOP FOR:

Fruits — Apples, cider, Emperor grapes, canned peaches.

Vegetables — Broccoli, cabbage, cauliflower, potatoes, salad greens.

Other Foods — Round steak, pork sausage, turkey, frozen chicken parts, cheese, honey.

HONEY — THE OLDEST SWEET

Honey was probably man's first "sweet." It was certainly one of his first foods, for it was known and mentioned in history as far back as records go. It is still tops as a sweet.

Universal popularity of honey is readily understandable. It is a natural, unrefined food, readily digested and assimilated by the body. Moreover, it comes in a variety of colors and degrees of flavor so that almost any taste may be satisfied. The flavor and color of honey vary with the different flowers from which the bees gather nectar. The important commercial honeys in Ohio come mostly from clover, alfalfa and clover blends.

Types of Honey — Honey is marketed in different forms. About three-fourths of it is sold as extracted honey. Liquid, or extracted honey, is removed from the comb. Chunk honey is a combination of comb and liquid honey. Creamed, or granulated honey, is extracted honey that has been crystallized into tiny crystals which give it a creamy texture. It makes an excellent spread.

Use and Care — The aroma and flavor of honey adds that extra touch to many foods. It is especially good as a spread on hot breads. Have you tried it on corn meal waffles? It is also delicious as a sweetening agent on fruits and cereals or in beverages. Try drizzling honey over fresh grapefruit and watch your family go for it. It adds flavor and gives a golden glaze to ham when brushed on the ham during the last half-hour of baking. Cakes and cookies made with honey remain moist. Best results will be obtained by using recipes developed especially for honey.

Your kitchen cupboard is the ideal place to store honey. If it crystallizes, place the container in a pan of warm water and let the crystals dissolve slowly. This does not impair quality.

GREENHOUSE TOMATOES

Two crops of greenhouse tomatoes are produced annually, one in the spring and another in the fall. The fall crop is now appearing in the markets and will continue into January. These tomatoes are coming on the market at a time when locally grown outdoor tomatoes are no longer available.

Greenhouse tomatoes can be identified by the green calyx (stem.) The price differential between greenhouse tomatoes and other types (tube and vine-ripe) will probably be less this year due to adverse weather conditions in California, Florida and Texas.

Ted Hysell Runs For Court Office

Ted Hysell

Active in civic and business circles, Ted Hysell has been campaigning enthusiastically for the office of Clerk of the Municipal Court. He served as deputy in that office for seven years under the late Arthur J. Blosser.

Hysell, 46, is married and has two children, Ted Jr., age 16, and Barbara, age 10. They are all members of Maple Grove Methodist Church.

A veteran of World War II, Hysell is also active in various Masonic bodies. He is a member of the Lions Club, Agonis Club, and various Republican organizations. He has received the endorsement of the Franklin County Republican Executive Committee.

For the first time in local history, all voters in Franklin County will be given the opportunity to vote for the full slate of municipal court officials.

A unique feature of Ohio roadside parks is that the land for the parks was acquired without cost. Land for nearly all of the parks was donated and the remaining few were located on odd bits of land left as a result of highway relocations.

Many an argument is sound—merely sound.Tampa Daily Times.

Dear Son

By Joseph Martell

Chittlin' Switch
Sunday Afternoon

Dear Jason:

Cheddar, your little nephew, hasn't changed a bit. He's a real hateful brat for only seven years old. Saturday I took him to the movies not realizing they were playing one of those love pictures filled with all those romantic scenes. When the show was over I told Cheddar I hoped he wasn't too bored with the movie. Cheddar said he enjoyed the show a lot. He said everytime the hero would kiss the girl he'd [redacted] and pretend he was her.

There's a tin can scrap drive on here in Chittlin' Switch to raise funds to build a war memorial in front of the Town Hall. The editor of the "Daily Bugle" wrote in his paper that the easiest way to save the cans was to place them on the floor and jump on them with your two feet to flatten them out. I want to be patriotic and all that but I quit saving tin for the drive. It took your Paw and me two days to scrape the beans off the wall.

Your brother, Bilge, got himself a job as an apprentice to the village blacksmith. The boss was instructing Bilge in his new duties.

"Son," he said, "I'm going to bring this horse shoe from the fire and put it on the anvil. When I nod my head hit it with this sledge hammer. Bilge did just what he was told and you'll be proud to learn that Bilge is now the village blacksmith.

You remember that grass widow that moved here from Brooklyn about a year ago? I met her on the street the other day and her dress was so short and cut so low I thought all she had on was a belt. She thought she was catching the Asiatic flu and was on her way to old Doc Trench's office. Old Doc took one look at her and told her to go home, take two aspirins, put on some clothes and go to bed.

This will come as a pleasant surprise! Your 17 year old sister, Prunella, won first place in a beauty contest out of 100 entrants. The judges were unanimous when they voted Prunella "Miss Chittlin' Switch and Miss Racoon Junction of 1957." Between the two of us, it wasn't her pretty face that won her the title but she was the only girl in the contest who could get all those letters across her chest.

Write soon, your loving [redacted]

The nice thing about a dull party is that you get to bed at a decent hour.

We Lost a Friend

With the death this past week of Walter Davis all who are associated with our newspapers lost a good friend and co-worker.

Walter started with me as an ad salesman back about 1940. When I met him for the first time, as he applied for a job, he stated he wanted to become an advertising salesman. When I asked what he knew about the business he gave me a straight-forward "Nothing."

He was employed and in a very short time was an accomplished display ad salesman, who was well liked and had a host of friends throughout the community.

Some years ago he left our firm and assumed similiar positions with other community newspapers in the city, only to return to us about four years ago.

We will miss him in our organization. We will miss him as a friend.

A Quarter Century

Just 25 years ago this past week I took the step that made me the publisher of the Greenfield Times at Greenfield, O. We celebrated the event on Saturday evening with a dinner for Times employees and their wives at Greenfield.

Never will I forget the $14 worth of advertising that first issue of our paper contained and how soon my meager backlog of cash ran out. It was this situation coupled with the accompanying depression and bank holiday that taught me more about cooperation than I could have learned in any other manner.

But these were strengthening days and now that I look back on them I have no regrets. There was no room for an "easy come, easy go attitude."

A year from next month we will celebrate the 25th anniversary of the launching of the Greenfield Times as a daily, which today has grown to be one of the most popular small town dailies in the country.

Sound Barrier Is No Barrier To Hilltop's Major Clyde Good

Major Clyde Good climbs into the new F-100F Super Sabre Jet which he recently piloted from Los Angeles to Albuquerque to Columbus in three hours and 20 minutes flight time.

Flying others faster than sound has become almost a routine operation for ex-Hilltopper Major Clyde Good.

Major Good, who is chief of Air Force Flight Test at the Los Angeles Division of North American Aviation, does this supersonic flying in a North American F-100F — two-seater version of the F-100 Super Sabre series.

A graduate of West High School in Columbus, Major Good, 28, is the son of Mrs. Sterling Good of 334 S. Roys-av. He attended Otterbein College.

In the course of his supersonic flight demonstrations he has flown government, military, and press personalities "through the sonic barried." Senator William F. Knowland of California was a recent passenger.

The two-place F-100F fighter-bomber was engineered in Columbus and manufactured in Los Angeles for the U.S. Air Force. On a recent visit to Columbus Major Good demonstrated its supersonic capabilities to various officials at the Columbus Division. He has made two air-splitting trips to Columbus from Los Angeles in the last three weeks.

Major Good's military service includes service in the South Pacific during World II and 120 missions in the Korean War. He holds the national speed record from Los Angeles to Denver, established in an F-100.

Among the decorations he has earned are the Distinguished Flying Cross, the Air Medal with nine Oak Leaf clusters, and the Asiatic-Pacific Theatre Ribbon with eight battle stars.

Hilltonia School To Hold First 'Open House'

Although Hilltonia Junior High School was opened last November it was not completed until May so its first Open House was postponed until this fall.

Open House will be Thursday, Nov. 7, 7:30 to 9 p.m. and all teachers will be in their rooms to welcome parents and friends. The public is invited announced L. H. McAllister, principal.

Glenwood Canvass May Top $200,000

Glenwood Methodist Church fund-raising campaign results soared "over the top," Tuesday night as committee chairmen totaled gifts and subscriptions of $197,800. Final total in the drive which will end tonight is expected to reach more than $200,000.

Minimum goal for the intensive, four-day general member canvass to raise money for the proposed new church building at Valleyview-dr and Hague-av was set at $150,000.

Dr. Alton Lowe of the Methodist Home Board of Missions in Philadelphia has been in town three weeks organizing the drive, assisting and advising the 300 members who worked in the campaign, and preaching during each Sunday service.

Dr. Lowe has served in the ministry of finance for more than 16 years, directing fund-raising campaigns in 260 churches in the country.

Final report on the campaign will be received tonight at 9. Dr. Lowe will leave tomorrow morning for Manhattan, Kan., to organize a fund raising drive in that city.

Homar Keefer is general chairman of the campaign, assisted by Bill Jones; Robert Cramer is special gifts chairman, with M. W. Seiller, assistant; Harvey Postlethwait, visitation chairman, with Ray Coffman, assistant; and Howard Lloyd, publicity chairman, with C. Carlton Hartley, assistant.

Dr. Joseph Shellhaas is pastor of the church.

Walter Davis Succumbs To Long Illness

Walter Davis, 39, a member of the advertising staff of Hartley Newspapers for many years,

Walter Davis

died Thursday at his home, 2170 Neil-av after a long illness.

He was a trustee of the Hilltop Business Association and a member of Hilltop Lions Club and of Worthington Moose Lodge.

He is survived by his wife, Wilma; parents, Mr. and Mrs. William Davis of 3094 Steele-av; two daughters, Linda and Cinda; two sisters, Mrs. Mabel Simison, Toledo and Mrs. William Mack of Port Clinton; three brothers, Lewis H. of Fostoria, Lawrence E. of Columbus and LeRoy of Port Clinton.

Funeral services were held Monday in Schoedinger's Hilltop Chapel with burial in Forest Lawn Cemetery. Dr. Joseph Shellhaas officiated.

Members of the Hilltop Lions Club served as pallbearers. They were Galvy Gordon, Bill Coon, Pat Cleary, Charles Weaver, Herb Leochler, Jack Mitchell, John Stephens, Dick Boyer and Paul Lugger.

Three Saved From Fire

Three persons early Tuesday were rescued from a gas-fed fire which spread through a business-apartment building at 1641 Sullivant-av. Robert E. Fox, 38, 1663 Sullivant-av, made the rescue.

Fox was awakened by the sound of screams about half a block away. He dressed, ran to his garage to get a ladder and carried it to the burning building. Fox helped Mrs. Frances Banbury, 76, down from the awning to which she was clinging.

He then carried the ladder to the east side of the building to help a young couple, Mr. and Mrs. John Allen, get down from a one-story roof. Firemen had to give oxygen to the Allens' dog, Sandy, which had warned its owners of the fire.

The fire started near a basement furnace and was fed by gas from broken meters. Damage is estimated at $7150, said Battalion Fire Chief J. O. Geis. A second fire company was called to the scene. The blaze was under control in 46 minutes.

Mrs. Banbury said that she had never wanted to put a storm window on the window because she thought she might have to leave the building that way in case of fire. And she was right.

John McLurg Dies Today In White Cross

John McLurg, 57, died early this morning in White Cross Hospital after a long illness. He was a former employe of Jeffrey Manufacturing Co.

A native of Scotland, he came to America about 35 years ago. He was a member of Bethlehem Lutheran Church.

He is survived by his wife, Elizabeth, owner of the Arden Beauty Salon; daughter, Mrs. Elaine Sluter of Kansas City, Mo.; sons, John and James of Columbus; six grandchildren; one brother, Charles in England.

Funeral arrangements are being completed by Noble L. Allen Funeral Home.

HEY HOBGOBLINS! Here's What's Brewing

Black cats, hepcats, fearsome pirates, piquant princesses and fun-loving Hilltoppers from two to 92 can have a "three-cauldron" circus at the 12th annual Hilltop Halloween Party scheduled to start at 7 p.m. "rain or shine" at West High School on Thursday, Oct. 31. With activities "brewing and bubbling" in the gymnasium, auditorium and cafeteria, the following schedule is presented to help you know "witch is witch:"

GYMNASIUM, 7 p.m.—Contestants in four age groups (see story) assemble for costume parade; 7:30 p.m.—judging of costume parade; 8 to 9 p.m.—family square dancing for all ages; 9 to 11 p.m.—"Pumpkin Prom" for teenagers only with all youngsters under 13 years of age requested to leave floor at beginning.

AUDITORIUM, 7 to 8:30 p.m.—cartoon movies; 8:30 p.m.—costume parade awards; 9 p.m.—"live entertainment" featuring "Doctor Bop" and Jacquie Hardy School of the Dance.

CAFETERIA 7 to 10:30 p.m.—concessions, including party hats, candied apples, fish pond pop corn, cold pop, ice cream, hot dogs, milk, coffee, doughnuts and fortune telling. Tickets available immediately inside the cafeteria, will be required for all concessions. No cash will be accepted by booth workers. All snack and drink items will be sold at a price sufficient only to provide a minimum profit. Nominal profits from the entire evening will be used by the Hilltop Community Council in its annual projects for the benefit of all Hilltoppers.

With more civic backing and more widespread financial help than ever before, the Hilltop Community Council's family Halloween Party seems assured of the greatest success in its 12-year history.

That was the confident prediction of John Clay, general chairman of party arrangements. Indications are that more than 3,000 Hilltoppers of all ages will enjoy the many activities set to start at 7 p.m. Thursday, Oct. 31, at West High School—regardless of weather. (See accompanying schedule of the evening's activities.)

"This annual festival of harmless Halloween fun has proved itself a real deterrent to mischief," declared Clay. "That's why almost every one of the 45 civic, PTA, service and religious organizations affiliated with the community council have contributed time, talent, money, or all three."

Among organizations which had contributed financially to the party as of Saturday were the Hilltop Business Association, Hilltop Kiwanis and Hilltop Kiwanikiwe, Hilltop Lions, Highland Garden Club, St. John's Lutheran Church Sunday School, Auxiliary to Camp Chase Post 90 of the American Legion, and

Ronald Sunker

utive secretary of the Community Relations Commission. The fixed salary of $5598 a year was set for the newly formed position beginning Nov. 16.

He is presently employed in the Slum Clearance and Rehabilitation Department of the city and is now assigned to the Family Relocation Bureau.

Sunker, a West High School graduate, will act as a public relations man for the city's governmental offices. Sunker said it will be his duty to see that people of the city receive the proper information regarding Columbus' governmental functions.

"I'm grateful for the support of commission members and the mayor in attaining this job and I'll try to do my best to help build a good relationship between the people and the city's government," said Sunker.

Important issues of the day, both state and local, as well as the persons to administer them, will be decided.

Of special interest are three state constitutional amendments, an additional three-tenths mill tax levy for metropolitan parks and the court judgeships. Three councilmen are to be chosen, but there are no local candidates.

Hilltoppers running for office include G. Arlowe Bryant and former resident Dean Straubaugh, for judge of municipal court, and Russell D. Drake, for clerk of municipal court, and Russell D. Drake, for clerk of municipal court. Stories on various issues and candidates appear inside.

Pigeons Blamed For State School Blaze

Watchman Luther Stevens of Gahanna discovered the two-alarm fire which swept through the third floor of an old storage building at the Columbus State School, Monday evening, causing an estimated damage of $5000.

The conclusion was drawn in a Tuesday meeting between the school's officials and the city fire marshal that pigeons must be responsible for the blaze. Bird nests were found after the fire and it is supposed that a lighted cigarette was carried to a nest by a bird and started the fire. None of the rooms on the upper floor had any bad wiring or heating pipes, said Eugene Hunter business manager of the State School.

Flames, which could be seen through the south roof, were brought under control in 45 minutes.

Hunter said that the building has been condemned for several years and that only temporary repairs will be made. Only the first floor of the three-story brick building, erected between 1870 and 1880, was in use. Incoming supplies were stored on the lower floor and were not damaged by the fire.

"The fire wasn't too much of a loss — the building will be torn down soon anyway. Columbus Fire Department certainly did a fine job and quickly, considering the difficult location of the building" said Hunter.

Subscriber Wins $60 Jackpot

A veritable storm of pennies—100 to each "Confederate" dollar was Mrs. John C. Maloney's reward for spotting the jackpot insignia in her copy of last week's Hilltop Record. She is shown above with Jack Schlueb, circulation manager of the newspaper. Her carrier boy, Richard Alter, also received $5 for delivering the lucky newspaper.

• • •

A shopping spree for a new winter wardrobe, financed with "Confederate" dollars was Mrs. John C Maloney's destination last Saturday morning. She left the Record office with $60 in the "Confederate" bills after redeeming her copy of the newspaper containing the lucky jackpot insignia.

Mr. and Mrs. Maloney and their four daughters live at 870 Hague-av.

Ten additional insignia, each worth $1 in "Confederate" currency were unclaimed.

A new jackpot, started this week, is valued at $5. Each week it remains unclaimed, the Jackpot will be enriched with an additional $5. The usual ten $1 insignia are also included in ads each week.

All merchants advertising in the current issue of the newspaper will accept "Confederate" money at face value for any merchandise in their stores.

Any subscriber whose name appears on our records as having paid in advance or on his carrier's route book is eligible to collect "Confederate" dollars.

Employees of carriers of the newspaper and members of their families are excepted.

For Your Thoughts

Question: What do you think people should do in order to prevent from becoming another fatal statistic on the unvented gas heater list?

Mrs. Hurshel Knight, 291 S. Wheatland-av: Possibly a survey of some type could be arranged. In any event, I think it is up to everybody to help each other. If you walk into a home and notice an unvented gas heater, notify the people of the danger. If they don't take the precautions necessary, I think the officials should be notified.

Mrs. G. Malley, 576 S. Oakley-av: I would rather go cold than buy an unvented gas heater. A law that would really be enforced should be provided to help protect people from purchasing them. Unless the people are sure they know how a gas heater works, they should call the gas company to inspect it.

Mrs. Violet White, 467 Larcomb-av: Some type of a house-to-house inspection should be made. If the people who own the gas heaters don't understand their functions, it is silly to flirt with death.

Mrs. W. D. Xander, 226 S. Westgate-av: It is a very dangerous situation indeed. If people who use gas heaters would have them inspected in the fall, before the cold weather arrives, it would surely reduce the number of deaths which have occurred lately. Even if a fee were charged, it would be relatively cheap compared to the cost of a death.

Mrs. Robert Best, 531 Townsend-av: I never have approved of gas heaters in the first place. But if people insist on using them, they should make sure they are working properly, and this means take time out to have them inspected.

Democrats Pledge Themselves To More Progress

The three democratic candidates for City Council, Fred Shoemaker, Robert H. Smith and Robert Van Heyde, today outlined a ten point program.

In a joint statement, the Council aspirants declared "we want a prosperous and progressive city and we will work to achieve it. It is not enough to criticize the present Councilmen for their mistakes and shortcomings. We must state how we can help fulfill the serious needs of our community with more jobs and opportunities for everyone."

The program covering almost every field of municipal government included Expressways, grade crossing eliminations, expansion of police and fire protection, charter revision, development of parks and rec, adequate sewer service, redevelopment of the city where needed, attention to traffic and transportation, elimination of spot zoning and no new taxes.

Robert Lee Van Heyde is a graduate of Aquinas high school and OSU where he was active in sports. He majored in political science and at present is working toward a law degree.

Robert Hampton Smith, a disabled veteran, was for ten years employed by the American Legion. He lives at 456 S. Jamesrd. He is a member of the Broad Street Presbyterian Church and secretary of the East Side Business Association. He is an attorney associated with Burchfield, Smith and Nelson.

Fred J. Shoemaker is an attorney and partner in the firm of Shoemaker, George and Passmore. He has been active in community affairs, projects and athletics. He claims if elected to council he will work for a charter revision which would provide district representation on council and for a city finance director.

Veterans Get Official Seal; Plan Dinner

Mr. Editor:

Please advise our comrades of World War One of the following facts:

The name Veterans of World War One USA has now been copyrighted by this organization, the lapel insignia and the letterhead insignia have also been copyrighted, making it illegal for any person, not authorized by this organization, to use either the name or the insignia in this nation.

There is but one Barracks of this national organization in this city — it is Capitol City Barracks No. 461 and is a member Barracks of the State Department of Ohio, Veterans of World War I USA, Inc.

Regular meetings are held by this Barracks the first Sunday of each month in the veterans' wing of the New Veterans Memorial Building, 300 W. Broad-st.

Next regular meeting will be held Sunday, Nov. 3, 2 p.m. All meetings are open meetings — every World War One Veteran is invited to attend.

The Auxiliary to this Barracks invites all wives, mothers, sisters or daughters of a World War One veteran to meet with them on the same date.

Nov. 11 Dinner

We call special attention to Nov. 11, for on that date all World War One veterans are invited to attend an Armistice Day Dinner sponsored by the members of VFW Post No. 3441.

This dinner is an annual affair, free of cost to the WWI vet and is cooked and served by the younger members of WWII and Korea to the veterans of WWI.

Time — 12 noon at VFW Home, Clarendon and Whitehead-rd. We urge each WWI veteran to attend, for in this way we can keep alive the day taken from us by our government, Nov. 11.

Cowboys Are Up And Down During Week

Continuing its slow improvement, the Cowboys blasted the Buckeyes 24-12, in a Glenwood Recreation Center football tilt. Top-notch efforts by Dave Loehler, who tallied twice, Dick Groezinger, and Jeff Koehler proved too much for the losers. James Bradley, streaking for scores from 50 and 25 yards, was the offensive standout for the Buckeyes.

Meanwhile, the Terriers clinched the title by trouncing the Bulldogs 30-7. Leading all the way, and having secured an 18-7 lead by half-time, the new champs second team added spit and polish to the crown by scoring two last half touchdowns. Wells, Stewart and Maxwell paced the Terriers.

Jerry Clayton, scoring on three short jaunts, led the rejuvenated Polar Bears to a 26-20 verdict over the Cowboys in the week's final game.

Although the Terriers have taken the championship, second and third place laurels won't be assured until final games this week.

cial family" kick-off of the YMCA-YWCA Development Fund Drive last Thursday evening at the Ohio Union. The drive will seek $8,520,000 for new buildings for the group which includes a new YM building for the Hilltop, South Side and Spring Street and a new residence hall for YMCA.

All persons who are closely associated with Y boards will be solicited for their pledges right away. Large [illegible] will likewise be given an opportunity to make a contribution yet this year.

The popular phase of the campaign will reach out into every community of the county and city when it gets underway this next spring.

It should be remembered that 60 percent of the money raised in this drive would otherwise leave this community in the form of taxes. If you have a tax problem and would rather aid this worthy cause it will be well to investigate just how painless a generous contribution can be.

Finishes Army Course

Pvt. James W. Ealy, 21, son of Mrs. Ruth Ealy, 264 S. Wheatland-av, recently was graduated from the Army's Parts Supply School at Fort Chaffee, Ark.

L. T. Florence Fights Sunday Ban Of Sales

L. T. Florence, an uninvited guest upset the Columbus Board of Realtors' presentation of its Sunday sales ban ordinance to the Franklin County Mayors Council in a meeting held last Wednesday at the Fort Hayes Hotel.

Florence, a member of the real estate group, who employs 70 sales people in his organization, said that he was ready to fight the legality of the ban in the courts. If necessary, he added, he would lead a delegation to every council meeting at which the ordinance is discussed.

He suggested a Sunday-morning ban only, and pointed out that no major city has tried a Sunday showing and sales ban. Voluntary co-operation has been tried but breaks down because "this is a very competitive field" Florence added.

Larry Wade, president of the board, pointed out that the public has ample time to view real estate during the usual "open house" hours of 9 a.m. to 9 p.m., six days a week.

Bikes To 'Reflect' Council's Safety Program

LIGHTING BIKES FOR SAFETY with fluorescent tape are Larry Cash, scoutmaster; Sam McConnell, deputy. Walter, youth chairman; James Horn, post commander; Robert Loeffler, deputy sheriff, and R.

More than 100 bicycles were Scotch-Lited recently by the newly formed Youth Safety Council of Westway Post 3441, V.F.W. The program was conducted by the Post's safety officers under the direction of the Safety Division of the Franklin County Sheriff's office.

Members of the council were shown movies and slides on safety, followed by refreshments furnished by the post.

Marking the bikes was just one phase of Westway Post's all-out safety program which has included talks at various PTA meetings and school assemblies.

Parents are invited to the Halloween party being sponsored by the Youth Safety Council Nov. 1.

Your Youth

Four teams in the Hilltop YMCA Gra-Y league braved the weather last Friday morning to take advantage of the school holiday.

Sickness, the thermometer, and a vacation weakened the forces of the West Mound Gra-Y club's team so that they were forced to forfeit to West Broad.

Westgate won from Highland 6-0 in a very good game, including pass interceptions, sweeping end runs, sudden losses, and frequent off sides penalties.

Next Saturday John Burroughs who was inactive this last weekend, will play Highland at 10:15 a.m., and West Mound will meet Westgate at 9 a.m. West Broad will be inactive this next Saturday.

Jr. Hi-Y news is the participation by West Jr. Hi-Y Club in the annual Hilltop Community Halloween Party — taking care of the check room concession for the night. Members of both West Jr. Hi-Y and Hilltonia Jr. Hi-Y Clubs are planning toward two citywide events. On Nov. 8 the first Jr. Hi-Y Rally for the school year will be held in the auditorium of the Central YMCA. Speaker for the evening will be Curley Morrison, former Ohio State and Cleveland Browns football player, who will give the boys some inside information about professional football and show a film on the [illegible].

School principals and advisors working with Sr. Hi-Y on the Hilltop have been invited to attend a dinner meeting at Central YMCA this evening to hear Clarence Moser, an outstanding speaker from the Central Atlantic Area Council YMCA. This is a city-wide meeting for those working with youth in Sr. Hi-Y.

Round - Square Dance Planned By Westway Post

Youth committee of Westway Post 3441, Veterans of Foreign Wars, will hold a round and square dance, Saturday, Nov. 2, at the post on Clarendon-av.

Dancing to the music of the Gunsmoke Rangers will begin about 8 p.m. The public is invited.

Clerk Candidate In Third Try For Public Office

Russell D. Drake

Russell D. Drake, candidate for Clerk of Municipal Court on the Democratic ticket, is a resident of 106 N. Chase-av.

Undaunted by two previous defeats in politics, Drake is optimistic in his campaign for the clerk's role. He was an unsuccessful candidate for State Representative in 1956. In 1955 he was edged out in a close primaries race for city councilman.

A Hilltop resident since a boy of 11, Drake was graduated from West High School and attended Des Moines University. He is a printer for the Columbus Citizen.

Drake and his wife have two children, Ron, 16, and Margie, 14, students at West. All are members of Highland Avenue Friends Church. Drake has been active in Scouting for many years, and was one of the first members of the Hilltop Community Council.

Trustees Are Against New Amendment

The Franklin County Association of Township Trustees and Clerks this week went on record as opposing the county government charter amendment.

Paul Wichterman, resident of Valley View and president of the county association, charged that adoption of this amendment could well be the end of local government, in Franklin County. He pointed out that governments now established in the several small cities, villages and townships are threatened with extinction if a favorable vote on the issue is cast.

"We have seen plenty of evidence in the past several years that Columbus wants to take over all of Franklin County," Wichterman said. "Failing to get what

PTA of Highland Avenue, St. Mary Magdalene, West Broad Street, West Junior-Senior High, John Burroughs, West Mound Street, Westgate and St. Aloysius Schools. Many others have indicated their intention to contribute toward the financial solvency of the party.

Naming of Lee Swinford, manager of the J. C. Penney Store at Great Western Shopping Center as master of ceremonies for the fun-packed Costume Parade was a development of the past week, according to Clay.

Swinford will handle the microphone as contestants in the HBA-sponsored event parade by the distinguished panel of judges, including City Councilman Ralston W. Westlake and W. Wesley Llewelyn, Mrs. Margaret Fyffe, Mrs. Yvonne Snyder and Mrs. Ann Highfield.

The 12 silver dollars in prizes, also furnished by the HBA, will go one each to the funniest, prettiest and most original costumes in age groups 2-6, 7-9, 10-12 and 13 years and over.

The cartoon movies at the end of the evening in the auditorium will be presented courtesy of the Hilltop YMCA and the Glenwood Recreation Center. Members of the Hilltop Y's Men's Club will assist in maintaining order.

Concessions in the cafeteria will be open from 7 to 10:30 p.m., according to Charles Moore, Glenwood Center director and concessions chairman. An addition to concessions of past years will be candied apples, sponsored, prepared and staffed by the Blue Star Mothers under the supervision of Mrs. E. M. Grabill.

Will Use Ticket System

All purchases must be made by tickets, which may be purchased at two booths operated by the Hilltop Kiwanilrve and the Highland Garden Club, with Mrs. Edgar Planck and Mrs. Arthur Buchanan in charge of the respective booths.

Groups in charge of the other concessions and their chairmen include the following:

Pretzels and potato chips — St. Agnes PTA, William Clark; coffee and donuts — West High Neighborhood Council of Girl Scouts, Mrs. R. B. Beranek; ice cream — Welcome Wagon, Mrs. Evelyn Brenman; feed pop — St. John's Lutheran Church, Mrs. Richard Kreuser, president — St. Aloysius PTA, Mrs. F. F. Piahuta; hot dogs and milk — West Junior-Senior High PTA, Mrs. Eugene Jenny; fortune telling—Hilltop YWCA, Mrs. Donald Fern; and hat bar—Auxiliary to Camp Chase Post 98, American Legion, Mrs. Henry Jones.

The fishpond will be under the coordination of Mrs. F. P. Piahuta and Mrs. Donald Dodson, with half-hour duties assumed by the PTA of John Burroughs, Westgate, West Mound Street, West Broad Street, Highland Avenue, and Valleyview Schools. The "fish" will include such items as trick cigars, rings, dolls, toy cars, yo-yos and paddle balls.

Other cafeteria responsibilities include the lost and found department and check room—West Junior Hi-Y, Bud Martin; information booth—Camp Fire Girls, Mrs. William Berger; and first aid—Boy Scout Troop 80, Scoutmaster Gene Stinson.

Patrols Are Organized

Both the inside and the outside of the school will be closely monitored and guarded to prevent "fun getting out of hand," said Wayne Bruner, chairman of the discipline committee.

In addition to roving patrols of City Police, the Camp Chase Post 98 of the American Legion has announced plans to station volunteers in distinctive uniform both in and around the premises.

The Hilltop Business Association, Hilltop Lions Club and Hilltop Kiwanis Club each will furnish 12 "volunteer policemen" for the evening, Bruner added.

Kiwanians pledged to such duty include Harold Fox, Bill Berlo, Bob Herbster, Mac Pemberton, Harvey Postlethwait, Lloyd Kirtner, Art Walker, Jack Miles, Jim Henery Bill Jones, Ed McGuire, and Roy Von Ins.

Bruner said that one of the major disciplinary problems could best be solved by parents.

'Fisherman Or Sign Painter?' Is Often Asked Of Bob Jones

Bob Jones

Quality is more important than quantity or speed, said Bob Jones, of his sign painting business located at the rear of 186 N. Hague-av.

Bob owns and operates the business and does the work by himself with occasional help from Herb Snodgrass of Illinois, a navy buddy.

A month after Bob graduated from East High School 17 years ago, he went to work as an apprentice in a sign shop downtown. Seven years later he went into business on his own and has been in his present location for seven years.

Bob said the only problem with the sign painting game is that everything is on a rush order basis. "It's hard to keep up the quality of my work when my clients want speed, but I do my best," Jones added.

He resides with his parents, Mr. and Mrs Victor H. Jones, at 1412 N. Hague-av.

Bob, a bachelor, spends most of his free time fishing and hunting. "My friends say they haven't figured out whether I'm a sign painter who fishes on the side, or a fisherman who paints signs in his spare time!" said Bob.

He is a member of HBA, Camp Chase Post 98, and Local Union 395, of Sign, Display and Pictorial Artists.

Public Hearing On Franklin County Section Of Freeway Is Announced

A public hearing to discuss several slight changes in a short stretch of the Cincinnati-Columbus leg of the State Route 1 Freeway in Franklin County will be held in Columbus, Nov. 7.

Originally designated as a relocation of State Route 3 and US 62, a hearing on the same relocation was held on Aug. 27 of last year. The hearing Nov. 7 will be held to discuss several minor changes in the line discussed at the previous hearing.

The changes in the line will make it possible for a better interchange at Route 104 in Franklin Township, and for a less expensive grade separation over the Baltimore and Ohio Railroad in Pleasant Township, planners said.

The original line began at Stimmel-rd and proceeded south,

Solid line shows first plan for route of proposed Cincinnati-Conneaut freeway through Southwest Franklin County. The broken line shows proposed revisions to the alignment.

crossing the intersection of Route 104 and Frank-rd. It then turned southwest crossing Dyer-rd, west of the intersection of Route 104. Further southeast it crosses Stringtown and White-rds, then crosses Hoover-rd between the intersections of Orders-rd and Holton-rd.

It crosses State Route 665 between the intersections of Haughn-rd and Seeds-rd and crosses the intersections of Young and Zuber-rds.

Changes in the line to be discussed at the hearing are a slight easterly relocation at the crossings of Frank-rd, Dyer-rd and State Route 104, and slight northerly relocation south of Zuber-rd approaching the B & O Railroad tracks.

The hearing will be held at 10:30 a.m. in hearing room No. 2, in the Ohio Departments Building, Front and State-sts, Nov. 7.

The proportion of men whose incomes were $4,000 or more rose from eight per cent in 1945 to 44 per cent in 1956.

'Hobgoblins' Tour Local Schools

West High School students became teachers this week, illustrating to younger children that Halloween can be the most fun when it's celebrated without destruction. Members of Mrs. Evelyn Hall's dramatic classes toured elementary schools presenting skits on the theme. Shown above are, from left, Diana Minton, Diana Robinson, Hulda Simonsen and Anne Evans. The "clown" and "witch" pictured on page one were also part of the group.

Community campaign of "Halloween Without Destruction," was given a big assist by members of West High School's dramatic classes this week, when they toured Hilltop Elementary schools presenting informative skits.

The group gave five performances at Westgate and Valleyview schools.

In addition to the students pictured above, the troupe included Duane Casto, Bonnie Combs, Nancy Brooks, Jean James, Howard Lloyd, Larry Gress, Jim Callard, Don Plummer, Vicki Haslett, Martha Griffith, Jane Leighninger, Mary Grabill. Flu casualties unable to perform were Gary Exman, Jay Smith, Judy Rupe and Nancy Martindale.

Parents Praise Work Of Retarded Children's Council

By Ray Shaffer

"Me, be the parent of a retarded child? Oh no, that could never happen to our family!"

That's what many people believe, but the fact remains that three children out of every hundred born are destined to be mentally retarded. The frequency is the same in every economic, racial, or religious part of society, states the Columbus Council for Retarded Children.

There are around 18,000 retarded children and adults in Franklin County.

It is our duty to train these children to lead useful and self-reliant lives to the limits of their abilities.

The Council for Retarded Children, aided by the Child Welfare Board, operates 13 classes for the training of these children in a school provided and maintained by the Columbus Board of Education at 1235 Mt. Vernon-av.

The Council (1) owns and operates 10 school buses transporting retarded children from all over the county (2) provides counseling on care and training to parents of these children (3) maintains a list of eligible children waiting to enter the school when additional facilities are available.

What The Parents Say . .

Mrs. Molly Lawson, a widow, of Buchanan-dr, has five children, the youngest of whom is a mongoloid . . . a form with physical characteristics easily spotted. Their life expectancy is extremely short. Her son, Clyde, is 14 but mentally about four. In proportion to normal life span he is about 28. Clyde has been attending the Council's classes for almost three years.

Mrs. Lawson said, "The school has meant a lot to both Clyde and myself. He is able to wash and dress himself and is learning to get along with other children. Now that he is attending school like other kids, the boys and girls in the neighborhood have accepted him pretty well.

"For a long time after I found that Clyde was retarded I kept blaming myself and asking what I had done to deserve this. Now, however, I have become adjusted and just want Clyde to be happy. He loves records and tries to imitate Elvis Presley's style. The training he has received from the Council has sure lightened the load on me and I hope their campaign is a big success so they can help other children like my Clyde."

Mrs. Florence Berry of Harmon-av, has five children, four of whom are normal. Mary Ann, 7, is retarded, however, and has attended the Council since September through money provided by last year's campaign.

Mrs. Berry said, "little Mary Ann seems so happy now that she can go to school like her brothers and sisters. I'm just going through the adjustment period that Mrs. Lawson mentioned and I still get very mad and hurt when children pick on her. I feel very lucky that Mary Ann will get the training she needs because of money provided by the Council. They say that mentally she is about three."

Mrs. Ernest Roeder of Harmon-av, has a 17-year-old daughter, Diane, who became mentally retarded when she was nine-months-old from an extremely high fever. Diane has attended Council classes for three years.

Mrs. Roeder said, "I accepted the fact from the beginning and decided to make her as happy as possible. We take her with us wherever we go and do not feel ashamed. She is doing very well at the school and has learned to sew a little, wash dishes, and print her name."

Fund Campaign Set

The council points out that retarded children belong to society just as certainly as their hearts beat. They know fear and frustration. They feel pain and heat and cold. They long for love and protection.

They may not want to be President, many beg for the opportunity to be janitors. They ask for and do need understanding.

Care of one child for one nine-month school year costs around $650. Many parents are unable to pay the $25 monthly tuition fees and their training is paid for by the council. About $13,000 of state funds will help on this year's program.

Simple arithmetic shows that tuition money and funds provided by the state will not begin to cover the $100,000 budget.

This program which began in 1951, receives not money from either the Community Chest or United Appeals. The agencies believe the program is a state responsibility. Faced with a waiting list of over 50, the council hopes for a successful one-day campaign for funds, Nov. 12.

It is called the "Light of a Life March." Solicitations will be made by people of this neighborhood. Workers are badly needed for this drive and interested parties should call Gene Stinson at CA. 1-7939.

PARAKEETS AND POPULAR MUSIC are two favorite hobbies for Clyde Lawson, the mongoloid child of Mrs. Mollie Lawson. Above, Clyde sits with his mother, fascinated by the birds.

Lions Assemble School Gifts

PREMATURE SANTAS—Bill Myers, left, and John Garber of the Hilltop Lions Club community betterment committee look over a stock of Zenith AM-FM radios and automatic record players they've already purchased for free distribution to community schools within the next few months. The radios help classrooms make fullest possible use of the educational radio station operated by the Columbus school board.

Kiwanians Discuss Influence Of Church In Their Homes

"What The Church Means In Our Home," is the topic of a series of weekly articles submitted by Hilltop Kiwanians during the month of October. The project is sponsored by the Support of Churches Committee of the Hilltop Kiwanis Club.

Low Rausch of Rausch Brothers Hardware, is the author of this week's contribution. A board member of Hilltop Kiwanis Club, he has also served in that capacity in Hilltop Business Association and is a member of St. John's Lutheran Church. He resides at 3015 Palmetto-st.

Low Rausch

By Low Rausch

In this day of many and various activities, going to church as a family increases our feeling of unity, since, for a short time at least, all our interests are the same. While there we are taught rules of behavior which, undoubtedly, increases the harmony of our home.

Even our few brief moments of prayer at table compels us to realize how fortunate we are to have a home and food for which to be thankful. The application of even a few of the principles will certainly show the value of the church in the home.

Be Ready For Opening Day

INSIDE ON THE Outdoors By ROD COCHRAN

The soft life we lead in our modern civilization becomes very apparent in a large segment of our population every year on Nov. [illegible].

The hunters who take to the field on opening day of the upland game season don a heavy hunting coat, weighted down with enough shotgun shells to last them all season, and tramp the fields and meadows, the ditches and fencerows, the hills and swales in a pair of boots that weigh a couple of pounds apiece.

The day is characterized by two words — exertion and overexertion. On the trip home, the driver is about the only one who doesn't fall asleep, and he may get a little foggy.

To top this off there is excitement in the air. This is opening day! Your heart beats a little faster as you close the farmer's gate, and walk through the frosty cover along a woodlot. It steps up another notch when you hear the blast of a distant gun. Then somebody in your party flushes a bird, or your dog piles up on point, or a rabbit scoots out from under your feet. Excitement isn't the word for it.

Physical Conditioning Important

Let's not kid ourselves into thinking that we can take it easy all year, and then go hunting on opening day and be in the peak of condition. Practically all of the lists of safe hunting rules assume that the hunter is in good physical condition — alert and in full command of his reflexes. This is not, however, a fair assumption. Most of us take great pains to keep our shotgun in good condition. We waterproof our boots several times a year. We see that our license is in a secure holder, and we may buy a new pair of wool socks. A few hunters have even been known to take to the field in a cleaned hunting coat. Everything is in top-notch condition but ourselves.

There are risks connected with hunting, just as it is a risk to cross the street. In both cases the risks are due to human error. Hunting "errors" are greatly lessened if you prepare yourself to go hunting. Go out now and locate a place to hunt, and hike over the territory a few times. If you're sporting a spare tire, take off a few pounds before opening day. You'll find that your shoulders won't get as tired from carrying a gun, if you do some push-ups every day for the next two weeks. Don't over-do on the exercise either, or you will be just as bad off as if you did none. Exercise moderately, hunt moderately, and you will hunt safely.

Dog Is 'Soft' Too

Chances are, that your hunting dog is just as soft physically as you are. You can't let a good hunting dog have the run of the neighborhood, so he spends 50 weeks of the year in a kennel or in the house with you. Putting a dog through a couple of hard days of hunting after this kind of conditioning borders on a criminal act. Cut down on his feed a little, and give him a chance to get in condition with you. You'll both live longer.

Food Markets This Week

by Mrs. Estelle B. Franks

THIS WEEK SHOP FOR:

Fruits — Apples, apple cider, Emperor grapes.

Vegetables — Cauliflower, broccoli, cabbage, cucumbers, Pascal celery, potatoes.

Meats — Beef rib roast, whole ham, turkey.

CABBAGE COUSINS

The homemaker who wants flavor, economy and nutrition with a low calorie count, finds just what she's looking for when she buys broccoli and cauliflower this time of year.

Mark Twain described cauliflower as, "a cabbage with a college education." Both broccoli and cauliflower belong to the cabbage family. Both are available the year around but are most plentiful during October, November and December. Quality is highest then, too.

Cauliflower is in especially good supply this year, and the price tag is lower than last year.

Shopping Tips — When selecting cauliflower, look for a firm, heavy head; clean, compact, white or creamy white flowerets; and a jacket of bright green, fresh looking leaves. Good broccoli has fresh stalks with tightly closed, dark green buds.

Good For You — Nutritionally, both vegetables rate high. Broccoli is a good source of vitamins A and C. It contains iron, calcium, and phosphorus, too. Cauliflower provides considerable vitamin C, and small amounts of iron and B vitamins. Raw cauliflower provides twice as much vitamin C as the same amount of cooked cauliflower. The flowerets used raw on relish trays and in tossed vegetable salads are as pretty as they are good for you.

SEASONAL FRUITS

The apple harvest is moving on to the later varieties like Stayman, York and Rome. Prices continue to be very reasonable, so buying in basket quantities is economical for most families with young children. There's a wide [illegible] available.

It begins to look as though there will be plenty of citrus fruits as well as apples this coming winter season. Florida reports more oranges and grapefruit than last year. The California crop of navel oranges is down, Texas is making a comeback in the grapefruit business this year.

Grapes are still plentiful. If you're looking for variety, pomegranates and persimmons are available.

D. Strausbaugh Asks Re-Election To Court Bench

Judge Dean Strausbaugh, 39, a candidate for re-election for judge of Columbus Municipal Court, is a life-long resident of Columbus.

He is the son of Mrs. Strausbaugh and the late Dr. Harold Strausbaugh, M.D., and is a graduate of Duke University, University of Michigan Law School and the Harvard Business School. He served overseas during World War II, is married and has two children, Ann, seven and John five.

Judge Strausbaugh was engaged in private practice of law for six years and served as first assistant City Attorney for two years before becoming judge. He has been active in bar association, civic and charitable endeavors, which in 1955 caused him to be named as "Young Man of the Year" for Columbus.

The Judge points to a recent article in the American Bar Association Journal commending the Columbus Municipal Court for having an up-to-date docket with a very small back-log of cases. He states that since more people appear in Municipal Court than all other courts combined, it is more important that a person receive a fair and impartial hearing in Municipal Court than in any other court, because few persons can afford an appeal there from a poor decision.

Judge Strausbaugh renews his promise made before his last election to continue to be a fair and impartial judge and give everyone appearing before him a fair hearing.

Bed Best Place For Fighting Flu

"Those who develop the signs and symptoms of influenza should go to bed at once, call a physician and follow his advice implicitly," advised Dr. Richard L. Wensel, chief of Medical Services of the Columbus Health Department.

"The best place for a person who is developing an upper respiratory infection is in bed." Dr. Wensel said. "If it turns out to be a cold, recovery will be aided by the bed rest. If it is influenza, staying in bed will help prevent a secondary infection of some other disease, such as pneumonia. It is the complications that sometimes accompany influenza which are dangerous.

Antibiotics are not effective against influenza itself but they successfully combat complication, the city medical chief added.

Dr. Wensel said he expected the disease to spread in a wave in the community for from four to six weeks involving no more than 15 to 20 per cent of the people. Closing schools does not prevent spread of the disease, he asserted. Most schools will remain open unless the numbers of teachers or pupils who are ill make this impractical.

Dr. Wensel said this illness is a relatively mild form of the same influenza we have known for years. Reason for concern is that it is being caused by a new strain of the flu virus for which we do not have immunity except by vaccination.

America's first electric street railway was placed in operation in Cleveland in 1884.

Duck Hunters Enjoyed Good Opening Day

Despite an estimated 15 per cent decrease in the overall population of waterfowl in Ohio there was a 45 per cent increase over the previous year in the kill of ducks on the opening day of the [illegible] season.

The two factors believed responsible were: exceptionally favorable hunting weather on opening day and, return of the wood duck to the list of waterfowl that can be legally taken in Ohio.

During 1957 the Ohio Division of Wildlife chose to give up the final one-half hour of waterfowl shooting time in favor of returning the wood duck to the "huntable" list in this state.

Seemingly this was a wise choice, particularly Southern Ohio, as the wood duck made up over 30 per cent of the state's opening day take and ranked as the number one duck taken.

The kill of coots continued to decrease.

The take of geese, generally in the Lake Erie marsh area and a few of the larger inland lakes, was about the same as last year.

Legionnaires To Patrol On Halloween

Roger E. Myers, Twelfth District Commander of the American Legion has announced that legionnaires of the district will again patrol, in squads of two to a car, streets of Columbus and Franklin County on Halloween [illegible].

Cars in which legionnaires will patrol will be marked and the men will wear Legion caps.

Their activities of patrolling and reporting will be outlined to them by, and performed under the supervision of, Police Chief George Scholer.

Chairman of this year's patrol is Charles W. Heacock vice commander of the 12th District, with immediate past commander Ralph R. Hedrick assisting.

Purpose of the patrol is to help make the Halloween season one of happy frolicking for the youth of Columbus by keeping the streets safe for them.

Last year's patrol was considered successful enough that Legionnaires were encouraged by city officials to repeat the Patrol. Men will be on duty two nights this year, Oct. 30 and 31.

Shea Campaigns For Municipal Judge's Position

John M. Shea, 248 Buttles-av, a native of Columbus and practicing lawyer with offices at 18 E. Broad-st, is a candidate for municipal judge in the Nov. 5, [illegible].

He holds two degrees from Ohio State University.

His practice is mainly trial work, with experience in municipal criminal, traffic and civil courts. He also has been admitted to practice in the U. S. Courts.

In the army five years, Shea saw combat and arose to captain's rank.

Shea was elected 16th Ward Democratic committeeman in 1946 and served as such until 1948. He is a member of St. [illegible] Parish.

If you're bored and feel that nothing ever happens to you, why not pay a visit to your Columbus Public Library? All you have to do is open an adventure book, and before long you'll be sharing the excitement and experiences of a big game hunter, a skin diver, a treasure hunter or a pirate.

Seek To Cut Accidents At Phillippi-rd, US 40

New steps to combat the high accident rate at one of Ohio's most dangerous highway intersections are being taken by the Ohio Department of Highways.

Large freeway-type overhead signs will be erected at the intersection of Georgesville-rd-Phillippi-rd and US 40.

The department has ranked this intersection first in its list of high-accident intersections.

A left-turn lane for eastbound traffic on US 40 recently was completed as well as a right turn lane for southbound traffic on Phillippi-rd. These improvements represent previous steps taken in the all-out war against accidents at the intersection.

Oversize Signs Ordered

The new signs will be 4 feet by 11 feet in size with white lettering on a green background. The signs will indicate left-turn, right-turn, and through lanes for US 40 (West Broad Street) traffic.

The department will erect the signs within a few weeks.

Thorough traffic behevior studies have disclosed that turning movements, in addition to very heavy traffic densities have contributed to the unusually high accident experience at this intersection.

"These improvements," Highway Chief Charles M. Noble stated, "coupled with certain alterations in the existing high-type electronic signal system, represent a scientific traffic engineering approach to the solution of one of the department's knottiest local operation problems."

Dear Son

By Joseph Martell

Chittlin' Switch,
Monday Morning.

Dear Jason:

Well, your letter arrived here last week which you sent all the way from San Juan. I had Gretchen Divers, the Chittlin' Switch telephone operator plug everybody in on our line and I read them your letter. Eighty-six people listened in together.

You remember your sister Prunella, I'm sure. She's now at that awkward age — too old for Castoria and too young for Serutan. However, I do think she's a little too wild for thirteen. Some wool salesman came to the door the other day and asked her if she'd be interested in any coarse yarns. Prunella said: "Heck, yes! Tell me a few."

I knew it couldn't last. Uncle Lushmore held a job in the wine fa..ory at Polecat Ridge for exactly two weeks. He got $30 a week and all he could drink. All he had to do was take off his shoes and climb into a large vat filled with grapes and stamp on them with his bare feet until the juice was squeezed out. He got fired Friday. The boss caught him sitting down on the job.

Your oldest sister, Belladonna, has a wonderful job in Pasture Flats but she can only get home about once a month. She got herself a small apartment and since I heard she was going steady down there I made her promise she'd never invite her boy friend along to her place. Those things worry me. Well, she's a real good girl. She told me I'd never, never have to give it a thought. She goes to his apartment and let his mother do the worrying!

Sophie Sludge, the old maid school teacher, was always a snooty one but I did give her credit for having a little bit of common sense until I met her downtown the other day. It seems she just returned to Chittlin' Switch last week after having spent the summer in Paris. She told me she was in Paris 10 days before she visited the Louvre. Probably the change in water had a lot to do with it.

Guess I'll close now as I'm all out of news. . Oh, yes, Ned Pooser ran for the job of town dog catcher and was elected. Ned found the job very boring and gave it up. He said he couldn't figure out what he was supposed to catch the dogs doing.

Write soon. Your loving,
IIIIII

Generally, one cubic foot of space in your freezer will hold approximately 35 pounds of food.

Columbus residents can expect a school operating levy on the ballot in 1965, perhaps as early as the May Primary elections.

This was the "between-the-lines" message presented to the Columbus Board of Education by Dr. Harold H. Bibling, superintendent of schools, who gained board approval of a $40.2 million 1965 operating budget.

Board members elected Paul R. Langdon to succeed Dr. Watson Walker as president of the board for 1965. It marked the third time Langdon has been named president. His previous terms were in 1958 and 1963. ~~[illegible]~~ Edward ~~[illegible]~~ H. Sloan was retained as vice-president.

The board ~~Board members~~ also approved preliminary plans for a junior high school to be located ~~[illegible]~~ just north of Shady Lane Elementary School. The building will accommodate 700 students and will be constructed on a 16-acre tract at Livingston and Shady Lane-rd.

Seek To Cut Accidents At Phillippi-rd, US 40

New steps to combat the high accident rate at one of Ohio's most dangerous highway intersections are being taken by the Ohio Department of Highways.

Large freeway-type overhead signs will be erected at the intersection of Georgesville-rd-Phillippi-rd and US 40.

The department has ranked this intersection first in its list of high-accident intersections.

A left-turn lane for eastbound traffic on US 40 recently was completed as well as a right turn lane for southbound traffic on Phillippi-rd. These improvements represent previous steps taken in the all-out war against accidents at the intersection.

Oversize Signs Ordered

The new signs will be 4 feet by 11 feet in size with white lettering on a green background. The signs will indicate left-turn, right-turn, and through lanes for US 40 (West Broad Street) traffic.

The department will erect the signs within a few weeks.

Thorough traffic behavior studies have disclosed that turning movements, in addition to very heavy traffic densities have contributed to the unusually high accident experience at this intersection.

"These improvements," Highway Chief Charles M. Noble stated, "coupled with certain alterations in the existing high-type electronic signal system, represent a scientific traffic engineering approach to the solution of one of the department's knottiest local operation problems."

Dear Son

By Joseph Martell

Chittlin' Switch,
Monday Morning.

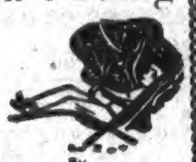
Dear Jason:

Well, your letter arrived here last week which you sent all the way from San Juan. I had Gretchen Divers, the Chittlin' Switch telephone operator plug everybody in on our line and I read them your letter. Eighty-six people listened in together.

You remember your sister Prunella, I'm sure. She's now at that awkward age — too old for Castoria and too young for Serutan. However, I do think she's a little too wild for thirteen. Some wool salesman came to the door the other day and asked her if she'd be interested in any coarse yarns. Prunella said: "Heck, yes! Tell me a few."

I knew it couldn't last. Uncle Lushmore held a job in the wine factory at Polecat Ridge for exactly two weeks. He got $20 a week and all he could drink. All he had to do was take off his shoes and climb into a large vat filled with grapes and stamp on them with his bare feet until the juice was squeezed out. He got fired Friday. The boss caught him sitting down on the job.

Your oldest sister, Belladonna, has a wonderful job in Pasture Flats but she can only get home about once a month. She got herself a small apartment and since I heard she was going steady down there I made her promise she'd never invite her boy friend along to her place. Those things worry me. Well, she's a real good girl. She told me I'd never, never have to give it a thought. She goes to his apartment and let his mother do the worrying!



Sophie Sludge, the old maid school teacher, was always a snooty one but I did give her credit for having a little bit of common sense until I met her downtown the other day. It seems she just returned to Chittlin' Switch last week after having spent the summer in Paris. She told me she was in Paris 10 days before she visited the Louvre. Probably the change in water had a lot to do with it.

Guess I'll close now as I'm all out of news. Oh, yes, Ned Pooser ran for the job of town dog catcher and was elected. Ned found the job very boring and gave it up. He said he couldn't figure out what he was supposed to catch the dogs doing.

Write soon. Your loving,
MOM

AUTUMN DESTINY

Drift, blue butterflies, where these high
Granite crests of the mountains lift.
Gone from you is the urge to fly—
Drift.

Hither — yon — as the wind may shift,
Wings like flecks of Sierra sky
Float in clouds through the summit rift.

Sun and summer are passing by,
Snow brings death as the autumn's gift,
Brief your pageant of lazuli—
Drift.

Have the goblins soaped your windows yet? Cheer up — Halloween only comes once a year. The trouble is, it usually lasts all month. One youngster had the right idea. He used Bon Ami on our window; when it was wiped off, behold — a clean window. We have almost decided that what he made was a kangaroo, but we aren't sure.

Our nine-year-old granddaughter thinks the Queen and her Philip are like a fairy story and she thinks they will "live happily ever after." Many adults will agree. Anyone who can push Sputnik, the Little Rock fiasco, rumors of wars and other sad tales from this country's front pages, has to be somebody very special.
